ITEM DESCRIPTION:

The Administrative Office of the Courts (A.O.C.) offers access to the Tax Refund Intercept Program (T.R.I.P.) to recover unpaid court fines and fees. Eligible fines must have a disposition date within the past seven years and cannot have been converted to community service or time served. While the City is not required to use TRIP, it permits the court to access this program as an additional tool to support the collection of outstanding fines. This enhances the court's ability to recover funds owed without placing additional burden on local resources.

Georgia's Tax Refund Intercept Program Participation

Memorandum of Understanding

This Memorandum of Understanding ("MOU") is made this 5th day of January 5, 2024, by and between the Judicial Council's Administrative Office of the Courts of Georgia ("AOC") and The City of Riverdale, Municipal Court ("Participant").

Statement of Purpose

The AOC exists, in part, to assist judges, administrators, clerks of court, and other officers and employees of the court in matters relating to court administration, and to provide such services as are requested. O.C.G.A. § 15-5-24(1). The AOC serves as staff to the Judicial Council of Georgia and serves as the administrative arm of the Judicial Council. O.C.G.A. § 15-5-22, 15-5-24. The AOC may perform such additional duties as may be assigned by the Judicial Council of Georgia. O.C.G.A. § 15-5-24(8). Article 7 of Chapter 7 of Title 48 of the O.C.G.A. authorizes the AOC to submit debts on behalf of Georgia Courts to the Georgia Department of Revenue ("DOR") for collection. O.C.G.A. § 48-7-162.1. The AOC has developed, and is responsible for, Georgia's Tax Refund Intercept Program ("TRIP"), through which court debts shall be collected.

The Participant is a Georgia Court and desires to collect outstanding court debts through the TRIP.

NOW, THEREFORE, in consideration of their mutual promises and agreements set forth in this intergovernmental MOU, pursuant to the intergovernmental contracts clause of the Georgia Constitution of 1983, Article IX, Section III, Paragraph I, the parties hereto agree as follows:

1. Definitions

- A. The term "Debt(s)" means a liquidated sum in excess of \$25.00 that constitutes court costs, surcharges, or fines, for which there is an outstanding court judgment payable to the court, or restitution due pursuant to a sentence imposed on a person convicted of a crime and sentenced to restitution. Debt does not include amounts due under parking tickets or photo enforced violations.
- B. The term "Debtor" means an individual owing money to, or having a delinquent account with, a Georgia court, which obligation has not been adjudicated as satisfied by court order, set aside by court order, or discharged in bankruptcy.
- C. The term "Fee" means the administrative collection assistance fee imposed on each Debt intercepted by DOR as set forth in O.C.G.A. § 48-7-163(c).
- D. The term "Refund" means a Georgia state income tax refund that the DOR determines is due to an individual taxpayer.
- E. The term "TRIP" means the process by which debts will be deducted from Debtor's refunds and remitted to the courts that are owed those debts.

- F. The term “TRIP staff” means the AOC employees or the AOC’s agents responsible for carrying out its powers and duties set forth in Article 7 of Chapter 7 of Title 48 of the O.C.G.A.
- G. The term “TRIP user” means the representative of the Participant who is authorized to submit claims to the AOC and maintain the confidentiality of Debtor information.

2. Collections Process and Responsibilities

- A. Only the AOC is authorized to submit Debts to DOR for collection. To participate in the TRIP, Participant must apply to the AOC for a court identification number and must receive approval for specific court employees to submit Debts for tax interception. Participant must designate a representative to serve as a point of contact for Debtors and must designate a hearing officer to conduct hearings on contested setoffs. The hearing officer may not be an individual or judge from the Participant, and superior court judges may not preside over appeals from hearing decisions if that superior court was the court collecting the Debt. Participant must also submit additional information and documentation requested by AOC, including but not limited to a Form W-9 and an electronic funds transfer authorization.
- B. Participant will hold in confidence any social security information accessed through the TRIP software and web service. Each authorized TRIP user will have a unique login and password. The AOC may periodically review authorized user activities to ensure the confidentiality of social security and other Debtor information.
- C. Participant shall only submit claims for Debts that are eligible for TRIP. Debts submitted by Participant for TRIP:
 - 1. Must be at least ninety (90) calendar days past due and for which the time to appeal the judgment has expired.
 - 1. Must be less than seven (7) years from the date of the court judgement making the balance due or the expiration of the time set by the court for payment of the Debt; and
 - 2. Must include a social security number to correctly identify the Debtor.
- D. Pursuant to O.C.G.A. § 48-7-163(a), Participant shall not submit claims that are under any other means of collection or enforcement of the judgement where the alternate means of collection are believed to be adequate. Such forms of collection include but are not limited to: Debts submitted to collection agencies; Debts currently payable under probation, unless an outstanding balance due has been reduced to a judgment; Debts under collection through foreclosure, garnishment or any other action provided for the enforcement of a judgement.
- E. Participant shall not contact DOR for assistance with the TRIP and shall not refer Debtors to the DOR. Participant shall contact TRIP staff if assistance with the TRIP is needed.

F. At least thirty (30) calendar days before Participant submits a claim for Debt to the AOC, Participant shall notify the Debtor in writing that it may seek to collect a debt from the Debtor's state income tax refund, unless the debt is satisfied within thirty (30) calendar days. The information in such notice shall be substantially similar to the information contained in "Exhibit A" of this agreement, which is hereby incorporated by reference.

G. Participant must submit claims for Debts to the AOC through use of either the TRIP software or the TRIP secure web service.

Participant must provide sufficient information for the AOC and DOR to identify the Debtor, including the Debtor's social security number. Incomplete submissions will not be submitted to DOR for tax interception.

H. Participant must certify that the claim information provided is accurate, that the Debt is owed and payable to Participant, and should not submit claims for Debts with questionable social security numbers or claim amounts. The AOC and DOR may rely upon the Participant's certification that the claim amount is valid and owed by the Debtor. The AOC, at its discretion, may limit the number of Debts submitted by Participant for interception.

I. The TRIP staff shall forward submitted claims to DOR.

J. After DOR notifies the AOC and Debtor that Debtor tax refund funds have been setoff, the Debtor has thirty (30) calendar days to contest the setoff in writing. The AOC shall collect the setoff funds and the administrative collection assistance fee and hold them in escrow until the validity of the setoff is determined.

K. When the AOC receives valid written notice from a Debtor contesting a setoff, the AOC shall notify Participant that the setoff funds shall not be disbursed until after Participant has granted Debtor a hearing. Such hearing, and any further appeal, must be conducted in accordance with O.C.G.A. § 48-7-165.1. The hearing procedures must be substantially similar to the procedures set forth in "Exhibit B" of this agreement, which is hereby incorporated by reference.

L. Upon notice from the AOC of the requested hearing, Participant shall provide the Debtor with notice of the hearing through certified mail or personal service and will provide the Debtor with an electronic or written copy of the hearing procedures. Prior to the hearing, Participant shall require the Debtor to confirm the Debtor's mailing address and shall forward the Debtor's mailing address to the AOC. If a Participant does not schedule a hearing or resolve a dispute within thirty (30) days, AOC may disburse the disputed funds to the taxpayer and may terminate the intercept request.

M. Upon final determination that a setoff is valid per O.C.G.A. § 48-7-165.1, or, if the Debtor does not contest the setoff within thirty (30) calendar days of the setoff, the AOC shall remove the amount of the Debt from escrow and credit it to the Debtor. The AOC shall then notify the Debtor in writing that the setoff is final. Such notice shall include a final accounting of the refund that was setoff.

- N. The AOC is responsible for refunding to the Debtor any funds held in escrow in excess of the valid claim amount.
- O. Following completion of the TRIP procedures listed above, the AOC shall transfer to the Participant the funds that were sent off after the conclusion of each tax season and the resolution of all intercept disputes. Participant shall review interceptions for validity within ten (10) business days of receipt and immediately report erroneous interceptions to the AOC.
- P. Participant shall disburse the setoff funds in the same manner as if such funds had been originally collected by Participant.
- Q. When the intercepted amount is insufficient to satisfy all claims filed by all courts, distribution of setoff funds shall be made in the order of the date the claims for Debt were received by the AOC. The administrative collection assistance fee shall have priority over Participant's claim.
- R. When the intercepted amount is insufficient to entirely satisfy a claim for Debt, the claim shall remain active until sufficient setoff funds become available or until the judgment upon which the claim is based expires by law.
- S. Participant must submit updates (deletions, reductions, and increases) to existing claims using the TRIP software or the TRIP secure web service if the claim amount previously submitted to the AOC is no longer accurate, the Debt is over 7 years old, or other information is incorrect. Providing updates is the responsibility of the Participant, not the TRIP staff.

TRIP staff and DOR shall only modify a claim amount without an update from Participant when necessary to apply a payment or clear a negative claim amount.
- T. If an unforeseeable, exigent reason requires the Participant to request the TRIP staff to manually update an existing claim, the Participant and not the AOC or TRIP staff shall be liable for applicable fees, penalties and interest caused by an incorrect manual update.

3. Term

This MOU shall be effective as of the date first above written and shall continue in force and effect until June 30, 2026. This MOU may be renewed for additional Terms by mutual agreement of the parties in writing, the total length of which shall not exceed the limitation provided in the intergovernmental contract clause of the Georgia Constitution.

4. Termination

This MOU may be terminated for any reason by any party upon thirty (30) calendar days written notice. Written notice of termination must be given or confirmed in writing by hand delivery, or by certified or registered United States Mail. Notice of termination shall be given to the party Liaisons identified in Section 5 of this MOU. Upon the receipt of a notice of termination from Participant, the AOC will commence winding down its activities according to the notice and will submit notice

to DOR within five (5) business days that outstanding Debts previously submitted for setoff will no longer be collected by DOR. Participant understands that interceptions may still occur for some time until the AOC and DOR have fully removed the outstanding Debts from their intercept files.

5. Notices and Liaisons

The parties will coordinate and conduct communications through their respective Liaisons identified below. Any communication in writing, or any oral communication confirmed in writing, from the respective Liaisons will be deemed communications and notices from the party.

However, a notice of termination must be given or confirmed in writing by hand delivery or by certified or registered United States Mail. The date upon which any notice is delivered will be deemed the date thereof. Any party may, by five (5) business days' prior written notice to the other party, specify a different address to which notices will be sent. Any party or Liaison may designate a new Liaison, indefinitely, for a stated time period or for certain designated matters.

Re: [Case caption that corresponds to overdue debt]

Dear [Mr./Ms. Debtor's Name]:

Our records indicate that you owe \$[amount of debt] to the [Court name] of [county name] County. This amount is at least 60 days past due. Please pay this amount in person at the court clerk's office, or send a check to:

[Address of court clerk's office]

Failure to pay this debt within 30 days will result in collection efforts, including a possible reduction in any state income tax refund you may be entitled to in the next six years. Chapter 7 of Title 48 of the Official Code of Georgia Annotated authorizes the Georgia Department of Revenue to deduct from a taxpayer's income tax refund any debts owed by the taxpayer to a Georgia court, as well as the assessment of recovery costs of up to \$20.00. After a tax refund offset occurs, the Georgia Department of Revenue will send a notice to the taxpayer with an accounting of the offset.

If you believe this debt amount is incorrect or has already been paid, please contact my [or representative for TRIP] office at [888-888-888] to discuss this matter. If you have filed for bankruptcy, please contact [above contact] immediately.

EXHIBIT B

Procedures for Income Tax Refund Offset Hearings

Article 7 of Chapter 7 of Title 48 of the O.C.G.A. authorizes the Judicial Council's Administrative Office of the Courts ("AOC") to submit Debts on behalf of Georgia courts to the Georgia Department of Revenue ("DOR") for collection. The DOR collects court Debts by setting off funds from Debtors' state income tax Refunds and sending those funds to the AOC for distribution. O.C.G.A. § 48-7-164 requires the DOR to notify Debtors that a setoff has been made at the time it transfers funds to the AOC and provides Debtors thirty (30) days to contest the setoff by applying to the AOC in writing for a hearing. Upon receiving written notice from a Debtor contesting a setoff, or the amount of the setoff, the AOC shall notify Participant that the setoff funds shall not be disbursed until it grants a hearing to the Debtor, and a final determination on the Debt has been made and provided to the AOC.

O.C.G.A. § 48-7-165.1 mandates that officers of the court adopt appropriate procedures to govern the conducting of Georgia's Tax Refund Intercept Program ("TRIP") hearings by the hearing officer. As a court participating in TRIP, Participant agrees to adopt hearing procedures substantially similar to the following:

I. DEFINITIONS

- (A) "Debt" means a liquidated sum in excess of \$25.00 that constitutes court costs, surcharges and fines for which there is a final outstanding court judgment payable to the court.

- (D) "Refund" means a Georgia state income tax refund that the DOR determines is due to an individual taxpayer.

II. NOTICE

The AOC shall collect the setoff funds and the administrative collection assistance fee and hold them in escrow until the validity of the setoff is determined.
- (B) When the AOC receives valid written notice from a Debtor contesting a setoff, the AOC shall notify Participant that the setoff funds shall not be disbursed until after Participant has granted Debtor a hearing.

(C) Participant shall provide Debtor notice of the hearing by certified mail or personal service. When personal service is used, it shall be made by the officers of the court designated by the judges of that court or any other officers authorized by law to serve process.

(D) The notice shall include:

- (1) A statement of the date, time, location, and nature of the hearing;
- (2) A statement of the legal authority and jurisdiction under which the hearing is to be held;

- (4) A statement as to the right of the party to subpoena witnesses and documentary evidence through the hearing officer;
- (5) The name of the hearing officer presiding over the hearing and the contact information for the Participant's representative responsible for disseminating the notice; and
- (6) A provision informing the Debtor that the Debtor has the right to retain counsel for the hearing.

III. HEARING OFFICER

(A) All hearings conducted pursuant to these procedures will be presided over by a hearing officer, as required by O.C.G.A. § 48-7-165.1(b), and not a jury.

(B) Participant's court officer(s), designated by Participant's judges, shall appoint the hearing officer. The hearing officer may not be an individual or judge from Participant. The hearing officer must be an active member in good standing of the State Bar of Georgia. Alternatively, the hearing officer may be a full-time or part-time magistrate or probate court judge in the county where the hearing is to be held. The hearing officer may be a retired or senior judge. The hearing officer may not advocate for the court and must be impartial.

(C) Within ten (10) days of receiving the required hearing notice, a Debtor wishing to contest the appointment of the hearing officer must do so in writing and include Debtor's reason(s) for contesting the appointment. The writing containing the Debtor's objections must be sent to Participant's representative.

- (1) The appointing court officer(s) shall consider the contest within ten (10) days of receipt and issue a ruling thereon.

(D) The hearing officer shall have the authority to:

- (1) Administer oaths and affirmations;
 - (2) Sign and issue subpoenas;

- (B) All persons present for or participating in a hearing under these procedures shall conduct themselves according to the standards of decorum commonly prevailing in courts of law. The hearing officer may take such action as the hearing officer deems appropriate to remedy inappropriate decorum.
- (C) The hearing is considered informal, and the Georgia rules of evidence and the Georgia Civil Practice Act shall not apply. The hearing is open to the public.
- (D) Either party may:
- (1) Give opening or closing statements;
 - (2) Offer witness testimony, either orally or in writing in the form of an affidavit;

 - (5) Make motions before and during the hearing; and
 - (6) Cross-examine the other party.
- (E) The Debtor has the burden of proof and must prove his or her case by a preponderance of the evidence.

- (F) Although the hearing officer has the authority to subpoena witnesses, it is the responsibility of each party to arrange the logistics of the witnesses' participation, including travel to and from the hearing.
- (G) Issues that have previously been litigated will not be considered at the hearing. Some issues that may be considered at the hearing, if not previously litigated, include, but are not limited to: whether the Debt has already been paid; whether the Debt setoff is in the correct amount; whether the judgment has expired; or whether the Debtor is the person against whom the judgment was issued.

Re: *[Case caption that corresponds to overdue debt]*

Dear *[Mr./Ms. Debtor's Name]*:

Our records indicate that you owe *[\$[amount of debt]]* to the *[Court name]* of *[county name]* County. This amount is at least 60 days past due. Please pay this amount in person at the court clerk's office, or send a check to:
[Address of court clerk's office]

Failure to pay this debt within 30 days will result in collection efforts, including a possible reduction in any state income tax refund you may be entitled to in the next six years. Chapter 7 of Title 48 of the Official Code of Georgia Annotated authorizes the Georgia Department of Revenue to deduct from a taxpayer's income tax refund any debts owed by the taxpayer to a Georgia court, as well as the assessment of recovery costs of up to \$20.00. After a tax refund offset occurs, the Georgia Department of Revenue will send a notice to the taxpayer with an accounting of the offset.

If you believe this debt amount is incorrect or has already been paid, please contact my *[Clerk of Court]* office at *[888-888-888]* to discuss this matter. If you have filed for bankruptcy, please contact *[above contact]* immediately.

Sincerely,

[Clerk of Court]

- The Tax Refund Intercept Program (TRIP) began operation as a pilot project in 2016, and became a full program open to all Georgia courts in 2017.

Courts ranged in size from Cairo Municipal Court and Eton Municipal Court to large metro courts like Atlanta Municipal Court.

- Over 1060 intercept requests have been submitted by participating courts from 1/2023 to 6/2023. The current number of debtors with active accounts is 2813. To date, new debtors total 132.
- By the end of 2023, the program has made 1060 plus successful income intercepts.
- No hearings were requested to contest intercepts in 2023.
-
- The total collected intercepts from 1/1/2023 – 6/30/2023 is \$107,512.14 of which will be paid out to participating courts.

Tax Refund Intercept Program

The Tax Refund Intercept Program (TRIP) offered by the Administrative Office of the Courts in cooperation with the Department of Revenue provides a low cost, low maintenance means to enforce monetary judgments of your court. The TRIP program serves as a clearinghouse for courts that prepare, certify, and submit income tax refund intercept requests to satisfy unpaid fines and fees. The court will have SEVEN YEARS from the date of the judgment before the intercept request expires. Using a combination of bulk processing and streamlined business processes, TRIP transmits debtor data from courts to the Department of Revenue and receives intercept data from DOR on behalf of the participating courts. At the end of each tax season, the amounts successfully collected by the Department of Revenue are sent electronically to the account designated by the court.

Applications to participate in TRIP are accepted throughout the year, and courts are added to the program on a first-come, first-served basis at no cost to the court.

TRIP doesn't just collect unpaid fines and fees from state income tax returns. As structured, the program serves as an incentive to debtors to pay their debts directly to the court. Tens of thousands of dollars in unpaid fines and fees are paid directly to courts by debtors in response to tax intercept notices. Prior to making an intercept request, the program requires a court to mail notice to the court debtor offering a final chance to pay the debt to the court. After the intercept request is made, the court still manages the

intercept and any dispute over the validity of the intercept request. The clearinghouse/AOC manages software that allows each court to manage its intercepts right from a local computer. Web-based instructional tools, training, and telephone help is available to courts participating in the program.

TRIP utilizes RevQ to manage the thousands of intercept requests it receives. RevQ is the product of leading government collections software company Ontario Systems/ Finvi. While we do not need all the features of this robust application, RevQ possesses several features that TRIP is using to automate the tax intercept process:

We (AOC) send payments to courts twice a year. Once before June 30th (end of fiscal year), and the other before the end of the calendar year. We get intercept files/reports from DOR (Department of Revenue) so each court can check their status on a regular basis via the reports in Revenue Results.

Participant shall only submit claims for Debts that are eligible for TRIP. Debts submitted by Participant for TRIP:

1. Must be least ninety (90) calendar days past due and for which the time to appeal the court judgment has expired.
2. Must be greater than \$25.00 for each court judgement.
3. Must be less than seven (7) years from the date of the court judgement; and
4. Must include a social security number to correctly identify the Debtor

Participant shall not submit claims that are under any other means of collection or enforcement of the judgement. Such forms of collection include but are not limited to: Debts submitted to collection agencies; Debts currently payable under probation; Debts under collection through foreclosure, garnishment or any other action provided for the enforcement of a judgement.

In Review

1. The Tax Refund Intercept Program (TRIP) is supported by Revenue Results (RevQ) software from Ontario Systems.
2. Ontario Systems developed the RevQ Tax Intercept Module to aid and automate government collection tasks.
3. Ontario Systems provides RevQ software licenses to all local court users, which enables users to enter eligible debtors/cases and submit those cases to the Department of Revenue for income tax redirect.
4. The Judicial Council of Georgia Administrative Office of the Courts (JC/AOC) staff installs the RevQ software for all local court users, as well as provides software training and level one technical support.
5. Ontario Systems RevQ software allows court users and JC/AOC staff to report, track, and monitor the complete tax intercept process.
6. Advanced technical support and customized report generation is provided to JC/AOC staff directly by Ontario Systems.
7. The facilitation of Georgia's TRIP is only made possible by the type of software module provided by Ontario Systems RevQ

ITEM DESCRIPTION:

For decades, ice sports (hockey, figure skating, learning to skate and other purposes) have been offered at The Cooler in Alpharetta. The Cooler is a private facility, and its use is changing, and ice sports will no longer be offered in that facility. We have been approached by the former Atlanta Fire Hockey group, now with a different name, to consider a proposal to design, build, manage, maintain and completely fund some renovations at the location within Union Hill Park where Alpharetta formerly had roller hockey.

Their proposal seeks to create a shared space with the events currently scheduled at Union Hill Park, most notably the Home By Dark concert series. Their proposal includes roll-up doors and removable locker room spaces so that the venue would maintain the look and feel it has today for events that are not enclosed. Because of the unexpected uncertainty of where their programs will take place this fall, this discussion has occurred rapidly, and discussion and direction is needed from the City Council on how we might proceed further, or determine whether the use will not work.

Attached to this staff report are some renderings of what the facility would like and how it would function, incorporating ice sports as a use. In consultation with the City Attorney, should the City Council find this proposal favorable, the item would come back for additional consideration as a Recreational Services Programming Agreement.

Most members of the City Council have had the opportunity to learn of this proposal in a smaller group setting, but to move any further forward, a work session is necessary to allow the collective City Council to have the opportunity to discuss this with each other and provide the City Administrator with direction. The City Administrator will provide most of the presentation, and representatives of the proposing group will be in attendance to answer questions if

any are raised.

* Alpharetta's Homestead Exemptions saves our homeowners over \$9.5 million annually.

** Does not include Special Tax District (STD) and Special Service District (SSD) millage rates. These millage levies apply only to commercial and exempt properties. They do not apply to residential properties, including those with homestead exemptions or purely multi-family residential buildings. However, mixed-use developments that combine commercial and residential uses may still be subject to the SSD tax, depending on their zoning.

Special Tax District/STD (6.45 mills): located in the I-85, North Druid Hills area. The STD funds police, code enforcement, and infrastructure from the imposition of an ad valorem tax mill rate on properties in this designated area.

Special Service District/SSD (4.00 mills). This SSD funds capital projects and governmental services.

Rating Agency Outlooks & Views for the Local Government Sector

- ◆ Both Moody's and S&P maintain a stable outlook for the local government sector for 2025
- ◆ **Economic and federal policy uncertainty** heightens the importance of fiscal management in preserving credit quality and could strain U.S. local government finances in 2025.
- ◆ **Tax revenue growth will normalize and exceed inflation**
 - Aggregate tax revenue for local governments, including cities and counties, will increase by 3%-4% in 2025 compared with an inflation of roughly 2%
 - Tax revenue growth will be enhanced by a decline in spending growth pressure, but maintaining balanced operations will require budgetary discipline in the absence of real revenue gains for some local governments
 - Could stagnate in some cities if pain in the office real estate sector weighs on taxable valuations
- ◆ **Expenditure growth will also moderate** as inflation continues to abate
 - Job openings are starting to retreat, which signals budget tightening of expenditures
 - Still-elevated costs of labor, construction, and financing will limit governments' expenditure flexibility
- ◆ **Strength and makeup of local economy** will make a difference in how governments respond to new obstacles; but responsive and effective management coupled with strong reserves will help to mitigate variances in revenues and expenditures
- ◆ **Long-term environmental and social exposures** will drive future economic opportunities and difficulties
 - The effects of more frequent damaging weather events, cybersecurity risks, and changing demographics will start to shape credit in the outlook horizon
 - As insurance rates increase and working-age populations decrease across the nation, more strain will be put on individual taxpayers and local government's reserves.

Area can include both residential and commercial properties.

Taxes can be levied on just the commercial properties of the SSD

Examples of SSDs

Atlanta Beltline -

City of Brookhaven -

The Brookhaven City Council formally established a Special Service District (SSD) on December 30, 2021, to provide a funding mechanism for catalytic capital projects and services in the identified area.

Initial millage rate of 4,000 mills for the SSD.

TO THE HONORABLE MAYOR, MEMBERS OF THE CITY COUNCIL, CITIZENS,
BUSINESSES, AND STAKEHOLDERS OF THE CITY OF ALPHARETTA:

State law requires that every general-purpose local government publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2024. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls established for this purpose. Since the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements.

Mauldin & Jenkins, LLC, have issued an unmodified ("clean") opinion on the City of Alpharetta's financial statements for the year ended June 30, 2024. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis ("MD&A") immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

OUR HISTORY

From the North Georgia Mountains to the Chattahoochee River along a Cherokee Indian trail, a tiny village named New Prospect Camp Ground was formed. This village made up of tents, a log school, and an arbor became a trading post where Indians and settlers exchanged their goods. The surrounding countryside provided excellent farmland, especially for cotton. On December 11, 1858, the town was chartered and became the county seat of Milton County. The town was renamed Alpharetta from the Greek words "alpha" meaning first and "retta" meaning town.

Located approximately 25 miles north of the City of Atlanta, Alpharetta occupies a land area of approximately 27 square miles and serves an estimated population of 66,127. Population growth has been fueled in part by the City's strong economic base as well as the annexation of surrounding communities.

GOVERNMENT PROFILE

The City operates under a strong mayoral form of government, whereby the mayor possesses all the executive and administrative powers granted to the government under the constitution and laws of the State of Georgia and the City charter. Policy making and legislative authority are vested in the governing council, consisting of the mayor and six (6) council members, all elected on a non- partisan basis. The mayor is chosen by popular vote. City Council members run for a specific post, but they are elected by a city-wide vote. The City's elected officials serve four (4) year terms which begin on January 2nd immediately following the date of election into office. Council members elected for three (3) consecutive terms are not eligible for the succeeding term. A mayor elected and qualified for two (2) consecutive terms is not eligible for a succeeding term. Elections are held every two (2) years and are conducted by the Fulton County Board of Elections. The Mayor and City Council appoint a City Administrator to carry out the day to day operations of the City.

The City provides a full range of services, including police and fire protection; the construction and maintenance of highways, streets, and other infrastructure; and recreational activities and cultural events. Sanitation services are provided through relationships with private operators. The City created a legally separate entity, the Development Authority of Alpharetta, to assist with, among other things, capital funding. Financial information for the Development Authority has been included within this document and additional information can be found in the Notes to the Financial Statements in Note I(A).

BUDGET BASIS AND STRUCTURE

The annual budget serves as the foundation for the City's financial plan and assists in control of the financial stability and health of the government. The Mayor and Council are legally required to adopt a balanced budget (i.e., revenues = expenditures) no later than the close of the fiscal year. The City legally adopts annual budgets for all Governmental Funds (with the exception of the Capital Project Funds which are adopted on a project-length basis) Proprietary, and Fiduciary Funds. The City's fiscal year runs from July 1st through June 30th.

The City's budget is created under a hybrid performance-based budgeting system. This type of budgeting system blends the traditional historical financial trend model with the performance-based model of identifying a level of performance for each type of service/program and the resources necessary to operate it, as well as describes the structure of the departments and the programs into which they are divided. The legal level-of-control (i.e., the spending level at which expenditures may not legally exceed appropriations) resides at the department level within a given fund. As such, reallocation of appropriations between line-items is acceptable within a given department (with a few exceptions). Budget amendments that increase overall departmental appropriations (excluding grant/ donation appropriations) or cross departments must be approved in advance by the City Council. These amendments are typically brought for consideration by City Council during the mid-year budget review process.

2025 CITY COUNCIL PRIORITIES AND ANNUAL ACTION PLAN

The City Council conducts a strategic planning retreat annually in January to set strategic priorities over the coming year and guide operational decisions. The January 2024 City Council Retreat set forth priorities to guide the construction of the FY 2025 budget including operations and capital investment. These priorities were condensed into an Annual Action Plan with the components set forth below:

- Strategic Growth and Redevelopment of North Point.
- Safe and Welcoming Community.
- The Alpha Loop and Greenway.
- Downtown Alpharetta.

- Communications that Connect.
- Recreation, Parks, and Culture.
- Infrastructure and Facilities Maintenance.
- Transportation and Traffic.
- People Focused Workforce.
- Economic Development.

STRATEGIC FINANCIAL PLANNING

The City Council, City Administration, and City departments have displayed impressive financial stewardship over the years through an established philosophy of budgetary evaluation. This philosophy entails reviewing the needs of the City relative to the standard that services and associated costs should not be appropriated unless they are justified as strategic priorities of the organization (e.g., Annual Action Plan items). This philosophy is a foundation of our budget process as evidenced by the Finance Department's direction to departments that base operating budgets should be submitted in line with the City's revenue trends and forecasted service delivery needs.

The City's budget is in the midst of multiple disruptive economic pressures. As quickly as the COVID-19 pandemic and its associated social distancing measures drove a decline in economic activity, the corresponding phase of post-lockdown economic activity coupled with Federal stimulus resulted in a spike of economic growth that is still impacting the labor force through wage growth and staffing availability (both through our staff as well as labor-intensive contracts such as landscape maintenance, janitorial, etc.) and other market-based inflationary cost pressures (e.g., fuel, steel, concrete, wood, etc.). In an effort to slow inflation, the Federal Reserve's monetary policy actions have resulted in increased interest rate targets (e.g. mortgage rates, commercial borrowing rates, etc.) that is slowing economic growth. This slowing of economic activity has impacted many of the City's revenue streams including LOST, building permits, intangibles taxes, etc.

Today, more than ever, governments need to be nimble to respond to market conditions.

Alpharetta's financial planning is focused on City Council priorities (including the 2025 Annual Action Plan) and responding to market conditions in a prudent manner including maintaining a competitive compensation package for our staff and keeping up with market prices from private service providers.

Proactive fiscal management has positioned us to approach the challenges more effectively in the FY 2025 Budget resulting from the inflationary (e.g., labor costs) and market-based cost pressures (e.g., steel, concrete, wood, etc.). The issue of sustainability also is addressed through a diversification of revenue sources. While property taxes do represent the largest single source of revenue, significant discussion is centered on how to further diversify the City's revenue base and lessen reliance on property taxes. Existing revenue sources are evaluated on a periodic basis to ensure the underlying rate is reasonable and justifiable. Examples of revenue sources that are reevaluated periodically include all user fee-based revenue sources (i.e., permits, licenses, recreation fees, etc.).

The City has historically acknowledged the need to provide a taxation rate commensurate with the government's level of service while ensuring tax relief through efficient and effective management practices. The City levied a millage rate of 5.75 mills (General Fund – 4.951 mills; debt service – 0.799 mills) in fiscal year 2024 which was flat with fiscal year 2023. For fiscal year 2025, the City maintained the millage rate at 5.75 mills (General Fund – 5.010 mills; debt service – 0.740 mills). The city's competitive tax rate, coupled with a substantial Homestead Exemption, goes to great lengths in keeping Alpharetta not only an affordable place to live, but also strategically positions us relative to neighboring areas.

The City offers multiple homestead exemptions which is estimated to save our homeowners over \$10 million annually and include:

- Floating Homestead exemption that caps the taxable value growth of homesteaded properties to the lesser of 3% or CPI;
- Basic Homestead exemption of \$45,000 off the assessed value of homesteaded properties which is among the highest in the State;
- Senior Basic Homestead exemption of \$25,000 off the assessed value of homesteaded properties for residents age 65 and older;
- Senior full-value exemption available to residents age 70 and older who meet certain income requirements.

In order to promote economic development, the City grants tax abatements that ultimately increase the tax base and result in greater property tax revenue, sales taxes, and other occupational taxes and related fees.

At the end of the current fiscal year, total fund balance for the General Fund was \$37,984,828 which is a decrease of \$4,580,777 from the prior year. This balance represents approximately 40% of 2025 budgeted operating expenditures. Approximately 26% of total fund balance, or \$9,447,780, constitutes assigned fund balance for 2025 fiscal year expenditures.

Approximately 75% of total fund balance, or \$28,537,048, constitutes unassigned fund balance. This balance represents approximately 29% of 2025 budgeted operating expenditures. By ordinance, the City has mandated that such balance not be less than 16% of budgeted operating expenditures. This requirement allows the City to maintain an adequate reserve to cover unforeseen emergencies and/or revenue shortfalls. Historically, the City has set the minimum for the emergency reserve at a level in excess of the ordinance requirement. For fiscal year end 2024, the emergency reserve requirement totals 25% which equates to \$23,520,000. The surplus after such emergency reserve and other allowances will enable the City to fund onetime future capital in the amount of \$5,017,048 as part of the annual budget to be developed for fiscal year 2026.

These fund balances have resulted from the use of prudent fiscal policies and conservative budget practices and help to ensure the City's long-term financial stability.

RELEVANT FINANCIAL POLICIES

Throughout the year, the Finance Department administers the governing council's approved Financial Management Program, which outlines the policy within which the government's finances are maintained. These policies address fund balances; the use of one-time revenues; issuance of debt; purchasing and procurement; cash and investment management; and accounting practices. In totality, these policies formulate the core criteria for which internal evaluations occur. On an annual basis the criteria establishing the Financial Management Program are reviewed in order to maintain relativity to the changing financial needs of the government.

MAJOR INITIATIVES COMPLETED DURING FISCAL YEAR 2024

The City continued its aggressive infrastructure/facility maintenance plan including funding the milling and resurfacing of multiple city streets, traffic signal system replacement, traffic control system replacement, sidewalk repair, facility roof repair and replacement, tree planting and landscape improvements, park facility renovations, etc. as well as multiple drainage and stormwater repair/improvement projects.

As the City's economic development efforts continue to fuel growth, the need to ensure vehicular and pedestrian safety is tantamount. 2024 saw multiple vehicular/pedestrian safety project designs completed that will be bid out for construction starting in 2025/2026 including Cumming Street sidewalk improvements (Cricket Lane to west of the creek), construction of four Windward Parkway pedestrian bridges, Roswell Street pedestrian safety improvements, etc.

The city's focus on quality of life culminated in multiple recreational improvements including a new AlphaLoop segment (Old Milton Parkway to Northwinds Parkway), completion of the new Mid-Broadwell Park, completion of the new Waters Road Park, completion of the new Webb Bridge Park dog park, enhancements to the tennis/pickleball courts at North Park, replacement of the playground at Webb Zone (Webb Bridge Park), etc.

MAJOR INITIATIVES PLANNED FOR FISCAL YEAR 2025

The City's capital plan for FY 2025 totals \$26.2 million and includes recommended capital initiatives totaling \$22.5 million with an additional \$3.7 million set aside for future capital investment. Specific initiatives include:

- Transportation (\$11.5 million) – Initiatives funded include: infrastructure maintenance initiatives (milling and resurfacing of streets, signal system, striping, traffic calming, landscaping, etc.); technology improvements for the Traffic Control Center; continued maintenance of our bridge infrastructure; grant funding for North Point Parkway roadway improvements, year 2 of 3 funding for landscape improvements along the SR9 corridor currently under construction, construction of two bus shelters downtown, multiple signage improvement projects including design funding for Alpharetta Entry Monuments and construction funding for downtown wayfinding signage and gateway signage improvements for the South Main District and Brookside Park.
- Drainage/Stormwater (\$2 million) – Initiatives funded include: storm-water system inspections and maintenance; pipe repair and replacement; design of drainage control measures; etc.
- Facility (\$4.6 million) - Initiatives funded include: Fire Station 81 facility renovations; 2972 Webb Bridge Road renovations; parking garage maintenance; roof re- placements for the Public Works Headquarters and wall restoration at the Alpharetta Community Center; HVAC replacements across multiple facilities; citywide facility maintenance assessment; etc.
- Recreation (\$1.2 million) - Initiatives funded include: general park enhancements (fence replacement and repair, signage, new benches, and trash cans, etc.); greenway improvements/repairs, soccer field fencing enhancements at Innovation Academy; wood light pole/LED Replacements; playground equipment replacement (Webb Zone); multiple cultural arts initiatives including public art exhibits; etc.
- Fleet/Equipment/Technology Replacement (\$3.3 million) – Initiatives funded include: replacement of fleet that balances the maximization of public investment in terms of years and mileage while ensuring fleet assets are reliable and functional to ensure continued service capabilities to our customers (public safety, public works, etc.); equipment aimed at maintaining an efficient (general technology replacement for city staff) environment including equipment for new operating initiatives approved in 2025 (e.g. fleet for new positions); etc.

These investments illustrate our commitment to ensuring quality of life enhancements to the business and residential community.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Alpharetta for its Annual Comprehensive Financial Report ("ACFR") for the fiscal year ended June 30, 2023. This program recognizes those governments that go beyond the minimum requirements of generally accepted accounting principles to prepare ACFR's that represent the spirit of transparency and full disclosure. This award is valid for a period of one year only. We believe that our current ACFR continues to conform to program requirements and we are submitting it to GFOA to determine its eligibility for another award. The City also received the GFOA Popular Annual Financial Reporting Award ("PAFR") for our annual citizens' report for the fiscal year ended June 30, 2023.

This program recognizes those governments that produce high quality popular annual financial reports specifically designed to be readily accessible and easily understandable to the general public and other interested parties without a background in public finance. This award is valid for a period of one year only. We believe that our current PAFR continues to conform to program requirements and we are submitting it to GFOA to determine its eligibility for another award.

Last but certainly not least, the City also received the GFOA's Distinguished Budget Presentation Award for its annual budget narrative for the fiscal year ended June 30, 2023. This program recognizes those governments that prepare budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's recommended practices on budgeting. This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements and have submitted it to GFOA to determine its eligibility for another award.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Department of Finance. I would like to express my appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the mayor, governing council, and city administrator for their unfailing support for maintaining the highest standards of professionalism in the management of the City's finances.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

**Honorable Mayor and Members
Of the City Council
City of Alpharetta, Georgia**

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Alpharetta, Georgia** (the "City"), as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note V, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 100, *Accounting Changes and Error Corrections*, as of July 1, 2023. This standard significantly changed the accounting for changes in accounting principles, changes in accounting estimates, changes to or within the financial reporting entity, and error corrections. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.

-
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
 - Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of changes in the City's net OPEB liability (asset) and related ratios, the schedule of contributions – OPEB Plan, schedule of investment returns – OPEB Plan, schedule of changes in the City's net pension liability and related ratios, schedule of City contributions – retirement plan, schedule of pension investment returns – retirement plan, and the General Fund – budgetary comparison schedule – GAAP basis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management, and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Alpharetta (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the beginning of this report. All amounts, unless otherwise indicated, are expressed in whole dollars.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$369,051,308 (total net position). Of this amount \$35,633,436 (unrestricted net position) may be used to meet the ongoing obligations of the government.
- The City's total net position increased by \$20,073,494.
- As of the close of the current fiscal year, the City of Alpharetta's governmental funds reported combined ending fund balances of \$143,470,249, a decrease of \$1,715,811 from the prior year.
- At the end of the current fiscal year, unassigned fund balance in the General Fund was \$28,537,048 which represents approximately 31% of 2025 budgeted expenditures. By ordinance, the City has mandated that such balance not be less than 16% of budgeted expenditures. This requirement allows the City to maintain an adequate reserve to cover unforeseen emergencies and/or revenue shortfalls. Historically, when budgeting, the City has set the minimum for the emergency reserve at a level in excess of the ordinance requirement. For fiscal year end 2024, the emergency reserve requirement totals 25% which equates to \$23,520,000. The surplus after such emergency reserve and other allowances will enable the City to fund one-time future capital in the amount of \$5,017,048, part of the annual budget to be developed for fiscal year 2026.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Alpharetta's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business.

The statement of net position presents information on the total of the City's assets and deferred outflows of resources and the total of liabilities and deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, community development, and culture and recreation. Business-type activities include a solid waste collection operation.

The government-wide financial statements contain not only the City (known as the primary government), but also a legally separate authority for which the City is financially accountable. Financial information on this component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 15 - 17 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The focus of governmental funds is narrower than that of the government-wide financial statements. It is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eighteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Capital Projects Fund, 2017 T-SPLOST Fund, 2022 Bond Construction Fund, Grant Capital Fund, and the 2022 T-SPLOST Fund, all of which are considered major funds. Data from the other twelve governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements later in this document.

The basic governmental fund financial statements can be found on pages 16 through 18 of this report.

Proprietary funds. The City maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its solid waste collection operation. Internal service funds are an accounting device used to accumulate and allocate costs internally among the various functions of a government. The City uses internal service funds to account for risk management and medical insurance. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the solid waste activities and for risk management and medical insurance internal service funds.

The basic proprietary fund financial statements can be found on pages 21 through 23 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of these funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Fiduciary fund financial statements provide separate information for the pension and other postemployee benefit trust activities.

The basic fiduciary fund financial statements can be found on pages 24 and 25 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 26 through 75 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Alpharetta pertaining to the City's pension and other postemployment benefits to its employees. In addition, a budgetary comparison schedule for the General Fund is presented on a generally accepted accounting principal basis in this section. This schedule is intended to demonstrate the government's compliance with the legally adopted and amended budgets. Required supplementary information can be found on pages 76 through 83 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 84 through 104 of this report.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Alpharetta, assets plus deferred outflows of resources exceeded liabilities plus deferred inflows of resources by \$369,051,308 at the close of the most recent fiscal year. The largest portion of the City's net position (74%) reflects its net investment in capital assets (i.e., land, buildings, infrastructure, machinery, and equipment less any outstanding related debt used to acquire those assets). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (17%) represents resources that are subject to external restrictions on how they may be used. At the close of fiscal year 2023, the City's restricted net position was \$58,377,206 representing \$53,521,997 obligated for capital projects, \$1,339,073 restricted for tourism, \$1,416,149 restricted for the repayment of general obligation bond debt, \$378,953 restricted for law enforcement activities, \$1,611,470 for emergency telephone activities, and \$109,564 for OPEB.

The remaining balance in unrestricted net position of \$35,633,436 (9%) may be used to meet the City's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the Government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Governmental activities. Governmental activities increased the City's net position by \$20,069,083 (compared to an increase of \$25,922,344 in the prior year) accounting for almost all of the increase in the net position of the City (business-type activities had an increase in net position of \$4,411). Key elements of this change from year to year are as follows:

- Total governmental program revenues decreased by \$5,334,142 primarily due to a decrease in capital grants and contributions of \$5,214,672 and a decrease in charges for services for \$319,887 offset by an increase in operating grants of \$200,417.
- Total general revenues increased by \$5,825,905 from the prior year primarily due to an increase in property taxes, sales taxes, and investment earnings resulting from stable financial conditions in the overall economy.
- Total expenses of the governmental activities increased by \$6,345,024. Public safety increased by \$2.9 million, general government increased by \$2.8 million, culture and recreation increased by \$.7 million, and community development by \$.6 million. This is offset by a decrease in public works expense of \$.4 million and interest of \$.3 million.

Business-type activities. Business-type activities increased the City of Alpharetta's net position by \$4,411 as stated earlier.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City of Alpharetta uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of fiscal year 2024, the City reported governmental funds combined ending fund balance of \$143,470,249 a decrease of \$1,715,811 from the prior year. Approximately 20% of this balance or \$27,982,484 constitutes unassigned fund balance.

The remainder of the fund balance is categorized as restricted or assigned. Restricted fund balance consists of amounts restricted for capital projects of \$80,477,921, law enforcement of \$378,953, emergency telephone activities of \$1,611,470, tourism of \$1,399,073, and debt service of \$1,416,149. Assigned fund balance consists of amounts assigned for grant projects of \$167,269, capital projects of \$20,364,173, economic development \$284,977, and 2024 fiscal year expenditures of \$9,447,780.

General Fund. The General Fund is the chief operating fund of the City. At the end of the current fiscal year, total fund balance of the General Fund was \$37,984,828. which is a decrease of \$4,580,777 from the prior year. In terms of liquidity, total fund balance represents approximately 45% of 2024 budgeted expenditures.

Approximately 75% of total fund balance, or \$28,537,048 constitutes unassigned fund balance. This balance represents approximately 34% of 2024 budgeted expenditures. By ordinance, the City has mandated that such balance not be less than 16% of budgeted expenditures. This requirement allows the City to maintain an adequate reserve to cover unforeseen emergencies and/ or revenue shortfalls. Historically, when budgeting, the City has set the minimum for the emergency reserve at a level in excess of the ordinance requirement. For fiscal year end 2024, the emergency reserve requirement totals 25% which equates to \$23,520,000. The surplus after such emergency reserve and other allowances will enable the City to fund one-time future capital in the amount of \$5,017,048 as part of the annual budget to be developed for fiscal year 2026.

The fund balance of the City's General Fund decreased during fiscal year 2024 by \$4,580,777. Revenues exceeded expenditures by \$7,547,026; however, net transfers out were \$13,039,871 offset in part by proceeds from sale of capital assets of \$66,099 and SBITA issuance of \$845,969. Council approved the utilization of prior year fund balance for capital projects (\$9,477,780).

Other significant variances are explained below:

- From a year-to-year operational perspective, total revenues increased by \$3,582,978 primarily due to increases in property tax proceeds.
- Revenues of \$87,673,807 exceeded amounts budgeted by \$487,356. Specific revenue variances include the following: property taxes (\$609,561 greater than budget); investment earnings (\$1,148,420 greater than budget); charges for services (\$330,856 less than budget); licenses and permits (\$236,779 less than budget); and fines and forfeitures (\$621,935 less than budget).
- Total expenditures increased by \$7,819,721 from the prior year primarily due to the following growth drivers: (1) general salary growth; (2) increases in healthcare costs; and (3) increases in overtime, seasonal/temporary salaries, and general benefits.

- Expenditures came in well under budget, at \$80,126,781. With \$4,825,717 of the budgetary appropriation unspent. Management continues to work with department heads to ensure only necessary purchases are made, and to ensure all departments do not exceed budget appropriations, which creates a budget conscious atmosphere throughout the City.

Capital Project Fund. Annually, City Council approves a capital program as part of the budget process. Funding for these projects comes primarily from available fund balance of the General Fund. The Capital Project Fund accounts for these activities. During the year, \$12,392,818 was transferred to this fund from the General Fund, while expenditures amounted to \$11,907,506. The above along with \$2,651,507 in additional revenue, increased fund balance by \$3,136,819 to \$14,350,685 at year end as compared to \$11,213,866 at end of the prior year.

2017 T-SPLOST Capital Fund. During fiscal year 2024, the 2017 TSPLOST Capital Fund generated \$1,887,131 in investment income. Current expenditures amounted to \$5,577,262. The net amount resulted in a decrease in fund balance of \$3,690,131 from \$35,292,261 to an ending fund balance of \$31,602,130.

2022 Bond Construction Fund. This fund is a capital project fund used to account for proceeds from issuance of 2022 General Obligation Bonds for the acquisition and construction of parks and greenways. Capital outlay expenditures in the amount of \$2,607,951 offset by investment earnings of \$1,540,005 resulted in a fund balance restricted for capital projects in the amount of \$27,383,447 at year end.

2022 T-SPLOST Capital Fund. During fiscal year 2024, the 2022 TSPLOST Capital Fund received \$14,910,165 in sales tax proceeds and generated \$788,558 in investment income for a total revenue amount of \$15,698,723. Current expenditures amounted to \$13,618,427. The net amount resulted in an increase in fund balance of \$2,080,296 from \$13,545,438 to an ending fund balance of \$15,625,734.

Grant Capital Fund. During fiscal year 2024, the Grant Capital Fund generated \$1,604,966 in intergovernmental revenue and \$4,580 in investment income. Current expenditures amounted to \$1,811,303. The net amount resulted in a decrease in fund balance of \$201,757 from -\$352,807 to an ending fund balance of -\$554,564.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The City accounts for business-type activities in the Solid Waste enterprise fund. The City utilizes governmental activities internal service funds to account for risk management services and medical insurance.

Solid Waste Fund. Unrestricted net position of the Solid Waste Fund at the end of the year amounted to \$15,349. The total increase in net position for the Solid Waste Fund was \$4,411 compared to a \$105,036 decrease in the prior year. Total operating revenue increased by \$281,325 to \$5,451,071. Investment earnings increased by \$32,187 compared to \$12,878 decrease in the prior year. Total expenses increased by \$204,065 to \$5,493,913.

Risk Management Fund. The Risk Management Fund is an internal service fund created to account for the risk management costs incurred by the City. Unrestricted net position of the risk management fund increased in the amount of \$169,928 from \$2,030,413 to \$2,200,341 as compared to a prior year increase in the amount of \$688,872. Total operating revenues increased by \$84,238 to \$1,973,087 while total operating expenses increased by \$670,516 to \$1,925,362. Investment earnings increased by \$92,938.

Medical Insurance Fund. The Medical Insurance Fund is an internal service fund created to account for the amounts charged to the City and its employees to pay for the medical insurance plan. The City's medical insurance plan is a fully insured medical plan that is funded through the carrier as a shared

return minimum premium arrangement. Funding to the medical insurance fund is based on the City's maximum exposure on the policy. Expenses reflect actual claims and administrative costs. Charges for services and investment earnings amounted to \$8,014,095 and operating expenses amounted to \$8,026,662 resulting in a decrease in net position of \$12,567 (as compared to an increase of \$116,211 in the prior year) yielding a net position of \$63,041 at year end.

GENERAL FUND BUDGETARY HIGHLIGHTS

The City employs an annual mid-year budget process in order to realign appropriations made during the annual budget process with significant unexpected trends. This process ensures adjustments facilitating appropriations are aligned with expected resources. Additionally, the ordinance adopting the City's budget allows the Finance Director to amend the budget to: (1) reflect grant appropriations and expenditures upon receipt of an executed grant award document and/or intergovernmental agreement; and (2) reflect donation/contribution revenues and expenditures upon receipt of donation/contribution. Differences between the original budget and final amended budget are summarized as follows:

- During the year, there was an increase in total budgeted revenues in the amount of \$2,379,842 which consisted in part of increases of \$1,795,000 for property taxes, \$287,570 for business taxes, and \$274,088 for charges for services. Total budgeted expenditures increased by \$469,639 from the beginning of the year primarily consisting of an increase to total principal payments of 332,541.
- Property taxes were \$609,561 more than budgeted, business taxes were \$326,550 more than budgeted, and investment earnings were \$1,148,420 more than budgeted. However, fines and forfeitures were \$621,935 less than budgeted. The net result of all the revenue variances was that actual total revenues exceeded final budget total revenues by \$487,356.
- Total actual expenditures were \$4,825,717 less than final budgeted total expenditures. Management continues to work with department heads to ensure only necessary purchases are made and to ensure departments do not exceed budget appropriations, which generates a budget conscious atmosphere throughout the City. Among departments with larger favorable variances in expenditures were General Government which expended \$1,553,589 less than final budget, Public Safety which expended \$1,558,494 less than final budget, and Public Works which expended \$765,844 less than final budget.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City of Alpharetta, like many cities in our region and throughout the world, is in the midst of multiple disruptive economic pressures. As quickly as the COVID-19 pandemic and its associated social distancing measures drove a decline in economic activity, the current phase of post-lockdown economic activity coupled with federal stimulus has resulted in a spike of economic growth. This strong economic growth can be witnessed in our revenue trends as well as our expenditure trends which seek to meet a spiking service demand from our customers while also covering unprecedented inflationary (e.g., labor costs) and market-based cost pressures (e.g., steel, concrete, wood, asphalt, etc.).

Today, more than ever, governments need to be nimble to respond to market conditions.

Alpharetta's 2025 budget is focused on City Council priorities (2023 Annual Action Plan) and responding to market conditions in a prudent manner including maintaining a competitive compensation package for our staff and keeping up with market prices from private service providers. Highlights include:

- Tax-burden reductions for our homeowners in excess of \$10 million through our annual homestead exemption offerings.
- Maintenance of the City's millage rate at 5.750 mills (flat with FY 2024) including funding \$2 million for expanded service levels for our citizenry, business owners, and stakeholders and funding \$4 million from General Fund operations for capital investment (e.g., milling and resurfacing of City streets).
- As detailed above, the FY 2025 budget includes funding totaling \$2 million for expanded service levels within multiple departments.
- Capital investment focused on maintaining and improving city infrastructure and assets (\$22.5 million when including potential grant sources) while reserving sufficient funds to provide flexibility for future prioritized capital investment (\$3.7 million).
- Continuation of the same high service levels our citizenry, business owners, and stakeholders expect from our city.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2024**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	(1,715,811)
--	----	-------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which capital outlays exceeded depreciation and amortization in the current period.		20,906,263
---	--	------------

The net effect of various miscellaneous transactions involving capital assets (i.e. sales and disposals) is to decrease net position.		(277,873)
---	--	-----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.		(245,835)
---	--	-----------

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction; however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		5,528,198
---	--	-----------

Internal service funds are used by management to charge the costs of insurance plans and workers' compensation insurance to individual funds. The net expense of the internal service funds is reported with governmental activities.		157,361
---	--	---------

Prepaid items are costs applicable to future periods and, therefore, are not reported in the governmental funds.		160,480

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		(4,443,700)

CITY OF ALPHARETTA, GEORGIA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2024

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting entity

The City of Alpharetta (the “City”), which was founded in 1858, operates under a charter adopted July 1, 1981, as a municipal corporation governed by an elected mayor and a six-member council. The government provides such services as police protection, fire and rescue services, parks and recreation amenities, sanitation services, and public works. The accompanying financial statements present the City and its component unit, an entity for which the City is considered to be financially accountable.

Blended component unit. The Development Authority of Alpharetta (the “Authority”) promotes the industrial and economic development of the City. The Authority is legally separate from the City; however, the City appoints all of the Authority’s Board members, and the City is obligated to fund a significant portion of the debt of the Authority through intergovernmental agreements. Separate financial statements for the Development Authority are not prepared.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component unit. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and fund financial statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the fiscal year for which they are levied. As such, property tax revenues are recognized in the current fiscal year for the previous tax year's levy. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within sixty days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Debt service expenditures as well as expenditures related to compensated absences, claims and judgments, and other long-term liabilities are recorded only when payment is due.

Property taxes received up to sixty days after fiscal year end, local option sales tax, franchise taxes, intergovernmental revenues, and other various taxes coupled with licenses, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Capital Project Fund** accounts for the acquisition of capital expenditures greater than \$25,000 funded by sources other than general obligation bond proceeds from governmental funds.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation (Continued)

The **2017 Transportation Special Purpose Local Option Sales Tax (T-SPLOST) Fund** is used to account for the proceeds of the transportation special purpose local option sales tax for the various improvement projects as approved by voter referendum.

The **Grant Capital Fund** is used to track capital projects as they relate to proceeds from grants awarded to the City. Matching funds, which are the City's responsibility, are recorded within this fund.

The **2022 Bond Construction Fund** is used to account for the 2022 General Obligation Bond proceeds for the acquisition and construction of parks, greenways, and the acquisition and construction of roads, streets, and bridges.

The **2022 Transportation Special Purpose Local Option Sales Tax (T-SPLOST) Fund** is used to account for the proceeds of the transportation special purpose local option sales tax for the various improvement projects as approved by voter referendum.

The City reports the following major proprietary fund:

The **Solid Waste Fund** accounts for the activities associated with the collection of residential garbage, including recyclables, non-recyclables, and yard waste. Activity is rendered on a user charge basis.

The City also reports the following fund types:

The **Special Revenue Funds** account for specific revenues, such as confiscations/forfeitures, hotel/motel tax revenues, impact fee revenues, various grants and contributions, development authority operations, and charges for operation of the City's Emergency 911 system, all of which are legally restricted or committed to expenditures for particular purposes.

The **Debt Service Fund** accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The **Capital Project Funds** account for the capital projects expenditures as they relate to proceeds from capital grants, transportation special purpose local option sales tax, 2016 General Obligation Bonds, and transfers from other funds of the City.

The **Internal Service Funds** account for operations that provide services to other departments or agencies of the City on a cost reimbursement basis. The City uses the internal service funds to account for risk management and medical insurance.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement focus, basis of accounting, and financial statement presentation (Continued)

The **Pension and Other Employee Benefit Trust Funds** are used to account for the accumulation of resources to be used for retirement annuity payments and employer portion of retiree health insurance premiums, at appropriate amounts and times in the future. Resources are contributed by the City at rates determined by actuarial computations as well as by employees for one of the plans.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, any interfund services provided and used are not eliminated as this process would distort the direct costs and program revenues reported in the various functions.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise fund consist of administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and equity

1. Cash, cash equivalents, and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations issued by the United States Government, obligations fully insured or guaranteed by the U.S. Government or by a government agency of the United States, obligations of any corporation of the U.S. Government, prime bankers' acceptances, the Georgia local government investment pool, repurchase agreements, and obligations of other political subdivisions of the state.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and equity (Continued)

1. Cash, cash equivalents, and investments (Continued)

Investments for the City are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. The City limits investments through policy to obligations issued by the United States Government, obligations fully insured or guaranteed by the U.S. Government or by a government agency of the United States, and obligations of any corporation of the U.S. Government.

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

All property tax receivables are shown net of an allowance for uncollectibles. Property taxes are levied on assessed property values as of January 1. The levy date is the date that the millage rate is set by the City Council and occurs on or about June 15. Tax notices are then mailed on or about October 1 of each year and are due 60 days from the billing date. The billings are considered past due if the payment is not rendered within the 60-day period after the respective tax billing date, at which time penalties and interest are assessed. Delinquent tax payments subject the property to lien. The City bills and collects its own property taxes.

3. Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods. These payments are accounted for using the purchases method and are recognized as expenditures in the fund financial statements when payment is made and are recognized as prepaid items in the government-wide financial statements.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and equity (Continued)

4. Restricted assets

Proceeds of the 2022 Series Bond Construction Issue are classified as restricted assets on the balance sheet because they are maintained in a separate bank account and their use is limited by applicable bond covenants. The “bond construction” account is used to report those proceeds that are restricted for use in the construction of voter approved projects.

5. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

The City reports all infrastructure assets that it currently owns and has a responsibility for maintaining on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements regardless of their amount. As the City constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, the City values these capital assets at the estimated acquisition value of the item at the date of its donation.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	5 - 50
Improvements other than buildings	7 - 45
Infrastructure	5 - 100
Machinery and equipment	5 – 20
SBITAs	3

Estimated useful lives are adjusted by category according to asset longevity to ensure classes of assets are not fully depreciated and still in use.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and equity (Continued)

6. *Subscription-Based Information Technology Arrangements*

The City has entered into noncancelable long-term subscription-based information technology arrangements (SBITA) for various software programs. The City recognizes a right-to-use subscription asset and corresponding subscription liability in the government-wide financial statements.

At the commencement of the subscription term, the City measures the subscription liability at the present value of minimum payments required to be paid during the subscription term. The right-to-use subscription asset is initially measured as the sum of the initial subscription liability amount plus payments made to the vendor before commencement of the subscription term and capitalizable implementation costs, less any incentives received from the vendor at or before commencement.

The City's SBITA activities, other than making subscription payments, are accounted for as follows:

Preliminary project stage activities include evaluating alternatives, determining the needed technology, and vendor selection are expensed as incurred.

Initial implementation stage activities include all ancillary charges necessary to place the subscription asset into service and are capitalized in addition to the subscription asset.

Operation and additional implementation stage activities such as maintenance and support are expensed as incurred.

Key estimates and judgments related to the City's subscription assets and liabilities include how the City determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) lease term, and (3) subscription payments:

The City uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not specified, the City generally uses its estimated incremental borrowing rate as the discount rate.

The lease term includes the noncancellable period of the subscription term. Subscription payments included in the measurement of the subscription assets and liabilities are composed of fixed payments due to the vendor over the subscription term.

The City monitors changes in circumstances that would require a remeasurement of its subscription assets and liabilities and will remeasure them if changes occur that are expected to significantly affect the reported amount of subscription assets and liabilities.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and equity (Continued)

7. *Deferred outflows/inflows of resources*

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has one item that qualifies for reporting in this category. The item occurs only in the governmental funds and is reported as unavailable revenues from property taxes and other sources. These deferred inflows are unavailable and will be recognized as an inflow of resources in the period in which the amounts become available.

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. A deferred charge on refunding is reported as a deferred outflow of resources in the government-wide statement of net position for governmental activities. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the remaining life of the refunded debt or the refunding debt.

The City has deferred inflows and outflows related to the recording of changes in its net pension and net OPEB liability (asset). Certain changes in the net pension and net OPEB liability (asset) are recognized as plan expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the City's actuary which adjust the net pension liability and net OPEB liability (asset) for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of Plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into plan expense over the expected remaining service lives of Plan members. Changes in actuarial assumptions which adjust the net pension liability and the net OPEB liability (asset) are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into plan expense over the expected remaining service lives of Plan members. The difference between projected investment return on plan investments and actual return on those investments is also deferred and amortized against plan expense over a five-year period.

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and equity (Continued)

8. *Compensated absences*

It is the City's policy to permit employees to accumulate earned but unused paid time off benefits. All paid time off pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

9. *Long-term obligations*

In the government-wide financial statements and the proprietary fund in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the year of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. *Pensions*

The City of Alpharetta's Pension Plan (the "Plan") uses a single fiduciary fund to maintain its financial records. The fiduciary fund is accounted for on a flow of economic resources measurement focus. Revenues are recognized when earned and expenses are recognized at the time they are incurred. Employer contributions are recognized when due and employee contributions are recognized when due as deductions from the employees' payroll. Benefit payments are recognized when due and payable in accordance with the terms of the Plan. Contribution refunds are recognized when due and payable in accordance with the terms of the Plan and City procedures for termination.

11. OPEB

The City of Alpharetta's Postemployment Healthcare Benefits Plan (the "PHCB Plan") uses separate fiduciary funds to maintain the financial records of the OPEB Health Benefit Plan and the Retirement Reimbursement Plan. The fiduciary fund is accounted for on a flow of economic resources measurement focus. Revenues are recognized when earned and expenses are recognized at the time they are incurred. Employer contributions are recognized when due and employee contributions are recognized when due as deductions from the employees' payroll. Benefit payments are recognized when due and payable in accordance with the terms of the PHCB Plan. Contribution refunds are recognized when due and payable in accordance with the terms of the PHCB Plan and City procedures for termination.

12. Fund equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the assets, liabilities, and deferred inflows of resources under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by a formal vote of the City Council. Only the City Council may modify or rescind the commitment. The City's Council would effectively commit fund balance through the approval of an ordinance; however, there are no commitments as of the fiscal year ended June 30, 2024.

I. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and equity (Continued)

12. Fund equity (Continued)

Assigned – Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. Pursuant to the ordinance passed by the Council adopting the fund balance policy, the Council retains the authority to assign fund balances for specific purposes.

Unassigned – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the General Fund. The City, by ordinance, has created a minimum fund balance policy to be no less than 16% of the next fiscal year's budgeted expenditures, in order to maintain adequate reserves to cover unforeseen emergencies and/or revenue shortfalls. Current budgetary practice has been to reserve at least 21% for such purposes or an amount equal to 2.5 months of operating expenditures.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: (1) Committed, (2) Assigned, and (3) Unassigned.

Net Position – Net position represents the difference between assets, deferred outflows of resources, deferred inflows of resources, and liabilities in reporting which utilizes the economic resources measurement focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

13. Management estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, deferred inflows of resources, and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures/expenses during the period. Actual results could differ from those estimates.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that “long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$134,648,105 difference are as follows:

Bonds payable	\$ (117,850,000)
Plus: Issuance premium	(6,781,043)
Deferred charge on refunding	118,573
Financed purchases payable	(5,974,675)
Subscription-based information technology arrangements	(608,464)
Accrued interest payable	(588,040)
Compensated absences	<u>(2,964,456)</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	<u><u>\$ (134,648,105)</u></u>

Another element of that reconciliation explains that “Net pension liability is not due and payable in the current period and is therefore not reported in governmental funds, along with related amounts.” The details of this \$22,597,438 difference are as follows:

Net pension liability	\$ (27,168,981)
Deferred outflows of resources:	
Difference between expected and actual experience	7,323,972
Assumption changes in plan	789,346
Net difference between projected and actual investment earnings - pensions	1,471,547
Deferred inflows of resources:	
Difference between expected and actual experience	(2,391,692)
Assumption changes in plan	<u>(2,621,630)</u>

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position (Continued)

Another element of that reconciliation explains that “Net OPEB liability (asset) is not due and payable in the current period and is therefore not reported in governmental funds, along with related amounts.” The details of this \$413,218 difference are as follows:

Net OPEB asset	\$	109,564
Deferred outflows of resources:		
Difference between expected and actual experience		24,096
Assumption changes in plan		51,317
Deferred inflow of resources:		
Difference between expected and actual experience		(108,949)
Assumption changes in plan		(133,986)
Net difference between projected and actual investment earnings - OPEB		<u>(355,260)</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	\$	<u><u>(413,218)</u></u>

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and change in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense.” The details of this \$20,906,263 difference are as follows:

Capital outlay	\$	31,243,782
Depreciation and amortization expense		<u>(10,337,519)</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	\$	<u><u>20,906,263</u></u>

NOTES TO FINANCIAL STATEMENTS

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities (Continued)

Another element of that reconciliation states that “The net effect of various miscellaneous transactions involving capital assets (i.e., sales and disposals) is to reduce net position.” The details of this \$277,873 difference are as follows:

In the statement of activities, only the gain or loss on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the capital assets sold.	\$ (277,873)
Net adjustment to reduce <i>net changes in fund balances - total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	<u>\$ (277,873)</u>

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this \$4,443,700 difference are as follows:

Compensated absences	\$ 123,400
Accrued interest	(28,408)
OPEB expense	708,791
Pension expense	<u>3,639,917</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	<u>\$ 4,443,700</u>

NOTES TO FINANCIAL STATEMENTS

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities (Continued)

Another element of that reconciliation states that “The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$5,528,198 difference are as follows:

Principal repayments:	
Bonds payable	\$ 4,215,000
Financed purchase payable	950,308
Subscription-based information technology arrangements	352,719
Issuance of SBITA	(845,969)
Amortization of deferred gain on refunding	71,969
Amortization of deferred charges on refunding	(131,255)
Amortization of bond premium	<u>915,426</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	<u><u>\$ 5,528,198</u></u>

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except the capital projects fund, which adopts a project-length budget. All annual appropriations lapse at fiscal year end.

The appropriated budget is prepared by fund, department, and function. The City’s department heads may make transfers of appropriations within departmental accounts of a specific fund. Transfers of appropriations between departments require the approval of the Council. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level, within the fund.

The Council made supplemental budgetary appropriations during a mid-year review process. These changes are reflected in the budget and actual comparison schedules.

NOTES TO FINANCIAL STATEMENTS

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

A. Budgetary information (Continued)

The technology department of the General Fund had an excess of actual expenditures over appropriations in the amount of \$518,993 for the fiscal year ended June 30, 2024. The debt service fund had an excess of actual expenditures over appropriations of \$7,525 for the fiscal year ended June 30, 2024. These over expenditures were funded by actual revenues in excess of budgeted amounts.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at fiscal year end are not reported as reservations of fund balances and do not constitute expenditures or liabilities in governmental funds, except for the capital projects funds, because the commitments will be honored during the subsequent fiscal year from newly appropriated funds during the budget process.

B. Deficit Fund Balance

The Grant Capital Fund has a deficit fund balance of \$554,564 at June 30, 2024. This deficit will be eliminated next year by recognition of grant revenues and transfers from other funds.

IV. DETAILED NOTES ON ALL FUNDS

A. Cash, cash equivalents, and investments

Primary government

In accordance with the City's Cash and Investment Management Policies, safety of principal is the foremost objective of the investment program. As a result, credit risk and investment rate risk are aggressively mitigated. To the extent possible, the City shall attempt to match investments with anticipated cash flow requirements. Any investment exceeding a five (5) year maturity must be disclosed to the City Council in writing.

As a means of limiting exposure to credit risk, the risk of loss due to the failure of the security issuer or backer, the Government limits investments to obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government and those deposit-type items which can be collateralized at 110% of the face value. Additionally, investments held outside the pension plan must have a credit rating issued by a nationally recognized statistical rating organization (NRSROs) which is in the top category, i.e. "A3" or better from Moody's and "A-" or better from Standard & Poor's. All investments met these requirements.

Georgia Fund 1	AAAf	33 days	\$ 118,473,924
U.S. Treasuries	AA+	2.8 years	24,109,736

Restricted Cash and Cash Equivalents			27,710,008
Investments			24,426,962
Total			<u>\$ 152,122,837</u>

The investment in Georgia Fund 1 is reported as a cash equivalent.

Fair Value Measurements. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The City has the following recurring fair value measurements as of June 30, 2024:

Investment	Level 1	Level 2	Level 3	Fair Value
Investments by Fair Value Level				
Fidelity Treasury Money Market				
Mutual Fund	\$ 191,191	\$ -	\$ -	\$ 191,191
U.S. Treasuries	24,109,736	-	-	24,109,736
Total Investments by Fair Value Level	<u>\$ 24,300,927</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 24,300,927</u>

The Fidelity Treasury money market mutual fund and the United States treasuries classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those investments.

The Georgia Fund 1 is an investment pool which does not meet the criteria of GASB Statement No. 79 and is thus valued at fair value in accordance with GASB Statement No. 31. As a result, the City does not disclose investment in the Georgia Fund 1 within the fair value hierarchy.

NOTES TO FINANCIAL STATEMENTS

IV. DETAILED NOTES ON ALL FUNDS (Continued)

A. Cash, cash equivalents, and investments (Continued)

Through the structuring of the investment portfolio so that securities mature to meet cash requirements for ongoing operations, the City reduces exposure to interest rate risk. Interest rate risk, the risk that the market value of securities in the portfolio will fall due to changes in general interest rates, is also managed through the City's objective to hold investments until maturity. Meaning, the yield received on the life of the security for invested funds is greater than funds that are not invested due to an anticipated improvement to economic conditions.

The City's investment policy limits investments from any one issuer to no more than 5% of the total investment portfolio, excluding investments explicitly guaranteed by the U.S. Government. Thus, the City's concentration of investments into any single issuer is managed by expanding the exposure of the investment portfolio to multiple issuers.

The local government investment pool, "Georgia Fund 1," created by OCGA 36-83-8, is a stable asset value investment pool, which follows Fitch's criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair market value as of year end and the City's investment in the Georgia Fund 1 is reported at fair value. The City considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation.

Custodial Credit Risk – Deposits: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits to be collateralized by depository insurance or pledged securities. Amounts that exceed standard depository insurance limits are required to be collateralized either (1) individually by the financial institutions through pledged obligations of the U.S. Government, obligations backed by the full faith and credit of the U.S. Government, obligations of the State of Georgia or other states, or obligations of counties, municipalities, or public authorities of the State of Georgia, or (2) participation in the State of Georgia Secure Deposit Program. As of June 30, 2024, all of the City's bank balances were insured or collateralized as defined by GASB and state statutes.

Pension Plan Trust Fund

The Pension Trust Fund's policy on authorized investments, including the proper asset allocation and benchmarking criteria, is established via an Investment Policy Statement (IPS) which is amended from time to time by the Board of Trustees. As permitted by state statutes, subject to certain limitations therein and within the IPS, the IPS generally authorizes the Pension Plan Trust Fund to invest in the following investments: cash and cash equivalents (including money market funds and stable value funds); investment grade domestic and international fixed-income securities (government and corporate entity obligations, asset-backed securities, commercial paper or similar fixed-income contracts); domestic and international equities (up to 75%); real estate investment trusts (REITs); and certain alternative investments (up to 5%). This asset allocation mix is as follows: Total Fixed-Income targeted at 30%, with an acceptable range of 25% to 40%; Domestic Equities targeted at 50%, with an acceptable range of 36% to 63%, International Equities targeted at 15%, with an acceptable range of 7.50% to 22.50%, Alternatives (Private Real Estate) targeted at 5%, with an acceptable range of 0% to 5%.

The investment policy considers the duration of the assets and liabilities when managing interest rate risk in the bond portfolio. However, no formal policy to address potential fair value losses from rising interest rates has been adopted by the Board of Trustees.

V. OTHER INFORMATION

A. Risk management

The City is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omission; and natural disasters for which the City carries commercial insurance. There have been no significant reductions in insurance coverage in the prior year and settled claims have not exceeded coverage in any of the past three fiscal years. The City previously established a limited risk management program for workers' compensation.

Liabilities are reported when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage award. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. Workers' compensation claims exceeding \$300,000 per incident and \$1,000,000 in the aggregate are also insured through a private insurance carrier, whereas liability claims below this threshold are paid directly by the City. It is the City's intention to maintain an equity balance equivalent to cover the unpaid claims.

Changes in the balances of risk management claims liabilities during the past two fiscal years are as follows:

	Fiscal Year Ended June 30, 2024	Fiscal Year Ended June 30, 2023
Unpaid claims, beginning of fiscal year	\$ 856,230	\$ 965,141
Claims incurred	529,000	477,000
Claims paid	(523,193)	(585,911)
Unpaid claims, end of fiscal year	<u><u>\$ 862,037</u></u>	<u><u>\$ 856,230</u></u>

Effective July 1, 2015, the City elected to change their medical insurance policy to a Shared Returns – Minimum Premium policy. Under the policy, the City is responsible for making minimum premium payments set to cover the costs for the plan administration, commissions, and insurance protection. Additionally, the City is responsible for any claims which are filed each month up to a certain maximum or cap based on the specific plan terms. The monthly cap varies each month based on number of covered employees and the selected coverage. The plan is administered by Cigna and the claims are paid through an imprest bank account which is funded by the City. The changes in the medical claims liability is as follows:

B. Contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustments by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City has the following encumbrances at year end for which expenditures will be incurred in the subsequent fiscal year:

Capital Projects Fund	\$ 5,188,567
2017 T-SPLOST Fund	17,772,890
2022 Bond Construction Fund	701,974

Under Georgia law, the City, in conjunction with other cities around the Metropolitan Atlanta, Georgia area, is a member of the Atlanta Regional Commission (ARC) and is required to pay annual dues thereto, which the City of Atlanta has paid on behalf of the City of Alpharetta since the 2004 fiscal year. Membership in ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organization structure of ARC. ARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member Governments are liable for any debts or obligations of the ARC. Separate financial statements may be obtained from ARC, 40 Courtland Street NE, Atlanta, Georgia 30303.

The cities of Alpharetta, Milton, Roswell, and Sandy Springs have created the North Fulton Regional Radio System Authority (the "Authority"), which was established by Georgia House Bill 526. The Authority will provide an interoperable, high quality, reliable and uninterrupted communication signal for public safety and public services within the area in which the Authority has operational capability.

The Authority's Board membership includes the City Manager or City Administrator, or his or her designee, from each participating city.

The Authority was created by the cities contributing a predetermined capital amount necessary to fund the construction and equipping of the radio system. In accordance with GASB Statement No. 14, *The Financial Reporting Entity*, the Authority was determined to be a joint venture; however, the City does not have an equity interest in the joint venture. Of the estimated \$16 million required to initially capitalize the Authority, the City of Alpharetta is responsible for approximately \$3.7 million pursuant to the intergovernmental agreement between the cities. For the fiscal year ended June 30, 2024, the City of Alpharetta contributed \$616,124 to the Authority. Separate financial statements may be obtained from the City of Sandy Springs, who has been contracted by the Authority to serve as the accountants, at 1 Galambos Way, Sandy Springs, Georgia 30328.

D. Retirement plans

1. Defined Benefit Pension Plan – Combined Plan

Plan Administration. The City of Alpharetta maintains a single-employer defined benefit pension plan, comprised of the City of Alpharetta Regular Defined Benefit Pension Plan (the "Regular Plan") and the City of Alpharetta Enhanced Defined Benefit Pension Plan (the "Enhanced Plan" or in combination the "Plans"), for the employees of the City of Alpharetta. For all reporting, funding, accounting and actuarial purposes, the Plans have been merged into a single plan, The City of Alpharetta Combined Defined Benefit Plan (the "Combined Plan") effective July 1, 2011 whereby the Plan assets are accumulated in aggregate and may legally be used to pay any benefits to any of the combined Plan members or beneficiaries. The Combined Plan is administered by a Board of Trustees, who has executed trust agreements with a financial institution to hold, manage, invest, and distribute

contributions in accordance with the provisions of the Plans. The Board of Trustees consists of five members, the City Administrator, City Council member liaison to the Finance Department, the Finance Director, the City Attorney, and the Mayor's designee. Benefit provisions are established and may be amended by the City Council. Annual contributions are determined through an actuarial valuation of the Combined Plan and are approved by City Council as part of the annual budgeting process. The Plans are closed to new entrants. The Regular Plan is funded by the City only while the Enhanced Plan is funded by both the City and the Plan participants.

The Combined Plan covers all full-time City employees and City officials. Employees become eligible to participate in the Combined Plan after one year of employment and are fully vested after five years of employment. Benefit provisions are established by a resolution of City Council. The Combined Plan provides retirement and death benefits to Plan members and beneficiaries. The Combined Plan does not issue separate stand-alone financial reports.

Plan Membership. At January 1, 2024, the date of the most recent actuarial valuation, there were 526 participants consisting of the following:

Retirees and beneficiaries currently receiving benefits	204
Vested terminated employees not yet receiving benefits	158
Active employees	164
	<u>526</u>

Benefits. The Plan provides retirement, disability, and death benefits. Retirement benefits for plan members are calculated as 2% of final average earnings per year of credited service. Participants who elected the enhanced formula and who are making employee contributions will receive an additional 0.5% of final average earnings multiplied by the years of credited service after December 31, 2007. A participant's late retirement benefit is equal to the accrued benefit using all service and earnings as of termination. Plan members with 5 years of continuous service are eligible to retire at age 55. The participant may receive a monthly benefit equal to the benefit accrued at early retirement date reduced 3% for each year the payment date precedes the normal retirement date. Regular plan members who terminate on or after age 55 with the sum of age and vesting service equal to at least 80, public service plan members employed on July 1, 1999 who terminate on or after age 55 with at least 5 years of vesting service, and public service plan members not employed on July 1, 1999 who terminate on or after age 55 with at least 10 years of vesting service are eligible for unreduced early retirement. Death benefits are calculated as if the participant terminated on his date of death, survived until his date of retirement, elected a 50% joint and survivor benefit and died the next day. An unmarried participant will not be eligible for any pre-retirement death benefits. If a member terminates employment prior to completing ten years of continuous service, he or she shall be entitled to a refund of his or her accumulated contributions with interest.

Contributions. For the Regular Plan, only the City makes contributions. For the Enhanced Plan, both the City and the Employees (at 2.5% of payroll) make contributions to the Plan. For fiscal year 2024, employees contributed \$311,026 to the Enhanced Plan. The City is required to contribute at an actuarially determined rate: the contribution rate for 2024 was 21.78% of payroll for the Combined Plan. The annual required contributions for the current fiscal year were determined as part of the January 1, 2024 actuarial valuations using the projected unit credit method. The actuarial assumptions included (a) a rate of return on the investments of present and future assets of 7.5% per year, compounded annually and net of investment expenses and (b) projected salary increases of 2.10% - 4.20% per year, adjusted for employee age, which includes 2.5% for inflation.

The following actuarial assumptions applied to all periods included in the measurement:

Inflation	2.5%
Salary increases, including inflation	4.20% - under 30 years old
	3.90% - ages 30-34
	3.50% - ages 35-59
	2.60% - ages 60-64
	2.10% - ages 65+
Investment rate of return	7.5%, including inflation, net of investment expense

Mortality rates were based upon the PRI-2012 Employee Tables with the Retiree and Contingent Survivor Tables for annuitants projected forward with Scale MP-2021 for all years.

The actuarial assumptions used in the January 1, 2024 valuation were based on the results of the most recent experience study which was performed in April 2015, taking into account ten years of data experience.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2024 are: Equities – 50%, International Equities – 15%, Fixed-Income – 30%, and Alternatives – 5%.

Discount Rate. The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability of the City. The changes in the components of the net pension liability of the City for the fiscal year ended June 30, 2024, were as follows:

Plan description and funding requirements. The City maintains a supplemental retirement plan for all employees entitled to the deferred compensation plan, a single-employer, defined contribution plan. Both full-time and part-time employees of the City are eligible to participate. This Plan is administered by Transamerica as a 401(a) and 457 Plan, as defined by the Internal Revenue Service. At June 30, 2024, there were 429 employees and 354 participants. Plan provisions and contribution requirements are established and may be amended by the City Council (the "Board").

Employees may elect to contribute a portion of their pay, not to exceed the IRS guidelines, into the 457 Plan. Upon completion of one year of employment for full-time employees and three years of employment for part-time employees, the City will match the employee's contribution, up to 5% of the employee's annual salary, into the 401(a) Plan. Additionally, the City is required to contribute 10% of the annual salary of all employees hired subsequent to June 30, 2009. The City Council has the ability to amend the Plan provisions. For the fiscal year ended June 30, 2024, the City's contribution to the 401(a) Plan was \$3,634,919. The amount contributed by employees into the 457 Plan was \$3,302,533.

Plan Administration and benefits. The City of Alpharetta Retiree Benefit Plan (the "COARBP") is a single employer defined benefit postretirement health care plan. Through June 30, 2011, the Plan operated on a "pay-as-you-go" basis. The City reports in the financial statements the "costs" associated with the future participation of retirees in this benefit. The Plan does not issue a separate stand-alone financial report. The Plan is administered by a Board of Trustees, who has executed trust agreements with a financial institution to hold, manage, invest, and distribute contributions in accordance with the provisions of the Plan. Benefit provisions are established and may be amended by the City Council.

Net OPEB Liability (Asset) of the City

Changes in Net OPEB Liability (asset) of the City. The City's Net OPEB liability (asset) was measured as of June 30, 2024, and the total OPEB liability used to calculate the Net OPEB liability (asset) was determined by an actuarial valuation as of July 1, 2024 with the actuary using standard techniques to rollforward the liability to the measurement date.

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of July 1, 2024, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate:	3.50%
Long-term expected rate of return on OPEB investments	3.5%, net of investment expense, including inflation
Healthcare Cost Trend Rate:	7.0% per annum, gradually decreasing to 3.50%
Inflation Rate:	2.50%
Salary increase:	2.10%-4.20% plus merit

The total OPEB liability was rolled forward to June 30, 2024, utilizing update procedures incorporating the actuarial assumptions.

Mortality rates for pre-retirement were based on the RP-2014 Employee Tables for males and females; projected to be fully generational with MP-2017 Mortality Improvement Scale. Postretirement mortality rates were based on the RP-2014 Healthy Annuitant Tables for males and females; projected to be fully generational with MP-2017 Mortality Improvement Scale.

The actuarial assumptions used in the July 1, 2023 valuation were based on the results of an actuarial experience study for the period ended December 31, 2005. The population is too small to justify a statistically significant result.

The long-term expected rate of return on COARBP investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the major target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, are presented previously.

Discount rate. The discount rate used to measure the total OPEB liability was 3.50%. The projection of cash flows used to determine the discount rate assumed that the City will contribute at rates equal to the actuarially determined contribution rates. Based on those assumptions, the COARBP's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on COARBP investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate of 3.50% has remained consistent with the discount rate utilized to determine the total OPEB liability as of the beginning of the measurement period.

Net OPEB Liability (Asset) of the City

The required schedule of changes in the City's net OPEB liability (asset) and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total OPEB liability.

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate. The following presents the net OPEB liability (asset) of the City, as well as what the City's net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (3.5% decreasing to 2.5%) or 1-percentage-point higher (3.5% increasing to 4.5%) than the current discount rate:

	1% Decrease (2.50%)	Discount Rate (3.50%)	1% Increase (4.50%)
Net OPEB liability (asset)	\$ (106,604)	\$ (109,564)	\$ (112,370)

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Healthcare Cost Trend Rates. The following presents the net OPEB liability (asset) of the City, as well as what the City's net OPEB liability (asset) would be if it were to calculate healthcare cost trend rates that are 1-percentage-point lower (6.0% decreasing to 5.0%) or 1-percentage-point higher (8.0% increasing to 9.0%) than the current healthcare cost trend rates:

	1% Decrease	Current rates	1% Increase
Net OPEB liability (asset)	\$ (111,830)	\$ (109,564)	\$ (107,227)

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revisions as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of June 30, 2024 and the current sharing pattern of costs between employer and employee.

2. *Defined Contribution Plan (Continued)*

Full-time employees who terminate employment with a minimum of 15 years of service and reach the age of 55 will be eligible to receive a monthly health reimbursement benefit as periodically determined by the Board of Trustees. The monthly benefit is available to the participant to cover eligible medical expenses (of the participant or the participant's spouse or dependent) as defined under Section 213(d) of the IRS Code. The City funds this benefit at an amount equal to 2.5% of all employees' annual regular wages. The City Council has the ability to amend the Plan provisions. Homestead exemption was increased to \$45,000 per household in fiscal year 2020.

Floating exemption included beginning fiscal year 2021.

Senior basic homestead exemption was increased to \$25,000 for residents 65 and older in fiscal year 2021.

Sources: Assessed value data used to estimate applicable percentages provided by Fulton County Board of Assessors. Debt outstanding data provided by the Fulton County Board of Education.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the government's boundaries and dividing it by the County's total taxable assessed value.

- Director of Public Works, Pete Sewczwicz, came forward to present this item.
- Mitigation credits are required from the United States Army Corps of Engineers (USACE) due to the impacts on the banks of Big Creek associated with the construction of a new vehicular bridge.
- Wetland credits are a way to compensate for the loss of or negative impact on wetlands on a given site or property. The credits are purchased from Wetland Mitigation Banks, which create them by restoring, creating, or enhancing wetlands.
- A total of 181 linear feet of stream bank will be impacted. USACE has a calculation to determine the number of credits required based on the impact on the stream banks. Since our impacts will be permanent, but will not have an adverse impact, the multiplier is 0.75 credits per linear foot. Since we are impacting 181 linear feet, we need to purchase 135.75 credits.

- The project design and right-of-way (ROW) acquisition are nearly complete, and the project is scheduled to be advertised for construction by GDOT in July 2025. The City has contributed approximately \$5,000,000 towards the design and right-of-way (ROW) acquisition, and permitting fees, while GDOT is funding the construction of the Project, currently estimated at \$37,000,000.
- For the Old Milton Parkway widening project, the total estimated cost, provided by GDOT, is \$407,250. This dollar amount is determined by the mitigation bank. For our region, the fee is \$3,000 per credit.

This Private Development Agreement (the "Agreement") is entered into this _____ day of _____, 2025, by and between the City of Alpharetta (the "City") and GRBK Devore, LLC (the "Owner").

WITNESSETH:

WHEREAS, on January 23, 2017, pursuant to The Providence Group of Georgia, LLC ("The Providence Group") Zoning Petition Number Z-16-13/CU-16-20/V-16-27 Perling/13 South Main Street/DT-MU, the Mayor and Council rezoned approximately 12.913 acres on the north side of Devore Road from C-2 to DT-MU for the construction of single-family townhome and condominium "for sale" residential dwellings, for-rent units and office, retail, and restaurant use(the "Property"); and

WHEREAS, the portion of the Alpha Loop to be constructed by the Owner, and the associated permanent easement, are depicted in Exhibit A to this Agreement; and

WHEREAS, the Impact Fee Ordinance contemplates that the City and property owners may enter into private development agreements to establish terms for the dedication of land and/or construction of system improvements, the value and cost of which may be utilized in lieu of the payment of impact fees and/or as an alternate method of payment of impact fees and other fees; and

The Owner shall, at its sole cost and expense, construct a certain portion of the Alpha Loop Trail (the "Public Improvements"), to include associated lighting, signage, and the acquisition and installation of certain Alpha Loop-related furniture; and, in addition to such improvements, the Owner shall, following completion of construction, dedicate a 15' permanent public pedestrian access easement for the Alpha Loop to the City, with such trail and easement are specifically described and delineated in the attached Exhibit "A". The Owner acknowledges and agrees that the City shall not issue a final certificate of

occupancy for the development until such time as the Public Improvements are constructed, the public access and maintenance easement is reviewed and approved by the City and is otherwise executed and recorded in the Fulton County deed records, and the portion of the Alpha Loop referenced in this Agreement is open to the public.

2. Maintenance of the Public Improvements. The City acknowledges and agrees to maintain the concrete trail (i.e., hardscape) along with the lighting and associated Alpha Loop signage and furniture. The Owner acknowledges and agrees that all remaining portions of the Public Improvements (i.e., landscaping, dog waste stations, and irrigation) shall be the responsibility of the community association designated to the development (i.e., The Maxwell Master Association, Inc.

The parties acknowledge and agree that the estimated amount of such Public Improvements construction costs is \$98,344.82, and the valuation for the permanent public pedestrian access easement is \$37,884.25, as depicted in Exhibit "B." Owner shall be entitled to utilize its Recreation and Park Impact Fee Credits (i) to offset Recreation and Park Impact Fees associated with the current development on the Property; (ii) to utilize said credit in the

TERMS and CONDITIONS (NEC Non-Governmental)

1. **Lighting Equipment Sale.** Georgia Power Company ("GPC") will sell to "Customer" (identified on Page 1 of this Sale Agreement ("Agreement")) the "Equipment" referenced on Page 1 for use at the stated "Service Address" (the "Premises"). The "Equipment" includes all poles, bases, wiring, conduit, fixtures, controls, and related items necessary to provide lighting through the listed fixtures, unless expressly noted otherwise in "Project Notes."
2. **Title and Risk of Loss.** To secure payment in full of all amounts payable by Customer, Customer grants to GPC a purchase money security interest in, and security title to, all Equipment and all proceeds from sale or disposition of the Equipment. Customer agrees to execute any financing statement or other documentation requested by GPC in order to protect and perfect the granted security interest. Customer further authorizes GPC to file any UCC financing statement or other documentation to protect or perfect its security interest, with or without Customer's signature. Risk of loss for the Equipment transfers to Customer when GPC completes start-up and operational testing of the Equipment ("Completion Date"). Any claim against GPC for non-delivery or shortage in delivery must be made in writing to GPC within 30 days after the Completion Date. Title to the Equipment will transfer to Customer only upon GPC's receipt of full payment in accordance with this Agreement.
3. **Payment.** GPC will invoice Customer per the terms stated on Page 1 as soon as possible after the Completion Date. Customer agrees to pay the total amount within 20 days of invoice. Customer also agrees to pay a 1.5% late fee on any unpaid balance outstanding past the due date. **GPC makes no representation or warranty regarding treatment of this transaction by the Internal Revenue Service or the status of this Agreement under any federal or state tax law; Customer enters into this Agreement in sole reliance upon Customer's own advisors.**
4. **Premises Activity.** Customer grants a license and right of access to GPC, and its contractors and representatives, to enter the Premises with vehicles and equipment to: (i) install and connect the Equipment and, if applicable, remove or disconnect existing equipment (collectively, the "Installation"); (ii) inspect, maintain, test, replace, repair, or remove the Equipment; (iii) provide electric service for the Equipment; or (iv) conduct any other Agreement-related activity (items (i) – (iv) collectively, the "GPC Activity"). Customer represents that the individual signing this Agreement on its behalf has authority to do so and that it has express authority from all Premises owners (and any other party with rights in the Premises) to enter into this Agreement and to authorize the GPC Activity. **Customer is solely responsible for safety of the Premises and agrees that GPC has no obligation to ensure the safety of the Premises.**
5. **Installation.** Customer represents that: (i) the Premises' final grade will vary no more than 6 inches from the grade existing at the time of Installation; and (ii) if applicable and required for proper Installation, Premises property lines will be clearly marked before Installation.
 - A. **Customer Work.** If GPC, upon Customer's request, allows Customer to perform any part of the Installation (including trenching) itself or through a third party, Customer warrants that the work will meet GPC's installation specifications (which GPC will provide to Customer and are incorporated by this reference). Customer is responsible for all reasonable additional costs arising from Customer's non-compliance with GPC's specifications or lack of timely (i.e., 10 days') notice to GPC that GPC's Installation activity can commence.
 - B. **Underground Facility/Obstruction Not Subject to Dig Law.** Because GPC Activity may require excavation not subject to the Georgia Utility Facility Protection Act (O.C.G.A. §§25-9-1 – 25-9-13) ("Dig Law"), **Customer must mark any private utility or facility (e.g., gas/ water/sewer line; irrigation facility; low voltage data/communication line) or other underground obstruction at the Premises that is not subject to the Dig Law.** If GPC causes or incurs damage due to Customer's failure to mark a private facility or obstruction before GPC commences Installation, Customer is responsible for all damages and any resulting delay.
 - C. **Unforeseen Condition.** The estimated charges shown on Page 1 include no allowance for any subsurface rock, wetland, underground stream, buried waste, unsuitable soil, underground obstruction, archeological artifact, burial ground, threatened or endangered species, hazardous substance, etc. not properly marked or identified ("Unforeseen Condition"). If GPC encounters an Unforeseen Condition, GPC, in its sole discretion, may stop all GPC Activity until Customer either remedies the condition or agrees to reimburse all GPC costs arising from the condition. Customer is responsible for all costs of Equipment modification or change requested by Customer or dictated by an Unforeseen Condition or circumstance outside GPC's control.
6. **Limited Maintenance.** GPC will maintain the Equipment and bear the cost of routine repair or replacement (at GPC's option) for all GPC-installed Equipment components for a period of 12 months after Completion Date. Routine repair or replacement excludes damage caused by Customer, weather, or a third party. Customer must notify GPC of any need for Equipment repair by either calling (888) 660-5890 or reporting the need online (<http://outdoorlighting.georgiapower.com>).
7. **Disclaimer; Damages.** Except as expressly stated in Section 6, **GPC makes no covenant, warranty, or representation of any kind (including warranty of fitness for a particular purpose or of merchantability) regarding the Equipment or any GPC Activity.** Customer also acknowledges that, due to the unique characteristics of the Premises, Customer's needs, or Equipment choice, the Equipment may not follow IESNA guidelines. **Customer waives any right to consequential, special, indirect, treble, exemplary, incidental, punitive, loss of business reputation, or loss of use (including loss of revenue, profits, or capital costs) damages in connection with the Equipment or this Agreement, or arising from damage, hindrance, or delay involving the Equipment or this Agreement, whether or not reasonable, foreseeable, contemplated, or avoidable.**
8. **Indemnity.** To the fullest extent allowed by law, Customer agrees to indemnify, release, hold harmless, and, at GPC's request, defend GPC and its affiliates and contractors (and their officers, directors, employees, representatives, and agents) from or against any loss, damage, cost, expense, or liability (including actual attorneys' fees reasonably incurred and all expenses of investigation and defense) for any damage or claim for personal or bodily injury (including death), property damage (including loss of use), monetary damage, or equitable relief caused by or arising out of any misrepresentation or act or omission of Customer involving this Agreement, the Equipment, or the Premises, whether or not caused by or arising out of the joint, concurrent, or contributory (but not sole) negligence of GPC.
9. **Default.** Customer is in default if Customer does not pay the entire amount owed within 45 days of billing. GPC's waiver of any past default will not waive any other default. If default occurs, GPC, at its discretion, may immediately terminate this Agreement, collect all past due amounts (including late fees) and all amounts due for the Equipment, remove the Equipment from the Premises, and seek any other available remedy.
10. **Miscellaneous.** This Agreement contains the parties' entire agreement relating to the Equipment and replaces any prior agreement, written or oral. Only a written amendment signed by each party can modify this Agreement, except that either party may update administrative or contact information (e.g., address, phone, website) at any time by written notice to the other party. DATE: APRIL 14, 2025

RE: FINANCIAL MANAGEMENT REPORTS AS OF FEBRUARY 28, 2025

The documents contained herein represent the financial management reports for the City of Alpharetta ("city") as of the period ending February 28, 2025.

General Fund

Revenue: The following section pertains to information detailed in the attached Revenue Summary and Collection Comparison report. FY 2025 revenues are budgeted at \$94.2 million (net of Carryforward Fund Balance totaling \$9 million). As of February 28, 2025, actual revenue collections total 77% or \$72.9 million. Trends (property digest valuations and collection trends) through the December collection period indicate collections exceeding budget by \$340,971 and will be updated in future periods as more trend data becomes available.

The October 1st billing for General Fund property taxes totals roughly \$33.2 million. Property taxes for public utilities will occur in Spring 2025 and is estimated at an additional \$455,000. Historically, the City collects between 98% and 99% of billed property taxes within the fiscal year but the figure for FY 2024 was closer to 97%. The current budget for property taxes totals \$33.2 million and represents 98.5% of the initial billing. Due to the recent collection trends being lower than historical averages, the revenue forecast is being reduced to \$33 million with further adjustments held pending data on appeals and adjustments.

Motor Vehicle Title Fee collections is trending -5% less than FY 2024 (\$3.5 million) with the January/February (combined) collections representing a reduction of -7% over prior year collections for the same period. Collection estimates for FY 2025 tentatively total \$3.5 million (\$450,000 less than budget) and will be adjusted down further if the current revenue trends continue.

Franchise tax collections represents an estimated gain of \$402,917. Specifically, the forecast for electricity franchise tax collections reflects Georgia Power (\$5.2 million) remittances which equate to growth of 16% compared to 2024 actuals (\$4.4 million). Partially offsetting the growth in electricity franchise tax collections is the cable and telephone components. Franchise taxes for cable have been declining since FY 2020 (\$919,107) and

is down -14% year-to-date resulting in a revised forecast of \$560,000 in FY 2025 (\$100,000 less than budget). Franchise taxes for telecommunication have been declining since FY 2022 and is down -69% year-to-date due primarily to a settlement with a telecom provider resulting in a revised forecast of \$175,000 in FY 2025 (\$105,000 less than budget).

Insurance Premium Tax collections total \$6.3 million in FY 2025 and represent an 8% increase (\$204,075 greater than budget) over FY 2024 collections of \$5.8 million.

Collections for Alcohol Beverage Excise Taxes is trending -7% lower than FY 2024. Current estimates for FY 2025 total \$2.75 million which is -\$150,000 less than budget.

Building Permit Fee collections is trending 22% higher than FY 2024 (\$1.8 million). This revenue source is non-standard in that it experiences high variability dependent upon development/construction trends occurring within the City. While the revenue collection trend may change moving forward, staff felt it was prudent to tentatively adjust the FY 2025 collection estimate to \$2 million (\$175,000 greater than budget) pending further trend data.

Collections for Municipal Court Fines is trending 22% higher than FY 2024 (\$1.6 million). While the revenue trend is positive, the trend is not strong enough to cover the budgetary growth programmed into the FY 2025 budget. Collection estimates for FY 2025 total \$1.7 million which is -\$150,000 less than budget.

Hotel/Motel tax collections is discussed within the Special Revenue Funds section of this letter.

Expenditures: The following section pertains to information detailed in the attached Expenditure Summary by Department (expenditure rollup by department) and Expenditure Summary by Category (expenditure rollup by account) reports. As of February 28, 2025, city departments (not including General Government¹) have encumbered and expensed 67%, or \$59.4 million, of their FY 2025 budget appropriations.

Contingency: The General Fund contingency balance totals \$752,874 (including the Operating Initiative Reserve).

For comparison purposes, TSPLOST 1 collections trended at over 90% of forecasted revenue collections. Life-to-date collections for TSPLOST 2 have trended at 121% of the original forecasted revenue collections.

Unspent/unencumbered project appropriations total \$21.6 million. Remaining appropriations are set aside for a non-allocated reserve (\$7.5 million).

Specifically, Debt Service Reserve funding (Convention Center Bonds) from the Facilities portion of the tax totals \$1.7 million and is in excess of the \$1.5 million target.

EXHIBIT A

ARTICLE IX. MASSAGE AND SPA ESTABLISHMENTS

Sec. 10-275. Purpose and legislative findings.

The Georgia General Assembly has declared that the practice of massage therapy is an activity affecting the public interest and involving the health, safety, and welfare of the public, and that the practice of massage therapy by a person who is not licensed under the Georgia Massage Therapy Practice Act (O.C.G.A. § 43-24A-1 et seq.) is a public nuisance, and harmful to the public health, safety, and welfare. The city council agrees with those findings. Furthermore, the city council finds that, for many massage establishments, the business in fact is sexual conduct or the intimation of sexual conduct, rather than lawful massage therapy. Such establishments offer massage services as a subterfuge for prostitution, masturbation for hire, and other paid sexual contact, which are harmful to the public health, safety, and welfare. There is difficulty and expense in conclusively distinguishing between such establishments and legitimate massage establishments, but one rational distinction is whether the establishment has a relationship with a corporate or franchising hierarchy, which would tend to safeguard against unlawful sexual activities on the massage establishment premises. It is a purpose of this article to impose licensing requirements to help prevent illegal massage, prostitution, and related sex crimes, yet without hindering legitimate massage establishments operating under a business structure with external oversight that serves that purpose. Pursuant to O.C.G.A. § 43-24A-22 (allowing local regulation of massage businesses and of persons not licensed by the state), it is the purpose of this article to regulate the operation of massage establishments and spa establishments, and to regulate employees of such establishments who are not licensed as massage therapists by the state, as an exercise of the city's police power in order to protect the health, safety and general welfare of the citizens of the city.

Sec. 10-276. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Applicant means any person, firm, corporation, or other legal entity applying for a license to operate a massage establishment or spa establishment, as defined herein, or a person applying for a work permit, as provided for herein.

Employee means any person who performs any service on the premises of a massage establishment or spa establishment, on a full-time, part-time, or contract basis, regardless of whether the person is denominated an employee, independent contractor, agent, apprentice, trainee, or otherwise. The term "employee" does not include a person who is licensed or provisionally permitted pursuant to the Georgia Massage Therapy Practice Act (O.C.G.A. § 43-24A-1 et seq.), or a person exclusively on the premises for repair or maintenance of the premises or for the delivery of goods to the premises.

Hearing officer means the city administrator, or his/her designee, appointed to conduct hearings under this article.

Massage or massage therapy means the application of a system of structured touch, pressure, movement, and holding to the soft tissue of the body in which the primary intent is to enhance or restore health and well-being. Such term includes complementary methods, including without limitation cupping therapy, taping techniques, the external application of water, superficial heat, superficial cold, lubricants, salt scrubs, or other topical preparations and the use of commercially available electromechanical devices which do not require the use of transcutaneous electrodes and which mimic or enhance the actions possible by the hands; the term also includes determining whether massage therapy is appropriate or contraindicated, or whether referral to another health care provider is appropriate. Such term shall not include the use of ultrasound, fluidotherapy, laser, and other methods of deep thermal modalities. Such business shall be located within a zoning category allowing retail use, shall not occupy more than 4,000 square feet and shall not be closer than 2,000 feet to a comparable business. The term "massage" or "massage therapy" shall not include diagnosis, the prescribing of drugs or medicines, spinal or other joint manipulations, or any service or procedure when performed by a person who is licensed by the state to practice

chiropractic, physical therapy, podiatry or medicine. Further, the term "massage" or "massage therapy" shall not include the following when lawfully performed by a natural person licensed or certified by the state board of cosmetology while engaged in the practice authorized by such state license (or certificate of registration) in accordance with, and as further regulated by, the state licensing laws set forth in O.C.G.A. § 43-10-1 et seq.:

The foregoing minimum distance requirements shall not apply to any massage establishment located within a mixed use development in the MU district. For the purpose of this subsection, measurements shall be made in a straight line in all directions without regard to intervening structures or objects, from the closest point on a boundary line of the massage establishment parcel to the closest point on the State Route 9 or State Route 120 right-of-way, or to the closest point on a boundary line of any parcel containing a house of worship, public or private elementary or secondary school, public park, or residence.

Massage apparatus means any manual, mechanical, hydraulic, hydrokinetic, electric or electronic device or instrument or any device or instrument operated by manual, mechanical, hydraulic, hydrokinetic or electric power for the purpose of administering a massage.

Massage establishment means a commercial establishment where any person offers or engages in massage or massage therapy. The term "massage establishment" shall not include hospitals or other professional health care establishments separately licensed as such by the state.

Premises means the real property, or portion thereof, upon which the massage establishment or spa establishment is located, including, but not limited to, the establishment and the grounds, private walkways, and parking lots and/or parking garages under the ownership or control of the establishment.

Spa establishment means a business that provides services requiring a customer to disrobe, which may include non-medical massage, other personal services such as skin, nail, hair treatments, hair removal/waxing, and may have the sale of associated retail products. Such business shall be located within a zoning category allowing retail use, shall not occupy more than 4,000 square feet and shall not be closer than 2,000 feet to a comparable business. The term "spa establishment" shall not include hospitals or other professional health care establishments separately licensed as such by the state.

It shall be unlawful to establish a spa establishment in the city, unless said establishment is located:

- (1) At least 300 feet from State Route 9;
- (2) At least 300 feet from State Route 120; and
- (3) At least 300 feet from any parcel occupied by a house of worship, public or private elementary or secondary school, public park, state-licensed day care facility, or any residence.

The foregoing minimum distance requirements shall not apply to any spa establishment located within a mixed use development in the MU district. For the purpose of this subsection, measurements shall be made in a straight line in all directions without regard to intervening structures or objects, from the closest point on a boundary line of the spa establishment parcel to the closest point on the State Route 9 or State Route 120 right-of-way, or to the closest point on a boundary line of any parcel containing a house of worship, public or private elementary or secondary school, public park, or residence.

- (5) Any attempt, solicitation, or conspiracy to commit one of the foregoing offenses; or

Sec. 10-277. Penalties.

Any person violating any of the provisions of this article shall be punished as provided in section 1-8. Nothing in this section and no action taken hereunder shall be held to exclude such other civil, criminal, or administrative proceedings as may be authorized by other provisions of this Code or any of the laws in force in the city, or to exempt anyone violating this Code or any part of said laws from any penalty which may be incurred.

Sec. 10-278. Scope of regulations.

- (a) All licenses and work permits issued under this article shall constitute a mere privilege to operate or work at the establishment specified in the license or work permit during the term of the license or work permit only, and shall be subject to all terms and conditions imposed by the city, the county and the state.
- (b) This article shall not be enforced against:
 - (1) Any natural person who is a physician, chiropractor, physical therapist, or similar professional licensed and regulated by or through the state while engaged in the practice of the profession for which the person is licensed by the state;

Upon the expiration of an exemption, the establishment and its employees are subject to all requirements of sections 10-279 through 10-281. Any request for an exemption shall be submitted in writing to the director of community development and is automatically rejected unless the director of community development grants the exemption. An exemption, if granted by the director of community development, shall be in writing and shall be based upon evaluation of the request according to the following standards:

 - (2) Whether persons who provide services to customers at the establishment hold state licenses;

For the purpose of this subsection, measurements shall be made in a straight line in all directions without regard to intervening structures or objects, from the closest point on a boundary line of the massage establishment or spa establishment parcel to the closest point on the State Route 9 or State Route 120 right-of-way, or to the closest point on a boundary line of any parcel containing a house of worship, public or private elementary or secondary school, public park, or residence.
- (15) For every person on the premises who offers, or will offer, services for which a license under O.C.G.A. § 43-24A-1 et seq. is required, a copy of the state license for each such person as well as a color photograph, no smaller than two inches by two inches, showing the face, neck, and shoulders of each such person; or, if there are none, a statement certifying that the application is for the operation of a spa establishment only and that neither the establishment nor any person on the premises offers, or will offer, massage or services for which said person is required to be licensed by the State of Georgia pursuant to O.C.G.A. § 43-24A-1, et seq.
- (16) As a prerequisite to the issuance of any license, the applicant shall furnish a complete set of fingerprints for all persons required to sign the application to be forwarded to the Georgia Bureau of Investigation and to the Federal Bureau of Investigation, as specified under O.C.G.A. § 35-3-35(a)(1) and Federal Public Law 92-544. By filing such application, the applicant consents to the City obtaining their criminal history record information (CHRI) from the Georgia Crime Information Center (GCIC) and the Federal Bureau of Investigation (FBI).
- a. The applicant shall bear the cost of: (1) an administrative fingerprinting fee to be charged by the City, which shall be the maximum allowed by statute, which is currently \$20.00, which fee shall include fingerprinting when carried out by the City; and (2) the charge by the GBI and the FBI for the CHRI history at their latest rate, paid to the City by certified or cashier's check, money order, or credit card.
 - b. Once an application, accompanying documents, fingerprints, and the required fees are filed with the City, the City shall transmit said fingerprints and appropriate fees to the GCIC. As provided by law, the GCIC will compare the subject's fingerprints against its criminal file and submit the fingerprints to the FBI for a comparison with nation-wide records, unless submission to the FBI is automatic pursuant to the use of live-scan. The results of the FBI check will be returned based on its current procedure, presently being directly to the City if submissions are made manually to the GCIC, or electronically from both the GBI and FBI where submissions are made electronically to the GCIC.

- c. In compliance with Federal law 95-544, which provides for the rendering of a "fitness determination," the City shall decide whether the applicant has been convicted of, or is under pending indictment for enumerated disqualifiers, as set forth within this chapter.
- d. A person who has consented to the City for a criminal history based on fingerprinting record may request and receive a copy of the criminal history record report from the City at no additional charge. Should the person seek to amend or correct the record, he or she shall be responsible for contacting the GCIC as to Georgia records and/or the FBI concerning records from other jurisdictions maintained in its file.

The information provided pursuant to subsection (b) of this section shall be supplemented in writing by certified mail, return receipt requested, to the city department of community development within ten working days of a change of circumstances which would render the information originally submitted false or incomplete.

- (c) *Confidentiality.* The information provided by an applicant in connection with an application for a license under this article shall be maintained by the city department of community development on a confidential basis, and such information may be disclosed to the public only as required under governing law. Within 60 days of the filing of the application, the director of community development, or his/her designee, shall either issue a license to the applicant or issue a written notice of intent to deny the license to the applicant. The director of community development, or his/her designee, shall issue the license unless:
 - (1) The applicant or a person listed in response to subsection (b)(7) of this section is less than 21 years of age.
 - (2) The applicant has failed to provide information required by this article for issuance of a license or has falsely answered a question or request for information on the application form.

 - (4) The annual regulatory fee required by this article has not been paid.
 - (5) The establishment is not in compliance with the location requirements of this article or of any part of the Code. This provision shall not be grounds to deny a license to a massage establishment or spa establishment that was, in all respects, lawfully operating at the premises prior to the adoption of the location requirements of the ordinance from which this article is derived and that has continued to lawfully operate at the premises.
 - (6) The city has revoked a massage/spa establishment license at the premises within the previous 12 months.
 - (7) The applicant or a person listed in response to subsection (b)(7) of this section has been an owner, director, officer, partner, member, or shareholder of a massage establishment or spa establishment that has, in the previous five years (and at a time during which the person was so related to the establishment):

- (9) The establishment does not comply with all applicable building, health, and life safety codes, or the building to be occupied does not have a valid, current certificate of occupancy.
- (10) The applicant or a person listed in response to subsection (b)(7) of this section has in the previous 12 months resided with someone who has been an owner, director, officer, partner, member, or shareholder of a massage establishment or spa establishment that has, in the previous five years (and at a time during which the person was so related to the establishment):
 - a. Been declared by a court of law to be a nuisance; or
 - b. Had its license to operate a massage establishment or a spa establishment revoked;
 - c. Engaged in or allowed sodomy, aggravated sodomy, public indecency, prostitution, pimping, pandering, pandering by compulsion, masturbation for hire, or disorderly conduct to occur in or on the premises of the establishment; or

- (11) Reserved.
- (12) The applicant is a partnership, limited liability company, corporation or other legal entity that is required to be chartered under the laws of the state or authorized by the secretary of state to do business in the state, but is not so chartered or authorized.
- (e) *License display.* A license, if issued, shall be issued in the name of the applicant. The license shall be posted in a conspicuous place at or near the entrance to the establishment so that it may be read at any time that the establishment is occupied by patrons or is open to the public.
- (f) *Employee permit display.* Massage establishments and spa establishments shall post each employee's work permit issued by the city in a conspicuous place at or near the entrance to the establishment so that it may be read at any time that the establishment is occupied by patrons or is open to the public.

The investigative and license fees shall be set by the director of community development. The full regulatory fee shall be paid with the license application and shall not be prorated under any circumstances. If the applicant withdraws the application or the license is denied, the applicant shall be refunded the full license fee paid. No refund shall be allowed once the license has been issued.
- (b) All licenses granted hereunder shall be for the calendar year and expire on December 31 of each year. Each renewal application shall be treated as an initial application and the applicant shall be required to comply with all rules and regulations for the granting of licenses as if no previous license had been held, except that renewal applications for which the applicant certifies there are no changes to information and data contained in the original application shall not be required to include information or documents specified in Section 10-279(b)(7), (11), (12), (13), or (14). Existing licensees shall file renewal applications by November 1

of each year for the following license year. Applications received after November 1 shall be subject to a ten percent late fee.

A person who works at more than one establishment shall obtain a separate work permit for each establishment. No applicant for a massage/spa establishment work permit shall work at a massage establishment or a spa establishment in the city until the applicant receives, and the establishment posts, the employee's work permit as required by this article. A receipt issued by the city is not a valid massage/spa establishment work permit and does not authorize the person to work in a massage establishment or spa establishment.

An applicant for a massage/spa establishment work permit shall file in person at the city department of public safety, records division, a completed application made on a form provided by the city. The application must be signed and notarized. Applicants shall make themselves available for photographing.  - b. Had its license to operate a massage establishment or a spa establishment revoked;

 - (7) A statement of whether the applicant has within the previous five years been arrested for, convicted of, or pleaded guilty or entered a plea of nolo contendere to a specified criminal activity as defined in this article, and if so, each specified criminal activity involved, including the date, place, and jurisdiction of each such arrest and/or conviction.

- (8) A statement of whether the applicant has in the previous 12 months resided with someone who has been an owner, director, officer, partner, member, or shareholder of a massage establishment or spa establishment that has, in the previous five years (and at a time during which the person was so related to the establishment):
- a. Been declared by a court of law to be a nuisance; or
 - b. Had its license to operate a massage establishment or a spa establishment revoked;

The information provided pursuant to subsection (b) of this section shall be supplemented in writing by certified mail, return receipt requested, to the city department of public safety, records division, within ten working days of a change of circumstances which would render the information originally submitted false or incomplete.

- (c) The information provided by an applicant in connection with an application for a work permit under this article shall be maintained by the city department of public safety, records division, on a confidential basis, and such information may be disclosed to the public only as required under governing law. Any information protected by the right to privacy as recognized by state or federal law shall be redacted prior to any required disclosure under the Georgia Open Records Act or other applicable law.
- (d) Issuance of work permit. Upon the filing of a completed massage/spa establishment work permit application, the city shall cause to be conducted a criminal background investigation of the applicant and shall transmit a summary of the investigation results to the director of public safety or his/her designee. Within 30 days of the filing of a completed massage/spa establishment work permit application, the director of public safety or his/her designee shall either issue a work permit to the applicant or issue a written notice of intent to deny the work permit to the applicant. The director of public safety, or his/her designee, shall issue the work permit unless:
- (1) The applicant is less than 18 years of age.

 - (6) The applicant has within the previous five years been convicted of, or pleaded guilty or entered a plea of nolo contendere to, a specified criminal activity, as defined in this article.

- (7) The applicant has in the previous 12 months resided with someone who has been an owner, director, officer, partner, member, or shareholder of a massage establishment or spa establishment that has, in the previous five years (and at a time during which the person was so related to the establishment):
 - a. Been declared by a court of law to be a nuisance; or
 - b. Had its license to operate a massage establishment or a spa establishment revoked;
 - c. Engaged in or allowed sodomy, aggravated sodomy, public indecency, prostitution, pimping, pandering, pandering by compulsion, masturbation for hire, or disorderly conduct to occur in or on the premises of the establishment; or
 - d. Has allowed, been convicted of, or plead guilty or entered a plea of nolo contendere to three or more violations of this article within a 12-month period.
- (e) The work permit, if issued, will be valid for a period of one year from the date it is issued. The replacement and additional work permit shall be issued upon payment of one-half of the fee charged for a work permit and will expire the same date as the then-current work permit. A massage establishment or spa establishment employee shall provide the employee's work permit to the establishment for which it was issued to be posted on the premises pursuant to this article.
- (f) The director of public safety, or his/her designee shall issue a written notice of intent to revoke an employee's work permit, following notice and hearing pursuant to this article, and demand its return if the employee has violated the provisions of this article, any state law or applicable local ordinance.

The holder of a massage/spa establishment license must also keep on file, on the premises of the establishment, a copy of the establishment's two most recent license applications. A list of all employees, and most recent copies of their state licenses (if so licensed) and certifications shall be provided to the city department of community development no later than January 15 of each year.

In addition to the other penalties and remedies provided herein, if during an inspection there is no owner, manager, or supervisor, or, if applicable, state-licensed massage therapist on the premises, the establishment must cease operations and close until an owner, manager or supervisor or state-licensed massage therapist, as applicable, is on the premises.
- (e) Records required to be maintained under this article shall be kept for a minimum of two years. Records shall be made available to the director of community development or his/her designee, during business hours, at the establishment's business location in the city.
- (f) All employees and other persons on the premises, with the exception of customers receiving a massage from a state-licensed massage therapist, shall be completely clothed. For the purposes of this article, the term "completely clothed" means having on the upper portion of the body appropriate undergarments and either a blouse or shirt which shall cover all the upper body, save the arms and neck, and shall mean having on the lower body appropriate undergarments plus either pants or a skirt, and said pants or skirt must cover from the waist down to a point at least two inches above the knee. This prohibition does not apply to the showing of the cleavage of the human female breasts exhibited by a bikini, dress, blouse, shirt, leotard, or similar wearing apparel, provided the areola is not exposed in whole or in part.
- (h) No massage establishment or spa establishment shall be or remain open for business between the hours of 9:00 p.m. and 7:00 a.m. No person shall be or remain inside a massage establishment or spa establishment between the hours of 10:00 p.m. and 6:00 a.m. No massage establishment or spa establishment shall hold itself out as open at a time that the establishment is prohibited, under this subsection, from being open for business.

 - (10) The licensee or work permit holder has recklessly allowed three or more violations of this article within a 12-month period.
- (b) When a notice of intent to revoke a license or employee work permit has been issued, the licensee, any person listed on the licensee's application, or the work permit holder, as the case may be, shall not apply for

or be issued any new license or permit under chapter 4, chapter 28, or chapter 42, until such notice has been withdrawn or, if revocation has become effective, until two years after the effective date of revocation.

- (c) When any person listed on a massage/spa establishment license application, any employee of the establishment, or any person who performs massage at the establishment, is arrested for unlawful sexual conduct of any kind alleged to have occurred at the massage establishment or spa establishment, no person listed on the establishment's license application and no employee of the establishment may apply for or be issued any new license or permit for that location under chapter 4, chapter 28, or chapter 42, until the arrestee is cleared or until 90 days following the arrest have passed, whichever occurs sooner.

Sec. 10-285. Hearing; license denial, revocation; appeal.

- (a) When the director of public safety and/or community development, or his/her designee, issues a written notice of intent to deny or revoke a license or employee work permit, the director of public safety and/or community development or his/her designee shall immediately send such notice, which shall include the specific grounds under this article for such action, to the applicant or licensee/work permit holder (respondent) by personal delivery or certified mail. The notice shall be directed to the most current business address or other mailing address on file with the city department of public safety, records division, and/or community development for the respondent. The notice shall also set forth the following: The respondent shall have ten days after the delivery of the written notice to submit, at the office of the director of public safety and/or community development, or his/her designee, a written request for a hearing. If the respondent does not request a hearing within said ten days, the city manager's written notice shall become a final denial or revocation, as the case may be, on the 30th day after it is issued.
- (b) If the respondent does make a written request for a hearing within said ten days, then the director of public safety and/or community development, or his/her designee shall, within ten days after the submission of the request, send a notice to the respondent indicating the date, time, and place of the hearing. The hearing shall be conducted not less than ten days nor more than 20 days after the date that the hearing notice is issued.
- (c) The city administrator or his/her designee shall serve as the hearing officer for any such appeal.
- (d) At the hearing, the respondent shall have the opportunity to present all relevant arguments and to be represented by counsel, present evidence and witnesses on his/her behalf, and cross-examine any of the city's witnesses. The hearing shall take no longer than one day, unless extended at the request of the respondent to meet the requirements of due process and proper administration of justice. The hearing officer shall issue a final written decision, including specific reasons for the decision pursuant to this article, to the respondent within five days after the hearing.
- (e) If the decision is to deny or revoke the license, the decision shall advise the respondent of the right to appeal such decision to a court of competent jurisdiction, and the decision shall not become effective until the 30th day after it is rendered. If the hearing officer's decision finds that no grounds exist for denial or revocation of the license, the hearing officer shall, contemporaneously with the issuance of the decision, order the director of public safety and/or community development to immediately withdraw the intent to deny or revoke the license and to notify the respondent in writing by certified mail of such action. If the respondent is not yet licensed, the director of public safety and/or community development shall contemporaneously therewith issue the license or work permit to the applicant.
- (f) If any court action challenging a licensing or work permitting decision is initiated, the city shall consent to expedited briefing and/or disposition of the action, shall comply with any expedited schedule set by the court, and shall facilitate prompt judicial review of the proceedings.

ITEM DESCRIPTION:

As of 2025, the City of Alpharetta's Recreation Commission operates under guidelines established in the city's Code of Ordinances, specifically Chapter 32, which pertains to Recreation and Parks. In March 2025, the Recreation Commission held a work session to discuss various matters, including potential updates to the commission's structure and responsibilities. Additionally, an ordinance was adopted to amend Article I, Chapter 32 of the city's Code, reflecting changes to the commission's operations. The City Attorney has updated the Ordinances to match the current responsibilities of the Recreation Commission to exhibit more of an advisory board, like many of the other Boards and Commissions within the City of Alpharetta.

ALTERNATIVES:

ITEM DESCRIPTION:

For certain Employee Health and Related Benefits for Plan year 2025-2026, staff recommends that contracts be awarded as follows: The City's group Medical and Dental coverage to Cigna; Vision coverage to Eye Med; Life and Disability coverage to New York Life; and Wellness Services to Engagement Health Group.

Background

The City's Broker of record, Alliant Insurance Services (8th largest global brokerage firm), solicited proposals from the market (Anthem, UHC, Aetna) for our medical and other related coverage. After months of negotiations, our current carrier, Cigna, is the recommended provider for both Medical (4.5% in rates) and Dental (0%) for plan year 2025-2026. Cigna will provide a \$25k optional service fund and a \$5k wellness fund, making the effective increase in premiums approximately 3.6%. This is an exceptional renewal given that the current year's loss ratio is at 114%, meaning claims paid by Cigna are exceeding premiums paid to Cigna by 14% and, based on trends of 7%, an increase in the range of 17% or more could be expected. Cigna's final proposal is indicative of their commitment to continue to serve the City of Alpharetta. It should be noted that the City's 5-year average increase has been 3.7% (3.2% with credits) compared to the trend of 7% for the same period.

Our medical coverage with Cigna is a Fully Insured Plan designed as a Minimum Premium/Shared Return Plan. With the plan, the City saves the difference. No other carrier offers this savings potential under a fully insured plan. Changes in plan design, changing carriers and processes for both the employee and employer; the potential for

spikes in subsequent renewal periods (Cigna offered the best year-2 rate cap); and the ability to achieve savings under the Cigna plan are other factors for consideration.

Eye-Med is the recommended carrier for vision care. They proposed a 0% increase.

NY Life proposed a 0% increase in their Basic Life/AD&D and Long Term Disability coverage. Short Term Disability has a .10¢ rate decrease, resulting in a savings of \$5,500 annually.

Engagement Health Group provides wellness services to city employees. The cost for this service will decrease from \$110,000 to \$73,525.

The total increase over the prior year for all services/premiums for our Employee Health and Related Benefits for Plan Year 2025-2026 is 3.6%.

The premium increases, in terms of dollars, will be shared using the same percentages currently allocated to the employee (approx. 10%) and employer (approx. 90%) as the current year. Thus, the premium increases, in terms of percentage growth the employee and employer receive will both be approximately 4%, depending on coverages chosen by the employee.

ALTERNATIVES:

Although not recommended, the City Council could direct us to go with different carriers.

- A. EHG has experience and expertise in providing one-on-one services to improve employee health and reduce health-care costs.
- B. Client desires to use EHG's services for its employees.
- C. This Agreement contains general terms and conditions that will apply to the Service Descriptions and Pricing Schedule in Schedule A attached hereto and incorporated herein by reference, and as may be amended or substituted by EHG and Client.
- D. CHP and Engagement Health shall be jointly and severally liable for the provision of services and contractual obligations under this Agreement.

In consideration of the mutual terms and conditions of this Agreement, the parties hereby agree as follows:

- 1. Services. Subject to the terms and conditions of this Agreement, EHG will provide the services described in Schedule A – Service Descriptions and Pricing Schedule. EHG shall use its "best efforts" to provide the services described in this Agreement. The parties agree that Schedule A may be amended or replaced by the mutual agreement of EHG and Client. Schedule A shall be governed by this Agreement and become effective upon the written agreement of EHG and Client.
- 2. Term. The term of this Agreement (the "Term") shall begin on the Effective Date and remain in effect until the end of the service term specified in the Schedule A currently in effect or until earlier terminated in accordance with Section 9 below. The Term may be extended by the execution of a new Schedule A prior to the end of the preceding Schedule A; provided, however, the Term may not be extended for a period of more than five (5) years from July 1, 2025.
- 3. Cost and Payment. Client shall pay EHG in accordance with the Pricing Schedule in Schedule A. The total estimated annual program fee shall be payable in two (2) equal installments as provided in Schedule A. EHG will invoice Client semiannually on July 1 and January 1. The final amount of annual program fees shall be determined based on a true-up of the actual participants and services rendered. See Schedule A for billing details. Payment shall be due no later than 30 days from the date the invoice is received by Client. Client agrees to immediately notify EHG of any disputed amounts and both parties agree to resolve the dispute as soon as possible.
- 4. Fee Adjustments. Unless both parties agree otherwise, the fees referred to in Schedule A will increase by 3% per year during each year in which this Agreement is in effect, and such increase will be effective as of the anniversary date of this Agreement.

5. Confidential Information. All information related to EHG or to Client shall be and remain the property of EHG or Client, respectively, and neither party may disclose such information without the prior written consent of the other party hereto.
6. Independent Contractor. This Agreement, and the relationship created between the parties hereby, does not and shall not, directly or indirectly, constitute either party, or any of its personnel, as an employee, agent, servant, partner or joint venture of the other. EHG is and shall at all times be an independent contractor. Each party shall be responsible to the other party only by the terms stipulated herein. It is expressly agreed and understood that benefit plans to which either party's employees are entitled, such as health insurance, disability benefits, workers compensation, pensions and annuities, death benefits, savings plans and others, shall not be available to the other party's employees, and that each party will not be making any deductions from payments to the other party, including without limitation those relating to income tax, United States pension plans, or unemployment insurance.
7. Taxes. Client shall be responsible for any applicable sales, use and excise taxes, and any other similar taxes, duties and charges of any kind imposed on Client by any federal, state or local governmental entity on any amounts payable by Client hereunder; *provided that*, in no event shall Client pay or be responsible for any taxes imposed on, or with respect to, EHG's income, revenues, gross receipts, personnel or real or personal property or other assets.
8. Compliance. EHG shall provide the services described above and in Schedule A in compliance with all applicable Federal, State and local laws, regulations, and ordinances.
9. Termination. Either party may terminate this Agreement with respect to all or any part of the services to be provided hereunder for cause if the other party breaches any provision of this Agreement, by action or inaction, which breach is not rectified within thirty (30) days from receipt of written notice of such breach from the non-breaching party.

In addition, either party may terminate this Agreement, in its sole discretion, with written notice to the other party at least ninety (90) days prior to the beginning of the next service term or program cycle, if applicable (program launch from the current service year, if applicable), without penalty (including, without limitation, fixed and variable fees related to the next service term or program cycle). Client will still be required to pay applicable program fees for then current services at then current quantities for the remainder of the then current service term.

Client may terminate this Agreement, in its sole discretion, prior to the beginning of the next service term or program cycle, if applicable (program launch from the current service year, if applicable) with written notice to EHG without penalty (including, without limitation, fixed and variable fees related to the next service term or program cycle). Client will be responsible for applicable program fees for then current services at then current quantities for the remainder of the then current service term. (For illustration purposes only, if the next annual service term is scheduled to begin on July 1, 202X, and Client provides notice of termination on May 15, 202X, Client is responsible only for applicable program fees through the remainder of the current service term ending June 30, 202X).

10. Survival of Certain Provisions after Termination. Upon termination of this Agreement, or sooner if so requested, each party shall return all property belonging to the other party then in its possession or dispose of such property as may be directed or approved by the other party. Notwithstanding the termination of this Agreement for any reason whatsoever, all covenants and agreements to be performed and/or observed by either party under this Agreement which by their nature survive the termination of this Agreement, including without limitation those relating to proprietary information, confidential information, warranties, and indemnification, shall so survive such termination or expiration.
11. Reserved.

12. Indemnification. EHG shall indemnify, defend, and hold harmless Client and Client's elected and appointed officials, officers, boards, commissions, employees, representatives, consultants, servants, agents, attorneys, and volunteers (each party individually, an "Indemnified Party") for, from, and against any and all claims, suits, actions, judgments, injuries, damages, losses, costs, expenses, and liability of any kind whatsoever, including, but not limited to, attorney's fees and costs of defense ("Liabilities"), which may arise from or be the result of an alleged willful, negligent, or tortious act or omission arising out of the performance of the contracted services hereunder by EHG, any subcontractor, anyone directly or indirectly employed by EHG or subcontractor, or anyone for whose acts or omissions EHG or subcontractor may be liable, regardless of whether or not the act or omission is caused in part by an Indemnified Party (collectively, "Indemnity Obligation"). The Indemnity Obligation shall not be construed to negate, abridge, or otherwise reduce any other right or obligation of indemnity which would otherwise exist as to any party or person described in this provision.

In any and all claims against an Indemnified Party by any employee of EHG, its subcontractor, anyone directly or indirectly employed by EHG or subcontractor, or anyone for whose acts EHG or subcontractor may be liable, the Indemnity Obligation shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for EHG or any subcontractor under workers' or workmen's compensation acts, disability benefit acts, or other employee benefit acts. The Indemnity Obligation shall survive expiration or termination of this Agreement, provided that the claims are based upon or arise out of actions or omissions that occurred during the performance of this Agreement

13. Insurance. During the term of this Agreement, EHG shall maintain in full force and effect: (a) commercial general liability insurance covering personal injury and property damage, including, without limitation, contractual liability, with limits of at least \$1,000,000 per occurrence and \$2,000,000 in the aggregate; (b) business automobile liability insurance for all vehicles, including those owned or rented by EHG or its employees, covering personal injury and property damage, with a limit of at least \$1,000,000 per occurrence; (c) worker's compensation and employer's liability insurance, with limits of at least \$1,000,000; and (d) errors and omissions insurance appropriate for the services hereunder with limits of at least \$2,000,000 in the aggregate, including cyber liability, with a sublimit of liability not less than \$2,000,000 per claim and \$2,000,000 in the aggregate. EHG shall maintain all such insurance with carriers rated A- or better by A.M. Best Company, Inc. The insurance policies required pursuant to this section will stipulate that they are primary insurance and that no insurance policy or self-insurance program of Client will be called upon to contribute. Before commencement of services hereunder and thereafter upon renewal of any such policy of insurance, EHG shall provide Client with certificates of insurance evidencing the above coverages and naming Client as certificate holder entitled to 30 days' written notice following any cancellation, reduction, or change in coverage.

14. Assignment or Subcontracting. This Agreement is personal and shall not be assigned in whole or in part by either party without the other party's prior written consent.

15. Request for Change of Health Coach or Account Manager. Prior to changes in the assignment of coaches or account managers, a thorough evaluation will be conducted. A plan that will minimize the amount of disruption to Client will be established. Solutions may include providing additional education opportunities and mentoring opportunities for the health coach, possible termination, providing more than one coach for an option with individuals needing/wanting immediate change. If a complete change in health coach or account manager is determined to be the best solution, the transition shall be completed within 30 days. The transition plan will address effectively communicating the change to Client's employees.

16. Eligibility File. Client shall provide an Eligibility File to EHG listing all eligible employees, and spouses if included in program. EHG will provide Client with a template of required information. The Eligibility File must be submitted to EHG in the required format via a secure FTP site, 30 days prior to the start of program, and monthly if Client has additions or terms to the Eligibility File. No credit will be applied for Members which lose their eligibility during the Term, including, without limitation, employees that are terminated during the

Term. The accuracy of the eligibility data provided to EHG is the responsibility of Client. Any errors introduced by Client are required to be corrected by Client and the file resubmitted to EHG. EHG does quality check the file but cannot ensure the accuracy of the data submitted by Client, such as spelling of names, accurate date of births, employee or spouse, etc. The quality checks provided by EHG is to check for formatting of the data in each field, incomplete information, review for duplicates, and overall file format.

17. Governing Law and Venue. This Agreement shall be governed by and construed in accordance with the laws of the State of Georgia without regard to choice of law principles. Any action or suit related to this Agreement shall be brought in the Superior Court of Fulton County, Georgia, or the U.S. District Court for the Northern District of Georgia, and EHG submits to the jurisdiction and venue of such courts.
18. Entire Agreement. This Agreement, the Addendum to this Agreement dated as of the Effective Date, and the applicable Schedule A, constitute the entire agreement between the parties and supersede all other agreements between the parties, whether oral or written, including, without limitation, that certain Master Services Agreement by and between Engagement Health and Client dated June 11, 2024 ("2024 Agreement"), Schedule A to the 2024 Agreement, and any and all other Schedule A's and other agreements associated with the 2024 Agreement.
19. Proprietary Rights. Client agrees that names, marks and information of EHG and its subcontractors are proprietary to EHG and shall not be used by Client or its owners or employees or otherwise disclosed in any way to third parties, without the prior written consent of EHG first having been obtained. Any new product developments, forms or improvements of products and services of EHG or its subcontractors during the Term of this Agreement shall be the property of EHG and shall be deemed part of EHG names, marks and information.
20. Disclaimer. The information obtained by EHG is not being used to make diagnoses, administer treatment, prescribe medications, or order tests. If the participant qualifies for the Condition Management Program, there will be a clinical pharmacist involved in their care. The clinical pharmacist may make suggestions to the participant's medical provider for their review as needed, which may result in changes to the treatment plan or prescribed medications. The medical provider remains in 100% control of the participant's health care and no changes will be incorporated without the medical provider's consent. The information and interactive tools provided from the site and by the service are provided to promote wellness and help the employee participate with their health coach and medical provider in the improvement of their health or the self-management of their disease.

The site or the sessions with the health coach are not a replacement for the relationship the participant has with their medical provider. Any information provided in the service is not medical advice and should not be substituted for regular consultation with their medical provider. If there are any concerns about their health, the participant should contact their medical provider's office immediately.

21. Program Compliance and Incentive Management. EHG will provide consulting regarding program design that is compliant with HIPAA, ACA, ADA, GINA and the EEOC regulations. EHG will complete a compliance checklist with Client to ensure program compliance is being met. If Client chooses to implement a program design that is not compliant and against the recommendations provided by EHG, Client is assuming all legal and financial responsibilities.

Incentive management can be provided by EHG to assist Client with administration and compliance of its wellness incentive program. In order to provide this service, EHG needs a full file of all eligible members. If all eligible members are not provided to EHG, then EHG will provide Client a participation list to be reconciled by Client against their eligible population. It is the responsibility of Client to apply incentives according to the incentive list provided by EHG. If Client chooses to manage the incentive in a noncompliant way, Client will assume all legal and financial responsibility.

22. Appeals (Re-evaluation) & Reasonable Alternative Process (RA). If a participant believes the requirements of the program are unreasonable (Reasonable Alternative) OR their eligibility criteria are being closely monitored by their personal health care provider or are inaccurate (Appeals or Re-evaluation), the participant may submit an RA/Appeal to EHG. This may require documentation from the participant's health care provider within 30 days of the first coaching session. RA/Appeals request and documentation is the responsibility of the participant by the published deadline. The EHG appeals committee will review appeals monthly for approval. The participant will be notified of approval or rejection (with the reason) by a member of the appeals committee. Ongoing documentation may be requested from the participant to maintain approval status. Any additional costs associated with RA/Appeal is the responsibility of the participant.
23. Non-Exclusive Services. For the benefit of clarity, EHG retains the right to perform the same or similar type of services for third parties during the Term of this Agreement.
24. Client Support.
- a. Client's executive management team is encouraged to demonstrate support of its members in connection with the EHG services.
 - b. EHG represents that the following are examples of positive management support which EHG has observed during other client engagements as promoting the success of the program within that client's organization:
 - i. The client assumes primary responsibility for promoting the EHG services, enrolling employees, and setting up initial and subsequent screening appointments;
 - ii. The client provides appropriate incentives to promote the EHG services in order to maximize participation;
 - iii. The client allows its members to participate in the EHG Services on paid time;
 - iv. The client makes its facilities available for EHG representatives to use when onsite and provides appropriate screening and office space and internet access;
 - v. The client establishes and enforces program compliance guidelines among its members; and
 - vi. The client establishes a "Wellness Team" made up of key members that regularly meet with EHG representatives and take an active part in communicating the EHG services to all members.
 - c. Client agrees to take reasonable actions to support its members in connection with the EHG services.
25. Force Majeure. The parties shall not be responsible for any delay or other failure to perform due to causes beyond its reasonable control, including but not limited to acts of God, war, riot, terrorism, embargoes, acts of civil or military authorities, fire, floods, accidents, strikes, or shortages of transportation, facilities, or inability to obtain necessary utilities, labor, equipment or materials through usual and regular resources at usual and regular prices.

THIS ADDENDUM TO MASTER SERVICES AGREEMENT (this “*Addendum*”) is made and entered into as of the _____ day of _____, 2025 (the “*Effective Date*”), between Corporate Health Partners, LLC, a Georgia limited liability company (“*CHP*”), and Engagement Health, LLC, a Delaware limited liability company (“*Engagement Health*”), as joint and several provider of the services hereunder (CHP and Engagement Health, jointly and severally, hereinafter called “*EHG*”), and the City of Alpharetta, a municipal corporation of the State of Georgia (“*Client*”).

WHEREAS, the parties hereto have made and entered into that certain Master Services Agreement dated as of the Effective Date (such Master Services Agreement, including the services descriptions and pricing schedule attached thereto as Schedule A and incorporated therein, are hereinafter collectively called the “*Agreement*”).

WHEREAS, the parties desire to supplement and amend the terms and conditions of the Agreement with the additional and amended terms and conditions contained in this Addendum.

NOW, THEREFORE, in consideration of the mutual covenants, promises, and consideration set forth in this Addendum, the receipt and sufficiency of which are hereby acknowledged, the parties hereby covenant and agree as follows:

1. **Priority of Addendum.** This Addendum is incorporated into and made a part of the Agreement. The provisions of this Addendum control over any contrary provisions found in the Agreement, including, without limitation, any provision of the Agreement which provides otherwise. No provision of the Agreement shall operate to override the provisions of this Addendum.

2. **Statutory Auto-Termination and Renewal.** As required by O.C.G.A. § 36-60-13, the Agreement shall terminate absolutely and without any further obligation on the part of Client on the last day of each fiscal year of the initial term and any renewal or extended term, and further, the Agreement shall automatically renew on the first day of each subsequent fiscal year within the applicable term, and extend until the conclusion of the applicable term, absent Client’s provision of written notice of non-renewal to EHG at least ten (10) days prior to the end of the then-current fiscal year. Additionally, the Agreement shall terminate immediately and absolutely at such time as appropriated and otherwise unobligated funds are no longer available to satisfy Client’s obligations under the Agreement.

3. **Reserved.**

4. **Confidentiality.** EHG acknowledges that Client’s disclosure of documentation is governed by Georgia’s Open Records Act and the Open Meetings Act, and EHG further acknowledges that if EHG submits documents or records, including, without limitation, any document comprising part of the Agreement, containing trade secret information, and if EHG

wishes to keep such documents or records confidential, EHG must submit and attach to such documents or records an affidavit affirmatively declaring that specific information contained therein constitutes trade secrets pursuant to the Georgia Trade Secrets Act of 1990, O.C.G.A. § 10-1-760 et seq., and the parties shall follow the requirements of O.C.G.A. § 50-18-72(a)(34) related thereto.

5. **Governing Law; Venue.** This Addendum and the Agreement shall be governed by and construed in accordance with the laws of the State of Georgia without regard to choice of law principles. Any action or suit related to this Addendum or the Agreement shall be brought in the Superior Court of Fulton County, Georgia, or the U.S. District Court for the Northern District of Georgia, and the parties submit to the jurisdiction and venue of such courts.

6. **Authority to Contract.** The individuals executing this Addendum and the Agreement on behalf of each party covenant and declare that they have obtained all required approvals of the board of directors, stockholders, board of commissioners, general partners, limited partners, members, or similar authorities, as appropriate, to simultaneously execute and bind the party to the terms of this Addendum and the Agreement.

7. **Nondiscrimination.** In accordance with Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. § 2000d, section 303 of the Age Discrimination Act of 1975, as amended, 42 U.S.C. § 6102, section 202 of the Americans with Disabilities Act of 1990, 42 U.S.C. § 12132, and all other provisions of federal law, EHG agrees that, during performance of the Agreement, EHG, for itself and its assignees and successors in interest, will not discriminate against any employee or applicant for employment, any subcontractor, or any supplier because of race, color, creed, national origin, gender, age, or disability. In addition, EHG agrees to comply with all applicable regulations and shall include the provisions of this paragraph in every EHG subcontract for services related to the Agreement.

8. **Sovereign Immunity; Indemnification.** Nothing contained in the Agreement shall be construed to be a waiver of Client's sovereign immunity or any individual's qualified, good faith, or official immunities. No provision of the Agreement shall be construed to impose a contractual duty of indemnification upon Client.

9. **Employment of Unauthorized Aliens Prohibited – E-Verify Affidavit.** Pursuant to O.C.G.A. § 13-10-91, Client shall not enter into a contract for the physical performance of services unless EHG shall provide evidence on the forms attached hereto as **Exhibits "A" and "B"** (affidavits regarding compliance with the E-Verify program to be sworn under oath under criminal penalty of false swearing pursuant to O.C.G.A. § 16-10-71), that EHG and its subcontractors have registered with and are authorized to use and use the federal work authorization program commonly known as E-Verify, or any subsequent replacement program, in accordance with the applicable provisions and deadlines established in O.C.G.A. § 13-10-91, and that they will continue to use the federal work authorization program throughout the term of the Agreement. EHG hereby verifies that it has, prior to executing this Addendum and the Agreement, executed a notarized affidavit, the form of which is provided in **Exhibit "A"**, and submitted such affidavit to Client. Further, EHG hereby agrees to comply with the requirements

of the federal Immigration Reform and Control Act of 1986, P.L. 99-603, O.C.G.A. § 13-10-91, and Georgia Department of Labor Rule 300-10-1-.02.

In the event EHG employs or contracts with any subcontractor to perform services for Client, EHG agrees to secure from such subcontractor attestation of the subcontractor's compliance with O.C.G.A. § 13-10-91 and Rule 300-10-1-.02 by the subcontractor's execution of the subcontractor affidavit, the form of which is attached hereto as **Exhibit "B"**, which subcontractor affidavit shall become part of the EHG subcontractor agreement. If EHG does not employ or contract with any subcontractor to perform services for Client, the provisions of this section related to subcontractors shall not apply.

The above requirements shall be in addition to the requirements of state and federal law and shall be construed to be in conformity with those laws.

10. **Access to Client's Premises.** Notwithstanding any provision of the Agreement to the contrary, EHG shall not have an unqualified or unconditional right to access Client's property or facilities. EHG shall have no right of access unless such access is coordinated with Client in advance.

11. **Client Data Ownership.** EHG recognizes and agrees that Client possesses and retains all right, title, and interest in and to Client data and information ("**Client Data**"), including, without limitation, data comprising the Eligibility File (as described in the Agreement), and EHG's use and possession thereof is solely on Client's behalf. EHG further recognizes and agrees that: (a) Client Data is valuable property of Client; (b) Client Data includes Client's trade secrets; (c) Client Data is an original compilation pursuant to the copyright law of the United States and other jurisdictions; and (d) Client has dedicated substantial resources to collecting, managing, and compiling Client Data. Without limiting the generality of its obligations elsewhere in this Addendum and the Agreement, EHG shall exercise commercially reasonable efforts to prevent unauthorized exposure or disclosure of Client Data.

12. **Information Security Program.** EHG shall maintain, implement, and comply with a written data and information security program (the "**Security Program**") that requires administrative, technical, and physical safeguards appropriate: (a) to protect the security and confidentiality of Client Data and program participant information ("**Participant Information**"); (b) to protect against anticipated threats or hazards to the security or integrity of Client Data and Participant Information; and (c) to protect against unauthorized access to or use of Client Data and Participant Information. EHG shall likewise ensure that the Security Program includes and requires compliance with the following (without limitation): (i) guidelines on the proper disposal of Client Data and Participant Information after it is no longer needed to carry out the purposes of this Agreement; (ii) access controls on electronic systems used to maintain, access, or transmit Client Data and Participant Information; (iii) access restrictions at physical locations containing Client Data and Participant Information; (iv) encryption of electronic Client Data and Participant Information consistent with then-current nationally-recognized encryption standards; (v) least privilege principles for access to Client Data and Participant Information, supplemented either by dual control procedures or segregation of duties; (vi) regular testing and monitoring of electronic systems accessing or storing Client Data and Participant Information; and (vii) procedures to

detect actual and attempted attacks on or intrusions into the systems containing or accessing Client Data and Participant Information. EHG shall review the Security Program and all other Client Data and Participant Information security precautions regularly, but no less than annually, and update them to comply with applicable laws, regulations, technology changes, and best practices.

13. **Employees and Subcontractors.** EHG shall not permit any of its employees, subcontractors, or subcontractor employees to access Client Data and Participant Information except to the extent that such individual or company needs access to facilitate the services and is subject to a reasonable written agreement with EHG, or in case of employees, a reasonable written employment policy, protecting such data. Further, EHG shall not allow any individual to access Client Data and Participant Information except to the extent that he or she has received a clean report with regard to each of the following: (a) a 7-year all residence criminal offender record information check and (b) a 7-year federal criminal offender record information check. (A clean report refers to a report with no criminal investigations or convictions related to felonies or to crimes involving identity theft or other misuse of sensitive information.) However, Subsections (a) and (b) of this Section do not apply to the extent that applicable law forbids the required record information check, provided EHG notifies Client of such restriction. Without limiting the generality of EHG's obligations related to subcontractors and their employees, EHG shall exercise reasonable efforts to ensure that each subcontractor complies with the terms of this Agreement related to Client Data and Participant Information. As between EHG and Client, EHG shall pay any fees or costs related to each subcontractor's compliance with such terms.

14. **Data Incidents.** EHG shall implement and maintain a program for managing unauthorized disclosure of, access to, or use of Client Data and Participant Information ("***Data Incidents***"). In case of a Data Incident, or if EHG suspects a Data Incident, EHG shall: (a) promptly, and in any case within 48 hours, notify Client by telephone, in person, or by other real-time, in-person communication; (b) cooperate with Client and law enforcement agencies, where applicable, to investigate and resolve the Data Incident, including, without limitation, by providing reasonable assistance to Client in notifying injured third parties; and (c) otherwise comply with applicable laws governing data breach notification and response. In addition, if the Data Incident results from EHG's breach of this Addendum or the Agreement, or negligent or unauthorized act or omission, including, without limitation, those of its subcontractors or other agents, EHG shall (i) compensate Client for any reasonable expense related to notification of third parties and (ii) provide one year of credit monitoring service to any affected individual. EHG shall give Client prompt access to such records related to a Data Incident as Client may reasonably request. This Section does not limit Client's other rights or remedies, if any, resulting from a Data Incident.

- (g) Make any amendment(s) to protected health information in a designated record set as directed or agreed to by the Covered Entity pursuant to 45 CFR 164.526, or take other measures as necessary to satisfy Covered Entity’s obligations under 45 CFR 164.526.
- (h) Maintain and make available the information required to provide an accounting of disclosures to the “individual” as necessary to satisfy Covered Entity’s obligations under 45 CFR 164.528; including but not limited to any requirements regarding the time and manner in which such access must be provided. To the extent that PHI is held in an Electronic Health Record (“EHR”), Business Associate agrees to provide access to such PHI in electronic form, if so requested by an Individual, in accordance with the requirements under HITECH and the HIPAA Privacy Rule.
- (i) To the extent the Business Associate is to carry out one or more of Covered Entity's obligation(s) under Subpart E of 45 CFR Part 164, comply with the requirements of Subpart E that apply to the Covered Entity in the performance of such obligation(s); including: a) any amendment(s) to PHI in a Designated Record Set that the Covered Entity directs or agrees to pursuant to 45 CFR § 164.526 at the request of Covered Entity or an Individual, in the time and manner required under 45 CFR § 164.526; b) a Covered Entity request to Business Associate to restrict the use or disclosure of certain of an Individual’s PHI, Business Associate agrees to comply with the request for restriction as required under 45 CFR § 164.522; c) a Covered Entity request for Business Associate to comply with an Individual’s request to receive information about his or her PHI by alternative means or at an alternative location, Business Associate will implement the request as required under 45 CFR § 164.522.
- (j) Make its internal practices, books, and records, including and procedures and PHI, relating to the use and disclosure of PHI received from, or created or received by Business Associate on behalf of, Covered Entity available to Covered Entity, or to the Secretary of the Department of Health and Human Services (“Secretary”) for purposes of determining Covered Entity’s or Business Associate’s compliance with HIPAA, HITECH, and the Privacy Rule.
- (k) Document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI for purposes other than treatment, payment or health care operations in

accordance with 45 CFR § 164.528, including, to the extent that PHI is held in an EHR, documenting disclosures made for purposes of treatment, payment or health care operations.

- (l) Provide to Covered Entity or an Individual, in the time and manner required under 45 CFR § 164.528, information collected in accordance with Section III (1) of this Agreement, to permit Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with 45 CFR § 164.528.
- (m) If the Business Associate conducts, for or on behalf of Covered Entity, an electronic transaction for which the Secretary has adopted or established a standard under the Standards for Electronic Transactions, 45 CFR Parts 160 and 162, the Business Associate shall conduct such electronic transaction as a standard transaction and otherwise comply with 45 CFR Parts 160 and 162. The parties agree that, if necessary, they shall amend this Agreement to ensure compliance with the Standards for Electronic Transactions as they may be amended from time to time. Business Associate shall also require any subcontractor(s) or agent(s) it engages to assist in or to provide Services to comply with the Standards for Electronic Transactions to the extent legally required.
- (n) To the extent legally required by HIPAA or HITECH, Business Associate agrees to comply with the rules governing administrative, physical and technical safeguards to ensure the security of electronic PHI, as outlined in Health Insurance Reform: Security Standards; Final Rule, 45 CFR Parts 160, 162 and 164, as amended.

Specifically, Business Associate agrees to: (i) implement administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity and availability of the electronic PHI that it creates, receives, maintains, or transmits on behalf of the Covered Entity; (ii) report to the Covered Entity any security incident (within the meaning of 45 CFR § (164.304) of which Business Associate becomes aware; and (iii) ensure that any Business Associate employee or agent, including any subcontractor to whom it provides PHI received from, or created or received by Business Associate on behalf of, the Covered Entity, agrees to implement reasonable and appropriate safeguards to protect such PHI, to the extent legally required by HIPAA. Furthermore, at such time as required by HITECH or the Privacy Rule and in the manner required by HITECH or the Privacy Rule, Business Associate shall implement safeguards and policy, procedure, and documentation requirements consistent with the requirements of 45 CFR §§ 164.308, 164.310, 164.312, and 164.316.

IV. PERMITTED USES AND DISCLOSURES BY BUSINESS ASSOCIATE

- (a) *General Use and Disclosure Provisions.* Except as otherwise limited in this Agreement, Business Associate may use or disclose PHI to perform functions, activities or services for, or on behalf of, Covered Entity specified in the Master Services Agreement, provided that such use or disclosure would not violate either the HIPAA Privacy Rule if done by Covered Entity, or the minimum necessary policies and procedures of the Covered Entity.
- (b) *Specific Use and Disclosure Provisions:*
 - (i) Except as otherwise limited in this Agreement, Business Associate may use PHI for the proper management and administration of the Business Associate or to carry out the legal responsibilities of the Business Associate.

- (ii) Except as otherwise limited in this Agreement, Business Associate may disclose PHI for the proper management and administration of the Business Associate, provided that either (1) the disclosures are Required By Law, or (2) the Business Associate obtains reasonable assurances from the person to whom the information is disclosed that it will remain confidential and be used or further disclosed only as required by law or for the purposes for which it was disclosed to the person, and the person will notify the Business Associate of any instances of which it is aware in which the confidentiality of the information has been breached.

- (c) *Minimum Necessary Standard.* In the performance of its responsibilities under this Agreement and the Master Services Agreement, Business Associate shall only use, disclose and request the minimum amount of PHI necessary to accomplish the intended purpose of the use, disclosure or request, unless such use, disclosure or request is not subject to the minimum necessary requirements of the HIPAA Privacy Rule. This Subsection IV(c) shall be interpreted in accordance with HITECH and the HIPAA Privacy Rule.

V. OBLIGATIONS OF THE COVERED ENTITY

- (a) *Provisions for Covered Entity to Inform Business Associate of Privacy Practices and Restrictions:*

ITEM DESCRIPTION:

Background

The Americans with Disabilities Act (ADA) is a civil rights law that prohibits discrimination against individuals with disabilities. Originally enacted in July 1990 and amended in 2008, the ADA consists of five titles that establish protections in the areas of:

- Employment
- State and local government services
- Public accommodations
- Telecommunications
- Miscellaneous provisions

Title II of the ADA applies to state and local governments, requiring that “no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any such entity” (42 U.S.C. § 12132; 28 C.F.R. § 35.130).

City Compliance and Transition Plan

In accordance with Title II (28 C.F.R. §§ 35.105 and 35.150), the City of Alpharetta has conducted a comprehensive self-evaluation of its services, programs, activities, and facilities on public property and within public rights-of-way. Based on this assessment, the City has developed an ADA Transition Plan to outline the steps necessary to achieve compliance with accessibility requirements.

GDOT Requirements

Municipalities that receive federal aid or funds administered by the Georgia Department of Transportation (GDOT) must submit an updated ADA Transition Plan to GDOT to remain eligible for continued funding and assistance (42 U.S.C. § 12132). The City's Transition Plan ensures compliance with these federal and state requirements, demonstrating Alpharetta's commitment to accessibility and inclusion.

ALTERNATIVES:

The Mayor and Council could decide not to approve the 2025 Americans with Disability Act Transition Plan and forego applying for or receiving any federal funds administered by the Georgia Department of Transportation.

AMERICANS WITH DISABILITIES ACT TRANSITION PLAN

APRIL 14, 2025

AMERICANS WITH DISABILITIES ACT TRANSITION PLAN

INTRODUCTION

TRANSITION PLAN NEED AND PURPOSE

The Americans with Disabilities Act (ADA) is a civil rights law prohibiting discrimination against individuals on the basis of disability. The ADA was enacted in July 1990 and amended in 2008. On September 15, 2010 the Department of Justice published final regulations revising the Department's ADA regulations, including the adoption of updated ADA Standards for Accessible Design (2010 Standards). The ADA consists of five titles outlining protections in the following areas:

- Employment
- State and local government services
- Public accommodations
- Telecommunications
- Miscellaneous provisions

Title II of the ADA pertains to the programs, activities, and services provided by public entities, and the City of Alpharetta must comply with this section of the Act. The section states that, "no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any such entity," (42 USC Sec. 12132; 28 CFR Sec. 35.130).

As required by Title II of ADA (28 CFR Part 35 Sec. 35.105 and Sec. 35.150), The City of Alpharetta has conducted a self-evaluation of its services, programs, activities, and facilities on public property and within public rights-of-way; and has developed this Transition Plan detailing the methods to be used to ensure compliance with ADA accessibility requirements.

THE ADA AND ITS RELATIONSHIP TO OTHER LAWS

Title II of ADA is companion legislation to two previous federal statutes and regulations: the Architectural Barriers Act (ABA) of 1968 and Section 504 of the Rehabilitation Act of 1973.

The Architectural Barriers Act of 1968 is a Federal law that requires facilities designed, built, altered or leased with Federal funds to be accessible. The Architectural Barriers Act marks one of the first efforts to ensure access to the built environment.

Section 504 of the Rehabilitation Act of 1973 is a Federal law that protects qualified individuals from discrimination based on their disability. The nondiscrimination requirements of the law apply

to employers and organizations that receive financial assistance from any Federal department or agency. Title II of ADA extended this coverage to all state and local government entities, regardless of whether they receive federal funding or not.

AGENCY REQUIREMENTS

To comply with Title II of the ADA, the City of Alpharetta must meet the following general requirements:

- Must operate our programs so that, when viewed in their entirety, the programs are accessible to and useable by individuals with disabilities [28 CFR Sec. 35.150].
- May not refuse to allow a person with a disability to participate in a service, program or activity simply because the person has a disability [28 CFR Sec. 35.130 (a)].
- Must make reasonable modifications in policies, practices, and procedures that deny equal access to individuals with disabilities unless a fundamental alteration in the program would result [28 CFR Sec. 35.130(b)(7)].
- May not provide services or benefits to individuals with disabilities through programs that are separate or different unless the separate or different measures are necessary to ensure that benefits and services are equally effective [28 CFR Sec. 35.130(b)(iv) & (d)].
- Must take appropriate steps to ensure that communications with applicants, participants and members of the public with disabilities are as effective as communications with others [29 CFR Sec. 35.160(a)].
- Must designate at least one responsible employee to coordinate ADA compliance [28 CFR Sec. 35.107(a)]. This person is typically referred to as the ADA Coordinator. The public entity must provide the ADA Coordinator's name, office address, and telephone number to all interested individuals [28 CFR Sec. 35.107(a)].
- Must provide notice of ADA requirements. All public entities, regardless of size, must provide information about the rights and protections of Title II to applicants, participants, beneficiaries, employees, and other interested persons [28 CFR Sec. 35.106]. The notice must include the identification of the employee serving as the ADA Coordinator and must provide this information on an ongoing basis [28 CFR Sec. 104.8(a)].
- Must establish a grievance procedure. Public entities must adopt and publish grievance procedures providing for prompt and equitable resolution of complaints [28 CFR Sec. 35.107(b)]. This requirement provides for a timely resolution of all problems or conflicts related to ADA compliance before they escalate to litigation and/or the federal complaint process.

DESIGNATION OF RESPONSIBILITY

In accordance with 28 CFR 35.107(a), the City of Alpharetta has designated the following person to serve as ADA Coordinator, to oversee the City's policies and procedures, and as ADA Transition Plan Implementation Coordinator, to monitor the City's progress and manage review and updates of this document:

Zimri Prendes
Human Resources Generalist
2 Park Plaza
Alpharetta, GA 30009
Tel: 678-297-6044
Email: zprendes@alpharetta.ga.us

Support and assistance in these efforts is provided by:

Cris Randall
Director Of Human Resources
2 Park Plaza
Alpharetta, GA 30009
Tel: 678-297-6043

Training is an important tool for ensuring compliance with ADA requirements. The ADA Transition Plan Implementation Coordinator will identify resources and opportunities for agency employees at various levels to receive ADA-related training appropriate to their job functions.

PUBLIC NOTICE: ADA REQUIREMENTS AND GRIEVANCE PROCEDURE

PUBLIC NOTICE

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990, the City of Alpharetta will not discriminate against qualified individuals on the basis of disability in City services, programs or activities.

- **Employment:** The City does not discriminate on the basis of disability in its hiring or employment practices and complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under Title I of the Americans with Disabilities Act (ADA).
- **Effective Communication:** The City will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally in the City's programs, services and activities, including qualified sign language interpreters, documents in Braille, and other ways of making

information and communications accessible to people who have speech, hearing or vision impairments.

- **Modifications to Policies and Procedures:** The City will make all reasonable modifications to policies and procedures to ensure that people with disabilities have an equal opportunity to enjoy all City programs, services and activities. For example, individuals with service animals are welcomed in City offices, even where pets are generally prohibited.

Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a City program, service or activity, should contact the ADA Coordinator as soon as possible but no later than 48 hours before the scheduled event:

Zimri Prendes
Human Resources Generalist
2 Park Plaza
Alpharetta, GA 30009
Tel: 678-297-6044
Email: zprendes@alpharetta.ga.us

The ADA does not require the City to take any action that would fundamentally alter the nature of its programs or services or impose an undue financial or administrative burden.

The City will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services or reasonable modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.

GRIEVANCE PROCEDURE

This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 (ADA). It may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs, or benefits by the City of Alpharetta. Employment-related complaints of disability discrimination are governed by the City's personnel policies as described in the City of Alpharetta Employee Handbook. The Grievance Procedure consists of the following:

- Intake and processing
 - Any City employee may receive a verbal or written communication of a concern and shall direct the complainant to report the concern directly to the City's designated ADA Coordinator.
 - Complainants providing verbal notification will be contacted and asked to complete the ADA Complaint Form to ensure the complaint is accurately documented in the complainant's own words.

- All complaints will be assigned a tracking number upon completion of the complaint form
- Under the Department of Justice regulations, the City need not process complaints from applicants for employment
- Investigation, determination, and recommendation
 - The ADA Coordinator, in consultation with the affected department, will conduct an investigation inclusive of the following steps:
 - The basis of the alleged unequal treatment;
 - Ascertain when and where the alleged unequal treatment occurred;
 - Identify and interview all relevant parties;
 - Review documents; and
 - Obtain other factual information from appropriate sources.
 - A record of all discussions will be maintained and documents relating to the investigation retained in a confidential file by the ADA Coordinator.
 - Based upon conclusion of a thorough investigation, a report will be prepared summarizing findings and suggesting appropriate corrective action along with proposed resolution.
 - To ensure the investigation is conducted in a thorough and timely manner, the investigation will be conducted and completed as soon as is reasonable under the circumstances.
 - The investigative report will be submitted to the City Administrator.
- Communication of findings and complaint resolution
 - The City Administrator of the City of Alpharetta will accept, reject, or modify the investigative report.
 - Written notification will be provided to the complainant of the findings and proposed resolution within 30 days of the City Administrator's receipt of the investigative report

These rules shall be construed to protect the substantive rights of interested persons to meet appropriate due process standards, and to assure that the city complies with the ADA and implementing regulations. The right of a person to a prompt and equitable resolution of the complaint filed hereunder shall not be impaired by the person's pursuit of other remedies such as filing of an ADA complaint with the responsible federal department or agency. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies.

SELF EVALUATION

OVERVIEW

Under Title II of the ADA (28 CFR Sec. 35.105), public entities are required to perform a self-evaluation of their current services, policies and practices with regard to accessibility. The goal of the self-evaluation is to verify that, in managing its programs and facilities, the agency is providing accessibility and not adversely affecting the full participation of individuals with disabilities.

The intent of the ADA self-evaluation is to review the agency's entire public program, including all facilities on public property and within public rights-of-way, in order to identify any obstacles or barriers to accessibility that need to be addressed. The general categories of items to be evaluated include:

- Communications, information, and facility signage
- Building facilities; including offices, garages, and other types of buildings
- Pedestrian facilities; including sidewalks, curb ramps, bicycle/pedestrian trails, traffic control signals and bus stops (and/or other transit facilities) that are located within the City rights-of-way

Public entities are required to provide an opportunity for interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the self-evaluation process by submitting comments [28 CFR Sec. 35.105(b)].

Furthermore, a public entity that employs 50 or more persons is required, for at least three years following the completion of the self-evaluation, to maintain on file and make available for public inspection:

- A list of interested persons consulted;
- A description of areas examined and any problems identified; and
- A description of any modifications made

PROCESS AND FINDINGS

From June 2022 Through June 2024 the City of Alpharetta hired an outside consultant to provide a City-wide Sidewalk and ADA Ramp Inspection service. This program presented a detailed inspection with regards to ADA sidewalk and ADA ramp requirements within public rights-of-way. To assist with the evaluation process, the City called upon employees from several City departments: including Administration, Community Development, Public Safety, Public Works, and Recreation, Parks, and Cultural Services to assist in performing a self-evaluation of its services, programs, activities, and facilities on public property related ADA accessibility.

An important component of the evaluation process is the identification of obstacles or barriers to accessibility, and the corresponding modifications that will be needed to remedy these items. Details on these obstacles, barriers, and proposed modifications can be found in the following appendices:

- Communications
- Building Facilities
- Pedestrian Facilities

It is noted that past self-evaluation processes have proven quite beneficial to the City's efforts to ensure accessibility. In fact, those past efforts yielded considerable results; such that few obstacles and barriers exist in the City's building facilities or programs. Thus, the majority of issues identified through the 2024 assessment relate to pedestrian facilities and many of these issues are the result of wear and tear over time.

POLICY

The City of Alpharetta is committed to continuing to provide accessible pedestrian design features as part of its capital improvement projects and following the Georgia Department of Transportation's rules and regulations. The City will consider and respond to all accessibility improvement requests. All accessibility improvements that are deemed reasonable will be scheduled consistent with capital improvement and transportation priorities. The City will coordinate with external agencies to ensure that all new or altered pedestrian facilities within the City's jurisdiction are ADA compliant to the maximum extent feasible.

Requests for accessibility improvements can be submitted to the ADA Coordinator or Transition Plan Implementation Coordinator.

IMPROVEMENT AND COMPLIANCE PROCEDURES

The authors of ADA accessibility standards have, for years, recognized the challenge of dealing with physical or site constraints in alteration projects. The Civil Rights Division of the U.S. Department of Justice has recognized that there could be instances where it might be technically infeasible to construct an alteration in full and strict compliance with ADA accessibility standards, because of physical or site constraints. In such circumstances, state and local agencies must provide accessibility to the maximum extent feasible. Before reaching a conclusion about technical infeasibility, state and local agencies need to consider the extent to which physical or site constraints could be addressed by alternative designs. The burden of proving technical infeasibility rests with the agency/owner that is responsible for the facility, element or feature.

PUBLIC OUTREACH

The input of Alpharetta citizens and other members of the public is an important component in the development of this transition plan and the City's ongoing efforts to ensure accessibility.

Opportunities for the public to participate in the development of this plan have been promoted and resulting input used to help define priority areas for improvements. The City of Alpharetta will continue to provide, via its website and other outlets, opportunities for the community to submit comments, questions, and suggestions related to this transition plan and our accessibility efforts.

PROGRESS MONITORING AND PLAN MANAGEMENT

This transition plan is considered to be a living document that will continue to be updated as conditions within the City evolve. The initial schedule is to formally review the complete document (main body and appendices) at least once every two years, to identify any need for updates. Updates to the appendices or attachments may be made more frequently as needed. Any substantive updates to the main body of this document will include a public comment period to continue the City's public outreach efforts.

The City of Alpharetta recognizes that ADA compliance is an ongoing responsibility which will require monitoring to identify future accessibility issues that may be encountered. For example, facilities that currently meet ADA requirements could fall out of compliance in the future due to factors such as damage, disrepair, or changes within public rights-of-way that could create new accessibility obstacles. Therefore, the ADA Coordinator and Transition Plan Implementation Coordinator will establish an on-going monitoring/inspection process to ensure that facilities continue to comply with ADA requirements. Agency employees will also be encouraged to report any accessibility concerns or deficiencies that are identified.

ITEM DESCRIPTION:

During routine inspections of the City's stormwater infrastructure, maintenance needed to any structure, ditch line, curbing, or any other stormwater management infrastructure maintained by the City is noted and entered into the Public Works Asset Management System for repairs. Due to aging infrastructure, a backlog of work orders has accumulated. There are currently over 200+ work orders in the system pertaining to stormwater structures and 400+ pipe repair and replacement work orders. These repairs include, but are not limited to, regular grouting maintenance of manholes, structure replacement, invert installations, pipe repairs/ replacement, catch basin top and throat replacement, curb and gutter replacement, and sidewalk replacement. The Department of Public Works prepared a unit rate sheet and specifications which included over 240 items pertaining to stormwater structure and drainage repairs and advertised for proposals on May 2nd, 2024.

CSTE, Inc. was awarded the on-call stormwater construction services contract and has already completed task order 1 for FY 25 stormwater repairs. Task order 2 will consist of the following repairs:

- Spot repair to curb and gutter prior to FY26 Milling and resurfacing contract.
- Relocate underwater headwall at 385 Welwyn Walk.
- Raise buried junction box for pipelining at Seven Seas Court and Clipper Court.
- Catch basin replacements and curb and gutter repair along Rainwater Drive.
- Throat and top replacement throughout the city.
- Poured in place headwall and 180 LF of 72" pipe replacement along Morrison Parkway.

The total estimated cost for the above projects is \$500,232.98. Estimated costs for projects listed above were pulled from CSTE Inc's unit rate sheet that was submitted as part of RFP 24-122 and included within the current contract. Public Works staff broke down the cost of the above projects for each vendor that submitted to our on-call stormwater construction services RFP for price comparisons.

CSTE, Inc	\$500,232.98

Subject to the foregoing, if there is a conflict between the language in the RFP and the Proposal, the language in the former will govern.
2. Scope of Services. The Consultant's duties and scope of services are specifically set forth in the RFP (the "*Work*") and, in general, include, but may not be limited to, storm structure repair, sidewalk installation/repair and maintenance at various locations throughout the City of Alpharetta. This price includes the full development and provision of all deliverables as specified in the RFP and Proposal, as further supplemented or modified by the City's requirements. acceptance of the Work, the City will make final payment. Subject to the withholding of any amounts due to the City as further set forth herein, all such invoices will be paid within forty-five (45) days by the City unless any items thereon are questioned, in which event payment will be withheld pending verification of the amount claimed and the validity of the claim. The Consultant will provide complete cooperation during any such investigation. No price adjustments will be made during the term or any extension of this Contract except upon mutual consent of the parties. Notwithstanding any other provision of this Contract, and without prejudice to any of City's other rights and remedies, City will have the right at any time or times to deduct and withhold from any payment for services that may become due under this Contract, such amount or amounts as may reasonably appear necessary to compensate the City for any portion of the Work that is defective, damaged, flawed, unsuitable, non-conforming or incomplete. Acceptance of final payment will constitute a waiver of all claims against the City by the Consultant except for those claims previously made in writing against the City by the Consultant, pending at the time of final payment, and identified in writing by the Consultant as unsettled at the time of its request for final payment.

4. Commencement of Work; Time for Performance; Project Manager.

- (a) Commencement of Work. The Consultant must not proceed to perform the Work until on or after contract execution and receipt of the Notice to Proceed.
- (b) Time for Performance. From receipt of the Notice to Proceed, the Consultant shall perform the Work in accordance with the project schedule mutually agreed to by the parties prior to the commencement of Work until completion. The Consultant shall fully perform and complete the Work, including the full development and storm structure repair.
- (c) Time is of the Essence. All limitations of time set forth in this Contract are of the essence. The foregoing notwithstanding, Consultant shall not have liability for or be deemed in breach of this Contract because of delays caused by natural disasters, adverse weather, civil insurrection, or by a shelter-in-place or other city, state, or nation-wide "shut-down" order due to civil insurrection or a pandemic event.

5. Term and Termination. This Contract may be terminated prior to the term ending by either party in the event of substantial failure or default of the other party to fulfill its obligations under this Contract. Prior to such termination, the non-defaulting party must give notice to the defaulting party of the failure or default. Such party will have fifteen (15) days from the date of the notice to cure the default or failure if such default or failure is capable of being cured. Upon failure to cure the default or failure within fifteen (15) days, or if such failure or default is not capable of being cured, the non-defaulting party may terminate the Contract effective immediately upon the provision of written notice as provided in Section 13 (*Notices*). The Contract may also be terminated prior to term by the City for City's convenience upon the provision of not less than fourteen (14) days written notice to the Consultant. In the event of such termination, the Consultant will be compensated for services performed prior to termination. Such amount will be paid by the City upon the Consultant's delivering or otherwise making available to the City, all data, drawings, specifications, reports, estimates, summaries and other information and materials as may have been accumulated by the Consultant in performing the services included in this Contract, whether completed or in progress. All unperformed obligations incurred by Consultant prior to such date will survive termination of this Contract.

As required by O.C.G.A. § 36-60-13, this Contract will automatically and absolutely terminate without further obligation on the City on the last day of its fiscal year, each year of the term of this Contract, and furthermore, this Contract shall automatically renew on the first day of its fiscal year, each year of the term of this Contract, unless written notice is given by the City of its intent to terminate the Agreement at least sixty (60) days prior to the last day of any given fiscal year. Title to any supplies, materials, equipment, or other personal property shall remain in Consultant until

6. Representations and Warranties. Consultant represents and warrants that:
 - (a) Consultant has full power and authority to perform its obligations hereunder and to deliver the products and services set forth in the Contract Documents to the City without the consent of any other person or entity, and the products and services will be delivered free and clear of any lien, encumbrance, security interest or other claim, of whatever nature;
 - (b) Consultant will comply with all applicable statutes, rules, regulations and requirements of any governmental agency or authority, whether now or hereafter enacted, in performing its obligations hereunder, and the products and services will comply with all such statutes, rules, regulations and requirements in effect at the time of delivery to and acceptance by the City;
 - (c) Consultant will perform its obligations hereunder in a good, professional and workman-like manner and in strict accordance with City's specifications and the terms of this Contract;
 - (d) All services performed by the Consultant under this Contract will be conducted in a manner consistent with the level of care and skill ordinarily exercised by other members of Consultant's profession or trade currently practicing in the same locality under similar conditions; and
 - (e) Consultant, in the performance of its duties under this Contract, including, but not limited to, its dealings with property owners, developers, contractors, consultants, architects and any local, state or federal governmental agency or political subdivision, will owe its primary duty of loyalty to the City.
7. Licenses, Registrations, Certifications and Permits. The Consultant will be responsible for obtaining and keeping in a valid status, all licenses, registrations, certifications and permits necessary to perform the Work as required by law. Consultant represents to the City that the Consultant and its employees are properly licensed and/or registered within the State of Georgia for the performance of the services required herein, provided such licensure and/or registration is required by applicable law. Consultant will supply copies of any such licenses, certifications or permits to the City upon request.
8. Insurance.
 - (a) Insurance Generally. Consultant must obtain and must continuously keep during the term of this Contract insurance of the kind and in the minimum amounts as specified in the RFP, as follows:
 - i. Statutory Worker's Compensation and Employers Liability Insurance in the minimum amount of Five Hundred Thousand Dollars (\$500,000) or as required by applicable law, whichever is greater, for all employees and other persons as may be required by Georgia law. If Consultant is self-insured, Consultant must additionally provide the City with a certificate from the Georgia Board of Workers' Compensation stating that the Consultant qualifies to pay its own workers' compensation claims.
 - ii. Comprehensive General Liability insurance with minimum combined single limits of One Million Dollars (\$1,000,000) per occurrence and in the aggregate. The policy must apply to all premises and all operations of the Consultant. The policy must include coverage for bodily injury, broad form property damage (including completed operations), personal injury (including coverage for contractual and employee acts), blanket contractual, independent contractors, products, and completed operations. The policy must contain a severability of interests' provision. Coverage must be provided on an "occurrence" basis as opposed to a "claims made" basis. Such insurance must be endorsed to name the City, and its elected officials, officers, employees and agents, as additional insured parties.

- iii. Comprehensive Automobile Liability insurance with minimum combined single limits for bodily injury of not less than One Million Dollars (\$1,000,000) per occurrence and property damage of not less than One Hundred Thousand Dollars (\$100,000) per occurrence with respect to each of the Consultant's owned, hired and non-owned vehicles assigned to or used in performance of the Work. The policy must have a severability of interests' provision. Such insurance coverage must extend to all of Consultant's subcontractors. Such coverage must include all automotive equipment used in the performance of the Contract, both on and off any work site, and such coverage must include non-ownership and hired cars (vehicles and equipment) coverage. Such insurance must be endorsed to name the City, and its elected officials, officers, employees and agents, as additional insured parties.
- iv. Umbrella/Excess Liability insurance with minimum combined single limits of One Million Dollars (\$1,000,000) per occurrence and in the aggregate. Such policy must supply the same coverage set forth in the Comprehensive General Liability insurance policy. Such insurance must be endorsed to name the City, and its elected officials, officers, employees and agents as additional insured parties.

(b) Requirements of Insurance.

- i. Insurance must be procured and maintained with insurers with an A- or better rating as determined by Best's Key Rating Guide. All insurance must be continuously kept covering all liability, claims, demands, and other obligations assumed by the Consultant.
- ii. No policy of insurance will contain any exclusion for bodily injury or property damage arising from completed operations.
- iii. Every policy of insurance must provide that the City will receive notice no less than thirty (30) calendar days prior to any cancellation, termination, or a material change in such policy.
- iv. Proof of required insurance must be maintained in all equipment and motor vehicles insured in accordance with the provisions of this Contract.
- v. Consultant will ensure that any and all policies of insurance procured hereunder will provide for a waiver of subrogation against the City, and Consultant waives any claim against the City arising in contract or tort which is covered by its insurance hereunder.

(c) Failure to Obtain or Maintain Insurance. The Consultant's failure to obtain and continuously maintain policies of insurance in accordance with this Section and its subsections will not limit, prevent, preclude, excuse, or modify any liability, claims, demands, or other obligations of the Consultant arising from performance or non-performance of this Contract. Failure on the part of the Consultant to obtain and to continuously maintain policies providing the required coverage, conditions, restrictions, notices, and minimum limits will constitute a material breach of this Contract upon which the City may immediately terminate this Contract without advance notice.

(d) Insurance Certificates. Consultant must provide proof of such insurance to the City contemporaneously with the execution of this Contract. Prior to commencement of the Work, Consultant must submit to the City certificates of insurance for all required insurance. Insurance limits, term of insurance, insured parties, and other information sufficient to demonstrate conformance with this Section and its subsections must be indicated on each certificate of insurance. Acceptance of a certificate or proof of insurance does not constitute approval or agreement by the City that the insurance requirements have been satisfied.

(e) Other Insurance. Consultant must maintain such other types and/or amounts of insurance as reasonably required by the City from time to time.

Contract No.: 24-122

Nothing in this Section or this Contract will be deemed to constitute a waiver of the City's sovereign immunity, create rights in any third party, or create any third-party beneficiaries.

10. Subcontractors and Consultant Personnel.

- (a) No Subcontractors. No subcontractor or consultant will be retained by Consultant to perform services under this Contract without the prior written consent of the City, except for those subcontractors previously identified in the RFP.
- (b) Subcontractor Requirements. Administration of any approved subcontractor will be the Consultant's responsibility and all subcontracts must require each subcontractor to be bound by all pertinent portions of this Contract and to assume all applicable obligations and responsibilities which the Consultant by this Contract assumes toward the City. In particular, and not by way of limitation, all indemnification and insurance provisions will be fully binding upon any subcontractor providing a portion of the services, for all intents and purposes as if said subcontractor were a party to this Contract.
- (c) Key Staff. Where Consultant has specifically identified certain personnel in the RFP for the performance of certain portions of the Work (such personnel hereinafter referred to as "Key Staff"), Consultant will assign and furnish such Key Staff to perform the respective tasks and responsibilities as set forth in the RFP. Consultant agrees not to transfer or reassign any member of its Key Staff or the respective tasks or responsibilities of a member of Key Staff without the prior written consent of the City, except for the following reasons, as applicable:
 - (i) Situations where a member of Key Staff requests a transfer from his or her respective employer in order to accept a promotion or special assignment, which has been offered to him or her by such employer based upon his or her special education, qualifications or career path;
 - (ii) Disciplinary reasons;
 - (iii) Failure of the member of Key Staff to perform his or her respective tasks or responsibilities; or
 - (iv) At the request of the member of Key Staff.

In the event Consultant permanently transfers or reassigns a member of Key Staff or the respective tasks or responsibilities of a member of Key Staff for any of the foregoing reasons, Consultant will provide the City Administrator with prompt written notice of such transfer or reassignment and explain the basis of the transfer or reassignment. In the event of a vacancy in the position of any member of Key Staff, Consultant agrees to cooperate with the City in providing a replacement and make selection of a replacement without undue delay, in good faith, and in the best interests of the City.

Further, the City will have the right, utilizing an objective standard based on current and past performance of the subject Work, to require Consultant to reassign the tasks and/or responsibilities of any member of Key Staff to a different representative of Consultant. Consultant agrees to permanently transfer the tasks and responsibilities of any member of Key Staff as soon as reasonably possible upon notification by the City Administrator.

The project is scheduled for April 17, 2025 along a portion of the Alpha Loop near Northwinds Summit and Westside Parkway. New planting will be contiguous with existing planted areas and will include trees, shrubs, and ground covers of native plants. The project funds can be used for anything needed towards the project including materials, maintenance, lunch for the volunteers etc.

If approved, this contract will allow the City to move forward with receiving funds from Keep America Beautiful to offset the costs associated with this volunteer planting event with ADP.

ALTERNATIVES:

Do not approve the service agreement and forego the award of \$10,000 from Keep America Beautiful for the planting event along the Alpha Loop and reallocate \$10,000 from the city budget to cover the costs associated with this project.

Reasonableness shall be determined at KAB's sole discretion.

Termination of a Project shall not affect either Party's obligations in connection with any other ongoing Projects and the rights and obligations of all non-terminating Parties to the Agreement shall remain in full force and effect.

Failure by either Party to comply in any material respect with any of its obligations in this Agreement shall entitle the other party to give notice to the party in default requiring it to cure such default. If such default is not cured within thirty **(30)** days after receipt of such notice, the notifying Party shall be entitled to terminate this Agreement by giving notice of such termination to take effect immediately. In addition, either Party may, upon written notice to the other Party, terminate a Statement of Work without terminating the entire Agreement if the other Party breaches any material term of the Statement of Work and fails to cure such breach within thirty (30) days after receiving written notice of such breach from the non-breaching Party.

The right of either Party to terminate this Agreement, as herein provided, shall not be affected in any way by its waiver of, or failure to take action with respect to, any previous default.
