V. CONSENT AGENDA

A. Council Meeting Minutes (Meeting of 3/21/2022)

❖ Council Member Mitchell offered a motion to approve Council Meeting Minutes from 3/21/2022.

- Council Member Hipes seconded the motion.
- The motion was approved (6-0-1, as Mayor Pro Tem Merkel abstained from voting since he was not present during the 3/21/2022 City Council meeting).

VI. PARTNERSHIP UPDATES

A. MARTA GA 400 Update

- The following representatives came forward to present the MARTA GA 400 Update:
  - Freda Hardage, MARTA Board of Directors – North Fulton Representative
  - Marcus Arnold, MARTA Project Manager
  - Jacob Vallo, MARTA Senior Director of Transit Oriented Development
  - Colleen Kiernan, MARTA Senior Director of Government & Community Affairs
- Marcus Arnold came forward and presented the following information.
  - 12 miles of Bus Rapid Transit connecting to North Springs Rail Station to Windward Parkway
  - State of Georgia committed to providing $100M toward this project
  - GDOT SR 400 Express Lanes Procurement Schedule
    - September 2022: Release Draft Request for Proposals
    - March 2023: Release Final RFP
    - June 2023: Proposals Due
    - August 2023: Developer Selection
  - Station Locations: Windward Parkway, Old Milton Parkway, North Point Parkway, Holcomb Bridge Road, and North Springs
- Jacob Vallo came forward and presented the following information regarding economic development.
  - More density around the MARTA projects increases ridership and ROI
  - MARTA owns 12 acres at Windward Parkway.
  - MARTA does not control use or density, jurisdictions/municipalities do.

- Three (3) Station Properties in Alpharetta (Windward, Old Milton, North Point Mall)

- Colleen Kiernan came forward and presented the following information regarding funding sources.
  - 3 Phases: GDOT Express Lanes, Marta BRT Stations, Ongoing Operations and Maintenance
  - The second phase (Marta BRT) is the phase that needs to be determined. The cost for this phase is around $200-$325M.
  - This is a collaborative effort and renderings are only to get an idea of the use of the facility and could be changed to a different type of material (stacked stone).

City Council Discussion

- Council Member Hipes shared that he would like to see limitations on advertising (bridges, buses, benches) in order to keep aesthetics of the City.
- Council Member Mitchell shared that he did not like the metal and glass features in the renderings (citizens would prefer to see more traditional architecture), and he is concerned with parking for residents coming from the east or west to use the BRT in Alpharetta.
- Council Member DeRito shared that he would be interested in seeing MARTA continuing further north and was curious to know whether the BRT could be transferred into a light rail station in the future. Further, he wanted to see that bike racks and EV charging stations would be added as well.
- Council Member Binder shared that he wanted to know more about the design guideline process for stations in Alpharetta and the formula for how each local municipality will participate financially.
  - MARTA representatives said that in a recent project, Marta took their station design through the City of Atlanta's Design Review Board.
- Mayor Gilvin shared that to help congestion and the residents in Alpharetta, the BRT needs to go towards Johns Creek, not to the West. A challenge is raising the sales tax (currently about $16M generated each year), because our residents are not getting that same level of service in return for the taxes paid.

VII. PUBLIC HEARING

A. Z-22-01 / V-22-03 / Wexler / 182 Marietta Street

Consideration of a rezoning from C-2 (General Commercial) to DT-R (Downtown Residential) to allow for 1 'For-Sale' single-family detached home on 0.72 acres in the Downtown Overlay. A variance is requested to reduce buffer requirements. The property is located at 182 Marietta Street and is legally described as being located in Land Lots 694 & 1270, 1st District, 2nd Section, Fulton County, Georgia.

- Michael Woodman, Planning and Development Services Manager, came forward to present this item.
- Staff is recommending that Mayor and Council approve Z-22-01/V-22-03 Wexler /182 Marietta Street, subject to the following conditions:

1. Approximately 0.71 acres shall be zoned DT-R and limited to 1 single-family detached home. Site shall be developed substantially similar to the submitted site layout, labeled Exhibit A, except for modifications required to comply with the conditions below and subject to meeting all City code requirements and conditions of zoning.
2. Home elevation shall be substantially similar to the submitted home elevation, labeled Exhibit B, with final approval by the Downtown Consultant and DRB.
3. Home and garage shall maintain a minimum 20' front setback, 10' side setback and 10' rear setback.
4. Landscape strip along Marietta Street shall be planted with shade trees as a continuation of what has been planted or designed in the Downtown and outside of utility easements and overhead utilities, as approved by Staff.
5. A decorative low wall, metal fencing or hedge with columns shall frame the front yard.
6. A 10' planted buffer shall be provided along the east, south, and west property lines and planted with a mix of evergreen trees and shrubs. Existing trees within the 10' buffers identified to be in Good condition shall be saved, with final approval by Staff.
7. Property owner shall improve Marietta Street frontage with a 6' planter planted with street trees, 6' sidewalk and decorative pedestrian lighting, as approved by Staff.
8. Property owner acknowledges that redevelopment of the properties to the east and west with a commercial or mixed-use development shall not require a buffer adjacent to the subject property.
9. Home, accessory structures and infiltration shall be positioned on the property to have the least impact to existing trees along the west and south property lines, as approved by Staff.
10. Fences and walls visible from the public right-of-way shall be decorative, as approved by Staff. Unfinished wood fences and decks shall not be visible from the street.

- This item was considered at the 3/2/2022 Planning Commission meeting. Staff recommended approval subject to 10 conditions. There were no public comments. Vice Chair Brady requested that building height be updated in the staff report to reflect the latest elevation. After discussion, Planning Commission recommended approval, subject to staff's recommended conditions (Vote 6-0).
- The CZIM was held on CZIM was held on February 9, 2022. There were no public comments.
- The submitted request, if approved, would allow for the construction of one (1) 'For-Sale' single family detached home on 0.71 acres in the Downtown. The applicant proposes a rezoning from C-2 (General Commercial) to DT-R (Downtown Residential) and a variance to reduce undisturbed buffers. The subject property is located at 182 Marietta Street on the south side of Marietta Street and just west of Marjean Way.
- The property is developed with a single-family detached home that has been converted to a Contractor's Office (Sutton's Service Appliance Repair). Surrounding properties are zoned C-2 to the east and south, O-P (Office-Professional) to the west and R-8A (Dwelling, 'For-Sale' Attached) to the north. Windsong townhomes are located to the north, 172 Marietta Street (former residence converted to business use) to the east, 204 Marietta Street (Gibraltar Real Estate Services – former residence converted to business use) to the west

and Alpharetta Beach House office development to the south. The Comprehensive Land Use Plan designation of the property is 'Mixed Use', which allows the proposed single-family detached home.

- A variance is requested to reduce the 50' undisturbed buffers required adjacent to commercial properties. Commercially zoned land abuts the subject property on the east, south and west sides. In most cases, non-residential properties provide the undisturbed buffers. But, since the applicant proposes a rezoning to allow residential use, the buffer requirement becomes the applicant's responsibility. The property to the rear, Alpharetta Beach Houses, already provides a buffered area which ranges in width from 25' to 60'. The properties to the east and west have been converted to commercial uses and could redevelop in the future under the current zoning, C-2 and O-P, or through rezoning to a Downtown zoning district.
- According to the applicant, the home will be two (2) stories and approximately 5,000 square feet. A driveway with Porte cochere is proposed on the east side of the home leading to a garage at the rear of the property. The garage and driveway will accommodate the required resident and guest parking. The home is depicted with a 40' front setback (not including the covered entry) and a minimum fifteen-foot (15') side setback. The garage at the rear of the property is depicted with an eight-foot (8') side setback and 22' rear setback. DT-R allows a minimum ten-foot (10') front setback, zero-foot (0') side setback (ten-feet (10') between structures), and ten-foot (10') rear setback.
- The applicant's arborist identified five (5) specimen-sized Oaks in the front yard of the property, of which all are in Poor condition and should not be considered for preservation.
- The applicant submitted inspiration photos and an elevation depicting the home in the Neoclassical or Beaux Arts style. The City's Downtown Consultant reviewed the inspiration photos and believes the style complies with the Downtown Overlay architectural regulations.
- Staff has reviewed the applicant's proposal and finds that the request for rezoning and variance do not conflict with the established review criteria. The zoning proposal is consistent with the vision of the Downtown Master Plan and comprehensive land use plan designation of the property. The Mixed-Use future land use designation of the property allows for single use development, residential and commercial, as well as mixed-use development.
- Application of the 50' undisturbed buffer requirement would discourage residential development along Marietta Street, which already has a residential presence and feel. If approved, a condition is recommended absolving the properties to the east and west from buffer requirements if those properties redevelop with commercial or mixed-use development.
- The applicants, Andrew and Kourtney Wexler, came forward to speak on behalf of this application.

Public Comment:

- There were no public comments.

❖ Mayor Pro Tem Merkel offered a motion to approve Z-22-01/V-22-03 WEXLER/182 MARIETTA STREET, subject to the following conditions:

1. Approximately 0.71 acres shall be zoned DT-R and limited to 1 single-family detached

home. Site shall be developed substantially similar to the submitted site layout, labeled Exhibit A, except for modifications required to comply with the conditions below and subject to meeting all City code requirements and conditions of zoning.

2. Home elevation shall be substantially similar to the submitted home elevation, labeled Exhibit B, with final approval by the Downtown Consultant and DRB.
3. Home and garage shall maintain a minimum 20' front setback, 10' side setback and 10' rear setback.
4. Landscape strip along Marietta Street shall be planted with shade trees as a continuation of what has been planted or designed in the Downtown and outside of utility easements and overhead utilities, as approved by Staff.
5. A decorative low wall, metal fencing or hedge with columns shall frame the front yard.
6. A 10' planted buffer shall be provided along the east, south, and west property lines and planted with a mix of evergreen trees and shrubs. Existing trees within the 10' buffers identified to be in Good condition shall be saved, with final approval by Staff.
7. Property owner shall improve Marietta Street frontage with a 6' planter planted with street trees, 6' sidewalk and decorative pedestrian lighting, as approved by Staff.
8. Property owner acknowledges that redevelopment of the properties to the east and west with a commercial or mixed-use development shall not require a buffer adjacent to the subject property.
9. Home, accessory structures and infiltration shall be positioned on the property to have the least impact to existing trees along the west and south property lines, as approved by Staff.
10. Fences and walls visible from the public right-of-way shall be decorative, as approved by Staff. Unfinished wood fences and decks shall not be visible from the street.

- Council Member DeRito seconded the motion.
- The motion was approved unanimously (7-0).

B. **PH-22-01 / Unified Development Code Text Amendments – Research/Development, Laboratory, Athletic Facility & Fitness Studio, and Driveways**

Consideration of text amendments to the Unified Development Code (UDC) to add definitions, uses and regulations associated with Research & Development, Laboratory, Athletic Facility & Fitness Studio, and Driveways.

- Director of Community and Economic Development, Kathi Cook, came forward to present this item.
- This item was considered at the 3/2/2022 Planning Commission meeting. There were no public comments. After discussion, Planning Commission recommended approval (6-0).
- If approved, text amendments would be incorporated into the City's Unified Development Code Sections 1.4, 2.2, 2.3, 2.5, 3.4, and Appendix A: Alpharetta Downtown Code. Proposed amendments are attached as "Exhibit A."
- It is recommended that 'Athletic Facility, Fitness Studio' be separated into two (2) distinct uses and that definitions be added for each use. The uses are proposed to be assigned as permitted or conditional uses in commercial, office, light industrial and mixed-use zoning

categories.

- 'Laboratory, Research or Commercial' is a use that is identified in the UDC; however, there is currently no definition. The proposed definition cites the four (4) levels of laboratory biosafety established at the Federal level and limits laboratory containment to biosafety levels 1, 2 and 3.
- In response to market demand for life sciences and biotechnology opportunities, a new use and definition is recommended for 'Research and Development'. The use is proposed as a permitted use in existing Office Buildings and Office Parks and where office is a permitted use within an existing master plan in the CUP (Community Unit Plan) and O-I (Office-Institutional) districts, as well as in the LI (Light Industrial) district.
- Text amendments are recommended to clarify that driveway access on double frontage lots should be from the lower classification street. In addition, an amendment is recommended to clarify that residential lot curb cuts or driveways may be closer than 300' from a curb cut on an adjacent residential lot, but that an individual residential lot may not have more than one (1) curb cut per 300' of street frontage.

City Council Discussion

- Council Member Hipes asked about athletic facilities and incidental uses (tanning beds and massage) and suggested providing a clearer definition of incidental use.
    - Director Cook shared that it an incidental use would need to be a much smaller to the primary portion of the use.
- Mayor Gilvin shared that historically, traffic has been an issue at this location because of the internal traffic patterns (egress and ingress).
- City Attorney Mike Stacy read the ordinance title aloud.

Public Comment:

- There were no public comments.

❖ Mayor Pro Tem Merkel offered a motion to approve PH-22-01 / Unified Development Code Text Amendments – Research/Development, Laboratory, Athletic Facility & Fitness Studio, and Driveways.

- Council Member Will seconded the motion.
- The motion was approved unanimously (7-0).

C. PH-22-02 / 63 South Main Street Parking In-Lieu

This item has been withdrawn by the applicant and will not be discussed or considered during tonight's meeting

Consideration of a request to allow vehicular parking requirements for approximately thirteen (13) parking spaces to be satisfied through payment of parking in-lieu fees. The property is located at 63 South Main Street and is legally described as being located in Land Lot 1269, 2nd District, 2nd Section, Fulton County, Georgia.

VIII. NEW BUSINESS

A. Alpha Loop Downtown Link – Planning Services Task Order

- Director of Community and Economic Development, Kathi Cook, came forward to present this item.

- Staff is recommending that Mayor and Council approve Task Order 1-Downtown Alpha Link Framework Plan in the amount of $67,538.00 to Starr Whitehouse, under their contract for on-Call Planning Services.
- The Alpha Loop has proven to be a top resident trail for recreation as well as a dynamic economic driver since its original conception in 2015. Several private developments have advanced the City's concept by incorporating the Loop as amenity space within new developments and redevelopments. Continuing the Alpha Loop expansion through the Downtown District and determining the best connections to alleys, parking facilities and street crossings is vital in order to provide staff with information needed to obtain required easements as part of development.
- The scope of this project will include studying existing downtown roads, parking locations and alley grid to determine a concept plan that will connect the Downtown Spur to Wills Park, the Alpha Loop along Devore Road, and recommendations for an improved pedestrian crosswalk at Old Milton Parkway to connect to the main spur at Northwinds that will connect in the future to the North Point Ecco District. Concept plans will be developed for key crossings at Old Milton Parkway, Roswell Street and South Main Street.
- This effort will be led by Starr Whitehouse, recently awarded an On-Call Planning Services contract with the City. Under this task order, a district-wide framework plan for the Alpha Loop Downtown Link will be developed to further walkability within the Downtown District and enhance connections to the rest of the City. Invoices will be based on the billing rates established in the Master On-Call Contract.

Public Comment:

- There were no public comments.

❖ Mayor Pro Tem Merkel offered a motion to approve Task Order 1-Downtown Alpha Link Framework Plan in the amount of $67,538.00 to Starr Whitehouse, under their contract for on-Call Planning Services.

  - Council Member Hipes seconded the motion.
  - The motion was approved unanimously (7-0).

B. RFP 22-110 Landscape Maintenance and On-Call Construction Services for Parks

- Director of Recreation, Parks, and Cultural Services, Morgan Rodgers, came forward to present this item.
- Staff is recommending that Mayor and Council approve the award of RFP 22-110 Landscape Maintenance and On-Call Construction Services for Parks as follows:
  - Level I service to Crabapple Turf Management at an annual cost of $171,624.00;
  - Level II service to Tri Scapes at an annual cost of $499,901.04;
  - Planter Maintenance to Crabapple Turf Management at an annual cost of $39,861.00;
  - One-time work for the Main Street Median repairs to Tri Scapes at a one-time cost of $77,178.50; and
  - To authorize the Mayor to execute all necessary documents.
- The current contract for parks landscape maintenance is set to expire this fiscal year.

- This RFP (22-110) is to provide four (4) different services:
    - Level 1 Work Areas: These areas are designated as such due to greater content of ornamental landscape plants and therefore will be more time-consuming maintenance practices.
    - Level 1 Work Areas: These areas are general park areas, sport/ball fields, and play areas.
    - Planter Containers, Vessels, Urns, and Pots Maintenance: Watering and planting of the approximately 75 planters located throughout the downtown area.
    - Year One, One-time Enhancement Work: Landscape installation and soil preparation for the areas along Main Street and within the medians of Main Street (Marietta Street to Academy Street).
- The duration of the contract will be for five (5) years, beginning on May 1, 2022.

Public Comment:

- There were no public comments.
- Council Member Hipes offered a motion to approve the award of RFP 22-110 Landscape Maintenance and On-Call Construction Services for Parks as follows:
    - Level I service to Crabapple Turf Management at an annual cost of $171,624.00;
    - Level II service to Tri Scapes at an annual cost of $499,901.04;
    - Planter Maintenance to Crabapple Turf Management at an annual cost of $39,861.00;
    - One-time work for the Main Street Median repairs to Tri Scapes at a one-time cost of $77,178.50; and
    - To authorize the Mayor to execute all necessary documents.
        - Mayor Pro Tem Merkel seconded the motion.
        - The motion was approved unanimously (7-0).

C. Approval of Design Contract for Wacky World Restrooms at Wills Park

- Director of Recreation, Parks, and Cultural Services, Morgan Rodgers, came forward to present this item.
- Staff is recommending that Mayor and Council approve a total contract amount not to exceed $56,580.00 with TSW for construction drawings and cost estimates for design services for the restrooms located at Wacky World Playground in Wills Park and authorize the Mayor to execute all associated documents.
- In March, 2017, TSW, who was an on-call design service for the Recreation, Parks & Cultural Services was contacted to develop several designs for the replacement of the restrooms at Wills Park Wacky World and at North Park Softball fields.
- During the discussion of possible funds coming from the Rescue Act, the restrooms were selected as a possible project to move forward on.
- With the bond passing, the Wills Park Wacky World restrooms are moving forward.
- Staff asked TSW to put together a proposal for the construction drawing, which they did in

the amount of 49,500.00. This amount did not include an alternate to generate a construction cost estimate for the project. The proposal for the cost estimate was $7080.00, making the grand total for the project $56,580.00. Funding is available within the Series 2020 Bond account.

City Council Discussion

- Council Member Binder asked about budgeting for this item and whether this bathroom design would be replicated at other parks.
- Council Member DeRito asked about safety and bathroom closing hours (automatic locks) installed in the bathrooms.
- Mayor Gilvin shared that this cost seems high for design of a restroom.
    - Director Rodgers shared that this restroom will be very large (2,000 square foot restroom), since this is the most used restroom in our parks.
- Council Member Mitchell shared that he would like this restroom to look aesthetically pleasing, since it will be in the parks for quite a long time.

Public Comment:

- There were no public comments.

❖ Council Member Hipes offered a motion to approve a total contract amount not to exceed $56,580.00 with TSW for construction drawings and cost estimates for design services for the restrooms located at Wacky World Playground in Wills Park and authorize the Mayor to execute all associated documents.

- Mayor Pro Tem Merkel seconded the motion.
- The motion was approved unanimously (7-0).

D. Wills Park Maintenance Facility Construction

This item has been deferred by Staff to the April 18, 2022 City Council Meeting and will not be discussed or considered during tonight's meeting

E. Resolution – City Solicitor

A Resolution of the Mayor and Council of the City of Alpharetta, Georgia providing that the position of City Solicitor will be occupied by a full-time, at-will City employee; providing for the term of the City Solicitor; and for other purposes.

- City Administrator, Bob Regus, came forward to present this item.
- This resolution will make sure that the term of the solicitor is consistent with the duration of the employment of the person serving as solicitor (an indefinite, at-will term).
- City Attorney, Mike Stacy, read the resolution aloud.

Public Comment:

- There were no public comments.

❖ Council Member Will offered a motion to approve a Resolution of the Mayor and Council of the City of Alpharetta, Georgia providing that the position of City Solicitor will be occupied by a full-time, at-will City employee; providing for the term of the City Solicitor; and for other purposes.

- Council Member DeRito seconded the motion.
- The motion was approved unanimously (7-0).

- City Attorney, Mike Stacy, explained that the City is in negotiations with property owners, but out of abundance of caution, in order to meet the project and Georgia Condemnation Law deadlines, the City does need to resolve to condemn.

F. **Resolution to Authorize the Use of Eminent Domain – 13075 Tidewater Crossing**
A Resolution of the Mayor and Council of the City of Alpharetta, Georgia to Authorize the Use of Eminent Domain to Acquire Certain Property Located at 13075 Tidewater Crossing, Alpharetta Georgia (Tax parcel No.: 21 -5680-1033-085-2) for Road Project - McGinnis Ferry Road Widening from Ronald Reagan Boulevard/Union Hill Road to Hospital Parkway.

1.4.2 Defined terms.

Athletic Facility. An establishment sometimes referred to as a health club or gym. These facilities are typically located in a large space containing special equipment, and may include indoor and/or outdoor courts (tennis, basketball, etc.) and swimming facilities, where people go to do physical exercise. Establishments tend to be general exercise facilities but often provide specialized classes. Businesses frequently include incidental related services such as, personal training, tanning beds, massage and stretch therapy, nutritional programs, café, juice bars, and retail sales.

Fitness Studio. An establishment where equipment or instruction is provided for a specialized activity related to physical well-being such as, personal training, dance, martial arts, boxing, yoga, barre and other forms of similar physical exercise. These facilities are typically located in a smaller space due to their focused specialty. Businesses frequently include incidental related services such as, tanning beds, massage and stretch therapy, nutritional programs, café, juice bars, and retail sales.

Laboratory, Research or Commercial (also see Research and Development). A facility that provides controlled conditions in which scientific or technological research, experiments, and measurement may be performed. At the Federal level, four levels of laboratory biosafety have been created. The levels denote the types of actions, administrative (procedures, training or physical controls (protective gear, filtration) that should be used to contain the agent(s) being worked with. Containment means protection of the lab workers, those in the building, and the greater environment. Containment level limited to biosafety levels 1, 2 and 3.

Research and Development. A use that includes activities that businesses undertake to innovate and introduce new products and services, such as biomedical, software and technology development and manufacturing, technically oriented services and training facilities, engineering and consulting, scientific laboratories and clean rooms, office and corporate headquarters. Incidental related commercial and services uses are permitted within this use. Space dedicated to manufacturing and laboratory activities shall be limited to no more than 50% of a building or development.

B. *Accessory Uses.* A property in the L-I district may contain any accessory structure or use customarily related to and clearly subordinate to any principal use that is permitted by right or through approval as a conditional use on the same property, unless superseded by applicable conditions of approval for rezoning, variance, or conditional use.

Permitted accessory structures and uses include but are not limited to the following:

1. Privacy and decorative fences and walls.
2. Vehicle access, parking and loading areas, subject to the requirements of the Parking and Loading regulations herein.
3. Signs, subject to all of the requirements regulating signage herein.

4. Retaining walls and other site improvement structures approved as part of the development permit.

C. *Conditional Uses.* When reviewing a conditional use, consideration shall be given to factors associated with the use including, but not limited to, the following:

1. Site design.
2. Property access.
3. Hours of operation of the business.
4. Vehicular trips generated by the use.
5. Impact of the use on surrounding properties.
6. Impact of the use on the natural features of the site.

A property in the L-I district may be used for any of the following only upon approval as a conditional use by the City Council:

1.0 *Business Uses.*

a. Adult Entertainment Establishment (see Sec. 2.7).
b. Boutique Hotel.
c. Extended Stay Hotel.
d. Golf Driving Range.
e. Glass Fabrication.
f. Tire Retreading.

2.0 *Wholesale, Storage and Industrial Uses.*

j. Sewage Disposal Plant.
k. Transfer Station.

3.0 *Semipublic Uses, Utilities.*

a. Airport, public or private.
b. Power Station.
c. Utility Substation, including gas, electric, telephone switching, and similar uses operated by companies regulated by the Georgia Public Service Commission.
d. Wireless Tower.

4.0 *Transfer Station.* Any facility associated with waste or a facility used to transfer solid waste from one transportation vehicle to another for transportation to a disposal facility or processing operation.

4.1 *General Standards.*

a. No access to transfer station facility shall be allowed from streets that primarily access residential developments;

b. Access streets shall be paved and shall be able to withstand maximum load limits established by the State of Georgia as approved by the Engineering Director;

c. No portion of a new transfer station shall be located within a three-mile radius of the property lines of an existing transfer station;

d. A minimum 200 foot undisturbed buffer and ten-foot improvement setback shall be required along all property lines except public rights-of-way;

e. A minimum 50 foot buffer and ten-foot improvement setback shall be required along all public rights-of-way;

f. A minimum six foot high solid fence or wall shall be located on property lines or interior to the required buffers and improvement setback;

g. Operation of the facility shall be limited to the hours between 7:00 a.m. and 7:00 p.m., Monday through Friday; 9:00 a.m. to 7:00 p.m., Saturday; 12:00 p.m. to 5:00 p.m., Sunday (for routine maintenance and other non-operational facility activities).

h. Only municipal solid waste is accepted at the facility. No treated or untreated regulated medical waste, treated and destroyed medical waste or asbestos waste debris shall be accepted;

i. All solid waste is removed from the transfer station within 24 hours of receipt;

j. A transfer station with permanent operating mechanical equipment must have an attendant on duty whenever the facility is open;

k. The facility shall be designed and constructed in a manner to ensure that odor will not be emitted from the site;

l. The transfer facility must be cleaned at least once every 24 hours;

m. The entrance and exit shall be cleaned at a frequency which prevents the tracking or off-site migration of waste materials;

n. The operator shall take adequate measures to minimize the creation, emission, or accumulation of excessive dust and particulates;

o. The operator shall take adequate steps to control or prevent the propagation, harborage and attraction of pests;

p. All floors must be free from standing water. All drainage from cleaning areas must be discharged to sanitary sewers, authorized cleaning areas must be discharged to sanitary sewers, authorized sanitary waste treatment facilities, or a corrosion-resistant holding tank;

q. The facility shall provide fire suppression equipment as directed by the City of Alpharetta Fire Department;

r. All solid waste passing through the transfer station must be ultimately treated or disposed of at an authorized facility;

s. The transfer station must have adequate storage space for incoming solid waste;

t. Operational records must be maintained at facilities with permanent operating mechanical equipment. These records must include a daily log of the quantity of solid waste received and transported, specifying the origin by hauler and the destination of the solid waste transported daily;

u. The facility shall not generate more than 150 total vehicle trips per day;

v. An annual report must be submitted to the Community Development Department which summarized the information gathered in (t), above;

w. The facility shall be developed, operated and maintained in a safe, nuisance-free manner; and

x. The facility and its operation must be in compliance with GA EPD requirements.

4.2 *Additional Permit Application Requirements.*

a. Application requirements. An application for a solid waste transfer station permit must confirm to the requirements set forth herein. Applications for initial permits to construct and operate a solid waste transfer station must include the following:

(1) Regional plan or map. The regional plan or map must delineate the service area of the proposed transfer station.

(2) Site plan. The site plan must include:

(a) Site conditions and projected site utilization, including all site structures (such as buildings, fences, gates, entrances and exits, parking areas);

(b) Property boundaries, access roads, the locations of all surface water bodies, and 100-year floodplain boundaries;

(c) All proposed structures and areas designated for unloading, sorting, storage, and loading, including dimensions, elevations and floor plans of these structures and areas, and the general process flow; and

(d) Adjacent properties, including the location of public and private water supplies on these properties.

(3) Engineering report. The engineering report must include:

(a) A description of the general operating plan for the proposed facility, including the origin, composition, and expected weight or volume of all solid waste to be accepted, the maximum time any such waste will be stored, where all waste will be disposed of, and the proposed capacity operating hours, and the expected life of the facility;

(b) A description of all machinery and equipment, including the design capacity;

(c) A proposed transfer plan specifying the transfer route, the number and type of transfer vehicles to be used, and how often solid waste will be transferred to the disposal site;

(d) A description of the facility's drainage system and water supply system; and

(e) A contingency plan that details an alternative solid handling system for periods when not operating, or for delays in transporting solid waste due to undesirable conditions, such as delivery of unauthorized waste, fires, dust, odor, vectors, unusual traffic conditions, equipment breakdown or other emergencies.

4.3 *Design Standards.* All transfer stations must meet minimum design requirements as follows:

a. Unloading and loading areas.

(1) The unloading area must be adequate in size and design to facilitate efficient unloading from the collection vehicles and the unobstructed movement of vehicles;

(2) The unloading and loading pavement areas must be constructed of concrete or asphalt paving material and equipped with adequate drainage structures;

(3) Processing, tipping, sorting, storage, and compaction areas must be located within an enclosed building;

(4) Provisions must be made for weighing or measuring all solid waste transferred to the facility;

(5) Sufficient internal storage areas must be provided for incoming solid waste;

(6) Exhaust removal systems must be installed in enclosed areas; and

(7) The facility must be designed to accommodate expected traffic flow in a safe and efficient manner.

4.4 *Expansion or Modification of Existing Facilities.* No transfer station facility existing as of 12/06/04 may make modifications which require a permit, make changes that require a permit modification from the GA EPD or increase the square footage of any buildings on site without City Council approval. When reviewing modification or expansion plans, the Council may consider the extent to which the proposed modification or expansion meets the standards established in Sections 4.1 and 4.3, herein; however, any existing buildings which do not meet setback requirements shall be considered non-conforming and shall remain, but may not be expanded with regard to the setback non-conformity pursuant to UDC Sec. 2.4.2.

D. *District Regulations.*

Minimum lot size—one acre.

Minimum Lot Width—none.

Minimum Setbacks.

Front yard—from all street frontages:

From right-of-way of local street—50 feet.

From right-of-way of all other streets—65 feet.

Side yard—15 feet.

Rear yard—15 feet.

Maximum Coverage By Principal Buildings—35%.

Maximum Building Height—35 feet.

Development on property over 25 acres in size requires masterplan approval through a Public Hearing process.

E. *Screening and buffers (See Sec. 2.3.5).*

2.2.20 MU mixed use district.

This district is intended to allow for the development of a mix of uses within the framework of a master plan. The district regulations are intended to allow greater design flexibility in order to accommodate a pedestrian focused environment that provides opportunities for living, working, shopping, recreation and entertainment.

A. *Applicability.* This zoning district is applicable to properties located within:

1. Areas that are primarily non-residential in character; or
2. Along major roadways that are primarily commercial in character; or
3. Historic Downtown Alpharetta; or
4. As noted in the Comprehensive Land Use Plan.

B. *Permitted Principal Uses.* A property in the MU district may be used only for those uses approved as part of the conditions of approval of the MU zoning on the property and as further limited below.

1. *Dwelling, attached or detached:* At least 25% of the MU development shall be utilized as residential dwellings. Land use calculations shall utilize gross floor area for vertical mix of uses and land area for horizontal mix of uses.

Dwelling, 'For-Rent' and 'For-Sale' units shall require conditional use approval as set forth in Table 2.2.

2. *Commercial:* At least 10% of the MU development shall be utilized as commercial uses (as approved in the MU master plan). Land use calculations shall utilize gross floor area for vertical mix of uses and land area for horizontal mix of uses.
3. *Open Space:* MU developments shall incorporate the following amounts and types of open space:
    a. *All developments:* A minimum of 10% of the gross land area shall be designed for use as civic space in conformance with Sec. 2.10.10.C of the North Point Overlay.
    b. *Developments with residential uses:* In addition to the requirements of "a" immediately above, each MU development containing residential uses shall provide a minimum of one acre of open space/100 population generated by residential uses. Household size shall be calculated using the most current US Census data for the City of Alpharetta. This requirement shall not apply in the North Point Overlay, where alternate standards apply.
4. *Office/Institutional:* At least 25% of the MU development shall be utilized for office buildings. Land use calculations shall utilize gross floor area for vertical mix of uses and land area for horizontal mix of uses.
5. Redevelopment projects that incorporate existing buildings and do not conform to the dwelling, commercial, or office/institutional percentages set forth in "1","2" or "4" above (prior to redevelopment) are not subject to said requirements when all of the following are met:
    a. At least 75% of the total existing floor area remains after redevelopment; and
    b. The total floor area of new construction does not exceed the total floor area of existing buildings to remain; and
    c. The redevelopment does not increase the degree of non-conformity with regards to the percentages set forth in "1"," 2" or "4" above.

As determined by City staff, uses shall be calculated using one of the following methods:

Horizontal Mixed Use: Land Use Land Area (acres)/Total MU Land Area (acres) = % Land Use of MU Development

Example: 25 acres of Residential Land Use/100 acres of MU Land Area = 25% Residential Land Use of MU Development

Vertical Mixed Use: Land Use Gross Floor Area (square feet)/Total Gross Floor Area of All MU Development (square feet) = % Land Use of MU Development

Example: 25,000 SF of Commercial Land Use/100,000 SF for All Vertical Development = 25% Commercial Land Use of MU Development

Combination of Horizontal and Vertical Mixed Use:

Land Use Gross Floor Area (square feet)/Total Gross Floor Area of All MU Vertical and Horizontal Development (square feet) = % Land Use of MU Development

Example: [25,000 SF of Vertical Commercial Land Use + 25,000 SF of Horizontal Commercial Development]/200,000 SF for All Vertical and Horizontal Development = 25% Commercial Land Use of MU Development

C. *Conditional Uses.* A property in the MU district may be used for those uses listed below and in Table 2.2, as well as, any additional uses included in the conditions of approval for the MU zoning on the property. Conditional uses not included in the master plan shall require a public hearing by the Planning Commission and approval by the City Council.

1. Residential Uses:
    a. Dwelling, Group (assisted living facility, congregate housing).
    b. Dwelling, 'For-Rent'.
    c. Dwelling, 'For-Sale', Attached and Detached.
    d. Bed and Breakfast.
2. Commercial Uses:
    a. Art Gallery.
    b. Athletic Facility.
    c. Bakery.
    d. Bank, Savings & Loan.
    e. Barber Shop.
    f. Beauty Shop.
    g. Book Store.
    h. Boutique Hotel.
    i. Brewery.
    j. Clinic.
    k. Dance Studio.
    l. Day Care Center.
    m. Distillery.
    n. Drug Store (Pharmacy).

o. Dry cleaning, Pickup Station.

p. Fitness Studio.

q. Florist, Retail.

r. Grocery Store (max. 50,000 SF in the North Point Overlay).

s. Hardware and Garden Supply Store (max. 50,000 SF in the North Point Overlay).

t. Hotel/Motel.

u. Liquor Store.

v. Nail Salon.

3. Semipublic Uses, Utilities:

~~a. Athletic Facilities, Fitness Studio.~~

a. Church, Synagogue.

b. Heliport.

c. Library.

d. Museum.

e. Park or Playground.

f. Public Building.

g. School, Academic.

D. *District Regulations.*

Minimum Lot Size: The minimum area permitted to be zoned for an MU development is 25 acres.

Maximum Density of Dwelling Units: The MU master plan shall establish maximum density for each area within the development. Density for all residential units combined shall not exceed eight (8) dwelling units/acre, except when City Council approves greater density by conditional use in the North Point Overlay. Density shall be calculated based on the gross acreage of the entire MU master plan.

Development Standards: Regulations governing lot size, lot width, setbacks, principal building coverage, floor area of dwelling unit, and height shall be established for each area within the MU master plan and approved through the public hearing process.

Maximum Impervious Area: 80% for the entire MU development.

Civic Space: See Sec. 2.20.B.3.

Open Space: Open space may include residential recreational amenities. However, at least 50% of the required open space shall be provided in passive land area(s).

E. *Review Criteria.* The MU district is intended to promote specific objectives. Therefore, the following shall be considered when reviewing an MU master plan:

1. Retail, restaurant, office, and personal service uses at ground level.
2. Pedestrian connectivity to all uses.
3. Large parking areas below grade, in decks or screened. Design efforts to provide shared parking will also be considered.
4. Accommodations for public transportation.
5. Buildings that face or appear to face public roadways.
6. Appearance standards for buildings and structured parking.
7. Limitations on uninterrupted building elevations.
8. Creation of vistas and view corridors within development.
9. Focal point features at prominent locations and ends of vistas.
10. Incorporation of natural site features.
11. Block lengths conducive to pedestrian traffic.
12. Detention and retention facilities designed to be aesthetically pleasing.
13. Creative methods for stormwater management to provide additional open space.
14. Attractive and usable street furniture in public spaces.
15. Emphasis on a high quality landscape plan.
16. Number of office jobs internally captured on-site.

F. *Time Linkage/Concurrency.* In order to ensure that the objectives of MU district are met and development occurs which incorporates a mix of uses, a development phasing strategy or time line shall be established for each MU project, subject to the following:

1. *Open Space and Civic Space.* No certificate of occupancy for any use shall be issued until a proportional amount of required open space and civic space has been installed.

Furthermore, when reviewing the phasing strategy or timeline, the City Council may link the issuance of other permits and/or certificates of occupancy for a portion of the development with the completion of other portions of the development.

TABLE 2.2 LIST OF PERMISSIBLE AND CONDITIONAL USES

On the following table, an "O" means that the use will be permitted in that district only if a Conditional Use Permit is granted by the City Council. An "X" means that the use is permitted in the zoning district subject to the general provisions of the Unified Development Code. An "A" means that the use is permitted as an accessory use in the zoning district subject to the general provisions of the Unified Development Code. An "S" means that the use will be permitted as a subordinate use in that district if a Conditional Use Permit is granted by the City Council. For uses not included in this list or when the Director of Community Development is unable to determine placement, application shall be made to the Board of Appeals for interpretation.

A), 10-4-2021)

* Uses under the CUP and OI Zoning Districts shall be permissible through an approved master plan amendment and statement of intent.

SECTION 2.3 SUPPLEMENTARY REGULATIONS

2.3.1 General exemptions.

A. *Heights—Exclusions.* The following structures are exempt from the height limitations imposed within each zoning district:

1. Church spires, cupolas, and chimneys.
2. Agricultural accessory structures, such as barns, silos, windmills, and the like.
3. Parapets and structures used for ornamental or aesthetic purposes not to exceed twelve (12) feet.
4. Elevator penthouses not to exceed fifteen (15) feet.
5. Mechanical equipment on building roofs or rooftop antennas provided any such equipment exceeding 12 feet in height shall be contained within a structure or otherwise screened from ground view from adjoining streets and properties.

B. *Front Yard Requirements—Existing Residential Areas.* The setback requirements of this Ordinance shall not apply to any residential lot where the average setback on developed lots located adjacent to and on each side of such lot and within the same zoning district and fronting on the same street as such lot is less than the minimum required setback. In such cases, the setback of such a lot may be less than the required setback but not less than the average of the existing setbacks on the developed lots. In no case, however, shall setbacks be less than 15 feet.

If the adjacent developed lots on both sides of a vacant residential lot, within the same zoning district and fronting on the same street as such lot, have front yard setbacks greater than the minimum required by the zoning district, then the minimum setback on the vacant lot shall be the average of the 2 adjacent developed lots.

C. *Double Frontage Lots.*

1. Double frontage lots should be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A landscaped or natural buffer of at least twenty feet (20'), across which shall be the right of access, shall be provided along the line of lots abutting such a traffic artery.
2. On lots having frontage on two (2) streets, but not located on a corner, the minimum front yard setback requirement shall be provided along each street frontage.
3. Double frontage lots shall obtain access from the street with the lower functional classification, unless this poses a safety hazard or would otherwise be impractical.

D. *Setbacks—Exclusions.*

1. No building or structure or projection thereof, including porch, deck, terrace or chimney, shall be erected closer to a property line than the applicable setback regulation prescribed herein allows. However, uncovered steps, patio slabs, driveways, walkways, retaining walls of no more than 4′ in height, and roof overhangs of up to 18″ may be located within setback areas.
2. Required setbacks may accommodate vegetated runoff reduction measures, provided such setbacks meet fire code standards. The runoff reduction measures may not compromise public safety such as the sight distance triangles required by the City.

E. *Flag Lots.*

1. Flag lots are prohibited for residential development. Residential building sites must meet minimum lot width requirements at the front setback line or at twice the required front setback for cul-de-sac lots.

(Ord. No. 730 , § 6, 12-5-2016; Ord. No. 732 , § 2, 2-6-2017)

2.5.6 Public street access.

A. *Access to Parking Lots.* A plan of entrances, exits and storm water drainage shall be submitted to the Department of Community Development and approved prior to the issuance of a development permit for off-street parking lots, whether public or private. Installation of entrances, exits and drainage systems shall have been completed prior to the issuance of a certificate of occupancy. All curb cut locations as well as widths shall comply with the Alpharetta Standard Drawings.

B. *Driveways and Curb Cuts.* Local structures may have access points to parking lots as needed to fit the development, in accordance with professional traffic engineering practice. In general, curb cuts shall be spaced at least 300 feet apart and be located at least 300 feet away from a street intersection. A curb cut on a residential lot may be closer than 300 feet from a curb cut on an adjacent lot, but an individual residential lot shall not have more than one (1) curb cut per 300 feet of street frontage.

C. *Vision Clearance.* In all districts no fence, wall, shrubbery or other obstruction to vision between the heights of 2½ feet and 10 feet above the finished grade of streets shall be erected, permitted or maintained within 20 feet of the intersection of the right-of-way lines of streets.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015; Ord. No. 732 , §§ 6—9, 2-6-2017)

2.5.9 Prohibited parking.

A. Except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer, no person shall:

1. Park a vehicle, except temporarily for the purpose of and while actually engaged in loading or unloading of property or passengers, in acceleration or deceleration lane; or
2. Park a vehicle overnight in a cul-de-sac located in a residential district.
3. Park a vehicle on an unpaved surface in any commercial district, the front yard of a residence or the side or rear yard if the side or rear yard ~~faces~~ fronts on the street, except as provided for in Subsection 2.5.5(F).

B. The City may, but is not required to, post no parking signs in areas where parking is prohibited in Paragraph 'A' above, and the failure to post signs shall not excuse any person from compliance with Paragraph 'A'.

C. Paragraph 'A' of this section shall not apply to the driver of any vehicle which is disabled while on the roadway in such a manner and to such extent that is impossible to avoid stopping and temporarily leaving such disabled vehicle in such position.

D. No inoperable vehicle shall be parked or stored on a street within a residential district. An automobile or other vehicle shall be deemed inoperable if it meets any one of the following criteria:

1. It does not meet the Official Code of Georgia requirements for operating on a public street;
2. It is extensively damaged, such damage including but not limited to any of the following: missing wheels, tires, motor or transmission;
3. It is not operable on the public streets because it is not currently registered with the Georgia Department of Motor Vehicles;
4. It is not capable of being operated on a public street due to missing or inoperable mechanical or electronic parts; or
5. It has been continuously parked in the same location for a period of thirty (30) consecutive days.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015)

Source: Urban Land Institute (2010). The Dimensions of Parking, Fifth Edition. National Parking Association.
Notes: Recommendations assume (1) one-way traffic for aisles less than 90 degrees, and two-way traffic for 90 degree parking; (2) double loaded aisles; and (3) a design vehicle that is 6'7" by 17'3".

3.4.2. Use Table Key.

A. Permitted Use (X). Indicates a use is permitted in the respective district. The use is also subject to all other applicable requirements of the Unified Development Code.

B. Conditional Use (O). Indicates a use may be permitted in the respective district only where approved by the City Council in accordance with Section 4.2 of the Unified Development Code. Conditional uses are subject to all other applicable requirements of the Unified Development Code, including any applicable use standards, except where the use standards are expressly modified by the City Council as part of the conditional use permit approval.

C. Use Not Permitted. An empty cell indicates that a use is not permitted in the respective district.

RE: FINANCIAL MANAGEMENT REPORTS AS OF FEBRUARY 28, 2022

The documents contained herein represent the financial management reports for the City of Alpharetta ("city") as of the period ending February 28, 2022.

General Fund

Revenue: The following section pertains to information detailed in the attached Revenue Summary and Collection Comparison report. FY 2022 revenues are budgeted at $71.4 million (net of Carryforward Fund Balance totaling $6 million). As of February 28, 2022, actual revenue collections total 85% or $60.6 million. Collection trends indicate a net gain over budget of $4.6 million with the material detail as follows:

• Property Taxes (incl. Motor Vehicles):	$ 1,286,593
• LOST:	1,500,527
• Franchise Tax:	140,905
• Alcohol Beverage Excise Tax:	125,000
• Building Permit Fees:	100,000
• Court/Traffic Fines:	647,500
• Hotel Taxes:	562,500
• Other:	201,212
Estimated Gain:	$ 4,564,237

Motor Vehicle Title Tax collections (included within the Property taxes line item above) is trending 22% higher than FY 2021 ($2.7 million). Collection estimates for FY 2022 conservatively total $2.8 million which is $1 million greater than budget.

Local Option Sales Tax collections is trending 21% higher than FY 2021 ($17 million). Collection estimates for FY 2022 conservatively total $17.8 million which is $1.5 million greater than budget.

Franchise Tax collections is trending 4% higher than FY 2021 ($6.9 million). Collection estimates for FY 2022 conservatively total $6.8 million which is $140,905 greater than budget.

MAYOR
JIM GILVIN

MAYOR PRO TEM
DAN MERKEL

COUNCIL MEMBERS
JASON BINDER
DOUGLAS J. DERITO
JOHN HIPES
DONALD F. MITCHELL
BRIAN WILL

CITY
ADMINISTRATOR
ROBERT J. REGUS

Alcohol Beverage Excise Tax collections is trending 17% higher than FY 2021 ($2.3 million). Collection estimates for FY 2022 conservatively total $2.2 million which is $125,000 greater than budget.

Building Permit Fee collections is trending -10% lower than FY 2021 ($2 million). Collection estimates for FY 2022 total $1.8 million which is $100,000 greater than budget.

Collections for Municipal Court Fines is trending 18% higher than FY 2021. Current estimates for FY 2022 total $1.6 million which is -$200,000 less than budget. These losses are forecast to be partially offset through other fine category collections (e.g., school zone safety camera fines which is estimated at $1.2 million in collections this year against budget of $300,000). Recent gains in court fine collection trends may likely result in an increase in the collection estimate in future months.

Hotel/Motel tax collections is discussed within the Special Revenue Funds section of this letter.

Expenditures: The following section pertains to information detailed in the attached Expenditure Summary by Department (expenditure rollup by department) and Expenditure Summary by Category (expenditure rollup by account) reports. As of February 28, 2022, city departments (not including General Government[1]) have encumbered and expensed 66%, or $45 million, of their FY 2022 budget appropriations.

Contingency: The General Fund contingency balance totals $645,439.

Other Funds

The following section references information included within the attached Performance Dashboard, Grant and Capital Funds Detail Reports, GAAP Financial Statements, etc.

Operating Grant Fund (Fund 220): Unspent project appropriations total $65,290. Remaining appropriations are set aside for grant matches ($40,405) and a non-allocated reserve ($44,855).

Capital Grants Fund (Fund 340): Unspent project appropriations total $1.7 million. Remaining appropriations are set aside for a non-allocated reserve ($2,253).

General Capital Project Fund (Fund 301): Unspent project appropriations total $6.4 million. Remaining appropriations are set aside for grant matches ($386,000) and a non-allocated reserve ($2.7 million).

Stormwater Capital Fund (Fund 302): Unspent project appropriations total $1.6 million. Remaining appropriations are set aside for a non-allocated reserve ($73,974).

American Rescue Act Capital Fund (Fund 303): Unspent project appropriations total $3.5 million.

Series 2016 Parks and Transportation Bond Fund (Fund 317): Unspent project appropriations total $1 million. Remaining appropriations are set aside for a non-allocated reserve ($415,511).

Series 2022 Parks Bond Fund (Fund 318): Unspent project appropriations total $29.3 million.

TSPLOST 1 Capital Project Fund (Fund 335): This fund accounts for collections under the Transportation Special Local Option Sales Tax (TSPLOST) that went into effect on April 1, 2017

[1] General Government is utilized to account for non-operating transactions such as transfers-out to other city funds, contingency, etc.

and expired on March 31, 2022. Unspent project appropriations total $30.3 million. Remaining appropriations are set aside for a non-allocated reserve ($2.3 million).

TSPLOST 2 Capital Project Fund (Fund 336): This fund accounts for collections under the Transportation Special Local Option Sales Tax (TSPLOST) that went into effect on April 1, 2022. Appropriated funding totals $52 million and represents Tier-1 project funding. Tier-1 projects are funded at 85% of forecasted revenue collections over the life of the 5-year tax. For comparison purposes, TSPLOST 1 collections have trended at over 90% of forecasted revenue collections.

Hotel/Motel Fund: FY 2022 revenues are budgeted at $5.5 million (net of carryforward fund balance totaling $1.3 million) with budgeted disbursements as follows: Alpharetta Convention & Visitor's Bureau (43.75% or $2.4 million); Facilities (18.75% and a portion of the carryforward fund balance detailed above; $1.3 million for debt service on the Series 2016 Convention Center Bonds, and $879,022 for eligible initiatives such as Equestrian Center and Wills Park Master Plan Improvements); and the city (37.5% or $2.1 million).

Debt Service Reserve funding (Convention Center Bonds) from the Facilities portion of the tax totals $127,518 (funded in prior years and represents the remaining portion of the carryforward fund balance figure referenced above). This reserve figure dipped below the $1.5 million target level in 2019 due to the impact of the COVID-19 pandemic on the hospitality industry and will be replenished once revenues within the Fund strengthen. Hotel tax collections is trending 125% higher than FY 2021. Collection estimates for FY 2022 conservatively total $7 million which is $1.5 million greater than budget. The distribution of this additional revenue is as follows: General Fund ($562,500); ACVB ($656,250); and Facilities ($281,250).

Solid Waste Fund: FY 2022 revenues are currently budgeted at $4.8 million (net of carryforward fund balance totaling $750,000 used to balance operations pending inclusion of the new rate structure). As of February 28, 2022, the city has collected $5 million representing the 1st -4th quarter billings. Rates will be adjusted to cover ongoing operations.

Other Items

Council Member Stipend Activity Listing: The FY 2022 budget includes appropriations of $7,200 for the Mayor and $4,000 for each City Council Post. However, Mr. Gilvin (Mayor) and Mr. Merkel (Post #6) contributed portions of their stipend allocation to Mr. Will (Post #2) to cover activity for the remainder of the fiscal year as there were no residual funds within the Post #2 stipend account to draw upon. The available balances are as follows:

(1) Carryforward Fund Balance represents cash available at the end of the prior fiscal year that is programmed into the current fiscal year budget. As this account represents cash already received, there will not be actual collections.

(2) Innovation Center utilities are being funded by the Alpharetta Technology commission (ATC) on a reimbursement basis. As such, expenses will outpace budget at month end due to the billing/reimbursement delay.

Resolution Creating Office of Prosecuting Attorney

A RESOLUTION OF THE MAYOR AND COUNCIL OF THE CITY OF ALPHARETTA, GEORGIA TO CREATE AN "OFFICE OF PROSECUTING ATTORNEY" PURSUANT TO O.C.G.A. § 15-18-91 FOR THE MUNICIPAL COURT AND TO OTHERWISE DECLARE A NEED FOR A SHARED COURT SOLICITOR WITH THE CITY OF MILTON, GEORGIA TO HOLD THE SAID OFFICE; AND FOR OTHER PURPOSES

WHEREAS, the City of Alpharetta, Georgia ("City") and the City of Milton, Georgia ("Milton") (collectively the "Cities") wish to appoint a shared prosecuting attorney ("Court Solicitor"), and to effectuate same, as required by O.C.G.A. § 15-18-91 *et seq.*, the Cities shall create an "Office of Prosecuting Attorney" ("Office") for their respective jurisdictions by resolution or ordinance, and the Cities thereafter will share the same Court Solicitor appointed to hold the created Office; and

WHEREAS, the City, after investigation, has determined that it is desirable, necessary, and in the best interest of the City to create the Office and to formulize an agreement between the Cities (*i.e.,* IGA) setting forth the terms and conditions upon which the Court Solicitor will be retained and compensated; and

WHEREAS, pursuant to its Charter and other laws of the State of Georgia, the City has the power to adopt clearly reasonable ordinances, resolutions and regulations for the protection and preservation of the public health, safety and welfare of its citizens.

NOW THEREFORE, BE IT RESOLVED BY the Mayor and Council of the City ("Mayor and Council"), and it is hereby resolved by the same, that there exists a need for the City to appoint a Municipal Court Solicitor to be shared with Milton.

BE IT FURTHER RESOLVED that, in order to effectuate this appointment, there is hereby created an "Office of Prosecuting Attorney" for the City's Municipal Court. This same office will be correspondingly created by the City of Milton.

BE IT FURTHER RESOLVED, that upon both the City and Milton creating their respective "Office of Prosecuting Attorney" the Cities shall thereafter appoint and share a Court Solicitor to fill said Office, and the Cities will prepare and adopt an intergovernmental agreement setting forth the terms and conditions upon which this shared Court Solicitor will function.

BE IT FURTHER RESOLVED that the City hereby adopts in its entirety Title 15, Chapter 18, Article 5 of the Official Code of Georgia Annotated, and the same shall govern the shared Court Solicitor's official duties and responsibilities, and the Cities' respective duties and responsibilities related thereto.

BE IT FURTHER RESOLVED that the Office is hereby established for the purpose of providing representation of the City in matters pertaining to municipal ordinance violations and State offenses enforceable in the City's Municipal Court, as authorized by Georgia law.

BE IT FURTHER RESOLVED that this Resolution shall be effective immediately upon its adoption by the City and said Office shall be deemed to be fully created and activated upon the adoption of this Resolution.

BE IT FURTHER RESOLVED that the Cities shall appoint a shared Court Solicitor subsequent to approval of this Resolution and at the time of official appointment of said officer the Cities shall notify the Prosecuting Attorneys' Council of the State of Georgia of the name of the person appointed as joint Court Solicitor on or before thirty (30) calendar days following said appointment date.

BE IT FINALLY RESOLVED that the 'term' of the Court Solicitor, as required by O.C.G.A. 15-18-91, shall be established in the intergovernmental agreement between the City and Milton related to the shared Court Solicitor.

SO RESOLVED, this _____ day of _____, 2022.

IGA Milton + Alpharetta Municipal Court Facilities & Services

INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF MILTON, GEORGIA AND THE CITY OF ALPHARETTA, GEORGIA REGARDING JOINT USE OF MUNICIPAL COURT FACILITIES AND SHARED MUNICIPAL CLERK SERVICES

FIRST AMENDMENT

This "**FIRST AMENDMENT**" effective as of the date last signed by the parties below, is by and between **CITY OF MILTON, GEORGIA**, a municipal corporation formed under the laws of the State of Georgia and acting buy and through its governing authority, the City of Milton Mayor and City Council ("Milton"), **CITY OF ALPHARETTA, GEORGIA**, a municipal corporation formed under the laws of the State of Georgia and acting buy and through its governing authority, the City of Alpharetta Mayor and City Council ("Alpharetta") collectively Milton and Alpharetta may be referred to hereinafter as the "Parties," or singularly referred to as a "Party."

RECITALS

WHEREAS, GA CONST Art. 9, § 3, ¶ I, authorizes municipal governments to enter into intergovernmental agreements for the joint provision of services and the joint use of facilities;

WHEREAS, the Parties entered that certain Intergovernmental Agreement dated May 24, 2021 ("IGA"); and

WHEREAS, Milton owns a municipal court facility located at the Milton Public Safety Complex, 13690 GA-9, Milton, GA 30004, wherein said facility is convenient to Alpharetta residents, and as such, the Parties currently share the services of a municipal clerk as permitted by O.C.G.A. § 36-32-12 and pursuant to the terms and conditions of the IGA; and

WHEREAS, the Parties now desire to amend the IGA to include a shared "Court Solicitor" to prosecute city code matters within the shared municipal court for both Parties; and

WHEREAS, O.C.G.A §§ 15-18-90 through 15-18-99 govern the duties, appointment requirements and other like matters related to a city court solicitor, and further establishes the mandatory preliminary actions to be taken by the governing authorities of the various cities to establish an "Office of Prosecuting Attorney," such actions the Parties hereby affirm have been taken by both Milton and Alpharetta; and

WHEREAS, Alpharetta and Milton believe the public interest will be served sharing a Court Solicitor, and otherwise amending the IGA, as contemplated hereunder.

AGREEMENT

NOW THEREFORE, in consideration of the following mutual covenants and agreements, the receipt and sufficiency of which are acknowledged by each of the Parties, the Parties hereby amend the IGA, as follows:

1. **Recitals/Defined Terms**. The above stated recitals are true and correct and are incorporated herein by this reference in their entirety. Capitalized terms which are not defined in this First Amendment shall have the same meaning as defined in the IGA. The IGA is hereby

modified as follows:

2. **Amendment:**

a. The title of the IGA is hereby amended to the following: "**INTERGOVERNMENTAL AGREEMENT BETWEEN THE CITY OF MILTON, GEORGIA AND THE CITY OF ALPHARETTA, GEORGIA REGARDING JOINT USE OF MUNICIPAL COURT FACILITIES AND SHARED MUNICIPAL CLERK AND COURT SOLICITOR SERVICES**"

b. Section III of the IGA is hereby restated in its entirety but then supplemented as follows:

i. The title of Section III shall be changed to read: **"SHARED USE OF MUNICIPAL COURT CLERK AND COURT SOLICITOR"**

ii. Subsections III(A)-(B) of the IGA shall remain undisturbed and shall equally govern the terms and conditions related to the new shared "Court Solicitor" in the same manner and to the same extent as currently exists for the shared Court Clerk, and, as such, any reference to "Court Clerk" under the IGA (except for subsection III(C)) shall be amended to read, "**Court Clerk/Court Solicitor**," and the IGA, in its entirety, is hereby understood to contemplate the addition of a shared Court Solicitor where the shared Court Clerk is referenced, and the same shall be incorporated into the IGA by reference.

iii. Section III. of the IGA is hereby amended by inserting the following subsections III(D)-(E) immediately after III(C) therein:

"**D. Filling of Court Solicitor Vacancy.** If the position of the shared Court Solicitor should become vacant during the term of this IGA, Alpharetta shall be responsible for, and have final appointment authority, in hiring a new shared Court Solicitor, provided that Milton shall be afforded a reasonable opportunity to provide substantive and meaningful input in the selection and hiring process. In the event that circumstances cause the then-current Court Solicitor to take temporary leave or otherwise be removed from his/her post, the Parties' respective city attorneys are permitted in the interim to handle/prosecute/litigate the Parties' respective municipal court matters. If the respective city attorneys are acting as interim solicitors, then they shall act solely as on behalf of their own city government during this interim period and Section III of the IGA shall not govern or be applicable to the interim city attorney unless otherwise agreed to in writing by the Parties. If the Parties are no longer using a shared Court Solicitor as contemplated in this paragraph, then Section III shall not be enforceable as it regards the Court Solicitor (i.e., Milton shall have no obligation to reimburse 40% of shared costs to Alpharetta for the cost of a shared Court Solicitor) until a new shared Court Solicitor is appointed, if one is appointed, and so long as Milton has not otherwise terminated the shared Solicitor as set forth in Section V(D)."

"E. <u>Liability.</u> In the event that the shared Court Clerk's/Court Solicitor's acts or omissions cause, or are alleged to have caused, liability to one of the Parties concerning a matter performed in the course and scope of their respective retention, then the Party that has jurisdiction over the city-specific case, prosecution, or matter that generated the liability (or alleged liability) shall assume sole responsibility for defending the cause or claim, and one-hundred percent financial responsibility in the event of an adverse finding, judgment, or disposition. Alpharetta shall be one-hundred percent responsible for any events or conduct causing (or alleged to have caused) damage to persons or property in the courtroom during those days where Alpharetta is in possession and control of the offices or other spaces at the courthouse. Nothing in this paragraph shall prevent either Party from seeking contribution or apportionment, as applicable, against other persons or entities alleged to be responsible for any liability or damage contemplated herein."

c. Section V. of the IGA is hereby restated in its entirety with the following new subsection V(D) and V(E)inserted therein:

"**D. <u>Termination of the Shared Court Clerk/Court Solicitor.</u>** In the event Milton determines to no longer utilize the shared services of the Court Clerk and/or Court Solicitor as contemplated in Section III of the IGA, Milton may terminate its obligation as to either, or both, under Section III of the IGA without further obligation on the part of Milton. Upon such termination, Milton's 40% reimbursement obligation for the shared Court Clerk or Court Solicitor, as appropriate, shall likewise end, except that Milton shall be responsible for any unpaid reimbursement that accrued prior to termination. Any termination, as provided herein, shall occur only after Milton provides Alpharetta sixty (60) days' advance written notice of intent to terminate. This notice may be issued via email delivery to the Alpharetta City Administrator. Such notice shall state with specificity which shared officer is being terminated. Upon Milton's termination of the shared Clerk or Solicitor, or both, Section III of the IGA shall then become a nullity and unenforceable against Milton as it pertains to the terminated shared Clerk or Solicitor, or both. Notwithstanding the foregoing, upon Milton's termination of either the shared Court Clerk's or Court Solicitor's service to its respective Court, the remainder of the IGA (save for those obligations related to the officer that Milton terminated) shall remain in full force and effect and binding on both Parties."

"**E**. **<u>Term of the Shared Court Solicitor</u>**. O.C.G.A. 15-18-91(c) provides that the Office of Prosecuting Attorney shall have a term to be established by the appointing municipal authority. The term of the shared Court Solicitor shall run coterminous with this IGA. In the event the Parties discontinue sharing a Court Solicitor, then the term for the Court Solicitor appointed pursuant to this IGA shall be deemed terminated. The term for the new Court Solicitor(s) to be separately appointed or retained by Milton and/or Alpharetta shall be established by each respective jurisdiction at the time of appointment.

3. **Construction; Effect of this First Amendment**. This First Amendment shall be deemed a part of and shall take precedence over and supersede any provisions to the contrary contained in the IGA. Notwithstanding, except as expressly modified by this First Amendment, all the provisions of the IGA that are not in conflict with the terms of this First Amendment shall remain in full force and effect.

4. **Counterparts; Facsimile Signatures.** This First Amendment may be executed in multiple counterparts, each of which shall be deemed an original but all of which, together, shall constitute one instrument. For the purposes of this First Amendment, an executed facsimile or email counterpart copy of this First Amendment shall be deemed an original for all purposes and binding upon the Parties hereto.

5. **Ratification**. The remaining terms and provisions of the IGA are ratified and confirmed by the Parties and are incorporated into this First Amendment by reference as if set forth fully herein. This First Amendment, together with the IGA, constitutes the entire understanding of the Parties with regard to the subject matter hereof and as so amended supersedes all prior or contemporaneous discussions, representations, promises, inducements and understandings with respect to the subject matter hereof.

6. **Authority**. Each Party hereby represents and warrants that (a) it has authority to enter into this First Amendment and (b) the terms, covenants and obligations contained herein are binding upon and enforceable against itself.

IN WITNESS WHEREOF, the Parties have caused this First Amendment to be executed in their respective names and caused their respective seals to be affixed hereto as of the last date of execution below.

DRAFTED BY: MICHAEL WOODMAN

I. AGENDA ITEM TITLE: PH-22-01 380 MILTON AVENUE/CHANGE TO CONDITIONS OF ZONING

CITY COUNCIL: APRIL 18, 2022

II. RECOMMENDATION:

Approve PH-22-01 380 Milton Avenue/Change to Conditions of Zoning, subject to the following conditions:

1. The site, consisting of approximately 0.63 acres, shall be zoned R-15 and developed substantially similar to site plan prepared by On Site Civil Group, dated 11/8/2021, except for modifications required to comply with the conditions below.
2. Property owner shall combine the properties into 1 lot through a combination plat approved by the City, prior to the issuance of an ENG.
3. Architecture and materials shall be developed substantial similar to elevations prepared by Diana Bolivar, dated 9/28/2021, except for modifications required to comply with the conditions below, as approved by Staff.
4. Building setbacks shall be: front - 35', side - 10', side corner - 20', and rear - 25'.
5. Property shall have access from Nathan Circle. Driveway apron along Milton Avenue shall be removed, with curbing and planter replaced. A 10' no access easement shall be dedicated along Milton Avenue.
6. Home shall be oriented to Milton Avenue and shall be side or rear loaded.
7. Minimum 10' landscape strips, exclusive of overhead utilities, shall be planted along Milton Avenue and Nathan Circle, as approved by Staff.
8. Property owner shall dedicate 5' of right-of-way and improve the frontage along Milton Avenue with a 4' planter planted with street trees, 6' sidewalk and decorative pedestrian lighting, as approved by Staff.
9. A 10' landscape buffer shall be provided along the south property line.
10. Pool area shall be reduced by 25% and pool decking and driveway shall be installed as pervious pavers. Project shall be required to provide full stormwater management including detention and downstream impact analysis, as approved by Staff.
11. No unfinished wood on decks or porches, with final approval by Staff.
12. Property shall be connected to the sewer system.
13. The conditions above shall replace all previous conditions of zoning on the subject property.

III. REPORT IN BRIEF:

The applicant, McConnell Custom Homes, is requesting changes to conditions of zoning in order to re-combine two (2) residential lots into one (1) lot to allow for the construction of one (1) single-family detached home on 0.63 acres. The property was rezoned in 2015 in order to subdivide one (1) lot into two (2) lots. The subject property is located at 380 Milton Avenue at the southwest corner of Milton Avenue and Nathan Circle.

DISCUSSION

The submitted request, if approved, would allow for changes to conditions of zoning in order to re-combine two (2) residential lots into one (1) lot to allow for the construction of one (1) single-family detached home on 0.65 acres. The subject property is located at 380 Milton Avenue near the southwest corner of Milton Avenue and Nathan Circle.

The subject property is undeveloped, with the previous home demolished in 2020, and is located in the Q.A. Wills subdivision (A.K.A. Nathan Circle). The property was rezoned in 2015 from R-15 (Dwelling, 'For-Sale', Residential – Min. 15,000 SF lot) to R-12 (Dwelling, 'For-Sale', Residential – Min. 12,000 SF lot) to allow for the subdivision of a platted lot into two (2) single-family detached lots. Surrounding properties are zoned R-15. Properties to the south and east are located in the Q.A. Wills subdivision, the property to the west is located in Meadowbrook Park Estates and the properties to the north are unplatted single-family detached lots.

The applicant proposes to delete the following conditions of zoning related to file #PH-20-06 Nathan Circle (380 Milton Avenue)/Change Previous Conditions of Zoning:

2. Site shall be developed substantially as depicted on site plan dated 9/21/2015, except Lot 2 shall be developed substantially as depicted on the submitted site plan and in compliance with the conditions below.
3. Applicant shall follow all of the design elements of the Alpharetta Downtown Code. Lot 2 home shall be substantially similar to the Delphi Cottage elevation or meet an architectural style in the Downtown Code, with final approval by DRB.
4. Maximum size of the homes shall be 3,300 square feet with 2 stories above grade along Milton Ave and 2nd story shall be under roof in order to complement existing homes.
6. Both lots shall have access from a shared driveway off Nathan Circle. Corner lot (Lot 1; 14 Nathan Circle) shall grant a permanent access easement to Lot 2 (380 Milton Avenue) over the shared driveway.
10. Homes shall have front porches a minimum of 50% of the front façade length and a minimum 6' in depth.

SITE PLAN

The site plan depicts a two (2) story, 5,590 square foot home oriented to Milton Avenue. The home is side loaded with access depicted from Nathan Circle. Previous conditions of zoning related to the two (2) lot plan limited building height to no more than two (2) stories and a maximum home size of 3,300 square feet. Limitations were placed on the two (2) lot plan so that homes would complement existing homes in the Q.A. Wills subdivision. The proposed single lot would result in a home size that is less than the combined maximum home size of two (2) homes.

The applicant submitted building elevations, which depict the home to be two (2) stories. The applicant's architect provided a narrative describing the home as Farmhouse inspired with elements from Tudor Eclectic, Stick and American Vernacular architectural styles. Materials proposed on the exterior of the home include board and batten and panel siding with a brick water table. The home is located in an existing platted neighborhood, which are exempt from complying with the City's Downtown architectural regulations.

CONCURRENCES

Staff has reviewed the applicant's proposal and finds that it can generally support the request for changes to previous conditions of zoning. The proposal would result in one (1) residential lot instead of two (2). If approved, the zoning of the property should revert to the original R-15 zoning district.

CITIZEN PARTICIPATION PLAN

The report submitted by the applicant states that property owners within 500' were contacted regarding the applicant's intent. The report states that no comments were received.

COMMUNITY ZONING INFORMATION MEETING

The CZIM was held on March 9, 2022. There were no public comments.

5. A CONCRETE BASE SLAB OR COLLAR MUST BE PLACED AROUND CMP ACCESS RISER AS PER MANHOLE CAP DETAIL.

6. ALL PIPE CONNECTIONS TO HAVE H-12 HUGGER CONNECTING BANDS WITH BAR, BOLT, AND STRAP CONNECTION . ALL JOINTS TO HAVE NEOPRENE O-RING GASKETS THAT MEET THE WATERTIGHT REQUIREMENTS OF ASTM C969 AND ITS APPENDICES EXCEPT THAT THE ALLOWABLE EXFILTRATION RATE SHALL BE 50 GAL / (INCH DIAMETER)/MILE OF PIPE)(24 HR). IF COLLECTION STORM SEWER OTHER THAN CMP IS USED, A MAR-MAC COUPLER MUST BE USED IN LIEU OF H-12 HUGGER BANDS.

UNDERGROUND DETENTION INSTALLATION SPECIFICATION:

PRE-CONSTRUCTION MEETING
PRIOR TO INSTALLATION OF THE DETENTION SYSTEM A PRE-CONSTRUCTION MEETING SHOULD BE CONDUCTED. AT A MINIMUM THE ENGINEER, INSTALLER AND MATERIAL SUPPLIER SHOULD BE IN ATTENDANCE.

FOUNDATION AND BEDDING
PRIOR TO PLACING ANY BEDDING THE FOUNDATION SHOULD BE UNIFORM AND STABLE. ANY UNSUITABLE FOUNDATION MATERIAL SHALL BE REMOVED. AT A MINIMUM 4 INCHES OF A WELL GRADED GRANULAR MATERIAL SHALL BE PLACED AS THE BEDDING (#57 STONE OR SIMILIAR IF THERE IS NO SUITABLE ON SITE MATERIAL)

BACKFILL
THE BACKFILL MATERIAL SHALL BE AN A1, A2, OR A3 GRANULAR FILL PER AASHTO M-145, LOCAL SOILS MAY MEET THE MATERIAL REQUIREMENTS BUT SHOULD BE APPROVED BY THE GEOTECHNICAL ENGINEER. THE MATERIAL SHALL BE PLACED IN EQUAL LIFTS AND COMPACTED TO 90% AASHTO T99 STANDARD PROCTOR DENSITY. THE BACKFILL SHOULD BE CAREFULLY PLACED AND COMPACTED UNDER AND AROUND THE PIPE HAUNCHES. THE BACKFILL SHOULD BE PLACED ENENLY ON BOTH SIDES OF THE STRUCTURE AND ADVANCED ALONG THE PIPE LENGTH AT THE SAME RATE TO AVOID DIFFERENTIAL LOADING

SEE BACKFILL DETAIL THIS PAGE.

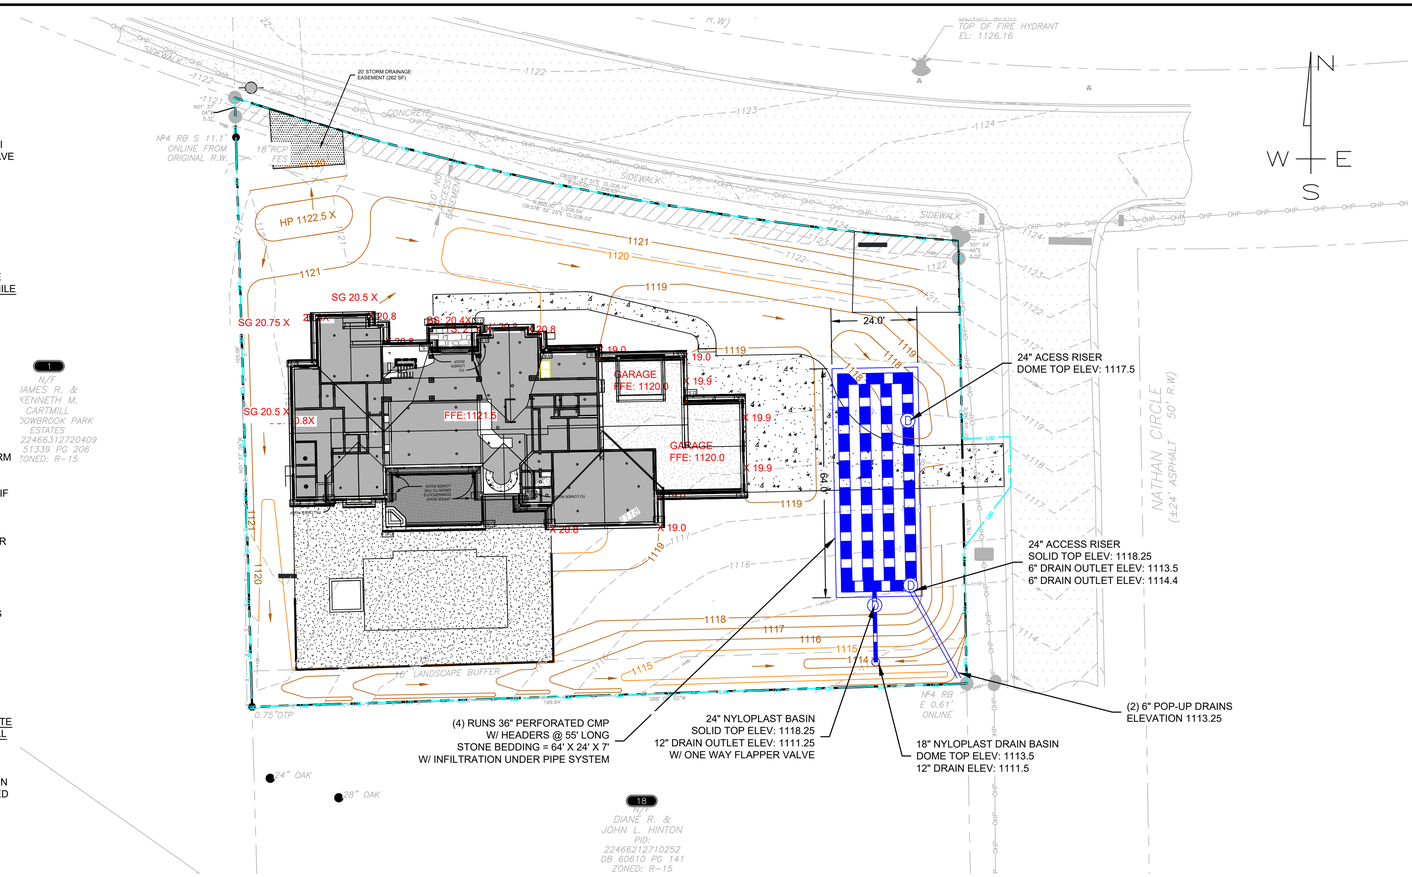
JOINT PERFORMANCE:

JOINTS SHALL MEET THE WATERTIGHT REQUIREMENTS OF ASTM C696 AND ITS APPENDICES EXCEPT THAT THE ALLOWABLE EXFILTRATION RATE SHALL BE 50 GAL / (INCH DIAMETER)/MILE OF PIPE)(24 HR). TESTING WILL BE REQUIRED TO SHOW THAT THIS REQUIREMENT HAS BEEN MET.

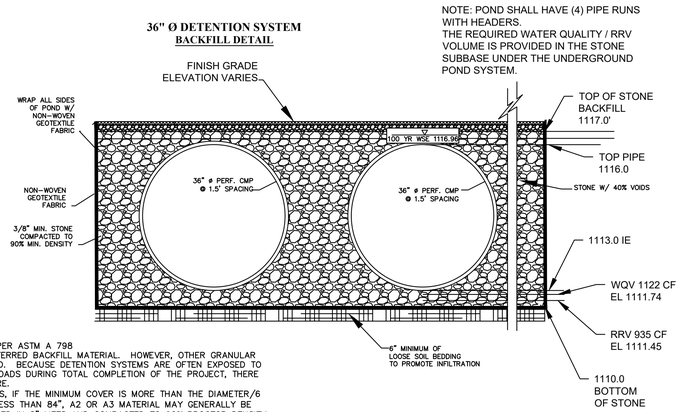
MINIMUM COVER:
COVER SHOULD BE PLACED TO THE PROPER ELEVATION AS OUTLINED IN THE PLANS. CONSTRUCTION LOADINGS NEED TO BE DETERMINED BASED ON THE TYPE OF EQUIPMENT PLANNED TO BE USED DURING CONSTRUCTION. MINIMUM COVER FOR CONSTRUCTION EQUIPMENT IS DIFFERENT THAN STANDARD VEHICLE LOADINGS AND SHOULD BE CAREFULLY ASSESSED PRIOR TO PLACING ANY EQUIPMENT ON THE STRUCTURE. FOLLOW THE CHART AS OUTLINES IN THE NCSPA INSTALLATION GUIDELINES

MINIMUM COVER FOR CONSTRUCTION LOADS:

PIPE SPAN, IN.	18-50 KIPS	50-75 KIPS	75-110 KIPS	110-150 KIPS
12-42	2.0FT	2.5FT	3.0 FT	3.0 FT
48-72	3.0FT	3.0FT	3.5 FT	4.0 FT
78-120	3.0FT	3.5FT	4.0 FT	4.0 FT
126-144	3.5FT	4.0FT	4.5 FT	4.5 FT



36" Ø DETENTION SYSTEM
BACKFILL DETAIL



NOTE: POND SHALL HAVE (4) PIPE RUNS WITH HEADERS.
THE REQUIRED WATER QUALITY / RRV VOLUME IS PROVIDED IN THE STONE SUBBASE UNDER THE UNDERGROUND POND SYSTEM.

NOTE:
PIPE TO BE INSTALLED PER ASTM A 798
AASHTO A1 IS THE PREFERRED BACKFILL MATERIAL. HOWEVER, OTHER GRANULAR MATERIALS MAY BE USED. BECAUSE DETENTION SYSTEMS ARE OFTEN EXPOSED TO HEAVY CONSTRUCTION LOADS DURING TOTAL COMPLETION OF THE PROJECT, THERE IS NEED FOR EXTRA CARE.
TO HANDLE THESE LOADS, IF THE MINIMUM COVER IS MORE THAN THE DIAMETER/6 AND THE DIAMETER IS LESS THAN 84", A2 OR A3 MATERIAL MAY GENERALLY BE USED IF THEY ARE PLACED IN 8" LIFTS AND COMPACTED TO 90% PROCTOR DENSITY. AS PIPE DIAMETERS INCREASE AND COVER DECREASES(APPROACHING THE MINIMUM COVER LEVEL), THE QUALITY OF THE BACKFILL AND COMPACTION DENSITY BECOME MORE IMPORTANT.

36" HDPE MAYBE SUBSTITUTED FOR 36"CMP

NOTES:
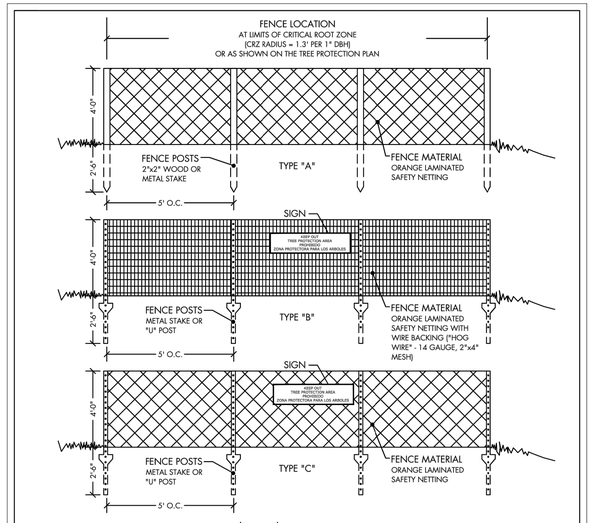
1. AVOID LOCATING ON STEEP SLOPES OR AT CURVES ON PUBLIC ROADS.
2. REMOVE ALL VEGETATION AND OTHER UNSUITABLE MATERIAL FROM THE FOUNDATION AREA, GRADE, AND CROWN FOR POSITIVE DRAINAGE.
3. AGGREGATE SIZE SHALL BE IN ACCORDANCE WITH NATIONAL STONE ASSOCIATION R–2 (1.5"–3.5" STONE).
4. GRAVEL PAD SHALL HAVE A MINIMUM THICKNESS OF 6".
5. PAD WIDTH SHALL BE EQUAL FULL WIDTH AT ALL POINTS OF VEHICULAR EGRESS, BUT NO LESS THAN 20'.
6. A DIVERSION RIDGE SHOULD BE CONSTRUCTED WHEN GRADE TOWARD PAVED AREA IS GREATER THAN 2%.
7. INSTALL PIPE UNDER THE ENTRANCE IF NEEDED TO MAINTAIN DRAINAGE DITCHES.
8. WHEN WASHING IS REQUIRED, IT SHOULD BE DONE ON AN AREA STABILIZED WITH CRUSHED STONE THAT DRAINS INTO AN APPROVED SEDIMENT TRAP OR SEDIMENT BASIN (DIVERT ALL SURFACE RUNOFF AND DRAINAGE FROM THE ENTRANCE TO A SEDIMENT CONTROL DEVICE).
9. WASHRACKS AND/OR TIRE WASHERS MAY BE REQUIRED DEPENDING ON SCALE AND CIRCUMSTANCE. IF NECESSARY, WASHRACK DESIGN MAY CONSIST OF ANY MATERIAL SUITABLE FOR TRUCK TRAFFIC THAT REMOVE MUD AND DIRT.
10. MAINTAIN AREA IN A WAY THAT PREVENTS TRACKING AND/OR FLOW OF MUD ONTO PUBLIC RIGHTS–OF–WAYS. THIS MAY REQUIRE TOP DRESSING, REPAIR AND/OR CLEANOUT OF ANY MEASURES USED TO TRAP SEDIMENT.



NOTES:
1. ALL TREE PROTECTION DEVICES ARE TO BE INSTALLED PRIOR TO THE START OF LAND DISTURBANCE AND MAINTAINED UNTIL FINAL LANDSCAPING IS INSTALLED. NO PARKING, STORAGE OR OTHER CONSTRUCTION SITE ACTIVITIES ARE TO OCCUR WITHIN THE TREE PROTECTION AREA.
2. PROVIDE 4" DEEP WOOD CHIP MULCH OVER ANY UNPROTECTED ROOT ZONE.
3. MAKE CLEAN CUTS ON ROOTS EXPOSED BY GRADING AND BACKFILL IMMEDIATELY.

INTRODUCTION
This inspection was made to verify trees that meet Specimen Tree criteria and/or meet the criteria for an Arborist Report as outlined in the City of Alpharetta municipal code.

METHODOLOGY
The project site was traversed to identify trees that meet the minimum size criteria for Specimen trees. This inspection uses Level I and Level II assessment standards. Level III standards can be applied at the customers request. All tree sizes were measure as DBH (Diameter at Breast Height, 4.5 feet above soil level).

The project site was traversed to identify trees that meet the minimum size criteria for Specimen trees, including boundary trees within 30 feet outside of the parcel limits and potential 'Trees of Character.' Boundary trees can only be inspected from the subject parcel, unless written permission is given by the neighboring parcel owner. This inspection uses Level I and Level II assessment standards. Level III standards can be applied at the customers request.

Any tree which qualifies for special consideration for preservation due to its size, type, condition, location or historical significance and which also meets the minimum size criteria set forth below:

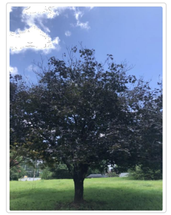
30-inch DBH or larger for trees in the Pinus genus
30-inch diameter or larger for trees in the Sweetgum or Tulip poplar genus
20-inch DBH or larger for trees in the Cedrus, Thuja, or other ecologically similar trees
20-inch diameter or larger for trees in the Beech, Nyssa, Persimmon, Sassafras, or other ecologically similar trees
20-inch diameter or larger for Magnolia grandiflora and those cultivars that generally reach a mature height over 40'
24-inch DBH or larger for trees in all other genera
10-inch DBH or larger for Sourwood
Understory Trees: 8-inch DBH diameter or larger

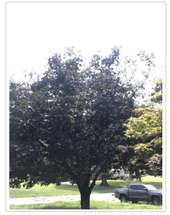
DEFINITIONS OF TREE HEALTH
GOOD - Few if any pathological problems exist; canopy is full, leaf density is above average, and live crown ratio is generally 50% or greater
FAIR - vigor is reasonable but a minor pathological problem may exist; leaf density is average; live crown ratio may be less than 50%. Most urban trees fall in this category.
POOR - vigor is waning, some dieback may be present, leaf density is below average; a significant pathological problem may be present; decay may exist within vital structures.
DECLINING - vigor is terminal, dieback is developing or is inevitable; tree has a limited life expectancy of less than 5 years.

Tree 255
Status: **Not Specimen**

Species 16" Maple, Norway , *Acer platanoides*

Health/Vigor: Poor, Uniform tip dieback in canopy extremities
Structure: Single,
Other notes: Does not meet, species, size or condition criteria

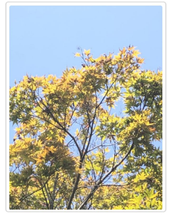




Tree 256
Status: **Not Specimen**

Species 12" Japanese Maple, *Acer palmatum var.*

Health/Vigor: Fair, Stress symptoms throughout, although overall condition is fair; root damage identified near old house location (photo 1), broken roots and some decay
Structure: Single,



Tree 257
Status: **Not Specimen**

Species 20/15/19" Cherry, Yoshino, *Prunus × yedoensis*

Health/Vigor: Poor, Early leaf drop in canopy; shothole fungus symptoms on leaves; Dieback of terminal stems (photo 3)
Structure: Multiple trunks, Appears to be a stump-sprouted generation of tree, formed by lignotuberous shoots:

Tree 258
Status: **Not Specimen**

Species 20" Pine, loblolly, *Pinus taeda*

Health/Vigor: Poor, Large fusiform rust canker in lower trunk; brown rot is likely
Structure: Single,
Other notes: Consider removal; poor candidate for long term conservation.

Tree 259
Status: **Not Specimen**

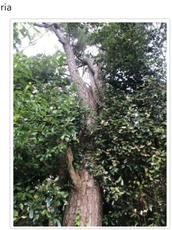
Species 32" Pine, loblolly, *Pinus taeda*

Health/Vigor: Poor, Multiple, significant fusiform rust cankers in lower trunk; brown rot is likely
Structure: Single, Unsound
Other notes: Does not meet condition criteria; remove tree

Tree 260
Status: **Not Specimen**

Species 26" Pine, loblolly, *Pinus taeda*

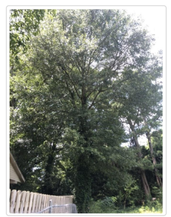
Health/Vigor: Fair, No significant problems identified
Structure: Multiple trunks, Odd form, twisting stems; flat suppressed canopy between adjacent trees
Other notes: Does not meet size criteria



Tree 261
Status: **Tree of Quality**

Species 19" Oak, water, *Quercus nigra*

Health/Vigor: Good, No significant problems identified
Structure: Single, No significant problems identified; Pleasing form and symmetrical. Tree is growing against chain-link fence



Summary

Total Specimen trees identified: 0

Additional Recommendations

LIMITATIONS
This report is not meant to override any determination by Alpharetta regarding the status of Specimen trees. Additional tree information may be required by the City once the Specimen Tree Report is submitted to Alpharetta, including but not limited to: Trees of Character, Level III assessments, site meetings with the Municipal arborist, and any Tree Maintenance Plan preparation.

Arborists cannot detect every condition that could possibly lead to the structural failure of a tree. Trees are living organisms that fail in ways we do not fully understand. Conditions are often hidden within trees and below ground. Arborists cannot guarantee that a tree will be healthy or safe under all circumstances, or for a specified period of time. Likewise, remedial treatments cannot be guaranteed. Clients may choose to accept or disregard the recommendations of the arborists, or to seek additional advice. This inspection was made without the expectation of a particular result.

Certification

Date Certified: 8/5/2021

I certify that all of the statements made in this report are true, complete and correct to the best of my knowledge and belief, and are made in good faith.

Community Zoning Information Meeting
March 9, 2022
Department of Community Development
Via Zoom
6:00 PM

This summary is provided as a convenience and service to the public, media and staff. It is not the intent to record proceedings verbatim. Any reproduction of this summary must include this notice. Public comments are noted as heard by Planning Commission, but not quoted or paraphrased. This document includes limited presentation by Planning Commission and invited speakers in summary form. The public is advised that the tapes recorded at said meeting are a matter of public record and are available upon request.

I. Staff Members Present:

a. Michael Woodman, Planning + Development Services Manager

b. Ben Kern, GIS Specialist/Planner

c. Alexandra Callum, Planning + Zoning Coordinator

II. Items:

a. **63 South Main Street Parking In-Lieu** - presented by Dan Connor

i. 28,000 square foot office building.

ii. Asking for a 13-space variance.

iii. We are wanting flexibility on the third floor.

There were no public comments for this item.

b. **116 + 126 North Main Street** - presented by Steve Rowe

i. Parking deck is on the ground level.

ii. The lower level would enter from the back side.

iii. The storm water management is held underground.

iv. We are requesting a variance for the dumpster.

v. The goal is an industrial look.

vi. The violin shop would be reused for a restaurant.

Public Comments:

Holmes and Tracy Hawkins- Lily Garden Lane (townhome closest to the rear building)

- Regarding the 3 ½ story building, is that on top of the parking garage? Yes.
- What is the proposed height in total? The parking is buried somewhat. I don't have the exact number on that. It measures 46 feet to the roof level and add another five feet because of the parking. The rooftop is anywhere from 12-15 feet.
- In some of the renderings of the back building, there was some tables. Can you describe the intended use? It will be residential, more of an outdoor living space. The one along Highway 9 will be for restaurant use.
- The traffic projections show 1,600 trips per day. Does that include the violin shop turning into a restaurant? Yes, and we are having our own traffic analysis run right now.
- Would the lower parking deck be open to the public? Yes.
- What's the proposed setback from the roadway? Would there be any landscaping? There would be a 10-foot landscape strip.

c. **380 Milton Avenue** – presented by Brendan Walsh

i. This was originally a single lot, and the previous owner separated into two lots.

ii. It's a personal residence with one single home.

iii. We want to change the previous conditions to move it back into one.

iv. The side entrance garage is off Nathan Circle.

There were no public comments for this item.

d. **Kimball 154** – presented by Bruce Fernald

i. We want to increase the parking capacity from the approved ratio to 3.5 spaces per 1,000 feet.

ii. The topography of the lot is triangular with steep topography to the east.

iii. We want to consolidate our parking into a five-story structure. The height won't exceed the adjacent building.

iv. We are requesting a variance of the eastern border.

There were no public comments for this item.

e. **Toll Brothers Kimball Bridge Road** – presented by Don Rolader and Jake Meek

i. The property is 22.74 acres.

ii. It is currently zoned AG- we are requesting R-15.

iii. The plan is for 43 single family lots with homes to be built.

iv. We are requesting to reduce the setback from interior streets from 35 feet to 25 feet.

v. The density is 1.89 units per acre, which is considered low density.

vi. Every lot meets the R-15 requirements.

vii. This would be approved site plan specific.

viii. Many lots will have basements.

ix. The price range is $1.4-1.5 million.

Public Comments:

- Is this a gated community? No.

- Are you building a water retention pond? Yes, we will have ponds. Our natural flow doesn't head west or south- it heads to the north. The detention ponds are on the northern boundary of the property. The outlets flow into the storm system that meanders through Park Brooke. The northwest pond will tie directly through the pipe.

- So, most of the rainwater will stay in the neighborhood? Yes.

- What about during construction? We don't have a phase 1 erosion plan at this time, but we will have temporary sediment ponds. The City and state code requires us to not increase the flow that already exists.

- What kind of traffic delays will this add to the northside and southside of Kimball Bridge Road? We did a traffic analysis of peak periods. With this many lots, it's minimal. There will be a left turn lane into the neighborhood, and we are also retiming the light and adding some signalization at the intersection.

- What was the variance again? The variance is a 10-foot reduction to the front setback line for all the lots. It will bring the homes closer and more internal to the project.

- Is the outer boundary going to be fenced? We'll work with every neighbor to provide screening as needed. Even if we don't do a fence in the original development, we will give homeowners the opportunity to build fences.

- There will be landscaping that will provide a nice aesthetic for the houses that face Kimball Bridge Road.

- Between lots 12 and 13 is one of the two areas for detention. What is the wetland area? Prior to Park Brooke, there was a stream meandering through the property. It was piped and built over when Park Brooke was developed, and the remaining part of the stream terminated on our property. Those are the associated buffers. That stream becomes a linear wetland, which can be disturbed.

- The topography of those lots is a little higher than the lots in Park Brooke, correct? Yes.

- According to Code, there will be no changes to the flow that goes through Park Brooke.

- We have had several meetings with our HOA and individual property owners. We have a lot of serious concerns regarding the setbacks for the properties next to the new subdivision. We don't feel they've allowed adequate buffers for lots 13-17. We feel they have planned the retention ponds to come against the Park Brooke property and have not allowed any setback. This is a concern because we have flooding and erosion issues. We feel the retention ponds need to have an increased setback from the Park Brooke property line.

- We have had two meetings with the association. We are looking at our site plan and studies and anticipate having a further meeting with all affected parties within the next two weeks. We will let you know to discuss it further. We are aware of the concerns.

- We don't have a concern with the R-15 zoning or the variance with the street setback. We have concerns with the lot sizes of the rear properties. We are asking for a 100-foot setback and an undeveloped strip buffer. We want confirmed, in writing, that the rear lots will have additional setbacks.

- At what point in time are you doing an evaluation regarding current runoff amounts? Once we have zoning approved, we will begin hydrology studies. It is a significant investment. This will be prior to ground-breaking.

- The wetland area would be filled in to allow for two additional properties. It just seems egregious and a concern for us.

- We sat with Toll Brothers and asked them to amend their layout with access to the red light, which would come through their development and exit at the red light. We feel that would be a safer option for the properties along Buice Road.

- Susan Hook, a homeowner, read a statement declaring that all residents, homes, landscaping, and properties should be protected. It was also restated that the 100-foot buffer should be included in the development. Privacy is important for both developments.

- Do they realize they are the dominant land? I am experiencing flooding now without the development here.

- How are we getting 43 homes on 23 acres? The lot standards are the exact same as Shirley Estates. The topography between the two properties is different.

- We are in a densely wooded area, and I don't think this plan takes that into consideration. We think it will take away the conservation aspect. We are happy to report that we are doing a plant rescue and rehabilitation plan where a group can come remove plants and place them elsewhere. That is one conservation effort we are happy to make.

- Where are you on the measures necessary to comply regarding the Violation Summary from February 7, 2022? It was my understanding you had 30 days. All of the requirements have been met, and we are working with the City arborist on a plan.

- What was the purpose of this if you came with old plans? We approached you prior to this meeting with our concerns, and we don't see any changes. Your letter was dated March 1, 2022. We will have something to present to you. We are trying to address your concerns.

CITY COUNCIL AGENDA ACTION SUMMARY

Public Hearing Date: June 15, 2020

PH-20-06 Nathan Circle (380 Milton Avenue)/Change Previous Conditions of Zoning

Consideration of a request for changes to previous conditions of zoning related to two (2) residential lots in the Downtown. The property was rezoned in 2015 from R-15 (Dwelling, 'For-Sale', Residential – Min. 15,000 SF lot) to R-12 (Dwelling, 'For-Sale', Residential – Min. 12,000 SF lot) in order to subdivide a 0.65- acre platted lot into two (2) lots. The requested changes would reduce the front setback, allow access from Milton Avenue, and increase the maximum home size. The subject property is located at 380 Milton Avenue at the southwest corner of Milton Avenue and Nathan Circle.

Motion: Approve with Conditions, Richard
Second: Hipes
Approve: 4-3 (Burnett, Mitchell, Binder)

- Council Member Richard offered a motion to approve PH-20-06 380 Milton Avenue/Change to Previous Conditions of Zoning, subject to the following conditions:
  1. Zoning district for property shall be R-12 with no change to existing "low density" Land Use designation.
  2. Site shall be developed substantially as depicted on site plan dated 9/21/2015, except Lot 2 shall be developed substantially as depicted on the submitted site plan and in compliance with the conditions below.
  3. Applicant shall follow all of the design elements of the Alpharetta Downtown Code. Lot 2 home shall be substantially similar to the Delphi Cottage elevation or meet an architectural style in the Downtown Code, with final approval by DRB.
  4. Maximum size of the homes shall be 3,300 square feet with 2 stories above grade along Milton Ave and 2nd story shall be under roof in order to complement existing homes.
  5. Front setback shall be 35'.
  6. Both lots shall have access from a shared driveway off Nathan Circle. Corner lot (lot one; 14 Nathan Circle) shall grant a permanent excess easement to lot two (380 Milton Avenue) over the shared driveway.
  7. Both homes shall be side, or rear loaded.
  8. All elevations shall be a minimum 30% brick or stone, with final approval by Staff.
  9. Same level of architectural details on all 4 sides, with final approval by Staff.
  10. Homes shall have front porches a minimum of 50% of the front façade length and a minimum 6' in depth.
  11. No unfinished wood on decks or porches, with final approval by Staff.

12. Street trees shall be planted along Milton Avenue and Nathan Circle abutting the right of way at one (1) tree per 25' of property line length, as approved by Staff.
13. Provide 5 feet R/W along Milton Ave for future bike/ped improvements.
14. Provide a 10' no access easement along Milton Avenue. Driveway apron along Milton Avenue to be removed.
15. Provide a 10-foot landscape and screen between property to the south.
16. The applicant shall connect to the sewerage system.

- The motion received a second from Council Member Hipes
- The motion was approved (4-3); Council Member Burnett, Mayor Pro Tem Mitchell and Council Member Binder voting in opposition

FINAL CONDITIONS:

1. Zoning district for property shall be R-12 with no change to existing "low density" Land Use designation.

CITY COUNCIL MEETING
STAFF REPORT

SUBMITTING DEPARTMENT: COMMUNITY DEVELOPMENT
SUBMITTED BY: KATHI COOK
DRAFTED BY: MICHAEL WOODMAN
CITY COUNCIL SPONSOR: DAN MERKEL

I. AGENDA ITEM TITLE: PH-22-01 UNIFIED DEVELOPMENT CODE TEXT AMENDMENTS – RESEARCH & DEVELOPMENT, LABORATORY, ATHLETIC FACILITY & FITNESS STUDIO AND DRIVEWAYS

CITY COUNCIL: MARCH 28, 2022

This item was considered at the 3/2/2022 Planning Commission meeting. There were no public comments. After discussion, Planning Commission recommended approval. Vote 6-0

II. REPORT IN BRIEF:

Consideration of text amendments to Unified Development Code (UDC) Section 1.4 Definitions, Section 2.2 Permitted Use Districts and Regulations, Section 2.3 Supplementary Regulations, Section 2.5 Parking and Loading, and Appendix A: Alpharetta Downtown Code, Section 3.4 Uses Allowed by District, to add definitions, permitted uses and regulations related to Research and Development, Laboratory, Athletic Facility & Fitness Studio and Driveways.

DISCUSSION

Athletic Facility and Fitness Studio

It is recommended that 'Athletic Facility, Fitness Studio' be separated into two (2) distinct uses and that definitions be added for each use. The uses are proposed to be assigned as permitted or conditional uses in commercial, office, light industrial and mixed-use zoning categories.

Laboratory, Research or Commercial

'Laboratory, Research or Commercial' is a use that is identified in the UDC; however, there is currently no definition. The proposed definition cites the four (4) levels of laboratory biosafety established at the Federal level and limits laboratory containment to biosafety levels 1, 2 and 3.

Research and Development

In response to market demand for life sciences and biotechnology opportunities, a new use and definition is recommended for 'Research and Development'. The use is proposed as a permitted use in existing Office Buildings and Office Parks and where office is a permitted use within an existing master plan in the CUP (Community Unit Plan) and O-I (Office-Institutional) districts, as well as in the LI (Light Industrial) district.

Driveways and Curb Cuts

Text amendments are recommended to clarify that driveway access on double frontage lots should be from the lower classification street. In addition, an amendment is recommended to clarify that residential lot curb cuts or driveways may be closer than 300'

from a curb cut on an adjacent residential lot, but that an individual residential lot may not have more than one (1) curb cut per 300' of street frontage.

Sec. 3.4. Uses Allowed by District.

3.4.1. Allowed Use Table.

A. In order to regulate a variety of similar uses, use categories have been established for principal uses. Use standards for both principal and accessory uses are specified in Section 2.3 and Section 2.7 of the Unified Development Code. Uses not listed may be interpreted by the Director of Community Development. When the Director of Community Development cannot determine placement, an application shall be made to the Board of Appeals for interpretation.

B. Principal and accessory uses allowed by district are shown in the table below.

3.4.2. Use Table Key.

A. Permitted Use (X). Indicates a use is permitted in the respective district. The use is also subject to all other applicable requirements of the Unified Development Code.

B. Conditional Use (O). Indicates a use may be permitted in the respective district only where approved by the City Council in accordance with Section 4.2 of the Unified Development Code. Conditional uses are subject to all other applicable requirements of the Unified Development Code, including any applicable use standards, except where the use standards are expressly modified by the City Council as part of the conditional use permit approval.

C. Use Not Permitted. An empty cell indicates that a use is not permitted in the respective district.

3.4.3. Specific Use Standards.

The following principal and accessory uses must conform with the indicated use standards.

A. **Dwelling, 'For-Sale' Accessory.** Where a Dwelling, 'For-Sale' Accessory is allowed, it is subject to the following:

1. The dwelling shall be accessory to a permitted commercial use and shall be located above or to the rear of such use to which it is accessory.
2. The dwelling shall be attached by a common wall with the commercial or office structure to which it is accessory.
3. The dwelling shall be occupied by a single family, a member of whom is the owner or tenant of the commercial structure to which it is accessory.
4. The square footage of the dwelling shall not exceed 40% of the combined square footage of the commercial structure and the dwelling.
5. The dwelling and the commercial structure to which it is accessory shall be in compliance with all applicable provisions of the life safety code, the building code, and other codes of the City.

B. **Live-Work.** Where Live-Work is allowed, it is subject to the following:

1. Live-work is only permitted on the first floor of a dwelling unit.

2. A minimum of one person must occupy the dwelling containing the live-work use as their primary place of residence.
3. The live-work use may employ no more than two persons not living on the premises at any one time.
4. No business storage or warehousing of material, supplies or equipment is permitted outside of the dwelling containing the live-work use.
5. The nonresidential use of the live-work use is limited to a permitted or conditional use in the zoning district.
6. No equipment or process may be used in connection with the live-work use that creates noise, vibration, glare, fumes, odors, or electrical interference detectable to the normal senses, off the premises.
7. No more than 5 customers are permitted on the premises at any one time.

SECTION 1.4 DEFINITIONS

1.4.1 Use of words and phrases.

For the purpose of this Ordinance, the following shall apply to the use of words and phrases:

A. Words used in the present tense include the future tense. Words used in the singular tense include the plural tense, and words used in the plural tense include the singular tense. The masculine person "his" also means "her."

B. The word "shall" is always mandatory and not discretionary.

C. The word "may" is permissive.

D. The word "and" indicates that all of the conditions, requirements, or factors so connected must be met or fulfilled, whereas the word "or" indicates that at least one condition, requirement, or factor so connected must be met.

E. The term "such as" is intended to introduce one or more examples in illustration of a requirement or point, and is used herein to mean "including but not limited to the following."

F. The word "structure" includes the word "building."

G. The word "lot" shall include the words "plot," "tract," "parcel," and "property."

H. The word "used" or "occupied" as applied to any land or building shall be construed to include the words "intended," "arranged," or "designed to be used or occupied."

I. The verbs "zone" and "rezone" have the same meaning and refer to the act of amending the Official Zoning Map through the process established by this Ordinance.

J. The nouns "zone," "zoning district" and "district" have the same meaning and refer to the Zoning Districts established under this Ordinance.

K. All words and phrases shall be interpreted within the context of the sentence, Section and Article in which they occur.

1.4.2 Defined terms.

Words and phrases defined herein shall be interpreted as defined without regard to other meanings in common or ordinary use, unless the context of the word or phrase indicates otherwise. Words and phrases not defined in this Ordinance shall be construed to have the meaning given by common and ordinary use as defined by Webster's New International Dictionary, Latest Edition. Figures associated with defined terms in this Section are provided for illustration only and do not limit or change the meaning of the term as defined in writing.

Acceleration Lane. An added roadway lane which permits integration and merging of slower moving vehicles into the main vehicular stream.

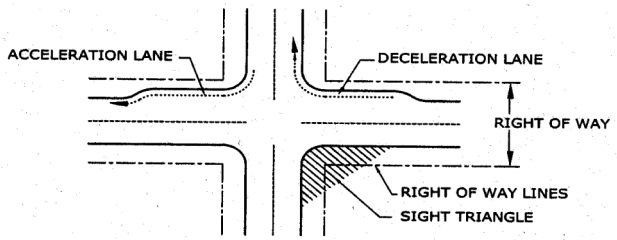

FIGURE 1

Access. A way or means of approach to provide physical entrance to a property.

Accessory Structure. A structure detached from a principal building on the same lot and customarily incidental and subordinate to the principal building or use.

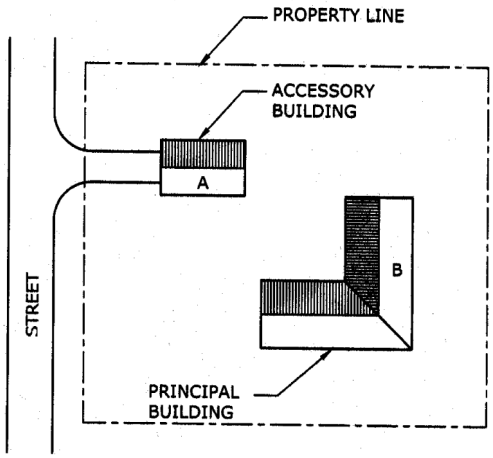

FIGURE 2

Accessory Use. A use customarily incidental and subordinate to the principal use and located on the same lot with such principal use.

Acre. A measure of land area containing 43,560 square feet.

1. *Acreage, Gross.* The total area of a property measured in acres and fractions thereof rounded to the nearest one-tenth acre.
2. *Acreage, Net.* The total buildable area of a property measured in acres to the nearest one-tenth, as existed when originally approved for its current zoning district, less any flood plain, easements and land dedicated to and accepted for streets or other public improvements by the City.

Adult Book Store. A retail establishment, a majority of whose inventory consists of books, magazines, videotapes and similar materials containing sexual activities or specified anatomical parts.

Airport. A property or structure licensed and approved by the Federal Aviation Administration where fixed wing aircraft or helicopters can land and take off, which may be equipped with hangars, facilities for refueling and repair and various accommodations for passengers.

Aisle. The traveled way, which is not the public right-of-way, by which cars enter and depart parking spaces.

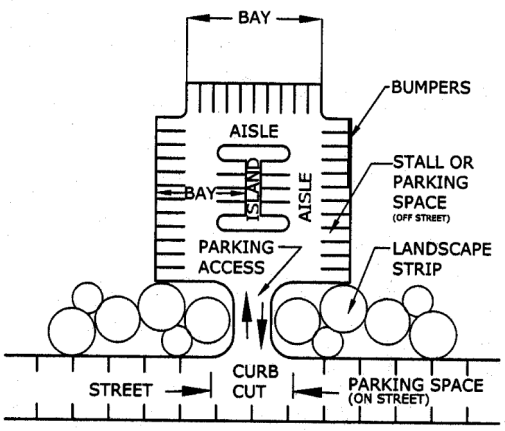

FIGURE 3

Alley. A non-exclusive private easement or publicly dedicated service way providing a secondary means of public access to abutting property and not intended for general traffic circulation.

Alteration of Building. Any change in the supporting members of a building (such as bearing walls, columns or girders); any change in the non-supporting interior walls of a building; any addition or reduction to a building; any change in use; or any relocation of a building from one location or position to another.

Amphitheater. An outdoor area designed or intended for the projection of sound to be heard by a nearby audience.

Amenity. A natural or man-made feature which is intended to enhance or make more attractive or satisfying a particular property.

Asphalt Plant. A business which manufactures, mixes, or blends asphaltic products for distribution.

Assisted Living Facility. See Congregate Housing.

Associations. An organization of persons having common interests or purposes.

Athletic Facility. An establishment sometimes referred to as a health club or gym. These facilities are typically located in a large space containing special equipment, and may include indoor and/or outdoor courts (tennis, basketball, etc.) and swimming facilities, where people go to do physical exercise. Establishments tend to be general exercise facilities but often provide specialized classes. Businesses frequently include incidental related services such as, personal training, tanning beds, massage and stretch therapy, nutritional programs, café, juice bars, and retail sales.

Auditorium. An indoor building or structure designed or intended for use for the gathering of people as an audience to hear music, lectures, plays, and other presentations.

Auto Sales and Leasing. The use of any building, land area, or other premises or portions thereof, for the display, sales or lease of automobiles, trucks, vans, trailers or recreational vehicles, including internet transactions where most vehicles are not stored on site.

Automobile. A self-propelled, free moving vehicle, with at least four but no more than six wheels, designed primarily for the transportation of passengers or for conveyance of up to two tons of materials on a street or roadway.

Automobile Service Station. Any building, land area or other premises, or portion thereof used or intended to be used for the retail dispensing or sales of vehicular fuels; and including as an accessory use the sale and installation of lubricants, tires, batteries and similar accessories, or the provision of tune-up or light maintenance services for vehicles.

Automotive Service Establishment. A business principally engaged in the repair of automobiles or other motorized vehicles, or the installation or repair of equipment or parts on motorized vehicles such as mufflers, brakes, tires, radios, transmissions, and engines or engine parts.

Bakery. An establishment primarily engaged in the retail sale of baked products for consumption off site. The products may be prepared either on or off site. Such use may include incidental food service.

Bank. A freestanding building, with or without a drive-up window, for the custody, loan, or exchange of money; for the extension of credit; and for facilitating the transmission of funds. This may include credit unions, savings and loans, and traditional banks.

Barber Shop. Any establishment or place of business within which the practice of barbering is engaged in or carried on by one or more barbers.

Basement. An area below the first floor of a building used for storage, garages, and utilities or for common use of the occupants of the building. A basement used for any one or more of the above purposes shall not be counted as a story.

Beauty Shop. Any commercial establishment, residence, vehicle, or other establishment, place, or event wherein cosmetology is offered or practiced on a regular basis for compensation, excluding such types of services requiring customers to disrobe.

Bed and Breakfast. A building in which lodging and meals are provided for no more than seven (7) guest rooms and one (1) owner's suite and meals are served in a common dining room. Lodging facilities and services are provided for transient guests for an average stay of less than 7 days and offered to the public for compensation. Bed and Breakfast does not include retail uses, public bar, conference center or special event facilities. Guest rooms within the building shall contain no equipment for food preparation other than a coffee maker, mini-fridge and/or microwave. There shall be no self-serve laundry facilities (for guests use) within the building. Access to each guest room shall be through the interior of the building.

Berm. A mound of earth, or the act of pushing earth into a mound.

Block. A tract of land bounded by streets or a combination of streets and public land, rights-of-way or any other barrier to the community or development.

Board of Appeals. The appointed Board of Appeals of the City of Alpharetta.

Boarding House. A dwelling where more than two, but fewer than six rooms are provided for lodging for definite periods of times. Meals may or may not be provided, but there is one common kitchen facility. No meals are provided to outside guests.

Book or Stationery Store. An establishment for the sale or distribution of books and miscellaneous stationery by direct retail sales to the public.

Bottled Gas Storage and Distribution. An establishment where gas is stored for wholesale distribution.

Boutique Hotel. A high quality hotel which contains less than 120 rooms located in a unique setting, such as the City's Downtown, mixed-use developments and/or an entertainment district. The building shall reflect a unique exterior architecture and interior design compatible with the area in which the hotel is located. The boutique hotel shall provide guests with high quality services, such as, but not limited to, concierge, on-site restaurant, room service, meeting space, business center, banquet facilities, spas, doormen, valet parking, boutiques and/or other amenities. Guest rooms within the building shall contain no equipment for food preparation other than a mini-fridge and/or microwave. There shall be no self-serve laundry facilities (for guests use) within the building. Access to each guest room shall be through an inside lobby supervised at all hours.

Brewery. A facility where malt beverages are manufactured or brewed.

Broadcasting Studio. An establishment for the dissemination of radio, television, satellite, or similar medium, which may include a transmission tower.

Buffer Area or Buffer Strip. That portion of a lot set aside for open space and screening purposes pursuant to applicable provisions of this Ordinance to separate different zoning districts or uses on one property from uses on another property. A required set back area may not be included in a required buffer area or visa-versa.

Buffer, Undisturbed. An area of land as defined above that exists in its natural state without intrusion or alteration. The addition of landscaping into areas of sparse vegetation within undisturbed buffers does not constitute intrusion or alteration.

Buildable Area. See "Lot Building Area."

Builder's Equipment. An area designed or intended for the storage and use of equipment or materials common in the construction trade. This may not include sales of such equipment or materials.

Building. Any structure built for or intended for occupancy, storage or shelter of persons, animals, personal or business property, or machinery of any kind which is entirely separated from any other structure.

Building Code. The latest edition of all codes relating to the construction of buildings and their mechanical, electrical and other systems, as adopted by the City of Alpharetta pursuant to the Georgia Uniform Building Code Act and also referred to as the Standard Building Code.

Building Frontage. The linear width of a building facing or most nearly facing a street.

Building Height. The vertical distance to the highest point of the roof surface of a flat roof, the deck line of a mansard roof, and to the mean height level between eaves and ridge of a gable, hip or gambrel roof, as measured from the average finished grade across the building frontage.

Building Inspector. The Building Official of the City of Alpharetta or the Building Official's designated representative.

Building Site. A parcel or lot or land occupied or intended to be occupied by a building or structure having not less than the minimum area permitted by the code.

Bus Shelter. A small, roofed structure, having from one to three walls, located near a street, and designed primarily for the protection and convenience of bus passengers.

Car Wash. Any building or premises or portions thereof dedicated to use for washing automobiles; or a structure containing facilities for washing automobiles.

Carpenter Shop. An establishment utilized for the manufacture or assemblage of wood into usable forms for sale and distribution.

Carpet and Rug Sales. An establishment for the retail or wholesale sale of floor coverings.

Cemetery. Land used or dedicated to the burial or internment of human or animal remains, including crematoriums, mausoleums, necessary sales, and maintenance facilities.

Center Line of Street. Any line surveyed as such by the City of Alpharetta or the Georgia Department of Transportation or their designee, or, if no such survey exists, the line which is midway between the edge of pavement or back of curb of a street.

Central Business District (CBD). That portion of the City bounded by Mayfield Road to the North, Old Milton Parkway to the South, Haynes Bridge Road and Highway 9 to the east and Roswell and Canton Streets to the west. (see page 2-103)

Certificate of Occupancy. A document issued by the Director indicating that a particular building conforms with the requirements of this Ordinance and the building is complete and ready for use.

Church. A facility incorporating one or more buildings where religious services are conducted.

City. The City of Alpharetta, Georgia.

City Administrator. The Chief Operating Officer of the City of Alpharetta or his designee.

City Clerk. The City Clerk of Alpharetta, Georgia, or the City Clerk's designated representative.

City Council or Mayor and Council. The legally constituted and elected governing body of the City of Alpharetta, Georgia.

Clinic. An establishment where patients are admitted for examination and treatment by one or more physicians, dentists, psychologists, medical professionals, or social workers and where patients are not usually lodged overnight.

Club. Buildings and facilities owned or operated by an association or persons for a social or recreational purpose.

Collection Box. A container, trailer, vehicle or other structure, used for the purpose of acquiring donated goods, by a for-profit or not-for-profit entity.

Commercial Parking Lot. An area or structure dedicated to the temporary storage of automobiles or other vehicles for periods of less than 24 hours for a fee, operated as the principal use of the property or structure.

Community Development Director. The Director of the Community Development Department or his designee.

Comprehensive Plan (CP). The long-range plan for guiding development in the City of Alpharetta and the City's urban area to a point in time at least 15 years from when the plan was adopted, with the overall goal being to accommodate development in a timely, orderly, and efficient arrangement of land uses and public facilities and services that meet the needs of present and future residents and businesses.

Concept Plan. A generalized map presenting an image or representation of a proposed development, and showing those plan elements as further required by this Ordinance.

Concrete Plant. A business which manufactures, mixes, or blends concrete products for distribution.

Conditional Use. A use that generally would not be appropriate throughout a zoning district but which, if controlled as to visual appearance, number, area, height, location, or relation to abutting or nearby uses, would not be injurious to the public, health, safety, welfare, morals, order, comfort, convenience, appearance or general

welfare. Such uses may be permitted only in zoning districts specified in this Ordinance and are subject to conditions and approval by the Mayor and Council.

Condominium. A legal form of multiple ownership consisting of a building, or group of buildings, in which units are owned individually, and the structure, common areas and facilities are owned by all the owners on a proportional, undivided basis.

Condominium, Office. An office building (or group of buildings) organized, owned and maintained as a condominium.

Condominium, Residential. A building type consisting of individual units located within a single structure. The structure normally has at least two, but no more than six stories. The structure is designed to appear as a single building with no architectural distinction between the units. Architectural elements such as materials, colors and windows are repeated consistently throughout the building and there is usually a single roof element and a single point of primary entry. The architectural style typically expresses the horizontal lines of the building which then accentuates the floors of the building as a primary visual element. The common areas of the building such as the elevators and lobby may be expressed as special features on the main elevations of the structure.

Congregate Housing. Any group dwelling or facility licensed by the state, public or private, which for gain or otherwise, regularly provides one or more persons with assisted living care. The term "assisted living care" means specialized care and services including the provision of personal services, the administration of medications by a certified medication aide and the provision of assisted self-preservation. The term "personal services" includes, but is not limited to, individual assistance with or supervision of self-administered medication, assistance, essential activities of daily living such as eating, bathing, grooming, dressing, toileting, ambulation and transfer. The term "assisted self-preservation" means the capacity of a resident to be evacuated from an assisted living facility to a designated point of safety and within an established period of time as determined by the Office of Fire Safety Commissioner. Assisted self-preservation is a function of all of the following:

1. The condition of the individual.
2. The assistance that is available to be provided to the individual by the staff of the assisted living facility; and
3. The construction of the building in which the assisted living facility is housed, including whether such building meets the state fire safety requirements applicable to an existing health care occupancy.

Construction Trailer. A temporary structure used as an office and located on an active construction site.

Contractor's Office with outside storage. A room or group of rooms used for conducting business that includes an enclosed exterior space for the storage of business related equipment and supplies.

Contractor's Office without outside storage. A room or group of rooms used for conducting business that does not use any exterior storage area.

Convenience Center with Gas Pumps. A facility that combines a small retail store with the sale and dispensing of gasoline products.

Convenience Store. A retail establishment primarily selling packaged food and household convenience items, which may also dispense automobile fuel, oil and accessories. Excluded from this definition is any establishment providing automotive maintenance services or repairs.

Craftsman Shop or Studio. A facility where products are made or serviced on an individual basis without the use of mechanized or assembly line production equipment.

Curb Break or Curb Cut. Any interruption or break in the line of a street curb for the purpose of connecting a driveway to a street, or otherwise to provide vehicular access to abutting property.

Data Center. A building or complex of buildings in which a substantial portion of the gross square footage is dedicated to the housing of computer or data processing equipment or systems.

Day Care Center. Any establishment operated by an individual, partnership, society, agency, corporation, institution or group, and licensed by or registered with the State of Georgia as a group day care home or day care center, which enrolls therein for pay, for supervision and care, seven or more children or adults. Such facility may provide supervision, care, education, recreation and specialized programmings but does not provide overnight accommodations.

Deed. An instrument that conveys or transfers title to land or other real property.

Density. The average number of dwelling units or gross square feet of building floor area per gross acre of land. For an individual property, the density shall be calculated by dividing the total dwelling units or gross square footage of the building by the total gross acres of the property that existed when originally approved for its current zoning district.

Design Review Board. The Design Review Board of the City of Alpharetta, as established by this Ordinance and appointed by the Mayor and Council.

Development Activity. The construction of public improvements, site improvements, or buildings, including any alteration of a property in preparation for such construction. Development Activity shall also include the "thinning" or removal of trees from undeveloped land in conjunction with a forest management program, and the removal of trees incidental to the development of land or to the marketing of land for development.

Director. Unless otherwise specified, the Director of Community Development of the City of Alpharetta, Georgia, or the Director's designated representative.

Discount Store. A retail store that sells new or used goods or products at prices lower than traditional retail outlets. Discount stores principally engage in offering a category of similar goods or a wide assortment of goods for sale to the general public. This includes, but is not limited to, swap shops, flea markets, antique malls, donation centers, surplus stores and thrift stores.

Distillery. A facility where distilled spirits are manufactured (distilled, rectified or blended).

Downtown Overlay. That portion of the City generally bounded by Canton Street and Mayfield Road to the North; Wills Road and the western boundaries of Milton Manor and Milton Estates Subdivisions to the West; South Main Street, Old Milton Parkway and the southern boundary of Alpha Park Subdivision to the South; and Westside Parkway and the eastern boundary of Alpha Park Subdivision to the East. The study area of the City of Alpharetta Downtown Master Plan shall be shown on the Official Zoning Map and labeled "Downtown Overlay." In the event of a conflict between the general description set out herein and the Map, the Map shall control.

Drainage. See Article III, Section 3.1 for all definitions relating to drainage and storm water control.

Drive or Driveway. A surfaced asphalt or concrete area on a lot which provides direct access for vehicles between a street and a private garage, carport or other permitted parking space or parking area or loading area.

Dry cleaning, pick-up station. An establishment or business maintained for the pickup and delivery of dry cleaning and/or laundry without the maintenance or operation of any laundry or dry-cleaning equipment or machinery on the premises.

Dry cleaning plant. A building, portion of a building, or premises used or intended to be used for cleaning fabrics, textiles, wearing apparel, or articles of any sort by immersion and/or agitation, and other processes incidental thereto.

Duplex (or semi-detached). A building type consisting of two independent units that are attached by a common side wall, floor and/or ceiling. Such units normally have at least two, but no more than four floors. These units may share a common front door and are sometimes designed to appear as a single unit.

Dwelling, 'For-Rent' (Downtown Overlay).

a. Unit—A residential unit designed to be leased or rented and occupied by a single family tenant and located within the Downtown Overlay (map A).

b. Building—A structure incorporating multiple rental units. (See Apartments.)

c. See Section 2.7 Standards for Downtown Overlay.

Dwelling, 'For-Rent' (Outside of Downtown Overlay).

a. Unit—A residential unit designed to be leased or rented and occupied by a single family tenant.

b. Building—A structure incorporating multiple rental units. (See Apartment.)

c. See Section 2.7 Standards for Units (outside of Downtown Overlay).

Dwelling, 'For-Sale'.

a. Detached—A free-standing residential unit designed to be purchased and occupied by a single family.

b. Attached—A residential unit attached to other residential units and designed to be purchased and occupied by a single family.

c. Condominium—A type of property ownership in which a 'For-Sale' unit is purchased and the purchaser of each unit acquires full title to the unit and an undivided interest in the common elements (the land, roof, elevator, etc.).

Dwelling, Group. A building or portion of a building occupied or intended for occupancy by a number of unrelated persons or families, but in which separate cooking facilities are not provided for such resident persons or families. The term "group dwelling" includes but is not limited to the terms rooming house, apartment hotel, nursing home, fraternity or sorority house, YMCA or YWCA. A hotel, motel or bed and breakfast tourist home shall not be deemed to be a group dwelling as herein defined.

Dwelling Unit. One or more rooms connected together and constituting a separate, independent housekeeping establishment designed for use by one family with provision for cooking, eating, sleeping, bathing and personal sanitation, and physically set apart from any other rooms or dwelling units in the same structure or another structure.

Easement. A grant by a property owner of any designated part of a property for the use by another for a specified purpose without transfer of title or right of ownership.

Egress. An exit.

Electric power yards, substation. All equipment, fixtures, and personal property operated or maintained in connection with the production of electricity using any source of thermal, steam, wind, or solar energy with a generating capacity of more than 500 kilowatts and less than 50 megawatts.

Existing Use. The use of a lot or structure at the current time or another time if so designated.

Extended Stay Hotel. A building containing guest rooms for lodging, offered to the public for compensation, which are advertised, designed, intended or routinely utilized for weekly or monthly occupancy, or in which at least 30% of all guest rooms have facilities for the refrigeration and preparation of food by guests, such as a refrigerator and a cooktop/stove (or a refrigerator, a microwave, and a dishwasher or kitchenette sink), and a self-serve laundry facility is available for guests use. For the purposes of this Code, extended stay hotels and hotels (or motels) are separate and distinct uses. See, Section 2.7.3.

Family. One or more persons related by blood, adoption, guardianship or marriage and/or not more than three unrelated persons, living and cooking together as a single, nonprofit housekeeping unit.

Family Day Care Home. An accessory use within a private residence, licensed by or registered with the State of Georgia as a family day care home, operated by the occupant of the dwelling who enrolls for pay, for supervision and care without overnight accommodations, three but not more than six children or adults.

Fast Food Restaurant. See Restaurant, Drive-thru or Fast Food.

Fence. A structure made of manufactured materials—and used for the purpose of defining a boundary, creating an enclosure, providing security, privacy or screening, or as a means of protection.

Fitness Studio. An establishment where equipment or instruction is provided for a specialized activity related to physical well-being such as, personal training, dance, martial arts, boxing, yoga, barre and other forms of similar physical exercise. These facilities are typically located in a smaller space due to their focused specialty. Smoke Shop and Tobacco Store. Any business premises dedicated to the display, sale, distribution, delivery, offering, furnishing, or marketing of tobacco, tobacco products, or instruments, vape products, or any combination thereof. Such businesses shall be located within a retail center and shall not be closer than 2,000 ft. to a school, religious institution, government building, park, residential dwelling or each other. Distance shall be measured by the straight-line distance from premises to premises. "Smoke shop and tobacco store" shall not include any grocery store, supermarket, convenience store or similar retail use that only sells conventional cigars, cigarettes, vape or tobacco as an ancillary sale (ten percent (10%) or less of total sales).

Spa Services. A business that provides services requiring a customer to disrobe, which may include non-medical massage, other personal services such as skin, nail, hair treatments, hair removal/waxing, and may have the sale of associated retail products. Such business shall be located within a zoning category allowing retail use, shall not occupy more than 4,000 sq. ft. and shall not be closer than 2,000 ft. to a comparable business. The term "spa establishment" shall not include hospitals or other professional health care establishments separately licensed as such by the state.

It shall be unlawful to establish a spa establishment in the city, unless said establishment is located:

(1) At least 300 feet from State Route 9;

(2) At least 300 feet from State Route 120; and

(3) At least 300 feet from any parcel occupied by a house of worship, public or private elementary or secondary school, public park, state-licensed day care facility, or any residence.

The foregoing minimum distance requirements shall not apply to any spa establishment located within a mixed use development in the MU district. For the purpose of this subsection, measurements shall be made in a straight line in all directions without regard to intervening structures or objects, from the closest point on a boundary line of the spa establishment parcel to the closest point on the State Route 9 or State Route 120 right-of-way, or to the closest point on a boundary line of any parcel containing a house of worship, public or private elementary or secondary school, public park, or residence.

Special Care Home. An accessory use in a 'For-Sale' dwelling occupied by one or more persons related by blood, adoption, guardianship or marriage and/or not more than three unrelated persons, some of whom are in need of special care, living together as a nonprofit housekeeping unit. The term "special care home" shall include a home for adolescents, a home for physically handicapped persons and a home for mentally handicapped persons. The term "special care home" shall not include the business of operating a boarding house, rooming house or other similar establishment. Additionally, the term shall not include a penal institution, any place for persons convicted of a crime or any place for persons found to be juvenile delinquents.

Special Event Facility. A public or privately owned structure or area used for the purposes of performances, sporting events, receptions or parties, or similar attractions that may generate heavy traffic. Facilities may include improvements to accommodate special events, such as access and circulation improvements, parking areas, gathering areas, and other physical improvements necessary to accommodate special events.

Storage, Climate Controlled. A facility consisting of a building or group of buildings that contain individual storage units of varying sizes in a climate controlled environment where customer access is through a lobby and where no commercial transactions or activities take place other than the rental of the storage units (permitted in L-I only).

Storage, Mini-Warehouse. A facility consisting of a building or group of buildings that are surrounded by a security fence with controlled access and which contains individual storage units of varying sizes whose doors open directly to the outside and where no commercial transactions or activities take place other than the rental of the storage units.

Storefront Street. A street, that by virtue of its pre-existing pedestrian-supportive qualities. or its future importance to pedestrian connectivity, requires that new development along it achieves a high standard of design and pedestrian orientation.

Storm Water Management Report. A report prepared by a Professional Engineer registered in the State of Georgia that details the pre and post development activity hydrologic conditions.

Story. That portion of a building, other than a basement, included between the surface of any floor and the surface of the floor next above, or if there is no floor above, the space between the floor and the ceiling next above. Each floor or level in a multi-story building used for parking, even if below grade, shall be classified as a story.

Street. A dedicated and accepted public right-of-way for vehicular traffic from which direct access may be gained to abutting properties, or an easement or private right-of-way approved by the City Council to serve such purpose. The term "street" shall refer to the full width located between the limits of the right-of-way or easement, and not be limited to the roadway itself.

A. *Principal Arterials*—are those streets and highways which serve major activity centers and emphasize traffic service rather than access to abutting land access. Principal arterials include all limited access freeways, expressways or parkways, and carry a high proportion of total area travel on a minimum of mileage.

B. *Major Arterials*—are those streets which interconnect with the principal arterial system and provide service to trips of moderate length with emphasis on both traffic service and land access and generally do not penetrate identifiable single family residential neighborhoods.

C. *Minor Arterials*—provide intra-community continuity but should not penetrate identifiable neighborhoods.

D. *Collector Streets*—distribute trips from arterial street to their ultimate origin or destination. Collector streets provide a greater level of land access than arterial streets, may enter or traverse identifiable neighborhoods, and rarely serve significant volumes of through traffic.

E. *Local Streets*—comprise all facilities not classified as arterial or collector. Local streets provide land access with service to through traffic being actively discouraged.

Street, Future Right-of-Way Line. The right-of-way line which is anticipated by the City, State or other agency for future development.

Street Right-of-Way Line. The limit of public ownership or private easement for property containing or intended to contain a street, dividing it from an adjacent lot.

Structure. A combination of materials to form a construction for use, occupancy or ornamentation which is fastened or attached to the ground.

Structure Height. The vertical distance to the highest point of a structure, as measured in the same manner as "Building Height" herein.

Subdivision. The division of a lot, tract or parcel of land into 2 or more lots, tracts, parcels or other divisions of land for sale, development, finance or lease.

Swimming Pool. A water-filled enclosure, permanently constructed or portable, having a depth of more than 18 inches below the level of the surrounding land, or an above-surface pool having a depth of more than 30 inches, designed, used and maintained for swimming and bathing.

Temporary Use. A use established for a fixed period of time with the intent to discontinue such use upon the expiration of the time period.

Theater. A building or part of a building devoted to showing motion pictures, or for dramatic, musical or live performances.

Townhouse/Rowhouse. A building type consisting of at least three, but not more than eight independent units that are attached by common side walls in a linear arrangement. Each unit occupies the space from the ground to the roof and normally has at least two, but no more than four floors. Such units typically feature a primary entrance on the front elevation and variations in materials, colors and/or windows to create a visual distinction between each of the attached units.

Tract. See "Lot."

Tree. See Article III, Section 3.2, for definitions relating to tree protection.

Use. The purpose for which a property or structure is designed, intended, reserved, or occupied.

Use, Accessory. See "Accessory Use."

d. Wireless Tower.

4.0 *Transfer Station.* Any facility associated with waste or a facility used to transfer solid waste from one transportation vehicle to another for transportation to a disposal facility or processing operation.

4.1 *General Standards.*

a. No access to transfer station facility shall be allowed from streets that primarily access residential developments;

b. Access streets shall be paved and shall be able to withstand maximum load limits established by the State of Georgia as approved by the Engineering Director;

c. No portion of a new transfer station shall be located within a three-mile radius of the property lines of an existing transfer station;

d. A minimum 200 foot undisturbed buffer and ten-foot improvement setback shall be required along all property lines except public rights-of-way;

e. A minimum 50 foot buffer and ten-foot improvement setback shall be required along all public rights-of-way;

f. A minimum six foot high solid fence or wall shall be located on property lines or interior to the required buffers and improvement setback;

g. Operation of the facility shall be limited to the hours between 7:00 a.m. and 7:00 p.m., Monday through Friday; 9:00 a.m. to 7:00 p.m., Saturday; 12:00 p.m. to 5:00 p.m., Sunday (for routine maintenance and other non-operational facility activities).

h. Only municipal solid waste is accepted at the facility. No treated or untreated regulated medical waste, treated and destroyed medical waste or asbestos waste debris shall be accepted;

i. All solid waste is removed from the transfer station within 24 hours of receipt;

j. A transfer station with permanent operating mechanical equipment must have an attendant on duty whenever the facility is open;

k. The facility shall be designed and constructed in a manner to ensure that odor will not be emitted from the site;

l. The transfer facility must be cleaned at least once every 24 hours;

m. The entrance and exit shall be cleaned at a frequency which prevents the tracking or off-site migration of waste materials;

n. The operator shall take adequate measures to minimize the creation, emission, or accumulation of excessive dust and particulates;

o. The operator shall take adequate steps to control or prevent the propagation, harborage and attraction of pests;

p. All floors must be free from standing water. All drainage from cleaning areas must be discharged to sanitary sewers, authorized cleaning areas must be discharged to sanitary sewers, authorized sanitary waste treatment facilities, or a corrosion-resistant holding tank;

q. The facility shall provide fire suppression equipment as directed by the City of Alpharetta Fire Department;

r. All solid waste passing through the transfer station must be ultimately treated or disposed of at an authorized facility;

s. The transfer station must have adequate storage space for incoming solid waste;

t. Operational records must be maintained at facilities with permanent operating mechanical equipment. These records must include a daily log of the quantity of solid waste received and transported, specifying the origin by hauler and the destination of the solid waste transported daily;

u. The facility shall not generate more than 150 total vehicle trips per day;

v. An annual report must be submitted to the Community Development Department which summarized the information gathered in (t), above;

w. The facility shall be developed, operated and maintained in a safe, nuisance-free manner; and

x. The facility and its operation must be in compliance with GA EPD requirements.

4.2 *Additional Permit Application Requirements.*

a. Application requirements. An application for a solid waste transfer station permit must confirm to the requirements set forth herein. Applications for initial permits to construct and operate a solid waste transfer station must include the following:

(1) Regional plan or map. The regional plan or map must delineate the service area of the proposed transfer station.

(2) Site plan. The site plan must include:

(a) Site conditions and projected site utilization, including all site structures (such as buildings, fences, gates, entrances and exits, parking areas);

(b) Property boundaries, access roads, the locations of all surface water bodies, and 100-year floodplain boundaries;

(c) All proposed structures and areas designated for unloading, sorting, storage, and loading, including dimensions, elevations and floor plans of these structures and areas, and the general process flow; and

(d) Adjacent properties, including the location of public and private water supplies on these properties.

(3) Engineering report. The engineering report must include:

(a) A description of the general operating plan for the proposed facility, including the origin, composition, and expected weight or volume of all solid waste to be accepted, the maximum time any such waste will be stored, where all waste will be disposed of, and the proposed capacity operating hours, and the expected life of the facility;

(b) A description of all machinery and equipment, including the design capacity;

(c) A proposed transfer plan specifying the transfer route, the number and type of transfer vehicles to be used, and how often solid waste will be transferred to the disposal site;

(d) A description of the facility's drainage system and water supply system; and

(e) A contingency plan that details an alternative solid handling system for periods when not operating, or for delays in transporting solid waste due to undesirable conditions, such as delivery of unauthorized waste, fires, dust, odor, vectors, unusual traffic conditions, equipment breakdown or other emergencies.

4.3 *Design Standards.* All transfer stations must meet minimum design requirements as follows:

a. Unloading and loading areas.

(1) The unloading area must be adequate in size and design to facilitate efficient unloading from the collection vehicles and the unobstructed movement of vehicles;

(2) The unloading and loading pavement areas must be constructed of concrete or asphalt paving material and equipped with adequate drainage structures;

(3) Processing, tipping, sorting, storage, and compaction areas must be located within an enclosed building;

(4) Provisions must be made for weighing or measuring all solid waste transferred to the facility;

(5) Sufficient internal storage areas must be provided for incoming solid waste;

(6) Exhaust removal systems must be installed in enclosed areas; and

(7) The facility must be designed to accommodate expected traffic flow in a safe and efficient manner.

4.4 *Expansion or Modification of Existing Facilities.* No transfer station facility existing as of 12/06/04 may make modifications which require a permit, make changes that require a permit modification from the GA EPD or increase the square footage of any buildings on site without City Council approval. When reviewing modification or expansion plans, the Council may consider the extent to which the proposed modification or expansion meets the standards established in Sections 4.1 and 4.3, herein; however, any existing buildings which do not meet setback requirements shall be considered non-conforming and shall remain, but may not be expanded with regard to the setback non-conformity pursuant to UDC Sec. 2.4.2.

D. *District Regulations.*

2.2.20 MU mixed use district.

This district is intended to allow for the development of a mix of uses within the framework of a master plan. The district regulations are intended to allow greater design flexibility in order to accommodate a pedestrian focused environment that provides opportunities for living, working, shopping, recreation and entertainment.

A. *Applicability.* This zoning district is applicable to properties located within:

1. Areas that are primarily non-residential in character; or
2. Along major roadways that are primarily commercial in character; or
3. Historic Downtown Alpharetta; or
4. As noted in the Comprehensive Land Use Plan.

B. *Permitted Principal Uses.* A property in the MU district may be used only for those uses approved as part of the conditions of approval of the MU zoning on the property and as further limited below.

1. *Dwelling, attached or detached:* At least 25% of the MU development shall be utilized as residential dwellings. Land use calculations shall utilize gross floor area for vertical mix of uses and land area for horizontal mix of uses.

   Dwelling, 'For-Rent' and 'For-Sale' units shall require conditional use approval as set forth in Table 2.2.

2. *Commercial:* At least 10% of the MU development shall be utilized as commercial uses (as approved in the MU master plan). Land use calculations shall utilize gross floor area for vertical mix of uses and land area for horizontal mix of uses.

3. *Open Space:* MU developments shall incorporate the following amounts and types of open space:

a. *All developments:* A minimum of 10% of the gross land area shall be designed for use as civic space in conformance with Sec. 2.10.10.C of the North Point Overlay.

b. *Developments with residential uses:* In addition to the requirements of "a" immediately above, each MU development containing residential uses shall provide a minimum of one acre of open space/100 population generated by residential uses. Household size shall be calculated using the most current US Census data for the City of Alpharetta. This requirement shall not apply in the North Point Overlay, where alternate standards apply.

4. *Office/Institutional:* At least 25% of the MU development shall be utilized for office buildings. Land use calculations shall utilize gross floor area for vertical mix of uses and land area for horizontal mix of uses.

5. Redevelopment projects that incorporate existing buildings and do not conform to the dwelling, commercial, or office/institutional percentages set forth in "1","2" or "4" above (prior to redevelopment) are not subject to said requirements when all of the following are met:

a. At least 75% of the total existing floor area remains after redevelopment; and

b. The total floor area of new construction does not exceed the total floor area of existing buildings to remain; and

c. The redevelopment does not increase the degree of non-conformity with regards to the percentages set forth in "1"," 2" or "4" above.

As determined by City staff, uses shall be calculated using one of the following methods:

Horizontal Mixed Use: Land Use Land Area (acres)/Total MU Land Area (acres) = % Land Use of MU Development

Example: 25 acres of Residential Land Use/100 acres of MU Land Area = 25% Residential Land Use of MU Development

Vertical Mixed Use: Land Use Gross Floor Area (square feet)/Total Gross Floor Area of All MU Development (square feet) = % Land Use of MU Development

Example: 25,000 SF of Commercial Land Use/100,000 SF for All Vertical Development = 25% Commercial Land Use of MU Development

Combination of Horizontal and Vertical Mixed Use:

Land Use Gross Floor Area (square feet)/Total Gross Floor Area of All MU Vertical and Horizontal Development (square feet) = % Land Use of MU Development

Example: [25,000 SF of Vertical Commercial Land Use + 25,000 SF of Horizontal Commercial Development]/200,000 SF for All Vertical and Horizontal Development = 25% Commercial Land Use of MU Development

C. *Conditional Uses.* A property in the MU district may be used for those uses listed below and in Table 2.2, as well as, any additional uses included in the conditions of approval for the MU zoning on the property. Conditional uses not included in the master plan shall require a public hearing by the Planning Commission and approval by the City Council.

1. Residential Uses:

a. Dwelling, Group (assisted living facility, congregate housing).

b. Dwelling, 'For-Rent'.

c. Dwelling, 'For-Sale', Attached and Detached.

e. Park or Playground.

f. Public Building.

g. School, Academic.

D. *District Regulations.*

Minimum Lot Size: The minimum area permitted to be zoned for an MU development is 25 acres.

Maximum Density of Dwelling Units: The MU master plan shall establish maximum density for each area within the development. Density for all residential units combined shall not exceed eight (8) dwelling units/acre, except when City Council approves greater density by conditional use in the North Point Overlay. Density shall be calculated based on the gross acreage of the entire MU master plan.

Development Standards: Regulations governing lot size, lot width, setbacks, principal building coverage, floor area of dwelling unit, and height shall be established for each area within the MU master plan and approved through the public hearing process.

Maximum Impervious Area: 80% for the entire MU development.

Civic Space: See Sec. 2.20.B.3.

Open Space: Open space may include residential recreational amenities. However, at least 50% of the required open space shall be provided in passive land area(s).

E. *Review Criteria.* The MU district is intended to promote specific objectives. Therefore, the following shall be considered when reviewing an MU master plan:

1. Retail, restaurant, office, and personal service uses at ground level.
2. Pedestrian connectivity to all uses.
3. Large parking areas below grade, in decks or screened. Design efforts to provide shared parking will also be considered.
4. Accommodations for public transportation.
5. Buildings that face or appear to face public roadways.
6. Appearance standards for buildings and structured parking.
7. Limitations on uninterrupted building elevations.
8. Creation of vistas and view corridors within development.
9. Focal point features at prominent locations and ends of vistas.
10. Incorporation of natural site features.
11. Block lengths conducive to pedestrian traffic.
12. Detention and retention facilities designed to be aesthetically pleasing.

13. Creative methods for stormwater management to provide additional open space.

14. Attractive and usable street furniture in public spaces.

15. Emphasis on a high quality landscape plan.

16. Number of office jobs internally captured on-site.

F. *Time Linkage/Concurrency.* In order to ensure that the objectives of MU district are met and development occurs which incorporates a mix of uses, a development phasing strategy or time line shall be established for each MU project, subject to the following:

1. *Open Space and Civic Space.* No certificate of occupancy for any use shall be issued until a proportional amount of required open space and civic space has been installed.

Furthermore, when reviewing the phasing strategy or timeline, the City Council may link the issuance of other permits and/or certificates of occupancy for a portion of the development with the completion of other portions of the development.

A - Includes surface or deck parking.

B - Minimum lot width at setback line per unit.

C - Side yard set back from project boundaries and building groupings.

D - Area regulations conditional and are subject to a master plan.

E - All minimum lot sizes as noted are allowable if served by sanitary sewer. If sanitary sewer is not available to the property, then Fulton County Health Department (lot size) regulation shall apply for septic tank approval.

F - Tree save areas may overlap the building lot and building setback area. Such tree save areas must be identified on the land disturbance permit and dedicated on the final plat for permanent preservation.

TABLE 2.2 LIST OF PERMISSIBLE AND CONDITIONAL USES

On the following table, an "O" means that the use will be permitted in that district only if a Conditional Use Permit is granted by the City Council. An "X" means that the use is permitted in the zoning district subject to the general provisions of the Unified Development Code. An "A" means that the use is permitted as an accessory use in the zoning district subject to the general provisions of the Unified Development Code. An "S" means that the use will be permitted as a subordinate use in that district if a Conditional Use Permit is granted by the City Council. For uses not included in this list or when the Director of Community Development is unable to determine placement, application shall be made to the Board of Appeals for interpretation.

* Uses under the CUP and OI Zoning Districts shall be permissible through an approved master plan amendment and statement of intent.

SECTION 2.2 a. CONDITIONAL USE REVIEW CRITERIA When reviewing a conditional use, consideration shall be given to factors associated with the use including, but not limited to, the following:	
1. Site design	4. Vehicular trips generated by the use
2. Property access	5. Impact of the use on surrounding properties
3. Hours of operation of the business	6. Impact of the use on the natural features of the site

SECTION 2.3 SUPPLEMENTARY REGULATIONS

2.3.1 General exemptions.

A. *Heights—Exclusions.* The following structures are exempt from the height limitations imposed within each zoning district:

1. Church spires, cupolas, and chimneys.
2. Agricultural accessory structures, such as barns, silos, windmills, and the like.
3. Parapets and structures used for ornamental or aesthetic purposes not to exceed twelve (12) feet.
4. Elevator penthouses not to exceed fifteen (15) feet.
5. Mechanical equipment on building roofs or rooftop antennas provided any such equipment exceeding 12 feet in height shall be contained within a structure or otherwise screened from ground view from adjoining streets and properties.

B. *Front Yard Requirements—Existing Residential Areas.* The setback requirements of this Ordinance shall not apply to any residential lot where the average setback on developed lots located adjacent to and on each side of such lot and within the same zoning district and fronting on the same street as such lot is less than the minimum required setback. In such cases, the setback of such a lot may be less than the required setback but not less than the average of the existing setbacks on the developed lots. In no case, however, shall setbacks be less than 15 feet.

If the adjacent developed lots on both sides of a vacant residential lot, within the same zoning district and fronting on the same street as such lot, have front yard setbacks greater than the minimum required by the zoning district, then the minimum setback on the vacant lot shall be the average of the 2 adjacent developed lots.

C. *Double Frontage Lots.*

1. Double frontage lots should be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A landscaped or natural buffer of at least twenty feet (20'), across which shall be the right of access, shall be provided along the line of lots abutting such a traffic artery.
2. On lots having frontage on two (2) streets, but not located on a corner, the minimum front yard setback requirement shall be provided along each street frontage.
3. Double frontage lots shall obtain access from the street with the lower functional classification, unless this poses a safety hazard or would otherwise be impractical.

D. *Setbacks—Exclusions.*

1. No building or structure or projection thereof, including porch, deck, terrace or chimney, shall be erected closer to a property line than the applicable setback regulation prescribed herein allows. However, uncovered steps, patio slabs, driveways, walkways, retaining walls of no more than 4’ in height, and roof overhangs of up to 18” may be located within setback areas.
2. Required setbacks may accommodate vegetated runoff reduction measures, provided such setbacks meet fire code standards. The runoff reduction measures may not compromise public safety such as the sight distance triangles required by the City.

E. *Flag Lots.*

1. Flag lots are prohibited for residential development. Residential building sites must meet minimum lot width requirements at the front setback line or at twice the required front setback for cul-de-sac lots.

(Ord. No. 730 , § 6, 12-5-2016; Ord. No. 732 , § 2, 2-6-2017)

2.3.2 Temporary uses.

The Director may authorize a temporary use, as follows:

A. Carnival, circus or fair on property zoned and used for non-residential use, for a period not to exceed 4 days. A period not to exceed 30 days may be granted by the Director if the event is held within a designated amphitheater facility as defined by Code and confirmed by the Director. Site shall meet adequate parking and safety concerns and limit impacts to surrounding properties.

B. Outdoor tent sales on property zoned and used for non-residential use, for a period not to exceed forty-five (45) days. Authorization may not be granted more than two (2) times per year, per property.

C. Seasonal events associated with a not-for-profit on property zoned and used for non-residential use, for a period not to exceed seventy-five (75) days. Authorization may not be granted more than two (2) times per year, per property.

Seasonal Events associated with a for-profit entity on property zoned and used for non-residential use for a period not to exceed thirty (30) days. Authorization may not be granted more than four (4) times per year, per property. Seasonal events, such as an ice-skating rink, corn maze, haunted house, etc. shall be limited to activities that draw fewer than 100 people at a time.

D. Religious meeting in a tent or other temporary structure on property zoned and used for non-residential use, for a period not to exceed sixty (60) days.

E. Open lot sale of Christmas trees, fruit and vegetables, and other harvested products on property zoned and used for non-residential use, for a period not to exceed forty-five (45) days.

F. Real estate sales office, related to an active development, in any district, for a period not to exceed one (1) year, provided no sleeping accommodations are maintained in the structure.

G. Contractor's office, construction trailer and equipment shed, in any district, related to an active development, for a period of one (1) year provided that such office be placed on the property to which it is appurtenant.

H. Commercial television or motion picture filming activities not to exceed seven (7) calendar days at any residential location, or a period not to exceed twenty-one (21) days if approved by the Mayor and Council. The director or the Mayor and Council may impose conditions to the issuance of the permit to minimize the disturbance to the residential neighborhood. These conditions may include neighborhood notification requirements, parking and traffic control, and limitations on the hours of operation. In no event shall filming activities commence prior to 7:00 a.m. or continue after 10:00 p.m.

I. All temporary certificates of zoning compliance may be renewed provided that it is determined that said use is clearly of a temporary nature, will cause no increased traffic congestion and will not create a nuisance to surrounding uses.

J. The director may require City Council review and approval of any temporary uses.

K. Fireworks sales in a tent or other temporary structure in the L-1 District, for a period not to exceed ninety (90) days.

(Ord. No. 688, § 1, 4-28-2014 ; Ord. No. 708 , § 1, 8-10-2015; Ord. No. 718 , § 15, 12-14-2015; Ord. No. 808 , § 3(Exh. C), 9-8-2020; Ord. No. 836 , § 1(Exh. B), 10-4-2021)

2.3.3 Accessory uses and structures.

A. *Home Occupations.* An occupation, profession or trade customarily carried on by an occupant in a dwelling unit as a secondary use which is clearly incidental to the dwelling unit for residential purposes and which meets all of the following conditions:

1. The use shall be carried on wholly within the dwelling unit principal building. The attachment of an accessory building by a breezeway, roof or similar structure shall not be deemed as sufficient for the accessory building to be considered as a portion of the primary building.
2. Not more than 25% of the floor area, not to exceed 500 square feet, of the dwelling unit building shall be used for the conduct of the home occupation.
3. No merchandise or articles shall be displayed for advertising purposes, nor be displayed in such a way as to be visible from outside the dwelling unit. Garage doors shall not be left in the open position when the garage is used for the storage of business related materials.
4. No merchandise or articles shall be stored other than inside the dwelling unit.
5. No equipment or business vehicles may be stored or parked on the premises except that 1 business vehicle (the carrying capacity of which shall not exceed 1andhalf; tons and shall not exceed six (6) tires and/or two (2) axles) used exclusively by the resident may be parked in a carport, garage or an approved parking space in the rear or side yard and not within the public street or right-of-way.
6. A home occupation may not generate more than six non-residential trips per day to the home, excluding occupant trips.
7. There shall be no alteration of the residential character of the dwelling unit or premises or structures on the premises.
8. No person not a resident of the dwelling unit shall work in the dwelling unit in connection with the home occupation. This prohibition shall also apply to independent contractors and employees who serve the resident of the dwelling unit.
9. One (1) off-street paved parking space for each 250 square feet of floor area devoted to the home occupation shall be provided in addition to the required parking for residential use of the building.
10. No motor power, other than electrically operated motors, shall be used and the total horsepower of such motors shall not exceed 3 horsepower or 1 horsepower for any single motor.
11. No nameplate or sign shall be displayed upon the dwelling unit or structure on the premises except 1 unlighted sign not exceeding 1 square foot in area and located not less than 20 feet from any property line.
12. No aspect of the home occupation which is noticeable to neighbors shall be conducted between the hours of 9:00 p.m. of one evening and 7:00 a.m. of the next day.

B. *Swimming Pools.* All swimming pools shall comply with the following requirements:

Construction Plan: An application for a permit to construct a swimming pool shall be submitted to and approved by the Building Official.

Pool Location: Swimming pools and their auxiliary structures shall maintain a 20’ setback from side and rear property lines or the same setback as the principle structure, whichever is less. Swimming pools shall not be located within the required front yard of any lot or closer to the front lot line than the principal building on the lot. Pools may also not be located within a buffer or easement.

Accessory Buildings: Pool houses, cabanas and other structures related to a swimming pool shall be subject to all of the requirements for "accessory buildings" and shall maintain a minimum 10 foot setback from side and rear lot lines or the same setbacks as the principal.

Fencing: All swimming pools shall be enclosed by a fence that is at least 5 feet in height and constructed so as not to pass a four inch (4″) diameter sphere through any opening. The fence must be maintained in good condition and shall be self-closing and self-latching. The fencing shall be located so as to not obstruct visibility at road intersections.

C. *Uses Customarily Accessory to Dwellings Located in Residential Zoning Districts.* Each of the following uses is considered to be a customary accessory use to a dwelling, and as such, may be situated on the same lot with the principal use to which it serves as an accessory provided that the setback and yard requirements are met and provided that the accessory structure is not located closer to a road than the principal structure. No such accessory use shall be more than 20% in size of principal use or be located in a required front yard.

1. Private garage not to exceed the following storage capacities; 'For-Sale' dwelling, 4 automobiles; 'For-Rent' dwelling, 2 automobiles per dwelling unit; group dwelling, 1½ automobiles per sleeping room. Structures shall maintain a 10 foot setback from rear and side lot lines or the same setbacks as the principal building, whichever is less.

2. Open storage space or parking area for motor vehicles provided that such space does not exceed the maximum respective storage capacities listed above; and provided that such space shall not be used for more than 1 commercial vehicle licensed as 1 ton or more in capacity per family residing on the premises.

3. Shed or tool room for the storage of household goods or equipment used in grounds or building maintenance. Structures shall maintain a 10 foot setback from rear and side lot lines or the same setbacks as the principal building, whichever is less.

4. Miscellaneous free-standing structures such as gazebos shall maintain a 10 foot setback from lot lines or the same setbacks as the principal building, whichever is less.

5. Children's playhouse and play equipment.

6. Quarters for the keeping of pets owned by occupants for non-commercial purposes provided that such use does not generate a nuisance to adjoining properties. Such quarters shall maintain a 20 foot setback from rear and side lot lines.

7. Private swimming pool and bathhouse or cabana. Swimming pool shall maintain a 20 foot setback from side and rear lot lines, or the same setback as the principle structure whichever is less. All other structures shall maintain a 10 foot setback from side and rear lot lines or the same setbacks as the principal building, whichever is less.

8. Structures designed and used for purposes of shelter in the event of man-made or natural catastrophes. Same setbacks shall apply as for the principal building.

9. Backyard chickens on minimum 1-acre properties with a single-family detached dwelling, limited to no more than 6 chickens and no roosters allowed. Associated structures (chicken coop, run, etc.) shall maintain a minimum 25' setback from the rear and side property lines. Chicken coop and run shall not exceed 9' in height. No chickens shall be permitted within any undisturbed water buffers, wetlands, or regulated floodplain.

(Ord. No. 833 , § 1(Exh. A), 7-26-2021)

2.3.4 Standards for dwelling, 'for-sale', detached houses.

A. All detached 'For-Sale' dwellings shall meet or exceed the following requirements in addition to the requirements of all applicable Building Codes:

1. Each dwelling shall be connected to a potable water supply and sanitary sewage disposal system approved by the Fulton County Development Services Department.

2. Foundation: The structure shall be attached to a permanent foundation constructed in accordance with the Building Code.

3. Exterior siding: Exterior siding materials shall consist of wood, brick, stone, concrete, stucco, EIFS or similar materials, or lap siding of masonite, vinyl or similar materials, or any combination of the above.

   The exterior siding shall extend the full height of the exterior walls, from the surrounding grade to the bottom of the eaves or other juncture with the roof.

4. Roofs: All roof surfaces shall have a minimum pitch of 2.25:12 (2¼ inches of rise for every 12 inches of run), except that mansard and gambrel roofs must meet this requirement only for those surfaces that rise from the eaves. All roof surfaces exposed to view shall be covered with asphalt or fiberglass shingles, wood shakes or shingles, clay tiles, slate, standing seam metal or similar materials.

5. Houses shall be at least 20 ft. in width.

6. A porch or hard surfaced landing shall be provided at each exterior door and stairway top and bottom, which shall be at least as wide as the door it serves, but no less than 36 inches in width and 36 inches in depth.

2.3.5 Buffers and landscape requirements.

See UDC Section 3.2.8.

(Ord. No. 718 , § 16, 12-14-2015; Ord. No. 732 , §§ 3, 4, 2-6-2017; Ord. No. 737 , § 1, 5-1-2017; Ord. No. 739 , 5-1-2017)

2.3.6 Fence and wall requirements.

A. *Height.* Height of fences and walls used as fences shall not exceed six (6) feet on residential property and eight (8) feet on non-residential property. These limits may be exceeded by up to 50% on sloped lots where the appearance of an even fence line is desired.

B. *Location on Property.* In order to prevent the obstruction of visibility, no walls, fences, shrubbery or hedges over three (3) feet in height shall be located within twenty (20) feet of an intersection of two or more streets or within ten (10) feet of the edge of a driveway leading to a street. Fences and walls shall be placed at least five (5) feet from required landscape strips and buffers to accommodate construction and maintenance unless approved otherwise at a public hearing.

C. *Materials.* Fences and walls used as fences shall be made of wood which shall be protected from decay by the use of naturally durable wood or wood that is pressure treated, metal, brick, block, vinyl or stone. The use of plywood/sheet goods as a material is prohibited. Barbed, razor wire or electrically charged fencing shall be permitted in AG and RE districts and may be permitted, subject to administrative review and approval, in other districts.

D. *Appearance.* All fencing shall be constructed with finished side facing away from the property owners property. Fences and walls used as fences shall not be finished with bright or primary colors or be visually distracting in any other way. A privacy fence or chainlink fence along a public or private right-of-way shall only be permitted when the required landscape strip and associated landscape material is provided. Privacy

and chainlink fences shall be prohibited in a front yard, except that the Director of Community Development, or designee, may approve a privacy fence in the front yard on collector or arterial streets.

E. *Permit.* A permit for construction shall not be required to erect a fence or wall used as a fence which is built in accordance with these standards. Signage incorporated into such fences shall require a sign permit.

(Ord. No. 720 , § 1, 2-22-2016; Ord. No. 808 , § 3(Exh. C), 9-8-2020)

2.3.7 Reserved.

Editor's note(s)—Ord. No. 730 , § 7, adopted Dec. 5, 2016, repealed former § 2.3.7 which pertained to conditional uses.

SECTION 2.5 PARKING AND LOADING[1]

Areas suitable for parking vehicles in off-street locations shall be required in all districts at the time of the initial construction of any principal building or when a structural alteration or change in a principal building produces an increase in dwelling units, guest rooms, floor area, seating or bed capacity, or when a conversion in use occurs.

Off-street parking shall be provided and maintained in accordance with the following requirements. A parking study may be submitted to support a request for a proposed parking reduction. This study shall be reviewed by Community Development and must be approved prior to permitting.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015; Ord. No. 732 , § 5, 2-6-2017)

2.5.1 Number of vehicle parking spaces required.

The following number of off-street vehicle parking spaces shall be required for the respective use:

A. *Residential Uses.* Residential parking spaces required by this Ordinance shall be standard parking spaces (9 feet by 19 feet).

Dwelling, 'For-Sale', detached:

Two (2) spaces on the same lot for each dwelling unit, plus 1 additional space where a home occupation is permitted.

Dwelling, 'For-Sale', attached; efficiency or one-bedroom units:

One and one-half (1½) spaces for each dwelling unit.

Two or more bedroom units:

One (1) space for each bedroom.

Bed and Breakfast:

One (1) space for each bedroom.

Dwelling, 'For-Rent', residential:

Two (2) spaces for each unit, plus one (1) guest space per 20 units.

[1]Editor's note(s)—Ord. No. 718 , § 17(Exh. C), adopted Dec. 14, 2015, repealed the former § 2.5 (2.5.1—2.5.9), and enacted a new 2.5 (2.5.1—2.5.9) as set out herein. The former § 2.5 pertained to similar subject matter and derived from the original codification and Ord. No. 675, § 1, adopted June 3, 2013.

Group Home/Congregate Housing:

One (1) space for each two (2) sleeping rooms.

B. *Business Uses.*

Medical, dental and optical offices:

One (1) space per 200 square feet.

Professional and business offices not otherwise specifically enumerated:

One (1) space for each 250 square feet of gross floor space.

Banks:

One (1) space for each 300 square feet of gross floor space.

Hotels (or Motels) and Extended Stay Hotels:

One (1) space for each guest room, plus 1 employee space for each 20 sleeping rooms, plus one space per 500 sq. ft. of space used for convention rooms, conference rooms, ballrooms, restaurant and/or retail shops.

Day Care:

One (1) space for each 400 square feet. (Stacking for six cars must be provided on site.)

Service and repair establishments not otherwise specifically enumerated:

One (1) space for each 250 square feet of floor area not used for storage.

Retail businesses, not otherwise specifically enumerated:

One (1) space for each 200 square feet of gross floor space.

Auto, truck and mobile home sales, outdoor equipment and machinery sales, commercial nurseries:

One (1) space per 100 square feet of showroom, sales office or other conditioned space.

Restaurants:

One (1) space for each 100 sq. ft. of the entire facility.

Retail Shopping Center:

Less than 50,000 sq. ft.: One (1) space for each 200 sq. ft.

50,000—400,000 sq. ft.: One (1) space for each 250 sq. ft.

Over 400,000 sq. ft.: One (1) space for each 285 sq. ft.

Theaters, night clubs and other such places of public assembly:

One (1) space for each 4 seats accommodations plus 1 employee space for each 10 seats.

Service stations:

Two (2) spaces for each gasoline pump plus 1 space per 250 sq. ft. for convenience store.

Funeral homes:

One (1) space for each 4 seats in chapel or parlor plus sufficient space to park or store all company vehicles.

Technology Centers/Data Processing Centers:

One (1) space per 1,000 square feet per gross area of unmanned space together with parking as required for space dedicated to manned space at 1 space per 300 square feet. Land for additional parking calculated at 1 space per 500 square feet of gross area shall be set aside and preserved until such time as additional parking is needed and/or use changes. This land shall not be subdivided from the remainder of the property so that it can be used for parking in the future.

C. *Wholesale and Industrial Uses.*

Wholesaling and industrial uses including lumber, brick, coal, junk and supply yards:

One (1) space per 1,000 square feet.

D. *Public and Semipublic Uses.*

Hospitals:

One (1) space per bed, plus 1 space per 200 square feet of floor area used for outpatient treatment.

Churches, stadium and other places of public assembly:

One (1) space for each 2 seats in the principal assembly room.

Places of assembly or indoor recreation without fixed seats:

One (1) space for each 500 square feet of playing court, rink, playing field and spectator area, plus one (1) space for each 200 sq. ft. of gross floor space directed to other patron use areas.

Schools, elementary and middle schools:

One (1) space for each classroom and administrative office plus 5 spaces for visitors.

Schools, senior high:

One (1) space for each classroom and administrative office plus 1 space for each 4 students based on the design capacity of the school.

Other public building:

One (1) space for each 300 square feet of gross floor space.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015)

2.5.2 Shared parking.

A. *Common Off-street Parking Areas.* Two (2) or more principal uses may utilize a common area in order to comply with the off-street parking requirements, provided that the total number of individual spaces available in the common area is not less than the sum of the spaces required for the individual uses as separately computed in accordance with the provisions of this Ordinance. If it can be demonstrated that the principal uses would not utilize the shared parking areas during the same hours, the required number of parking spaces may be reduced by 25% in the common area.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015)

2.5.3 Off-street loading and unloading spaces.

A. Every lot on which a business, trade or industry is thereafter established shall provide space as indicated below for the loading and unloading of vehicles off the street. Such space shall have access to an alley or, if there is no alley, to a street. For the purpose of this Section, an off-street loading space shall have the minimum dimensions of 12 by 40 feet and be clear and be free of obstructions at all times.

Required spaces shall be provided as follows:

Retail businesses, office, wholesale, industrial, governmental and institutional uses, including public assembly places, hospitals and educational institutions, 1 space for the first 25,000 square feet of total floor area or fractional part thereof. For anything in excess of 25,000 square feet, such uses shall provide loading spaces according to the following schedule:

SQUARE FEET	NUMBER OF SPACES
25,000—99,999	2
100,000—159,999	3
160,000—239,999	4
240,000—349,999	5
For each additional 100,000 or fraction thereof	1 additional

B. Vehicles uses for the loading and unloading of retail merchandise may not be parked overnight (between 10:00 p.m. of one day and 8:00 a.m. of the next day) in a location closer to the frontage street than the principal building.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015)

2.5.4 Locational criteria for parking.

A. Location on Other Property. If the required parking cannot reasonably be provided on the same lot on which the principal use is conducted, such parking may be provided on other off-street property provided such property lies within 500 feet of the main entrance to the principal use. Such parking shall be associated with the principal use and shall not thereafter be reduced or encroached upon in any manner.

B. Location of Required Parking in Residential Districts. Required parking spaces in residential districts shall be subject to applicable area regulations pertaining to setbacks (front, side and rear yard), lot coverage, and accessory and principal structures.

Required parking spaces in 'For-Sale' residential districts shall be contained within a carport, garage or completely enclosed building, in addition:

Each 'For Sale' dwelling unit shall have a minimum 18' long and 10' wide paved driveway, as measured from the garage to the back of sidewalk, or back of curb where a sidewalk is not provided.

Ordinary passenger vehicles and non-commercial pickup trucks may be parked on a paved driveway providing ingress and egress to the lot or on a paved parking space provided that the maximum width of the total paved area cannot exceed 40 (forty) feet.

One (1) business vehicle not prohibited by the provisions of this Ordinance from parking within a residential district and one or more recreational vehicles or boats, or boat trailers may be parked or stored in an area not visible from a street.

The regular parking or storage of any business vehicle, any vehicle used in connection with a home occupation, or any vehicle with a carrying capacity of more than one-and-one-half (1½) tons is prohibited in any residential district. Pickup or panel trucks, used to provide daily transportation to and from work, are allowed in all residential districts.

C. Parking and Storage of Certain Vehicles. No automobile, truck, motorcycle, trailer or other vehicle of any kind or type without current license plates shall be parked or stored on any lot in a residential district except in a completely enclosed building.

1. Any person who, as of the effective date of this Article (6/94), has established a long-standing practice of parking or storing boats or recreational vehicles which is not in compliance with the provisions of C(1), above, may continue such practice as a lawful nonconforming use, subject only to the provisions of any applicable district regulations.

2. Any person may apply to the Director of Community Development for a variance to the provisions of C(1), above pertaining to the parking and storage of boats or recreational vehicles. Variances shall be granted only in the case of extreme hardship or unusual circumstance, as contrasted with merely granting an advantage or a convenience. The factors to be taken into consideration by the Director may include the following:

    a. The ease with which the applicant can comply with the provisions of this ordinance;

    b. Whether there are extraordinary and exceptional conditions pertaining to the particular lot because of its size, shape, topography or location of the improvements on the lot;

    c. The economic hardship that would be imposed upon the applicant if the variance were denied; and

    d. Whether relief, if granted, would cause substantial detriment to the public good or impair the purpose and intent of this ordinance.

3. Where appropriate, the Director may attach reasonable conditions to the grant of a variance. The Director may also approve an alternative parking practice which, although not in strict compliance with the literal provisions of this Article, is deemed by the Director to be in compliance with the spirit of the Ordinance. All variances are personal to the applicant and shall terminate upon the sale of the lot.

D. Written variance applications shall be acted upon by the Director within thirty (30) days of receipt. Variance applications denied by the Director may be appealed by filing a written appeal with the Board of Appeals within fifteen (15) days of the date of denial. The Board shall act upon the appeal at its next available meeting following receipt of the appeal.

E. No parking or loading area shall be used for the sale, repair, dismantling or servicing or storing of any vehicle, equipment, materials or supplies.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015; Ord. No. 757 , § 2, 5-9-2018; Ord. No. 772 , § 4, 2-4-2019)

2.5.5 Design criteria.

A. Parking Space Area Requirements. Including aisles, entrances and exits, each required off-street parking area, lot or other facility shall contain a minimum of 300 square feet of space for each vehicle to be accommodated. Not less than 80% of the parking spaces required by this Ordinance shall be standard parking spaces (9 feet by 19 feet). The dimensions of parking spaces and aisles shall be in accordance with the Parking Standards Illustration (Table 2.3). In order to reduce impervious area, projects using runoff reduction measures may use alternative off street parking dimensions as specified in Table 2.3.a. Accessible parking shall be designed and provided in accordance with the requirements of the Georgia Accessibility Code for Buildings and Facilities.

B. Permitted Percentage of Compact Car Parking Spaces. Up to 20% of the parking spaces required by this Ordinance may be compact car parking spaces (8 feet by 16 feet). Compact spaces shall be located on the periphery of the parking lot wherever possible.

C. Minimum Parking Bay Width. The minimum width for 90 degree parking bays shall be 60 feet for standard spaces and 54 feet for compact spaces, except for projects using runoff reduction measures, as noted in 2.5.5.A above.

D. Off-street parking lots, whether public or private, shall be graded to insure proper drainage, surfaced with concrete or asphalt on an approved base and maintained in good condition free of weeds, dust, trash and debris. A gravel surface may be used for parking when such parking is in excess of code requirements and located within 700' of a waterway.

E. Tree Preservation. To allow an existing or new development to preserve healthy existing trees within or adjacent to a parking lot, the number of required off-street parking spaces may be reduced by up to twenty percent (20%).

F. Within residential districts, gravel parking in existence as of 01/01/01 may remain. Such gravel parking areas shall accommodate a maximum of two vehicles and shall be contained on three sides by landscape timbers.

G. Pervious paving materials for parking areas are allowed as part of an approved stormwater management plan for the site with a long-term maintenance agreement.

H. Parking Lot Landscaping. See, Sec. 2.3.5.

I. Multifunctional Functional Runoff Reduction Measures. To encourage multifunctional runoff reduction measures and provide incentives for their use, bioretention areas, vegetated swales, planter boxes, rainwater harvesting systems, and other vegetated BMPs may be used to meet the perimeter island, interior island, and median island landscaping requirements of this Chapter, and may be constructed in the designated landscape areas if part of an approved stormwater management plan for the site and if screening functions are maintained.

J. Tandem Parking. Enclosed tandem parking spaces shall only count for one required parking space, since only one space is fully accessible.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015; Ord. No. 732 , §§ 6—9, 2-6-2017; Ord. No. 772 , § 5, 2-4-2019)

2.5.6 Public street access.

A. *Access to Parking Lots.* A plan of entrances, exits and storm water drainage shall be submitted to the Department of Community Development and approved prior to the issuance of a development permit for off-street parking lots, whether public or private. Installation of entrances, exits and drainage systems shall have been completed prior to the issuance of a certificate of occupancy. All curb cut locations as well as widths shall comply with the Alpharetta Standard Drawings.

B. *Driveways and Curb Cuts.* Local structures may have access points to parking lots as needed to fit the development, in accordance with professional traffic engineering practice. In general, curb cuts shall be spaced at least 300 feet apart and be located at least 300 feet away from a street intersection. A curb cut on a residential lot may be closer than 300 feet from a curb cut on an adjacent lot, but an individual residential lot shall not have more than one (1) curb cut per 300 feet of street frontage.

C. *Vision Clearance.* In all districts no fence, wall, shrubbery or other obstruction to vision between the heights of 2½ feet and 10 feet above the finished grade of streets shall be erected, permitted or maintained within 20 feet of the intersection of the right-of-way lines of streets.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015; Ord. No. 732 , §§ 6—9, 2-6-2017)

2.5.7 Electric Vehicle Charging Stations.

All developments requiring 100 or more vehicle parking spaces shall provide electric vehicle charging stations. One (1) electric vehicle charging station for every 25 required vehicle parking spaces shall be required.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015)

2.5.8 Number of bicycle parking spaces required.

A. *Residential Uses.*

Dwelling, 'For-Rent':

One (1) bicycle space for every two (2) units.

B. *Business Uses.*

Retail, Office, Hotel, Place of Assembly, Entertainment:

One (1) bicycle space for every 25 required vehicle parking spaces.

C. *Public and Semipublic Uses.*

Schools (public/private):

One (1) bicycle space for every ten (10) employees, plus one (1) space for every four (4) students.

D. *Miscellaneous/Other.*

To be determined by the Transportation Engineer and/or Zoning Administrator.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015)

2.5.9 Prohibited parking.

A. Except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer, no person shall:

1. Park a vehicle, except temporarily for the purpose of and while actually engaged in loading or unloading of property or passengers, in acceleration or deceleration lane; or
2. Park a vehicle overnight in a cul-de-sac located in a residential district.
3. Park a vehicle on an unpaved surface in any commercial district, the front yard of a residence or the side or rear yard if the side or rear yard ~~faces~~ fronts on the street, except as provided for in Subsection 2.5.5(F).

B. The City may, but is not required to, post no parking signs in areas where parking is prohibited in Paragraph 'A' above, and the failure to post signs shall not excuse any person from compliance with Paragraph 'A'.

C. Paragraph 'A' of this section shall not apply to the driver of any vehicle which is disabled while on the roadway in such a manner and to such extent that is impossible to avoid stopping and temporarily leaving such disabled vehicle in such position.

D. No inoperable vehicle shall be parked or stored on a street within a residential district. An automobile or other vehicle shall be deemed inoperable if it meets any one of the following criteria:

1. It does not meet the Official Code of Georgia requirements for operating on a public street;
2. It is extensively damaged, such damage including but not limited to any of the following: missing wheels, tires, motor or transmission;
3. It is not operable on the public streets because it is not currently registered with the Georgia Department of Motor Vehicles;
4. It is not capable of being operated on a public street due to missing or inoperable mechanical or electronic parts; or
5. It has been continuously parked in the same location for a period of thirty (30) consecutive days.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015)

AN ORDINANCE TO AMEND ARTICLE I, ARTICLE II AND APPENDIX A: ALPHARETTA DOWNTOWN CODE OF THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ALPHARETTA, GEORGIA; TO ADD DEFINITIONS FOR ATHLETIC FACILITY, FITNESS STUDIO, LABORATORY, AND RESEARCH AND DEVELOPMENT; TO ADD AND AMEND PERMITTED, CONDITIONAL AND SUBORDINATE USES IN THE AG (AGRICULTURE), CUP (COMMUNITY UNIT PLAN), O-I (OFFICE-INSTITUTIONAL), C-1 (NEIGHBORHOOD COMMERCIAL), C-2 (GENERAL COMMERCIAL), PSC (PLANNED SHOPPING CENTER), LI (LIGHT INDUSTRIAL), AND MU (MIXED USE) ZONING DISTRICTS AND TABLE 2.2 LIST OF PERMISSIBLE AND CONDITINAL USES; TO ADD AND AMEND PERMITTED AND CONDITIONAL USES IN THE DT-C (DOWNTOWN CORE), DT-MU (DOWNTOWN MIXED-USE) AND DT-LW (DOWNTOWN LIVE-WORK) ZONING DISTRICTS; TO ADD AND AMEND SUPPLEMENTARY AND PARKING AND LOADING REGULATIONS RELATED TO ACCESS, DRIVEWAYS AND PROHIBITED PARKING; TO REPEAL CONFLICTING ORDINANCES; AND FOR OTHER PURPOSES.

WHEREAS, on or about May 21, 2001, the City of Alpharetta (the "City") adopted a comprehensive zoning ordinance known and cited as the Unified Development Code of the City of Alpharetta, Georgia, which has subsequently been amended from time to time (the "Unified Development Code"); and

WHEREAS, the Mayor and Council of the City of Alpharetta (the "City Council" or "Council") are charged with the protection of the public health, safety, and welfare of the citizens of the City of Alpharetta; and

WHEREAS, the Unified Development Code was designed to be amended from time to time when circumstances warrant that modifications be made in order to make said Codes more responsive to community needs; and

WHEREAS, the City Council finds that ordinances and regulations governing the uses of land and development of land within the City, as well as the City's operations, should be continually improved from time to time and modified as necessary to better protect and promote the public health, safety and welfare of the residents and businesses of the City of Alpharetta; and

WHEREAS, the City Council desires to amend Article I, Article II and Appendix A: Alpharetta Downtown Code of the Unified Development Code for the foregoing purposes; and

WHEREAS, the City Council finds that the following amendments to the Unified Development Code promote the health, safety, morals, convenience, order, prosperity and general welfare of the present and future inhabitants of the City of Alpharetta;

NOW THEREFORE, The Council of the City of Alpharetta hereby ordains, as follows:

Section 1: Article I, Subsection 1.4.2 titled "Defined terms" of the Unified Development Code is hereby amended by revising same as set forth in Exhibit "A" attached hereto as if fully set forth herein; and

Section 2: Article II, Subsection 2.2.1 titled "AG agriculture", Subsection 2.2.11 titled "CUP community unit plan", Subsection 2.2.13 titled "O-I office-institutional", Subsection 2.2.14 titled "C-1

neighborhood commercial", Subsection 2.2.15 titled "C-2 general commercial", Subsection 2.2.16 titled "PSC planned shopping center", Subsection 2.2.17 titled "LI light industrial", Subsection 2.2.20 titled "MU mixed use district" and Table 2.2 List of Permissible and Conditional Uses of the Unified Development Code is hereby amended by revising same as set forth in Exhibit "B" attached hereto as if fully set forth herein; and

Section 3: Article II, Subsection 2.3.1 titled "General exemptions", Subsection 2.5.6 titled "Public street access", and Subsection 2.5.9 titled "Prohibited parking" of the Unified Development Code is hereby amended by revising same as set forth in Exhibit "C" attached hereto as if fully set forth herein; and

Section 4: Appendix A: Alpharetta Downtown Code, Subsection 3.4.2 titled "Use Table Key" of the Unified Development Code is hereby amended by revising same as set forth in Exhibit "D" attached hereto as if fully set forth herein; and

Section 5: If any section, subsection, provisions, or clause of any part of this Ordinance shall be declared invalid or unconstitutional or, if the provisions of any part of this Ordinance as applied to any particular situation or set of circumstances shall be declared invalid or unconstitutional, such invalidity shall not be construed to affect the portions of this Ordinance not so held to be invalid, or the application of this Ordinance to other circumstances not so held to be invalid. It is hereby declared as the intent of the City Council that this Ordinance would have been adopted in its current form without the invalid or unconstitutional provision contained therein.

Section 6: This Ordinance shall be effective immediately upon its adoption by the City Council and the amendments made herein shall be incorporated into the Unified Development Code of the City of Alpharetta, Georgia, as applicable. This Ordinance hereby repeals any and all conflicting ordinances and amendments.

1.4.2 Defined terms.

Athletic Facility. An establishment sometimes referred to as a health club or gym. These facilities are typically located in a large space containing special equipment, and may include indoor and/or outdoor courts (tennis, basketball, etc.) and swimming facilities, where people go to do physical exercise. Establishments tend to be general exercise facilities but often provide specialized classes. Businesses frequently include incidental (occupying no more than 10% of the floor area) related services such as, personal training, tanning beds, massage and stretch therapy, nutritional programs, café, juice bars, and retail sales.

Fitness Studio. An establishment where equipment or instruction is provided for a specialized activity related to physical well-being such as, personal training, dance, martial arts, boxing, yoga, barre and other forms of similar physical exercise. These facilities are typically located in a smaller space due to their focused specialty. Businesses frequently include incidental (occupying no more than 10% of the floor area) related services such as, tanning beds, massage and stretch therapy, nutritional programs, café, juice bars, and retail sales.

Laboratory, Research or Commercial (also see Research and Development). A facility that provides controlled conditions in which scientific or technological research, experiments, and measurement may be performed. At the Federal level, four levels of laboratory biosafety have been created. The levels denote the types of actions, administrative (procedures, training or physical controls (protective gear, filtration) that should be used to contain the agent(s) being worked with. Containment means protection of the lab workers, those in the building, and the greater environment. Containment level limited to biosafety levels 1, 2 and 3.

Research and Development. A use that includes activities that businesses undertake to innovate and introduce new products and services, such as biomedical, software and technology development and manufacturing, technically oriented services and training facilities, engineering and consulting, scientific laboratories and clean rooms, office and corporate headquarters. Incidental related commercial and services uses are permitted within this use. Space dedicated to manufacturing and laboratory activities shall be limited to no more than 50% of a building or development.

d. Wireless Tower.

4.0 *Transfer Station.* Any facility associated with waste or a facility used to transfer solid waste from one transportation vehicle to another for transportation to a disposal facility or processing operation.

4.1 *General Standards.*

a. No access to transfer station facility shall be allowed from streets that primarily access residential developments;

b. Access streets shall be paved and shall be able to withstand maximum load limits established by the State of Georgia as approved by the Engineering Director;

c. No portion of a new transfer station shall be located within a three-mile radius of the property lines of an existing transfer station;

d. A minimum 200 foot undisturbed buffer and ten-foot improvement setback shall be required along all property lines except public rights-of-way;

e. A minimum 50 foot buffer and ten-foot improvement setback shall be required along all public rights-of-way;

f. A minimum six foot high solid fence or wall shall be located on property lines or interior to the required buffers and improvement setback;

g. Operation of the facility shall be limited to the hours between 7:00 a.m. and 7:00 p.m., Monday through Friday; 9:00 a.m. to 7:00 p.m., Saturday; 12:00 p.m. to 5:00 p.m., Sunday (for routine maintenance and other non-operational facility activities).

h. Only municipal solid waste is accepted at the facility. No treated or untreated regulated medical waste, treated and destroyed medical waste or asbestos waste debris shall be accepted;

i. All solid waste is removed from the transfer station within 24 hours of receipt;

j. A transfer station with permanent operating mechanical equipment must have an attendant on duty whenever the facility is open;

k. The facility shall be designed and constructed in a manner to ensure that odor will not be emitted from the site;

l. The transfer facility must be cleaned at least once every 24 hours;

m. The entrance and exit shall be cleaned at a frequency which prevents the tracking or off-site migration of waste materials;

n. The operator shall take adequate measures to minimize the creation, emission, or accumulation of excessive dust and particulates;

o. The operator shall take adequate steps to control or prevent the propagation, harborage and attraction of pests;

p. All floors must be free from standing water. All drainage from cleaning areas must be discharged to sanitary sewers, authorized cleaning areas must be discharged to sanitary sewers, authorized sanitary waste treatment facilities, or a corrosion-resistant holding tank;

q. The facility shall provide fire suppression equipment as directed by the City of Alpharetta Fire Department;

r. All solid waste passing through the transfer station must be ultimately treated or disposed of at an authorized facility;

s. The transfer station must have adequate storage space for incoming solid waste;

t. Operational records must be maintained at facilities with permanent operating mechanical equipment. These records must include a daily log of the quantity of solid waste received and transported, specifying the origin by hauler and the destination of the solid waste transported daily;

u. The facility shall not generate more than 150 total vehicle trips per day;

v. An annual report must be submitted to the Community Development Department which summarized the information gathered in (t), above;

w. The facility shall be developed, operated and maintained in a safe, nuisance-free manner; and

x. The facility and its operation must be in compliance with GA EPD requirements.

4.2 *Additional Permit Application Requirements.*

a. Application requirements. An application for a solid waste transfer station permit must confirm to the requirements set forth herein. Applications for initial permits to construct and operate a solid waste transfer station must include the following:

(1) Regional plan or map. The regional plan or map must delineate the service area of the proposed transfer station.

(2) Site plan. The site plan must include:

(a) Site conditions and projected site utilization, including all site structures (such as buildings, fences, gates, entrances and exits, parking areas);

(b) Property boundaries, access roads, the locations of all surface water bodies, and 100-year floodplain boundaries;

(c) All proposed structures and areas designated for unloading, sorting, storage, and loading, including dimensions, elevations and floor plans of these structures and areas, and the general process flow; and

(d) Adjacent properties, including the location of public and private water supplies on these properties.

(3) Engineering report. The engineering report must include:

(a) A description of the general operating plan for the proposed facility, including the origin, composition, and expected weight or volume of all solid waste to be accepted, the maximum time any such waste will be stored, where all waste will be disposed of, and the proposed capacity operating hours, and the expected life of the facility;

(b) A description of all machinery and equipment, including the design capacity;

(c) A proposed transfer plan specifying the transfer route, the number and type of transfer vehicles to be used, and how often solid waste will be transferred to the disposal site;

(d) A description of the facility's drainage system and water supply system; and

(e) A contingency plan that details an alternative solid handling system for periods when not operating, or for delays in transporting solid waste due to undesirable conditions, such as delivery of unauthorized waste, fires, dust, odor, vectors, unusual traffic conditions, equipment breakdown or other emergencies.

4.3 *Design Standards.* All transfer stations must meet minimum design requirements as follows:

a. Unloading and loading areas.

(1) The unloading area must be adequate in size and design to facilitate efficient unloading from the collection vehicles and the unobstructed movement of vehicles;

(2) The unloading and loading pavement areas must be constructed of concrete or asphalt paving material and equipped with adequate drainage structures;

(3) Processing, tipping, sorting, storage, and compaction areas must be located within an enclosed building;

(4) Provisions must be made for weighing or measuring all solid waste transferred to the facility;

(5) Sufficient internal storage areas must be provided for incoming solid waste;

(6) Exhaust removal systems must be installed in enclosed areas; and

(7) The facility must be designed to accommodate expected traffic flow in a safe and efficient manner.

4.4 *Expansion or Modification of Existing Facilities.* No transfer station facility existing as of 12/06/04 may make modifications which require a permit, make changes that require a permit modification from the GA EPD or increase the square footage of any buildings on site without City Council approval. When reviewing modification or expansion plans, the Council may consider the extent to which the proposed modification or expansion meets the standards established in Sections 4.1 and 4.3, herein; however, any existing buildings which do not meet setback requirements shall be considered non-conforming and shall remain, but may not be expanded with regard to the setback non-conformity pursuant to UDC Sec. 2.4.2.

D. *District Regulations.*

Minimum lot size—one acre.

Minimum Lot Width—none.

Minimum Setbacks.

Front yard—from all street frontages:

From right-of-way of local street—50 feet.

From right-of-way of all other streets—65 feet.

Side yard—15 feet.

Rear yard—15 feet.

Maximum Coverage By Principal Buildings—35%.

Maximum Building Height—35 feet.

Development on property over 25 acres in size requires masterplan approval through a Public Hearing process.

E. *Screening and buffers (See Sec. 2.3.5).*

2.2.20 MU mixed use district.

This district is intended to allow for the development of a mix of uses within the framework of a master plan. The district regulations are intended to allow greater design flexibility in order to accommodate a pedestrian focused environment that provides opportunities for living, working, shopping, recreation and entertainment.

A. *Applicability.* This zoning district is applicable to properties located within:

1. Areas that are primarily non-residential in character; or
2. Along major roadways that are primarily commercial in character; or
3. Historic Downtown Alpharetta; or
4. As noted in the Comprehensive Land Use Plan.

B. *Permitted Principal Uses.* A property in the MU district may be used only for those uses approved as part of the conditions of approval of the MU zoning on the property and as further limited below.

1. *Dwelling, attached or detached:* At least 25% of the MU development shall be utilized as residential dwellings. Land use calculations shall utilize gross floor area for vertical mix of uses and land area for horizontal mix of uses.

Dwelling, 'For-Rent' and 'For-Sale' units shall require conditional use approval as set forth in Table 2.2.

2. *Commercial:* At least 10% of the MU development shall be utilized as commercial uses (as approved in the MU master plan). Land use calculations shall utilize gross floor area for vertical mix of uses and land area for horizontal mix of uses.
3. *Open Space:* MU developments shall incorporate the following amounts and types of open space:
    a. *All developments:* A minimum of 10% of the gross land area shall be designed for use as civic space in conformance with Sec. 2.10.10.C of the North Point Overlay.
    b. *Developments with residential uses:* In addition to the requirements of "a" immediately above, each MU development containing residential uses shall provide a minimum of one acre of open space/100 population generated by residential uses. Household size shall be calculated using the most current US Census data for the City of Alpharetta. This requirement shall not apply in the North Point Overlay, where alternate standards apply.
4. *Office/Institutional:* At least 25% of the MU development shall be utilized for office buildings. Land use calculations shall utilize gross floor area for vertical mix of uses and land area for horizontal mix of uses.
5. Redevelopment projects that incorporate existing buildings and do not conform to the dwelling, commercial, or office/institutional percentages set forth in "1","2" or "4" above (prior to redevelopment) are not subject to said requirements when all of the following are met:
    a. At least 75% of the total existing floor area remains after redevelopment; and
    b. The total floor area of new construction does not exceed the total floor area of existing buildings to remain; and
    c. The redevelopment does not increase the degree of non-conformity with regards to the percentages set forth in "1"," 2" or "4" above.

As determined by City staff, uses shall be calculated using one of the following methods:

Horizontal Mixed Use: Land Use Land Area (acres)/Total MU Land Area (acres) = % Land Use of MU Development

Example: 25 acres of Residential Land Use/100 acres of MU Land Area = 25% Residential Land Use of MU Development

Vertical Mixed Use: Land Use Gross Floor Area (square feet)/Total Gross Floor Area of All MU Development (square feet) = % Land Use of MU Development

Example: 25,000 SF of Commercial Land Use/100,000 SF for All Vertical Development = 25% Commercial Land Use of MU Development

Combination of Horizontal and Vertical Mixed Use:

Land Use Gross Floor Area (square feet)/Total Gross Floor Area of All MU Vertical and Horizontal Development (square feet) = % Land Use of MU Development

Example: [25,000 SF of Vertical Commercial Land Use + 25,000 SF of Horizontal Commercial Development]/200,000 SF for All Vertical and Horizontal Development = 25% Commercial Land Use of MU Development

C. *Conditional Uses.* A property in the MU district may be used for those uses listed below and in Table 2.2, as well as, any additional uses included in the conditions of approval for the MU zoning on the property. Conditional uses not included in the master plan shall require a public hearing by the Planning Commission and approval by the City Council.

1. Residential Uses:
    a. Dwelling, Group (assisted living facility, congregate housing).
    b. Dwelling, 'For-Rent'.
    c. Dwelling, 'For-Sale', Attached and Detached.
    d. Bed and Breakfast.
2. Commercial Uses:
    a. Art Gallery.
    b. Athletic Facility.
    c. Bakery.
    d. Bank, Savings & Loan.
    e. Barber Shop.
    f. Beauty Shop.
    g. Book Store.
    h. Boutique Hotel.
    i. Brewery.
    j. Clinic.
    k. Dance Studio.
    l. Day Care Center.
    m. Distillery.
    n. Drug Store (Pharmacy).

o. Dry cleaning, Pickup Station.

p. Fitness Studio.

q. Florist, Retail.

r. Grocery Store (max. 50,000 SF in the North Point Overlay).

s. Hardware and Garden Supply Store (max. 50,000 SF in the North Point Overlay).

t. Hotel/Motel.

u. Liquor Store.

v. Manufacturing, Heavy.

w. Nail Salon.

x. Office.

y. Pet Grooming.

z. Print Shop.

aa. Recreation Facilities, Indoor and Outdoor.

bb. Restaurant.

cc. Retail Establishment.

dd. School, Commercial.

ee. Spa Services.

ff. Special Event Facility.

gg. Theater, Cinema.

3. Semipublic Uses, Utilities:

~~a. Athletic Facilities, Fitness Studio.~~

a. Church, Synagogue.

b. Heliport.

c. Library.

d. Museum.

e. Park or Playground.

f. Public Building.

g. School, Academic.

D. *District Regulations.*

Minimum Lot Size: The minimum area permitted to be zoned for an MU development is 25 acres.

Maximum Density of Dwelling Units: The MU master plan shall establish maximum density for each area within the development. Density for all residential units combined shall not exceed eight (8) dwelling units/acre, except when City Council approves greater density by conditional use in the North Point Overlay. Density shall be calculated based on the gross acreage of the entire MU master plan.

Development Standards: Regulations governing lot size, lot width, setbacks, principal building coverage, floor area of dwelling unit, and height shall be established for each area within the MU master plan and approved through the public hearing process.

Maximum Impervious Area: 80% for the entire MU development.

Civic Space: See Sec. 2.20.B.3.

Open Space: Open space may include residential recreational amenities. However, at least 50% of the required open space shall be provided in passive land area(s).

E. *Review Criteria.* The MU district is intended to promote specific objectives. Therefore, the following shall be considered when reviewing an MU master plan:

1. Retail, restaurant, office, and personal service uses at ground level.
2. Pedestrian connectivity to all uses.
3. Large parking areas below grade, in decks or screened. Design efforts to provide shared parking will also be considered.
4. Accommodations for public transportation.
5. Buildings that face or appear to face public roadways.
6. Appearance standards for buildings and structured parking.
7. Limitations on uninterrupted building elevations.
8. Creation of vistas and view corridors within development.
9. Focal point features at prominent locations and ends of vistas.
10. Incorporation of natural site features.
11. Block lengths conducive to pedestrian traffic.
12. Detention and retention facilities designed to be aesthetically pleasing.
13. Creative methods for stormwater management to provide additional open space.
14. Attractive and usable street furniture in public spaces.
15. Emphasis on a high quality landscape plan.
16. Number of office jobs internally captured on-site.

F. *Time Linkage/Concurrency.* In order to ensure that the objectives of MU district are met and development occurs which incorporates a mix of uses, a development phasing strategy or time line shall be established for each MU project, subject to the following:

1. *Open Space and Civic Space.* No certificate of occupancy for any use shall be issued until a proportional amount of required open space and civic space has been installed.

Furthermore, when reviewing the phasing strategy or timeline, the City Council may link the issuance of other permits and/or certificates of occupancy for a portion of the development with the completion of other portions of the development.

TABLE 2.2 LIST OF PERMISSIBLE AND CONDITIONAL USES

On the following table, an "O" means that the use will be permitted in that district only if a Conditional Use Permit is granted by the City Council. An "X" means that the use is permitted in the zoning district subject to the general provisions of the Unified Development Code. An "A" means that the use is permitted as an accessory use in the zoning district subject to the general provisions of the Unified Development Code. An "S" means that the use will be permitted as a subordinate use in that district if a Conditional Use Permit is granted by the City Council. For uses not included in this list or when the Director of Community Development is unable to determine placement, application shall be made to the Board of Appeals for interpretation.

* Uses under the CUP and OI Zoning Districts shall be permissible through an approved master plan amendment and statement of intent.

Exhibit “C”

SECTION 2.3 SUPPLEMENTARY REGULATIONS

2.3.1 General exemptions.

A. *Heights—Exclusions.* The following structures are exempt from the height limitations imposed within each zoning district:

1. Church spires, cupolas, and chimneys.
2. Agricultural accessory structures, such as barns, silos, windmills, and the like.
3. Parapets and structures used for ornamental or aesthetic purposes not to exceed twelve (12) feet.
4. Elevator penthouses not to exceed fifteen (15) feet.
5. Mechanical equipment on building roofs or rooftop antennas provided any such equipment exceeding 12 feet in height shall be contained within a structure or otherwise screened from ground view from adjoining streets and properties.

B. *Front Yard Requirements—Existing Residential Areas.* The setback requirements of this Ordinance shall not apply to any residential lot where the average setback on developed lots located adjacent to and on each side of such lot and within the same zoning district and fronting on the same street as such lot is less than the minimum required setback. In such cases, the setback of such a lot may be less than the required setback but not less than the average of the existing setbacks on the developed lots. In no case, however, shall setbacks be less than 15 feet.

If the adjacent developed lots on both sides of a vacant residential lot, within the same zoning district and fronting on the same street as such lot, have front yard setbacks greater than the minimum required by the zoning district, then the minimum setback on the vacant lot shall be the average of the 2 adjacent developed lots.

C. *Double Frontage Lots.*

1. Double frontage lots should be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A landscaped or natural buffer of at least twenty feet (20'), across which shall be the right of access, shall be provided along the line of lots abutting such a traffic artery.
2. On lots having frontage on two (2) streets, but not located on a corner, the minimum front yard setback requirement shall be provided along each street frontage.
3. Double frontage lots shall obtain access from the street with the lower functional classification, unless this poses a safety hazard or would otherwise be impractical.

D. *Setbacks—Exclusions.*

1. No building or structure or projection thereof, including porch, deck, terrace or chimney, shall be erected closer to a property line than the applicable setback regulation prescribed herein allows. However, uncovered steps, patio slabs, driveways, walkways, retaining walls of no more than 4′ in height, and roof overhangs of up to 18″ may be located within setback areas.
2. Required setbacks may accommodate vegetated runoff reduction measures, provided such setbacks meet fire code standards. The runoff reduction measures may not compromise public safety such as the sight distance triangles required by the City.

E. *Flag Lots.*

1. Flag lots are prohibited for residential development. Residential building sites must meet minimum lot width requirements at the front setback line or at twice the required front setback for cul-de-sac lots.

(Ord. No. 730 , § 6, 12-5-2016; Ord. No. 732 , § 2, 2-6-2017)

2.5.6 Public street access.

A. *Access to Parking Lots.* A plan of entrances, exits and storm water drainage shall be submitted to the Department of Community Development and approved prior to the issuance of a development permit for off-street parking lots, whether public or private. Installation of entrances, exits and drainage systems shall have been completed prior to the issuance of a certificate of occupancy. All curb cut locations as well as widths shall comply with the Alpharetta Standard Drawings.

B. *Driveways and Curb Cuts.* Local structures may have access points to parking lots as needed to fit the development, in accordance with professional traffic engineering practice. In general, curb cuts shall be spaced at least 300 feet apart and be located at least 300 feet away from a street intersection. An individual residential lot shall not have more than one (1) curb cut per 300 feet of street frontage.

C. *Vision Clearance.* In all districts no fence, wall, shrubbery or other obstruction to vision between the heights of 2½ feet and 10 feet above the finished grade of streets shall be erected, permitted or maintained within 20 feet of the intersection of the right-of-way lines of streets.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015; Ord. No. 732 , §§ 6—9, 2-6-2017)

2.5.9 Prohibited parking.

A. Except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer, no person shall:

1. Park a vehicle, except temporarily for the purpose of and while actually engaged in loading or unloading of property or passengers, in acceleration or deceleration lane; or
2. Park a vehicle overnight in a cul-de-sac located in a residential district.
3. Park a vehicle on an unpaved surface in any commercial district, the front yard of a residence or the side or rear yard if the side or rear yard ~~faces~~ fronts on the street, except as provided for in Subsection 2.5.5(F).

B. The City may, but is not required to, post no parking signs in areas where parking is prohibited in Paragraph 'A' above, and the failure to post signs shall not excuse any person from compliance with Paragraph 'A'.

C. Paragraph 'A' of this section shall not apply to the driver of any vehicle which is disabled while on the roadway in such a manner and to such extent that is impossible to avoid stopping and temporarily leaving such disabled vehicle in such position.

D. No inoperable vehicle shall be parked or stored on a street within a residential district. An automobile or other vehicle shall be deemed inoperable if it meets any one of the following criteria:

1. It does not meet the Official Code of Georgia requirements for operating on a public street;
2. It is extensively damaged, such damage including but not limited to any of the following: missing wheels, tires, motor or transmission;
3. It is not operable on the public streets because it is not currently registered with the Georgia Department of Motor Vehicles;
4. It is not capable of being operated on a public street due to missing or inoperable mechanical or electronic parts; or
5. It has been continuously parked in the same location for a period of thirty (30) consecutive days.

(Ord. No. 718 , § 17(Exh. C), 12-14-2015)

IV. REPORT IN BRIEF:

On July 17, 2017, City Council approved Pond & Company's proposal for design of the Alpha Loop from Old Milton Parkway to Westside Parkway. This work was approved as part of the City's On-Call Park Planning services contract.

Change Order #1 was issued on October 17, 2019 for the creation of a stand-alone plan set which was used to construct a portion of the Alpha Loop from the Chelsea Walk Subdivision to the first stream crossing. Change Order #1 increased the purchase order by $12,980.00 from $376,190.00 to $389,170.00.

Change Order #2 was approved by City Council on November 4, 2019 for the realignment of approximately 450 linear feet of the trail to provide a connection point to The Atley subdivision. Change Order #2 increased the purchase order by $80,380.00 from $389,170.00 to $469,550.00.

Change Order #3 was approved by City Council on September 20, 2021 for the preparation of design plans to provide an alternate alignment replacing the a bridge structure with a combination of at-grade trails and elevated boardwalks. Change Order #3 increased the purchase order by $48,944.00 from $469,550.00 to $518,494.00.

In February 2022, Public Works Staff noted the development of an erosion issue along a stream being crossed by the existing asphalt trail that will be replaced with the Alpha Loop. The stream is conveyed under the existing trail by an approximately 21' long culvert consisting of two 36" CMP pipes with approximately 8" of fall from the upstream end to the downstream end. Investigation of the erosion issue yielded the discovery that the bottom of one of the culvert barrels had rusted out. This has resulted in the undermining of the culvert and erosion of the stream bed and stream banks on the downstream end of the culvert - existing grade on the downstream end of the culvert is now approximately 4' below the invert of the pipes and the stream banks are near vertical in places.

The current plans for the Alpha Loop call for the existing culvert to be utilized for construction access while a

new elevated section associated with the mainline of the Alpha Loop would be constructed immediately downstream. Upon completion of the new trail, the existing culvert would have been removed and the stream channel where it was would have been restored. The erosion not only endangers the existing culvert, it also endangers the proposed new Alpha Loop trail and the abutments of the new crossing.

To address this issue, it will be necessary for the existing culvert to be removed and for stream stabilization measures to be designed and constructed. Staff reached out to Pond & Company to discuss the issue and request a proposal for the design and permitting of the stream restoration. The scope of work associated with this change order will include:

- a limited hydrologic and hydraulic analysis to determine the appropriate measures and materials to be utilized
- design of stream stabilization measures
- revisions to the Alpha Loop design as necessary to accommodate the stabilization measures
- permitting through the US Army Corps of Engineers and Georgia Environmental Protection Division

If approved, Change Order #4 will increase Purchase Order 18000123 by $33,521.00 from $518,494.00 to $552,015.00. Revised plans are anticipated to be completed and submitted for permitting within 25 business days from Notice To Proceed. Permitting of the work is anticipated to take approximately four months.

Re: AlphaLoop – Phase A Stream Erosion Mitigation Design/Permitting

PROJECT DESCRIPTION

Based on discussions on March 23, 2022, the existing double 36" culvert (where the existing asphalt trail extending from Westside Parkway crosses a tributary of Big Creek Tributary #11) is showing worsening erosion issues due to pipe failure. The City requests a change order to add Stream stabilization design to the affected stream channel and related permitting and design changes as necessary.

The specific tasks are described in the scope of services herein.

If you have any questions, please do not hesitate to call.

Sincerely,

Brad Jones, PLA, ASLA
Project Manager

Matthew Wilder, PLA, ASLA
Associate Vice President

SCOPE OF SERVICES

Task 1 – Limited Hydrologic and Hydraulic Analysis

To support the development of the streambank stabilization design developed, Pond will perform a limited hydrologic watershed analysis using USGS StreamStats to determine design storm flow rates at the proposed crossing location. Flow data will be used to estimate the discharge associated with the 2-, 10-, 50- and 100-year peak recurrence intervals. Once the design storm flow rates are estimated for the project area, Pond will calculate anticipated peak flows, velocity, shear stress, and potential scour based on peak recurrence interval flow rates and channel bed material observed during the site reconnaissance. This analysis will be used to to determine appropriate stream bed and channel bank stabilization measures and develop appropriate material size classifications to minimize degradation of the channel of the project location.

Task 2 – Stream Erosion Stabilization Design

The consultant will prepare drawings for improvements to the stream channel impacted by the existing double 36" culvert located at about 110+50 on the current drawings for Alphaloop Phase A. The proposed extents of stream stabilization improvements will be approximately 30 feet upstream and 30 feet downstream of the existing culvert crossing. The proposed stream stabilization measures will utilize natural channel design and bioengineering techniques to stabilize the channel and minimize the potential for stream degradation that may undermine the proposed bridge foundations of the proposed pedestrian bridge crossing. Construction Documents will include:

- Cover Sheet
- Existing Conditions
- Construction Plan
- Grading Plan
- Stream Profile
- Stream Cross Sections
- Stream Improvement Details
- Landscape/Planting Restoration Plan and Details
- Revisions to Trail Plan and Details: The proposed 'suspended concrete slab 2' is limited at its current design to 26.5 feet long. The suspended slab will be located to avoid the need to change to the structural design while maximizing the stream stabilization. The trail alignment may shift as the slab may be placed anywhere between the current proposed location and the current location of the culvert to be removed (all conditions should accommodate the structural detail as designed except in the instance of unforeseen field conditions). Pond will realign the trail based on final stream stabilization design and 'suspended concrete slab 2' location. Any realignment will be provided as a supplement drawing, to the previously completed Bid Drawings, and will show the alignment change between identified station points.

  Deliverables:

- *One set of construction drawings, with grading plans, stream profile and cross sections, and stream improvement details.*

Task 3 – Permitting

The consultant will coordinate permitting activities with the USACE under a Nationwide permit. It is anticipated that the project will consist of bank stabilization and the installation of in-stream structures to stabilize the project area. As such, this project will be covered under the non-reporting Nationwide Permit 3A with the US Army Corps of Engineers. If during the USACE's project review it is determined that the submittal of a PCN is required, Pond will provide the City with a change order for the preparation/submittal of required documentation and necessary coordination with the USACE.

Additionally, the area of disturbance will be considered a maintenance project within the parameters of the State stream buffer regulations as to avoid a buffer variance.

Scope Assumptions and Exclusions:

- Plan drawings will be a stand-alone set of construction drawings. Written material specifications are not included.
- Plans will be provided to Alphaloop contractor for pricing concurrent with permitting activities.
- Geotechnical exploration is excluded.
- No environmental site assessments (ESA) or historical assessments of any type are included. It is understood that any required environmental remediation will be completed by others. No environmental remediation plans or related design is included in this proposal.
- No field utility location/ verification scope is included in this proposal.
- Erosion and Sediment Control Plans will be revised and will be submitted to GAEPD for review. Permitting shall be limited to GAEPD Submittal and subsequent revision based on GAEPD comment.
- FEMA Floodplain Encroachment permitting is not included. If the City determines that FEMA permitting is required, this service can be added under a separate agreement.
- Opinion of Probable Construction Cost is not included.
- All permit, review, or impact fees shall be paid by the City of Alpharetta.
- Irrigation design and specification is not included.
- The project is understood to be funded entirely by local money.
- Construction phase services are not included and can be added under a separate agreement.

PRELIMINARY SCHEDULE

The tasks outlined in this proposal can be completed within 25 business days from NTP.

FEE STRUCTURE

Pond shall receive lump sum compensation for the above-described responsibilities as broken out below. Fees are to be billed monthly based on services provided.

Task 1 – Limited Hydrologic and Hydraulic Analysis	$4,218
Task 2 – Stream Erosion Stabilization Design	$25,135
Task 3 – Permitting	$4,168

I. AGENDA ITEM TITLE: ON-CALL STORM STRUCTURE MAINTENANCE AND DRAINAGE REPAIRS

II. RECOMMENDATION:

Please award Bid No. 22-113 to Butch Thompson Enterprises, Inc., for the On-Call Storm Structure and Drainage Repairs contract, allocate $750,000 to accomplish various work orders, and authorize the Mayor to execute all necessary documents.

IV. REPORT IN BRIEF:

The award of this bid is for on-call storm structure and drainage repairs throughout the City. During routine inspections of the City's stormwater infrastructure, maintenance needed to any structure, ditch line, curbing, or any other stormwater management infrastructure maintained by the City is noted and entered into the Public Works Asset Management System for repairs. Over the past several years, due to aging infrastructure, a backlog of work orders has accumulated. There are currently over 400 work orders in the system pertaining to stormwater structures and drainage repairs. These repairs include, but are not limited to, regular grouting maintenance of manholes, structure replacement, invert installations, pipe repairs, top and throat replacement, curb and gutter replacement, and sidewalk replacement due to settled panels located behind an improperly sealed catch basin.

The Department of Public Works prepared a unit rate sheet and specifications which included 223 items pertaining to stormwater structure and drainage repairs and advertised for proposals on February 2, 2022. It is the intent to award this as a five-year contract and assign work order tasks throughout the year to the awarded contractor as projects present themselves. The City received proposals on March 2nd, 2022 from Butch Thompson Enterprises, Inc., The Dickerson Group, INC., and DAF Concrete, INC. The Evaluation Committee met on March 15th, 2022 to tabulate the overall scores. Each proposal was evaluated and scored on the following:

- Company Comparable Experience (30 points)
- References (30 points)
- Sample Project Cost (40 Points)

The resulting scores were as follows:

1. Butch Thompson Enterprises, Inc. 92

2. The Dickerson Group, INC. 46.44
3. DAF Concrete, INC. 40.96

The high scoring firm, Butch Thompson Enterprises, Inc, has completed many projects for the City of Alpharetta as they were our previous on-call contractor. Butch Thompson Enterprises, Inc. also currently completes similar work for Cobb County and Paulding County. Staff recommends award of RFP 22-113 On-Call Storm Structure and Drainage Repairs to Butch Thompson Enterprises, Inc.

Allocating $750,000 to Butch Thompson Enterprises, Inc will allow the following work orders to be completed:

- Partial pipe replacement and new headwall at 11875 Little Creek Crossing.
- Pipe replacement, new junction box, and new headwall at 330 Dashing Wave Lane.
- Complete drainage system replacement at 270 Lantern Ridge Court.
- Drainage improvements at Haynes Bridge and Westside Pkwy.
- Drainage improvements on Douglas Road.
- Curb and Gutter replacements in various locations throughout the City ahead of the FY23 M&R contract.
- Numerous catch basin top replacements, new grate inlets, and minor pipe repairs in various locations throughout the City.

The work above will be assigned on a task order basis, meaning not all of the work will be authorized at once. In addition, all task order proposals will be reviewed by staff to ensure unit prices and quantities are correct. The contractor will be paid based on the unit price in the contract.

Public Works' goal is to be as proactive as possible in identifying issues before they cause major problems. Stormwater projects tend to identify themselves after a complete or partial failure of the system. These failures do not always provide any type of warning and require fast action to minimize damage to property and loss of life. The requested funds will allow Butch Thompson Enterprises to resolve these issues along with the projects listed above that have already been identified.

To Whom It May Concern:

Butch Thompson Enterprises, Inc., is pleased and honored to be able to present a bid for your On-Call Storm Structure Maintenance and Drainage Repairs. We have been providing quality storm drains and paving and concrete work for local municipalities since 1975, and we are confident that Alpharetta's experience will be no different. In fact, BTE has been an approved contractor for the City of Alpharetta for a few years now and all our projects have been well-received.

BTE has completed projects from metro Atlanta to as far south as Macon. Our Chief Estimator, Andrew Thompson, who knows how to efficiently bid jobs that are fairly-priced and meet or exceed code requirements while accommodating many moving parts. Our field superintendent, Tommy Hunt, has been with BTE nearly twenty years and has managed all types of projects. He manages our suppliers as well as our crews and foremen, and the detail he gives shows in his work. Lastly, Jud Thompson, the owner and CEO of Butch Thompson Enterprises, Inc., was born into this business, as BTE was built by his father. They worked and grew the company together for years. The experiences from those years have proved immeasurable for Jud as the scope of our work has grown over 47 years.

Butch Thompson Enterprises, Inc.

Key Personnel for City of Alpharetta's On-Call Storm Structure Maintenance and Drainage Repairs:

i. **Tommy Hunt, General Superintendent**.

ii.

1. Tommy was hired by Butch Thompson Enterprises in 2004.
2. He has 22 years of experience in the construction industry.
3. All of Tommy's experience with BTE applies to this request for work. He is extremely well-versed

in multiple areas of construction, having been hired as a pipe and grading foreman and working his way up to the company's Field Superintendent.

4. Three examples of relevant experience:

a) McPherson Road in Marietta, Georgia. This six-month project for Cobb County's Department of Transportation entailed pipe replacement and flat concrete. There were extensive coordination of utilities and field adjustments.

b) 1150 Oakdale Road in Smyrna, Georgia. BTE assisted Benton of Georgia on this damage repair project. Tommy oversaw the many aspects involved including traffic control, stone bed, curb and gutter, mill and inlay after Atlanta Gas Light finished their portion, and straw and seeding.

c) Seaboard Avenue in Hiram, Georgia for Joe Anderson. This project mainly focused on grading a very large storage lot and creation of a one-acre retention pond. Again, Tommy oversaw all aspects of job completion.

iii. Butch Thompson Enterprises, Inc. has a very extensive relationship with Unit Price Contracting as well as Storm Structure Maintenance and Drainage Repairs. BTE has been fortunate enough to be positioned with local municipalities and utility companies to provide solutions to problems relating to drainage, grading, asphalt, concrete, etc. This experience allows us to be confident and knowledgeable in our work and our relationships.

IV. REPORT IN BRIEF:

The Americans with Disabilities Act (ADA) is a civil rights law prohibiting discrimination against individuals on the basis of disability. Enacted in July 1990 and amended in 2008, the ADA consists of five titles outlining protections in the following areas:

- Employment
- State and local government services
- Public accommodations
- Telecommunications
- Miscellaneous provisions

Title II of the ADA pertains to the programs, activities, and services provided by public entities, and the City of Alpharetta must comply with this section of the Act. The section states that, “no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any such entity,” (42 USC Sec. 12132; 28 CFR Sec. 35.130).

As required by Title II of ADA (28 CFR Part 35 Sec. 35.105 and Sec. 35.150), The City of Alpharetta has conducted a self-evaluation of its services, programs, activities, and facilities on public property and within public rights-of-way; and has developed this Transition Plan detailing the methods to be used to ensure compliance with ADA accessibility requirements.

AMERICANS WITH DISABILITIES ACT TRANSITION PLAN

AMERICANS WITH DISABILITIES ACT TRANSITION PLAN

INTRODUCTION

TRANSITION PLAN NEED AND PURPOSE

The Americans with Disabilities Act (ADA) is a civil rights law prohibiting discrimination against individuals on the basis of disability. The ADA was enacted in July 1990 and amended in 2008. On September 15, 2010 the Department of Justice published final regulations revising the Department's ADA regulations, including the adoption of updated ADA Standards for Accessible Design (2010 Standards). The ADA consists of five titles outlining protections in the following areas:

- Employment
- State and local government services
- Public accommodations
- Telecommunications
- Miscellaneous provisions

Title II of the ADA pertains to the programs, activities, and services provided by public entities, and the City of Alpharetta must comply with this section of the Act. The section states that, "no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any such entity," (42 USC Sec. 12132; 28 CFR Sec. 35.130).

As required by Title II of ADA (28 CFR Part 35 Sec. 35.105 and Sec. 35.150), The City of Alpharetta has conducted a self-evaluation of its services, programs, activities, and facilities on public property and within public rights-of-way; and has developed this Transition Plan detailing the methods to be used to ensure compliance with ADA accessibility requirements.

THE ADA AND ITS RELATIONSHIP TO OTHER LAWS

Title II of ADA is companion legislation to two previous federal statutes and regulations: the Architectural Barriers Act (ABA) of 1968 and Section 504 of the Rehabilitation Act of 1973.

The Architectural Barriers Act of 1968 is a Federal law that requires facilities designed, built, altered or leased with Federal funds to be accessible. The Architectural Barriers Act marks one of the first efforts to ensure access to the built environment.

DRAFT

Section 504 of the Rehabilitation Act of 1973 is a Federal law that protects qualified individuals from discrimination based on their disability. The nondiscrimination requirements of the law apply to employers and organizations that receive financial assistance from any Federal department or agency. Title II of ADA extended this coverage to all state and local government entities, regardless of whether they receive federal funding or not.

AGENCY REQUIREMENTS

To comply with Title II of the ADA, the City of Alpharetta must meet the following general requirements:

- Must operate our programs so that, when viewed in their entirety, the programs are accessible to and useable by individuals with disabilities [28 CFR Sec. 35.150].
- May not refuse to allow a person with a disability to participate in a service, program or activity simply because the person has a disability [28 CFR Sec. 35.130 (a)].
- Must make reasonable modifications in policies, practices, and procedures that deny equal access to individuals with disabilities unless a fundamental alteration in the program would result [28 CFR Sec. 35.130(b)(7)].
- May not provide services or benefits to individuals with disabilities through programs that are separate or different unless the separate or different measures are necessary to ensure that benefits and services are equally effective [28 CFR Sec. 35.130(b)(iv) & (d)].
- Must take appropriate steps to ensure that communications with applicants, participants and members of the public with disabilities are as effective as communications with others [29 CFR Sec. 35.160(a)].
- Must designate at least one responsible employee to coordinate ADA compliance [28 CFR Sec. 35.107(a)]. This person is typically referred to as the ADA Coordinator. The public entity must provide the ADA Coordinator's name, office address, and telephone number to all interested individuals [28 CFR Sec. 35.107(a)].
- Must provide notice of ADA requirements. All public entities, regardless of size, must provide information about the rights and protections of Title II to applicants, participants, beneficiaries, employees, and other interested persons [28 CFR Sec. 35.106]. The notice must include the identification of the employee serving as the ADA Coordinator and must provide this information on an ongoing basis [28 CFR Sec.104.8(a)].
- Must establish a grievance procedure. Public entities must adopt and publish grievance procedures providing for prompt and equitable resolution of complaints [28 CFR Sec. 35.107(b)]. This requirement provides for a timely resolution of all problems or conflicts related to ADA compliance before they escalate to litigation and/or the federal complaint process.

DRAFT

DESIGNATION OF RESPONSIBILITY

In accordance with 28 CFR 35.107(a), the City of Alpharetta has designated the following person to serve as ADA Coordinator, to oversee the City's policies and procedures, and as ADA Transition Plan Implementation Coordinator, to monitor the City's progress and manage review and updates of this document:

James Drinkard
Assistant City Administrator
2 Park Plaza
Alpharetta, GA 30009
Tel: 678-297-6014
Email: jdrinkard@alpharetta.ga.us

Support and assistance in these efforts is provided by:

Cris Randall
Director Of Human Resources
2 Park Plaza
Alpharetta, GA 30009
Tel: 678-297-6040
Email: crandall@alpharetta.ga.us

Training is an important tool for ensuring compliance with ADA requirements. The ADA Transition Plan Implementation Coordinator will identify resources and opportunities for agency employees at various levels to receive ADA-related training appropriate to their job functions.

PUBLIC NOTICE: ADA REQUIREMENTS AND GRIEVANCE PROCEDURE

PUBLIC NOTICE

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990, the City of Alpharetta will not discriminate against qualified individuals on the basis of disability in City services, programs or activities.

- Employment: The City does not discriminate on the basis of disability in its hiring or employment practices and complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under Title I of the Americans with Disabilities Act (ADA).
- Effective Communication: The City will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally in the City's programs, services and activities, including qualified sign language interpreters, documents in Braille, and other ways of making

information and communications accessible to people who have speech, hearing or vision impairments.

- Modifications to Policies and Procedures: The City will make all reasonable modifications to policies and procedures to ensure that people with disabilities have an equal opportunity to enjoy all City programs, services and activities. For example, individuals with service animals are welcomed in City offices, even where pets are generally prohibited.

Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a City program, service or activity, should contact the ADA Coordinator as soon as possible but no later than 48 hours before the scheduled event:

James Drinkard
Assistant City Administrator
2 Park Plaza
Alpharetta, GA 30009
Tel: 678-297-6014
Email: jdrinkard@alpharetta.ga.us

The ADA does not require the City to take any action that would fundamentally alter the nature of its programs or services or impose an undue financial or administrative burden.

The City will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services or reasonable modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.

GRIEVANCE PROCEDURE

This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 (ADA). It may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs, or benefits by the City of Alpharetta. Employment-related complaints of disability discrimination are governed by the City's personnel policies as described in the City of Alpharetta Employee Handbook. The Grievance Procedure consists of the following:

- Intake and processing
    - Any City employee may receive a verbal or written communication of a concern and shall direct the complainant to report the concern directly to the City's designated ADA Coordinator.
    - Complainants providing verbal notification will be contacted and asked to complete the ADA Complaint Form to ensure the complaint is accurately documented in the complainant's own words.

- All complaints will be assigned a tracking number upon completion of the complaint form
- Under the Department of Justice regulations, the City need not process complaints from applicants for employment

- Investigation, determination, and recommendation
  - The ADA Coordinator, in consultation with the affected department, will conduct an investigation inclusive of the following steps:
    - The basis of the alleged unequal treatment;
    - Ascertain when and where the alleged unequal treatment occurred;
    - Identify and interview all relevant parties;
    - Review documents; and
    - Obtain other factual information from appropriate sources.
  - A record of all discussions will be maintained and documents relating to the investigation retained in a confidential file by the ADA Coordinator.
  - Based upon conclusion of a thorough investigation, a report will be prepared summarizing findings and suggesting appropriate corrective action along with proposed resolution.
  - To ensure the investigation is conducted in a thorough and timely manner, the investigation will be conducted and completed as soon as is reasonable under the circumstances.
  - The investigative report will be submitted to the City Administrator.
- Communication of findings and complaint resolution
  - The City Administrator of the City of Alpharetta will accept, reject, or modify the investigative report.
  - Written notification will be provided to the complainant of the findings and proposed resolution within 30 days of the City Administrator's receipt of the investigative report

These rules shall be construed to protect the substantive rights of interested persons to meet appropriate due process standards, and to assure that the city complies with the ADA and implementing regulations. The right of a person to a prompt and equitable resolution of the complaint filed hereunder shall not be impaired by the person's pursuit of other remedies such as filing of an ADA complaint with the responsible federal department or agency. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies.

SELF EVALUATION

OVERVIEW

Under Title II of the ADA (28 CFR Sec. 35.105), public entities are required to perform a self-evaluation of their current services, policies and practices with regard to accessibility. The goal of the self-evaluation is to verify that, in managing its programs and facilities, the agency is providing accessibility and not adversely affecting the full participation of individuals with disabilities.

The intent of the ADA self-evaluation is to review the agency's entire public program, including all facilities on public property and within public rights-of-way, in order to identify any obstacles or barriers to accessibility that need to be addressed. The general categories of items to be evaluated include:

- Communications, information, and facility signage
- Building facilities; including offices, garages, and other types of buildings
- Pedestrian facilities; including sidewalks, curb ramps, bicycle/pedestrian trails, traffic control signals and bus stops (and/or other transit facilities) that are located within the City rights-of-way

Public entities are required to provide an opportunity for interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the self-evaluation process by submitting comments [28 CFR Sec. 35.105(b)].

Furthermore, a public entity that employs 50 or more persons is required, for at least three years following the completion of the self-evaluation, to maintain on file and make available for public inspection:

- A list of interested persons consulted;
- A description of areas examined and any problems identified; and
- A description of any modifications made

PROCESS AND FINDINGS

From April 2021 through December 2021 the City of Alpharetta performed a self-evaluation of its services, programs, activities, and facilities on public property and within public rights-of-way with regard to accessibility. To assist with the self-evaluation process, the City called upon outside consultants as well as employees from several City departments; including Administration, Community Development, Public Safety, and Public Works, and Recreation, Parks, and Cultural Services.

DRAFT

An important component of the self-evaluation process is the identification of obstacles or barriers to accessibility, and the corresponding modifications that will be needed to remedy these items. Details on these obstacles, barriers, and proposed modifications can be found in the following appendices:

- Communications
- Building Facilities
- Pedestrian Facilities

It is noted that past self-evaluation processes have proven quite beneficial to the City's efforts to ensure accessibility. In fact, those past efforts yielded considerable results; such that few obstacles and barriers exist in the City's building facilities or programs. Thus, the majority of issues identified through the 2021 self-assessment relate to pedestrian facilities and many of these issues are the result of wear and tear over time.

POLICY

The City of Alpharetta is committed to continuing to provide accessible pedestrian design features as part of its capital improvement projects and following the Georgia Department of Transportation's rules and regulations. The City will consider and respond to all accessibility improvement requests. All accessibility improvements that are deemed reasonable will be scheduled consistent with capital improvement and transportation priorities. The City will coordinate with external agencies to ensure that all new or altered pedestrian facilities within the City's jurisdiction are ADA compliant to the maximum extent feasible.

Requests for accessibility improvements can be submitted to the ADA Coordinator or Transition Plan Implementation Coordinator.

IMPROVEMENT AND COMPLIANCE PROCEDURES

The authors of ADA accessibility standards have, for years, recognized the challenge of dealing with physical or site constraints in alteration projects. The Civil Rights Division of the U.S. Department of Justice has recognized that there could be instances where it might be technically infeasible to construct an alteration in full and strict compliance with ADA accessibility standards, because of physical or site constraints. In such circumstances, state and local agencies must provide accessibility to the maximum extent feasible. Before reaching a conclusion about technical infeasibility, state and local agencies need to consider the extent to which physical or site constraints could be addressed by alternative designs. The burden of proving technical infeasibility rests with the agency/owner that is responsible for the facility, element or feature.

PUBLIC OUTREACH

The input of Alpharetta citizens and other members of the public is an important component in the development of this transition plan and the City's ongoing efforts to ensure accessibility.

DRAFT

Opportunities for the public to participate in the development of this plan have been promoted and resulting input used to help define priority areas for improvements. The City of Alpharetta will continue to provide, via its website and other outlets, opportunities for the community to submit comments, questions, and suggestions related to this transition plan and our accessibility efforts.

PROGRESS MONITORING AND PLAN MANAGEMENT

This transition plan is considered to be a living document that will continue to be updated as conditions within the City evolve. The initial schedule is to formally review the complete document (main body and appendices) at least once every two years, to identify any need for updates. Updates to the appendices or attachments may be made more frequently as needed. Any substantive updates to the main body of this document will include a public comment period to continue the City's public outreach efforts.

The City of Alpharetta recognizes that ADA compliance is an ongoing responsibility which will require monitoring to identify future accessibility issues that may be encountered. For example, facilities that currently meet ADA requirements could fall out of compliance in the future due to factors such as damage, disrepair, or changes within public rights-of-way that could create new accessibility obstacles. Therefore, the ADA Coordinator and Transition Plan Implementation Coordinator will establish an on-going monitoring/inspection process to ensure that facilities continue to comply with ADA requirements. Agency employees will also be encouraged to report any accessibility concerns or deficiencies that are identified.

STAFF REPORT

Submitting Department: Public Safety
Submitted By: Stephanie Cochran
Sponsored By:
Meeting Date: April 18, 2022

I. AGENDA ITEM TITLE: FY22 PUBLIC SAFETY FLEET PURCHASE

II. RECOMMENDATION:

Staff recommends approval for the Department of Public Safety to purchase seven (7) vehicles and two (2) motorcycles at a total cost of $403,319.74:

Five (5) Ford Police Interceptor Utilities (Explorers) from Wade Ford, available on state contract (9999-001-SPD0000183-0006). This is a continuation of the transition from Chevrolet Impalas (which are no longer being manufactured) to Ford SUVs started 6 years ago. The department utilizes these vehicles for front-line patrol functions as well as detective and administrative police and fire needs. The total cost of these five (5) vehicles is $172,655.

One (1) Ford F-150 pickup truck from Wade Ford and one (1) Ford Police Interceptor Utilities (Explorers), both available on state contract (9999-001-SPD0000183-0006). This is to replace two (2) totaled vehicles. These will be paid for by risk management funds. The total cost of these vehicles is $79,330. The up-fit cost for both of these vehicles is $23,520.93. This will be paid for by risk management as well.

Two (2) Harley Davidson motorcycles from Killer Creek Harley Davidson at a cost of $59,321.66 (2 competitive quotes and 2 no responses).

Approval to expend $68,492.15 for estimated costs associated with purchasing and installing necessary emergency equipment for the vehicles on the five (5) Ford Police Interceptor Utilities (Explorers) from Wade Ford.

IV. REPORT IN BRIEF:

As approved in the FY22 budget, the Department of Public Safety seeks approval to purchase seven (7) vehicles and two (2) motorcycles at a total cost of $403,319.74. Five of these vehicles and the two motorcycles will be replacements for older units that have reached the end of service thresholds and will be auctioned. Two of the vehicles were totaled due to motor vehicle accidents and will be replaced utilizing the Risk Management Funds. As a general guide for replacement, the Department uses 100,000 miles or seven years of service for vehicles. See attached list of vehicles to be replaced and auctioned/sold. The requested vehicles include:

Five (5) Ford Police Interceptor Utilities (Explorers) from Wade Ford, available on state contract (9999-001-

SPD0000183-0006). This is a continuation of the transition from Chevrolet Impalas (which are no longer being manufactured) to Ford SUVs started 6 years ago. The department utilizes these vehicles for front-line patrol functions as well as detective and administrative police and fire needs. The total cost of these five (5) vehicles is $172,655.

One (1) Ford F-150 pickup truck from Wade Ford and one (1) Ford Police Interceptor Utilities (Explorers), both available on state contract (9999-001-SPD0000183-0006). This is to replace two (2) totaled vehicles. The total cost of these vehicles is $79,330. The up-fit cost for both of these vehicles is $23,520.93. This will be paid for by risk management funds.

Two (2) Harley Davidson motorcycles to replace two BMW motorcycles. For motorcycles, the Department uses years in service - usually between 6-8 years- to determine the replacement threshold (as do a number of other metro-area agencies). Competitive quotes were obtained for this purchase with the results as follows:

Killer Creek Harley Davidson ($59,321.66)

Falcons Fury Harley Davidson ($63,703.02)

Harley Davidson of Atlanta has not yet responded.

Frazier's Harley Davidson in Buford, GA has not responded.

Hellbender Harley Davidson of Marietta refused to provide a quote.

The Department recommends awarding the purchase to Killer Creek, which is the lowest bidder and it is a local business located within 1-mile of the city limits. The total cost of the two motorcycles, including emergency equipment installed by the dealer, is $59,321.66.

Approval is also requested to expend up to $68,492.15 for estimated costs associated with purchasing and installing necessary emergency equipment on the five (5) Ford Police Interceptor Utilities (Explorers) from Wade Ford (e.g. light bars, computer stands, radios, weapon racks, prisoner transport systems, graphics, etc.). As a practice, the Department reuses emergency equipment from older vehicles and installs it into the newer vehicles whenever possible. This also includes the costs associated with prepping vehicles for auction (removing law enforcement equipment and markings).

Funding for this initiative is requested from existing appropriations within the Department's Capital Fleet Replacement and New Fleet account as well as the Risk Management account for the 2 totaled replacement vehicles.

IV. REPORT IN BRIEF:

Currently, the parks crew at Wills Park is operating out of horse stables in the Equestrian Center. The old maintenance barn was removed to make way for a new equestrian arena as part of the Equestrian Center Master Plan.

Site selection and budget has delayed the construction of the new Maintenance Facility. The city completed a design of the Facility based on department guidance and issued a bid in FY 2021 (ITB 21-002) which resulted in cost estimates approaching $1 million. The bid was cancelled, and a redesign was initiated to reduce the scope to meet minimum department needs and reduce costs.

Another bid was issued this fiscal year (ITB 22-005) with the reduced scope, and the lowest pricing still approached $1 million due in part to inflationary pressures (e.g., metal, labor, etc.). At this point, the department reached out to Gordian as the administrator of the ezIQC construction procurement cooperative purchasing process through State Contract to cooperatively work on a scope that provides the department a facility that meets its functional needs in an affordable manner.

Gordian administers the ezIQC program through the Georgia Department of Administrative Services statewide convenience contract 99999-S20200901. The ezIQC program enables governmental entities to take advantage of cooperative volume discounts on contracts that have already been competitively awarded while working with numerous contractors across the State. In this case, Prime Contractors Inc. An additional key benefit is the ability to work cooperatively with the contractor to value engineer the project to ensure financial constraints are met while still meeting minimum functional needs.

Utilizing the ezIQC program and value-engineering the facility to focus on needs vs. wants has delivered a proposal totaling $649,297 to construct a slab, metal Maintenance Facility (50'x120'x22'), bathroom, conditioned space, and mezzanine area to maximize storage while saving significant funds vs. the prior bid proposals. To be clear, this is essentially a shell facility with a smaller conditioned area and storage capabilities, but meets the department's basic needs well and allows us to move equipment from the horse stables and store materials safely. The department is also asking for a 10% contingency totaling $65,703 to cover unanticipated needs and/or minimum facility startup costs as well as $38,634 for construction management services through Gordian, which leverages their expertise in managing vertical construction projects through completion (total funding request of $753,634).

This funding request includes current Maintenance Facility funding ($309,000), a reallocation of departmental capital initiative funding to this project based on a prioritization of needs (detailed above; $116,000), and a request for funding from the Wills Park Improvements Series 2022 Bond Fund account of $328,634. Upon approval of this item, $328,634 will be appropriated through Recreation Impact Fees within the Wills Park Improvements project (allowable use under impact fee guidelines) to maintain the overall funding level for this project at the established $6 million level.

ezIQC® Overview

Streamlined Procurement Through Georgia Department of Administrative Services (GDOAS)

When you need to get repairs, renovations, upgrades or time-sensitive work underway quickly, Gordian's ezIQC solution, available through GDOAS, allows you to access competitively-awarded contractors ready to get started on your project immediately. With ezIQC, you avoid the red tape of traditional procurement, issue POs in days and still satisfy your local competitive-bidding requirements. And you can do all this while taking advantage of cooperative volume discounts.

Cost Control

ezIQC establishes local material, labor and equipment pricing upfront in a Construction Task Catalog®, allowing project owners to control costs. Even when changes happen or emergencies strike, ezIQC's preset prices ensure project costs don't get out of hand.

Time Savings

Project initiation with ezIQC is much simpler and faster than it is with traditional construction procurement methods. With a pool of contractors readily available and preset pricing for Tasks, projects can start in a matter of days.

Quality Work

An experienced Gordian representative will work with you and your awarded contractor to ensure quality every step of the way. Gordian assists in the development of a Detailed Scope of Work and ensures the Price Proposal is accurate, so you can rest assured your project is done right.

> "It's an easy way for you to get quality projects done. We love it. I've passed it to other towns, and they love it, too."
>
> Susan Bransfield, City of Portland, CT

Each Project Follows the Same Simple Five-Step Process:

1. Joint Scope Meeting

Once project information is received, Gordian will contact you to schedule a Joint Scope Meeting at the site to help you and the contractor agree on the details of the work to be performed. This meeting allows the contractor to inspect the site and ask questions before submitting a Price Proposal, helping to eliminate misunderstandings and mistakes. This upfront, open communication often results in more cost-effective, collaborative solutions.

2. Detailed Scope of Work

Gordian helps you prepare a Detailed Scope of Work that describes the work the contractor will perform. The Detailed Scope of Work will be sent along with the Request for Proposal to the contractor.

3. Price Proposal

The contractor prepares a Price Proposal by selecting the appropriate tasks from Gordian's Construction Task Catalog® (CTC). The contractor submits the Price Proposal along with a construction schedule and list of proposed local contractors.

4. Price Proposal Review

Gordian reviews the Price Proposal to ensure the contractor has selected the appropriate tasks and quantities and will ask the contractor to make any required changes. The reviewed Price Proposal is submitted for your final review.

5. Purchase Order Issued

Once you are 100% satisfied with the Price Proposal, construction schedule, proposed subcontractors and have received and approved any other required documents (e.g. bonds, certificates of insurance, etc.), you can issue a purchase order for the contractor to proceed.

PARTICIPATION AGREEMENT (CONTRACT)
between
Prime Contractors, Inc.
and the
STATE OF GEORGIA – DEPARTMENT OF ADMINISTRATIVE SERVICES
for
Sourcewell Contract #: GA-ST02-040820-PCI
Georgia Statewide Contract # 99999-SPD-S20200901-00015

WHEREAS OCGA 50-5-51(9) authorizes DOAS to enter into agreements with nonprofit organizations to further promote the purposes and policies set forth in OCGA 50-5-50 et.seq.; and

WHEREAS Sourcewell is a government cooperative purchasing consortium that can expand the purchasing base for DOAS and thereby create leverage and economies of scale DOAS cannot create by itself; and

WHEREAS Sourcewell issued Invitation for Bid GA-040820 soliciting indefinite quantity construction services; and

WHEREAS Prime Contractors, Inc. ("Contractor") submitted a bid; and

WHEREAS after reviewing Contractor's Bid, Sourcewell selected Contractor as one of the approved vendors to provide indefinite quantity construction services in accordance with Indefinite Quantity Construction Agreement between Sourcewell and Contractor dated April 20, 2020 and the following contract documents: Book 1 - Project Information, Instructions to Bidders and Execution Documents; (b) Book 2 - IQCC Standard Terms and Conditions and IQCC General Conditions; (c) Book 3 - Construction Task Catalog, (d) Book 4 - Technical Specifications; and any Addenda thereto

WHEREAS the term of this Participating Addendum (Contract) will be effective September 1, 2020 through July 20, 2021 and coterminous with the Master Agreement term unless otherwise cancelled or terminated. The parties must mutually agree to renew this Participation Agreement for additional periods of one year (12 months) each. Sourcewell amendments to extend the term date are automatically incorporated into this Participating Addendum (Contract) unless terminated early in accordance with the terms and conditions of the Master Agreement or this Participating Addendum (Contract).

WHEREAS DOAS has determined the pricing formulas in Contractor's Bids submitted to and approved by Sourcewell are as good as or better than prices ordinarily achieved through individual competitive bids.

NOW THEREFORE the parties agree as follows:

1. Forum and Choice of Law

The laws of the state of Georgia shall govern and determine all matters arising out of or in connection with this Contract without regard to the choice of law provisions of state law. In the event any proceeding of a quasi-judicial or judicial nature is commenced in connection with this Participating Agreement, such proceeding shall solely be brought in a court or other forum of competent jurisdiction within Fulton County, Georgia. This provision shall not be construed as waiving any immunity to suit or liability, including without limitation sovereign immunity, which may be available to the state.

2. Legal Compliance

This Contract shall be interpreted and governed by the laws of Georgia without regard to principles of conflicts of laws. Contractor shall comply with all laws, rules, regulations, ordinances, and orders of any

governmental authority having jurisdiction over the project or the performance of the work, and the specific laws noted below, and shall ensure such compliance of its Subcontractors.

2.1. Open Records Act. Authorized User and Contractor acknowledge and agree that certain records of the project and the work, including records of Subcontractors, are subject to the Georgia Open Records Act, O.C.G.A. § 50-18-70 *et seq.*, with particular attention being called to O.C.G.A. § 50-18-70(a) regarding the records of private persons, firms, corporations, or other private entities engaged in performance of services or functions on behalf of a state agency, public agency, or public office.

2.2. Energy Efficiency and Sustainable Construction Act of 2008. All projects subject to the Georgia Energy Efficiency and Sustainable Construction Act of 2008 ("Energy Act") must be designed so that not less than 10 percent of all building materials used in the project are materials that are harvested, extracted, or manufactured in the State of Georgia where such products are commercially available. Contractor shall track the value of all Georgia-based materials installed in the project. Contractor shall provide documentation to ensure compliance and shall complete the Georgia-Based Materials and Products Checklist to certify compliance with, the requirements of the Energy Act. A copy of Georgia-Based Materials and Products Checklist can be located at the following link:

https://gsfic.georgia.gov/sites/gsfic.georgia.gov/files/related_files/press_release/Ga%20Peach%20Guidelines%20Presentation%205-17-13.pdf

2.3. Illegal Immigration Reform and Enforcement Act of 2011. Contractor certifies its compliance with Illegal Immigration Reform and Enforcement Act of 2011 and specifically those provisions codified at O.C.G.A. § 13-10-90 et seq. Contractor warrants that it has registered with and uses the federal work authorization program commonly known as "E-Verify." Contractor further agrees that it will contract for the physical performance of services in satisfaction of this Contract only with Subcontractors who present an affidavit as required by O.C.G.A. § 13-10-91. Contractor warrants that it will include a similar provision in all contracts entered into with Subcontractors for the physical performance of services in satisfaction of this Contract.

2.4. Drug-Free Workplace. Contractor certifies that it will provide a drug-free work place in accordance with the Drug-Free Workplace Act, O.C.G.A. §§ 50-24-1 *et seq.*. Contractor certifies that it will secure from all Subcontractors the following written certification: "As part of the subcontracting agreement with (contractor's name), (subcontractor's name) certifies to the contractor that a drug-free workplace will be provided for the subcontractor's employees during the performance of this contract pursuant to paragraph (7) of subsection (b) of Code Section 50-24-3."

2.5. Applicable Sales and Use Taxes. Contractor shall pay all applicable sales and use taxes, including such taxes on the Authorized User supplied tangible personal property that is to be incorporated into the project as required by O.C.G.A. 50-24-1(h)(1). Prior to supplying such property, Authorized User shall provide notice of the amount of tax owed for such tangible personal property.

2.6. No Boycott of Israel. Contractor certifies that it is not currently engaged in, and agrees for the duration of this Contract not to engage in, a boycott of Israel, as defined in O.C.G.A. §§ 50-5-85.

2.7. Sexual Harassment Prevention. The State of Georgia is committed to providing a workplace environment free from sexual harassment for its employees and for all persons who interact with state government. The State of Georgia requires that its contractors and their employees and subcontractors who interact with State employees to act in a professional manner to contribute to a work environment that is free from sexual harassment. The State of Georgia has adopted a Statewide Sexual Harassment Prevention Policy, a copy of which is available on-line at http://doas.ga.gov/human-resources-administration/board-rules-policy-and-compliance/jointly-issued-statewide-policies/sexual-harassment-prevention-policy Pursuant to the State of Georgia's Statewide Sexual Harassment Prevention Policy, all contractors who are regularly on State premises or who regularly interact with State employees must complete sexual harassment prevention training on an annual basis. If

Contractor has employees and Subcontractors that are regularly on State premises or who will regularly interact with State personnel, Contractor certifies that:

2.7.1. Contractor will ensure that such employees and Subcontractors have received, reviewed, and agreed to comply with the State of Georgia's Statewide Sexual Harassment Prevention Policy;

2.7.2. Contractor has provided sexual harassment prevention training in the last year to such employees and subcontractors and will continue to do so on an annual basis; or Contractor will ensure that such employees and Subcontractors complete the Georgia Department of Administrative Services' sexual harassment prevention training located at the following link:

https://www.youtube.com/embed/NjVt0DDnc2s?rel=0

Prior to accessing State premises and prior to interacting with State employees; and on an annual basis thereafter; and

Upon request of the Authorized User, Contractor will provide documentation substantiating such employees and subcontractors' acknowledgment of the State of Georgia's Statewide Sexual Harassment Prevention Policy and annual completion of sexual harassment prevention training.

2.8. Variances. If Contractor observes that the construction documents are at variance with any laws, ordinances, rules, regulations, or codes stated above, it shall promptly give Notice to Authorized User. If Contractor performs any work contrary to such laws, ordinances, rules, regulations, or codes without providing such prior notice to Authorized User, it shall bear all costs arising therefrom. No variances from the Contract are allowed except to the extent that the said variances are necessary to comply with the above-stated codes. If any express requirements of the Contract are at variance with the above-stated codes, a change order shall be executed to bring the Contract into compliance with the above-stated codes.

2.9. Notice. Any notice or other material communication required or permitted under this Contract shall be in writing, dated, and signed by an officer or duly authorized representative of the party making same. Unless otherwise required by the provisions of this Contract, notice may be sent via electronic mail, fax, U.S. Mail, or hand delivered. All members of the Project Team shall be copied on any notice. The persons and addresses to which notices should be given may be changed by notice given in accordance with this section. Such notice shall be effective as of the date on which it is received or would have been received but for the refusal of the addressee to accept delivery.

2.10. Order of Precedence of Contract and Changes. In the event of conflict among the Contract documents, a change order shall control over any previous change order; and a change order shall control over the general requirements, which shall control over this Contract, which shall control over the general requirements, which shall control over the specifications.

2.11. Order of Precedence in Construction Documents. The following general principles shall govern the settlement of disputes that may arise over conflicts in the construction documents: (a) as between the drawings and specifications, the specifications shall govern; (b) as between figures given on drawings and the scaled measurements, the figures shall govern; and (c) as between large-scale drawings and small-scale drawings, the larger scale shall govern. Conflicts discovered shall be immediately reported to Authorized User.

3.Authorized Source of Supply

DOAS authorizes cooperative purchasing through Sourcewell so that state and local government entities hereafter referred to as Authorized Users may contract for indefinite quantity construction services using the pricing formulas in the Contractor's Bid.

Any such Order placed by an Authorized User for construction services under this agreement shall be bound by the terms and conditions set forth in the Contract Documents referenced above; provided, however;

3.1. Work Order Threshold. Contractor is not obligated to enter into an individual Order with any Authorized User for supplies or services less than $2,000.00. Contractor shall not enter into an individual Order with any Authorized User for supplies and services more than $1,000,000 without prior approval from DOAS;

3.1.1 Contractor shall not enter into a series of Orders with the same Authorized User within a thirty (30) day period for supplies and services that together total more than $2,000,000.00 without prior approval from DOAS.

3.2. Work Order Response. Contractor is required, as soon as practicable after award of the Work Order, to furnish in writing to the Authorized User the names of persons or entities (including those who are to furnish materials or equipment fabricated to a special design) proposed for each portion of the work, along with estimated values to be paid to each Subcontractor. The Authorized User will reply promptly to the Contractor in writing stating whether or not, after due investigation, Authorized User has reasonable objection to any such proposed person or entity. Failure of the Authorized User to reply promptly shall constitute notice of no reasonable objection.

3.1.2. The Contractor shall not contract with a proposed person or entity to whom the Authorized User has made reasonable and timely objection.

3.1.3. If the Authorized User has reasonable objection to a person or entity proposed by the Contractor, the Contractor shall propose another to whom the Authorized User has no reasonable objection.

3.3. Work Order. The Authorized User may issue a Work Order based upon the needs and scope of their particular construction service requirements referencing SWC_____. Any specific requirements would be attached to the Order as "Special Conditions." All orders under this Contract are to be made out to and processed by the Authorized User and should contain the following:

(i) Mandatory Language "Work Order is subject to the Indefinite Quantity Construction SWC No.:";
(ii) Agency Name, Address, Contact, & Phone-Number and;
(iii) Reference to the state contract number and contractor's name. "**99999-SPD-00000 - Contractor's Name**"
(iv) Completed Project Charter for Services

3.4. Fund Obligation. This Participation Agreement authorizes the Contractor to enter into Orders with Authorized Users hereunder. Each Order that the Contractor executes with Authorized Users is a separate obligation between the Contractor and the Authorized User. DOAS shall not be responsible for the payment of any Orders executed by the Authorized User.

3.5. Reporting. Contractor shall submit the following management reports to the DOAS identified contract administrator. All reports shall be provided by the Contractor in electronic format. All electronic reports must be submitted in Microsoft Excel or Microsoft Access format. Reports should include the ability to sort/summarize by account.

3.5.1. Contractor shall submit a monthly contract status report to DOAS' contract administrator by the fifteenth (15th) calendar day of the following month. Topics to be covered in this report would include, but are not limited to, problems or questions that required more than five working days to resolve, product changes, anticipated problems, small and minority business utilization,

3.5.2. Contractor shall supply a Progress Report to Authorized User by the end of the first week of each month, a minimum of one week prior to the monthly Progress Meeting. The Progress Report shall include the following:

1. Project/management summary
2. Work performed during the reporting period
3. Milestones met and/or achieved
4. Progress against the schedule (any changes is to be identified together with remedial action)
5. Dependencies
6. Problems experienced
7. Activities planned for the next period
8. Risk log status
9. Action log status
10. Assumption log status.

The format of the progress report shall be agreed upon with the Authorized User during the initial Scope Meeting. In addition, the same level of reporting (but by entity) shall be provided to DOAS during the Business Review meetings. Reporting may include, but not limited to, open single and multiple projects.

3.5.3. Upon Request, the Contractor shall provide, evidence of the Contractor's good faith efforts to utilize local, small and minority businesses.

3.6 Construction Task Catalog Updates. On the anniversary of the Sourcewell solicitation, a new Construction Task Catalog will be furnished. The new Construction Task Catalog will be effective for the twelve (12) month period after the anniversary of the Sourcewell award date. The Construction Task Catalogs that accompany each anniversary shall only apply to Work Orders issued after the effective date of that specific renewal option and shall have no impact on Work Orders issued prior to the effective date of that specific renewal option.

3.7. Quarterly Business Review Meetings. Contractor must participate in quarterly business review ("QBR") meetings at DOAS' request. During the QBR meetings, the Contractor will present a written and oral status to DOAS regarding all work orders/purchase orders (including date and value). The QBR meeting will also focus on the status of service level agreements and key performance indicators agreed to by the Contractor and DOAS. The QBR meeting may involve, but not be limited to, the following: review of the Contractor's performance and submitted reports, identification of areas of improvement to be addressed, review of the previous quarter's sales statistics, development/monitoring of a Contractor service "scorecard."

4. Bonds. Upon execution of the Contract, Contractor shall furnish requested bonds (a performance bond and/or a payment bond), with a penal sum equal to at least the Contract Sum. Surety companies must be acceptable to Authorized User. All bonds at the time of issuance must be issued by a company authorized by the Insurance Commissioner to transact the business of suretyship in the State of Georgia.

5. Indemnification Obligation. Contractor shall indemnify, defend, and hold harmless Authorized User, the State of Georgia and its departments, agencies and instrumentalities, and all of their respective officers, members, employees, and directors (hereinafter collectively referred to as the "Indemnitees") from and against any and all claims, suits, judgments, liability, demands, losses, costs, or expenses, including reasonable attorneys' fees and other costs of litigation including expert witnesses, arising out of bodily injury (including death), personal injury, and property damage arising out of or resulting from the performance of this Contract or any act or omission on the part of Contractor, its Subcontractors, its agents, employees, or others working at the direction of Contractor or on its behalf, or due to any breach of this Contract by Contractor, or due to the application or violation of any applicable Federal, State or local law, rule, or regulation. The indemnification obligation set forth in this section extends to the successors and assigns of Contractor and will survive the termination of the Contract or Contractor's performance hereunder and the dissolution or, to the extent allowed by law, the bankruptcy of Contractor.

This indemnification obligation does not extend beyond the scope of the any Project, this Contract, and the work or obligations undertaken thereunder. Nor does this indemnification extend to claims for losses or injuries or damages incurred due to the sole negligence of the Indemnitees.

6. Time

6.1. Duty to Commence and Complete Work. Contractor shall commence physical work at the project site within ten (10) days of the issuance of the Proceed Order but shall not commence any physical work on the site until a Proceed Order is issued. Contractor shall achieve Material Completion of the Project not later than the Material Completion Date.

6.2. Time is of the Essence. Time is of the essence of this Contract and all obligations hereunder. Time being of the essence, it is mutually agreed that Owner will suffer damages if Contractor does not achieve Material Completion by the Material Completion Date and Contractor shall therefore compensate Authorized User for the delay as provided in Section 5.3. Contractor has carefully examined and analyzed the Site, the Contract, Construction Documents, and all known factors related to its ability to achieve Material Completion by the Material Completion Date. Contractor agrees that the stipulated Contract Time is fair and reasonable.

6.3. Liquidated Damages for Delay. The parties may agree to an amount to paid as Liquidated Damages if Contractor fails to achieve Material Completion by the Material Completion Date. If the parties agree to Liquidated damages, such Liquidated Damages shall be stated in the Work Order and the Project Charter. The specified liquidated damages are not a penalty but are agreed to in advance because of the difficulty of determining and proving the amount of delay damages incurred by the Authorized User as a result of the delay. Liquidated Damages shall be charged beginning upon the day following the contractually required Material Completion Date and ending on the date that the Certificate of Material Completion is issued. Liquidated Damages shall be deducted from payments due to Contractor as they accrue and such deduction shall be in addition to the retainage provided for in the Contract. If the parties do not agree to a sum for Liquidated Damages, the Authorized User shall be entitled to recover its actual damages if Contractor fails to reach Material Completion by the Material Completion Day.

7. Contract Suspension and Termination

7.1. Termination. The termination of this Contract does not in and of itself terminate any Order(s) executed pursuant to the authorization of this Contract; provided, however, termination of the Contract may be considered by any Authorized User in its determination whether to terminate its individual Order with the Contractor.

7.2. State Right to Terminate Work Order Without Cause. The state may terminate the contract at any time, without cause, upon giving Contractor 60 days' Notice. In the event the state elects to terminate the Contract the state shall pay Contractor, in accordance with the terms of the Contract for all work executed prior to termination, up to the unpaid balance of the Contract Sum.

7.3. Authorized User's Right to Terminate Work Order for Cause. Authorized Users may terminate the Work Order if Contractor is in breach of a Notice of Non-Compliant Work; if Contractor makes a general assignment for the benefit of its creditors or if a receiver is appointed on account of its insolvency; if Contractor persistently disregards laws, ordinances, rules, regulations, or orders of any public authority having jurisdiction over the project; if Contractor abandons the project for a period of seven (7) or more days; if Contractor is otherwise guilty of a substantial violation of any provision of the Work Order or for any reason that would permit Authorized Users to terminate the Work Order under applicable law. Authorized Users may terminate the Work Order or these causes, without prejudice to any other right or remedy under

this Contract, at equity, or in law, upon giving Contractor fifteen (15) days' Notice of Authorized User's intent to terminate for cause.

7.4. Authorized User's Right to Retain Work Upon Termination for Cause. Upon termination for cause, Authorized Users shall have the right to take possession of the work, together with all materials, equipment, tools, and improvements thereon and to finish the work by whatever reasonable method Authorized Users may deem expedient.

7.5. Payment Due Upon Termination for Cause. Upon termination for cause, Contractor shall not be entitled to receive any further payment until the work is completed. Upon completion, Authorized Users shall pay the positive excess of (i) the unpaid balance of the Contract Sum over (ii) Authorized User's cost of completion of the work, plus any damages incurred by Authorized Users due to such termination or the basis for such termination, including but not limited to liquidated damages for delays in completion.

8. Construction Phase Requirements

8.1. Review of Construction Documents. Prior to commencing the work, Contractor shall review all construction documents for any inconsistency, ambiguity, error, or omission. When potential design issues are identified, Contractor shall annotate the construction documents and shall issue an explanation in writing to the Authorized User. The Authorized User shall furnish complete, definite, and clear instructions in response to the request in writing, or by issuing drawings, or both. In the event instructions are given orally for expediency, they shall be confirmed in writing or by drawings within five (5) days following the oral instructions. Any such additional instructions shall be consistent with the Construction Documents and reasonably inferable therefrom. Contractor shall not proceed with the affected work until receiving a response from the Authorized User.

8.2. Progress Reports. During the construction phase, Contractor shall monitor the progress of the work for conformance with the overall project schedule and keep the Authorized User informed of such progress and shall maintain records documenting the progress of the work. Contractor shall submit progress reports at intervals reasonably determined by the Authorized User. Progress reports shall document the progression of the work and shall include information on the percentage of completion and indicate completed activities and any changes in sequencing or activity durations, including approved change orders. Progress reports also note dates by which non-compliant work shall have been cured and note the actual date of cure of the non-compliant work.

8.3. Supervision of Work. Contractor shall supervise and direct the work using diligent skill and attention in order to ensure satisfactory progress of the work and that the quality of the work complies with the Contract. Contractor shall be responsible for and shall coordinate all construction means, methods, techniques, sequences, and procedures. Contractor is fully responsible to Authorized User for the acts and omissions of its officers, employees, agents, all Subcontractors and their respective officers, employees and agents, and all other persons on the site at the direction of Contractor or to perform work. Non-performance, improper performance, or other default by any Subcontractor or employee or agent of Contractor shall not excuse Contractor from its obligation to assure timely performance of the work in compliance with the Contract.

8.4. Safety. The Contractor is responsible for the safety of the site and the work. The Contractor shall comply with the rules and regulations of OSHA and/or the Department of Labor (O.C.G.A. § 34-2-6), and, where not inconsistent with the foregoing, the "Manual of Accident Prevention in Construction" issued by the Associated General Contractors of America, Inc., for safety and prevention of accidents. Contractor shall properly maintain at all times, as required by the conditions and progress of the work, proper safeguards for the protection of workmen and the public and shall post danger warnings against any hazards created thereby.

8.5. Project Charter Compliance. The Project Charter herein must be used to officially start and complete all state projects. It formally authorizes the existence of the project and provides a reference source. The charter gives a direction and a sense of purpose to the project management from start to end. To show consensus, ensure the project remains on schedule, and issues are addressed timely all parties must sign Project Charter document prior to the start and at completion of ANY state entity project.

9. Warranties, Inspections and Correction Work

9.1. Construction Warranty. All work shall be free from defects and conform to the requirements of the Contract. Unless otherwise specified, all materials shall be new, and both workmanship and materials shall be of good quality. Contractor shall, if required, furnish satisfactory evidence as to the kind and quality of materials and Work. Such warranties are referred to herein as the Construction Warranty. In addition to the Construction Warranty, Contractor shall provide all additional warranties called for in the construction documents. These warranties shall be in such form as to permit direct enforcement by the Authorized User against any Subcontractor or third party whose guaranty or warranty is called for. The calling for or the furnishing of written warranties or bonds shall in no way limit the Construction Warranty and the contractual obligations of Contractor hereunder.

9.2. Inspection of the Work. Both Contractor and Authorized User have separate duties to inspect the work. Inspection of the work by the Authorized User or any third party shall not diminish, relieve, or alter the responsibility of Contractor to ensure that all work complies with the Contract. The failure of Authorized User or other third-parties to discover or notify Contractor of the existence of non-compliant work shall not relieve Contractor of its responsibility to ensure that all work complies with the Contract, and neither the Certificate of Material Completion or Certificate of Final Completion nor payment shall relieve Contractor of responsibility to ensure that all work complies with the Contract.

9.3. Contractor's Inspection of the Work. Contractor has an indivisible, non-delegable, and nontransferable contractual obligation to Authorized User to make inspections of the work at all stages to confirm at all times that all work has been executed strictly in accordance with the Contract. Contractor shall not rely on an inspection by the Authorized User or any other third party to identify non-compliant work.

9.4. Notice of Non-Compliant Work. The Authorized User may issue a Notice of Non-Complaint work if it observes non-compliant work, including failure to maintain the overall project schedule. The Notice of Non-Compliant Work shall be in writing, dated, and addressed to Contractor with a copy to the Authorized User, as applicable. The Notice of Non-Compliant Work shall include a description of the non-compliant work, a citation to the provision of the Contract (or incorporated document or standard) that has been violated, and a reasonable period to correct the non-compliant work ("Cure Period"). If Contractor is unsure or unaware of any information necessary to correct the non-compliant work, it shall immediately request such information in writing. In the event that the Authorized User incurs increased costs due to re-inspection of work that was found to be non-compliant, Contractor shall be liable for the costs of the re-inspection, including but not limited to the salary, professional fees, and travel expenses of the Authorized User or inspection firm.

9.5. Duty to Promptly Correct Work. Contractor shall promptly correct any non-compliant work within the Cure Period stated in the Notice of Non-Compliant Work. The duty to correct the work shall apply whether the non-compliant work is discovered before or after Material Completion. Contractor shall bear the costs of correcting such non-compliant work, including, without limitation, additional testing and inspections and shall bear the expense of restoring all work of separate contractors affected or destroyed by such removal or replacement. Contractor shall give prompt

notice upon completion of the correction of the non-compliant work. In the absence of such notice, it shall be and is presumed under this Contract that there has been no correction of the non-compliant work.

9.5.1. Notice of Non-Compliant Work for Failure to Maintain Schedule. If the Authorized User issues a Notice of Non-Compliant Work for failure to maintain the Overall Project Schedule, Contractor shall deliver to the Authorized User a written plan explaining how Contractor intends to bring the project back in compliance with the overall project schedule within seven (7) days of the issuance of the Notice of Non-Compliant Work. Contractor's plan must provide sufficient detail to allow the Authorized User to determine the proposal's feasibility.

9.5.2. Authorized User's Option to Accept Non-Compliant Work. If the Contractor and the Authorized User deem it inexpedient to correct Non-Compliant Work, Authorized User may agree, in writing, to accept the Non-Compliant Work and make an equitable deduction from the Contract Sum which shall be deducted from Contractor's next payment.

9.5.3. Authorized User's Remedies for Breach of Notice of Non-Compliant Work or Failure to Prosecute the Work. If Contractor does not correct the Non-Compliant Work within the Cure Period stated in the Notice of Non-Compliant Work, Contractor shall be deemed to have breached the Notice of Non-Compliant Work. If Contractor breaches a Notice of Non-Compliant Work or fails to prosecute the Work in accordance with the Contract, Authorized User may, after giving five (5) days' Notice to Contractor, correct the Non-Compliant Work, prosecute the work, or supplement the labor of Contractor or its Subcontractors and deduct the costs thereof from any payment then or thereafter due to Contractor and recover any resulting deficit from Contractor. The remedies stated in this section are in addition to the remedies otherwise available to Authorized User and are without prejudice to any other remedies.

10. Change Orders

10.1. Change Orders. The Authorized User may order changes in the work consisting of additions, deletions, or modifications to the work, with the Contract Sum and the Contract Time being adjusted accordingly. All such changes in the work shall be authorized only by written change order signed by the Authorized User. Without a change order executed by the Authorized User, Contractor shall not make any changes in the work or perform any work that is not a part of the Order, nor shall Contractor receive any compensation or make any claim therefor.

10.2. Change Order Sum. The change order sum may be determined in one or more of the following ways: 1) by an estimate of allowable change order costs agreed upon in advance and paid as a lump sum ("Lump Sum Change Order"), 2) by unit prices named in the Contract or subsequently agreed upon, which unit prices shall include all Contractor overhead, profit, and markup ("Unit Price Change Order"), or 3) by the amount of actual allowable change order costs incurred in the performance of the change order work ("Force Account Change Order").

10.3. Change Order Proposals. Any change order shall contain a description of change order work provided by the Authorized User. Contractor shall promptly respond to the proposed change order with an estimate of the allowable costs of the change order work and the impact to the project schedule. The response shall include an itemized breakdown of allowable change order costs and a justification to the change in the project schedule. The Contractor's justification is provided so that the Contractor, and the Authorized User can determine whether the proposed change in Contract Time or Contract Sum is reasonable and in compliance with the terms of the Contract.

10.3.1. Disagreement as to Change in Contract Sum. In no event shall any increase in the contract sum for such change order work exceed the increase identified in Contractor's response.

10.4. Acceptance of Proposed Change Order. If the Authorized User agrees with Contractor's proposed changes to the contract time and contract sum, then the Authorize User shall execute the Change Order. Upon the Authorized User's execution, the Change Order shall be binding and of full force and effect. All change orders shall be performed under the conditions of the original Contract except as specifically modified by the change order. The change in contract time and contract sum (if any) provided by the change order constitutes compensation in full to Contractor for the change order work and accounts for all delays and impacts related thereto.

11. Project Close Out

11.1. Inspections for Material Completion. Contractor shall request an Inspection for Material Completion when it has completed all work, except for minor Items and permitted incomplete work and submitted all required documents, including final documents.

11.2. Cleaning Prior to Material Completion. Prior to the inspection for Material Completion, Contractor shall remove from the site all waste and perform a thorough cleaning of the Work. Contractor shall dust all hard surfaces, mop all hard floors, vacuum all carpet, remove any stains and paint spots, clean and polish all plumbing fixtures and equipment, clean all electrical and mechanical equipment, and clean all ductwork and filters if dirty. Contractor shall also restore any existing facilities such as roads, landscaping, pavement, fencing, curbing, and the like at the site to at least their pre-construction conditions. Contractor may leave equipment at the site as necessary to achieve Final Completion of the Project. To achieve Material Completion, Contractor shall have fully cleaned the site.

11.3. Notice of Readiness for Inspection for Material Completion. When Contractor determines that the Project is ready for Inspection for Material Completion, Contractor shall give Notice to the Authorized User requesting Inspection for Material Completion. Such notice shall be provided at least seven (7) days in advance of the date requested for Inspection for Material Completion. Such Notice shall include a copy of the Initial Punchlist. If Contractor requests inspection for Material Completion and it is determined by the Authorized User that the Project has not reached Material Completion, referred to as a "false start," then Contractor shall be liable for the costs and damages resulting therefrom.

11.4. Inspection, Certificate of Material Completion. The Authorized User shall conduct the Inspection for Material Completion and shall confirm the Final Punchlist by adding or deleting minor items or permitted incomplete work as appropriate. Upon completion of the Inspection for Material Completion, if the Authorized User determines the work has reached material completion, the Authorized User shall execute the Certificate of Material Completion and attach a first draft of a Final Punchlist, which may be handwritten or in electronic format and which shall list all minor items and permitted incomplete work and assign amounts to be withheld from the Payment for Material Completion on account of each minor item and permitted incomplete work. The Final Punchlist shall include completion dates for the permitted incomplete work. All minor items shall be completed within thirty (30) days of material completion.

11.5. Payment for Material Completion. Upon material completion, Contractor shall submit a Payment Application along with a Payment Affidavit certifying completion of all work in accordance with the contract, except for minor items and permitted incomplete work, and releasing all claims against the Authorized User of any nature arising out of the project except any claims noted on the Payment Affidavit. If Contractor fails to provide a Payment Affidavit, Payment for material completion shall operate as settlement, waiver, release, discharge, and

payment in full of all claims (including Claims) against Authorized User of any nature arising out of the project except for the work associated with the minor items and the permitted incomplete work.

11.6. Material Completion. A determination that Contractor has achieved material completion, the issuance of a Certificate of Material Completion, or Authorized User's Payment for Material Completion shall not preclude or diminish Authorize User's rights or remedies for non-compliant work discovered after such events. All such rights and remedies set forth herein shall continue after such events.

11.7. Final Completion, Payment. Final completion is the completion of all work. When Contractor has completed all work, it shall request an inspection for final completion. The Authorized User shall inspect all work and if it determines that all work it complete, it shall execute the Certificate of Final Completion. Upon final completion, Contractor shall submit a Payment Application requesting the remainder of the contract sum. Acceptance of payment for final completion by Contractor shall operate as settlement, waiver, release, discharge and payment in full of all claims against the Authorized User of any nature arising out of the project.

11.8. Final Completion. A determination that Contractor has achieved Final Completion, the issuance of a Certificate of Final Completion, or Authorized User's Payment for Final Completion shall not preclude or diminish Authorized User's rights or remedies for non-compliant work discovered after such events. All such rights and remedies set forth herein shall continue after such events.

12. Payment

12.1. Schedule of Values. Prior to the issuance of the proceed order, Contractor shall submit a Schedule of Values of the work to assist the Authorized User in reviewing Payment Applications. The Schedule of Values shall allocate the contract sum to the portions of the work in such detail as Authorized User require. If requested, Contractor shall provide evidence of the accuracy of the Schedule of Values. Unless objected to the Authorized User, the Schedule of Values shall be used to determine the payment due for completion of each portion of the work.

12.2. Payment Applications. Contractor shall submit a Payment Application to the Authorized User by the fifth (5th) day of each month for the work performed during the previous month on the form supplied by the Authorized User. The Payment Application shall itemize the total sum billed in the same format as the Schedule of Values and shall include the percentage complete for each item of work. Contractor shall submit no more than one (1) Payment Application during each month. No payment shall become due to Contractor until a proper Payment Application is submitted.

12.3. Representations of Contractor. The Payment Application constitutes a representation by Contractor to the Authorized User that (i) the quality of the work covered by the application is in accordance with the Contract; (ii) Contractor is entitled to payment in the amount requested; (iii) all work covered by any previously approved Payment Application, for which Contractor has been paid, is free and clear of liens, claims, security interests or encumbrances, and (iv) title to all work covered by the Payment Application will pass to Authorized User no later than the time of payment.

12.4. Payment. The Authorized User shall make payment for all work completed in the previous month, based upon the Schedule of Values and Contractor's estimate of percentage complete, less the retainage and subject to Authorized User's right to withhold amounts and Authorized User's right to adjust for overpayments. Authorized User shall make payment to Contractor no later than thirty (30) days after receipt of a properly completed Payment Application.

12.5. Disputed Payments. The Authorized User and Contractor agree to use their best efforts to resolve all disputes concerning the Payment Application during the said thirty (30) day payment period. If Authorized User disputes a portion of the Payment Application, Authorized User shall make payment of all undisputed amounts within the thirty (30) day payment period. If payment disputes continue, DOAS shall be notified for further action.

12.6. Payments Withheld. Authorized Users may withhold payment, or nullify the whole or part of any previous Payment Application, to such extent necessary to protect Authorized Users from loss on account of any one or more of the following: (i) Non-Compliant Work; (ii) failure of Contractor to make payments due to Subcontractors; (iii) reasonable evidence that the Contract cannot be completed for the unpaid contract sum; (iv) damage to a separate contractor or to any other third party, or reasonable evidence that third parties may file claims against Authorized User due to acts or omissions of Contractor; (v) failure to maintain the overall project schedule, or (vi) requests for or prior payment of costs that are not required to be reimbursed hereunder. When the grounds for withholding payment are remedied (if applicable), payment shall be made for amounts withheld because of them. In the case of withholding payment for failure to pay Subcontractors, Authorized User may agree to payment upon receipt of a satisfactory Consent of Surety.

12.7. Payment of Subcontractors. Contractor shall pay Subcontractors the amount due for Subcontractor's work, less applicable retainage, within seven (7) days of receipt of payment from Authorized User for such work unless the contract between Contractor and Subcontractor provides that no such payment is due (e.g. without limitation, as a result of non-performance under the Subcontract). The Authorized User has the right to request evidence from the Contractor that the Contractor has properly paid all Subcontractors. If the Contractor fails to provide such information within seven (7) days of Authorized User request, Authorized User shall have the right to contact Subcontractors to determine if they have been paid. Authorized User shall have no obligation to pay or see to the payment of money to a Subcontractor.

12.8. Milestone Payments. Authorize User shall have the option to make milestone payments in which the Authorized User shall make payments to the Contractor in accordance with an agreed upon Milestone Payment Plan for Work Orders subject to satisfactory completion of the milestone events detailed in the Project Charter.

12.9. Retainage. Until the payment for Material Completion, Authorized User may withhold retainage in the amount of ten percent (10%) from each Payment Application.

12.10. Freezing Retainage. After one-half (1/2) of the Contract sum has been paid, upon submission of the next Payment Application following the payment of one-half of the contract sum, if the work is on or ahead of schedule according to the overall project schedule and there are no unresolved breaches of non-compliant work, Contractor may request that the Authorized User stop the collection of retainage. Upon Authorized User approval, the previously withheld retainage will be converted to a lump sum to be held by Authorized User until Material Completion and Authorized User will collect no additional retainage unless retainage is reinstated. Authorized User will reinstate collection of retainage if the work is five percent (5%) or more behind schedule according to the overall project schedule or if Contractor breaches a Notice of Non-Compliant Work. Authorized User will continue the collection of retainage under this section until the breach is cured or the time is recovered and the project is on or ahead of schedule.

12.12. Retainage Release. When Material Completion is achieved, retainage shall be paid to the Contractor with the payment for Material Completion.

12.13. Contractor Administrative Fee Compliance. For this statewide contract, DOAS requires each Contractor to pay to DOAS an administrative fee on all sales pursuant to the resulting

contract. The administrative fee amount for this statewide contract is 1%. Contractors currently holding one or more Participating Agreements are required to be compliant with the terms and conditions of their current agreement(s) with the State. This includes every quarterly reporting and administrative fee submission requirements. DOAS will not award the resulting Contract to a Contractor, who has failed to meet its current Contract obligations.

13. Dispute Resolution

13.1. Dispute Resolution. (a) Initially, all disputes shall be resolved at the agency level. The Authorized User and the Contractor shall resolve disputes regarding issues with the work; to include, technical and design issues, and material changes to Specifications. (b) If the dispute cannot be resolved at the agency level within five (5) calendar days after recognition, either Party shall notify DOAS in writing of the dispute, and DOAS will instructed on further actions.

14. DOAS Annual Outreach and Marketing Opportunities

14.1. Participation in DOAS State Purchasing's Annual Georgia Procurement Conference (GPC). DOAS hosts an annual marketing and training trade conference, usually in late April or early May, to educate public procurement professionals on the commodities and services available on Participating Agreements, offer them educational platforms to learn new techniques and best practices from state and national industry experts and provide marketing, networking and training opportunities to Participating Contractors.

The attendees at these events have included public procurement professionals from all state agencies, the colleges and universities of the Board of Regents and the Technical College System of Georgia, local cities and municipalities across the state, and many independent authorities. The Exhibitor Expo, which is one of the highlights of the conference, has significant marketing value and is extremely cost effective as it provides exceptional opportunities for Contractors to market directly to thousands of attendees.

The Georgia Procurement Conference is scheduled each year at the Jekyll Island Convention Center and is primarily supported by statewide Contractors as exhibitors. The cost to exhibit in the past has ranged from $1,300 to $1,600 depending on booth location desired. DOAS believes that the Expo is important because it provides public purchasers with an opportunity to meet over 300 Contractors and receive important information on new and existing products and services. It provides Contractors with training workshops and the unparalleled opportunity to establish and renew business relationships with existing customers and to market their business to approximately 800 attendees, many of whom represent potential new customers. Please note that exhibiting at the Georgia Procurement Conference is not required.

14.2. Contract Outreach. Contractor is required, at a minimum, to participate in outreach efforts to raise awareness of potential subcontracting opportunities resulting from work ordered by Authorized Users. The Contractor is strongly encouraged to formally advertise subcontractor opportunities resulting from an Order placed by Authorized Users in publications or communication media regardless of the amount of the Order.

15. State Entities' Right to Seek Competitive Bids

15.1. Authorized Users Seeking Other Bid Opportunities. Notwithstanding anything in the Invitation for Bids issued by Sourcewell or Contractor's Bid, Authorized Users shall, at all times prior to signing a contract for work, have the right to reject any offer or proposed engagement from Contractor and seek competitive bids through the normal competitive bidding process.

16. Successors and Assigns

16.1. This Participation Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the parties hereto.

17. Entire Agreement

17.1. This Participation Agreement shall be and remain in full force and effect in accordance with its terms and shall constitute the legal, valid, binding and enforceable obligations to the parties. This Participation Agreement (including any written amendments thereto), collectively, are the complete agreement of the parties and supersede any prior agreements or representations, whether oral or written, with respect thereto.

IN WITNESS WHEREOF, the parties hereto have executed this Participation Agreement on the day and year first above written;

Mr. Shawn Mitchell
Budget and Procurement Manager
City of Alpharetta – Finance Department

Re: Proposal to Provide Construction Management Services for City of Alpharetta - Wills Park Maintenance Building
Job Order Number: 103973.00
Job Cost: $649,296.72

Dear Shawn:

The Gordian Group, Inc. ("Gordian") greatly appreciates the opportunity to present our ezIQC services to the City of Alpharetta (the "City"). We are confident that this has been a mutually beneficial relationship and the City will continue to receive substantial time and cost savings through the efficiencies created by the ezIQC process. As requested, we are providing this proposal for ezIQC Construction Management services for the above referenced Project, as described below.

ezIQC® Construction Management

Through ezIQC, and its membership in Sourcewell, the City is able to obtain construction management services to receive additional assistance getting projects completed. Whether due to peak volumes, staff shortages, or new strategic staff directives, our construction management services can provide on-site experts, using our proven methods, to carry out day-to-day Work Order operations and get the work done quickly and cost-effectively. When combined with ezIQC, the City will obtain complete "cradle-to-grave" support for each project assigned to Gordian. A detailed list of Gordian's standard construction management services are as follows:

- **Preconstruction** – First, a Gordian construction manager will conduct a pre-construction meeting with City representative(s), the ezIQC contractor and, if applicable, the architect or engineer. The construction manager will coordinate and share any preconstruction information with the City, the ezIQC contractor and other appropriate parties, and will assist in the coordination of the ezIQC contractor obtaining the necessary permits.
- **Site Visit** – During construction, the Gordian construction manager will monitor the ezIQC contractor's work in-progress, manage the ezIQC contractor's compliance with the approved safety plan and complete a report for each site visit.
- **Communicate** – The Gordian construction manager will provide weekly construction status reports to the City, conduct project progress meetings with all ezIQC contractors and staff on a periodic basis, and coordinate any required technical and code inspections.
- **Supplemental Work Orders** – In the event there are unforeseen conditions or the City requests changes to the scope after the work has begun, the Gordian construction manager will analyze and process a supplemental Work Order by utilizing the procedures used to develop the initial Work Order.
- **Approvals** – The Gordian construction manager will review, or direct necessary revisions to, the ezIQC contractor's applications for payment and obtain the City's approval of the work. Final acceptance of the work will be the responsibility of the City. Technical and code inspections will be the responsibility of the appropriate inspection agencies.
- **Project Close-out** – As the final step in the process, the Gordian construction manager will enter all Work Order related information into the eGordian® information management system and collect any required as-builts, warranties, etc., from the ezIQC contractor.

Construction Management Fee

Gordian's Standard Fee to provide the construction management services described above consists of a Construction Management Fee of Five and Ninety-Five Hundredths Percent (5.95%) of the value of the project for which the services are provided. This equates to an estimated cost of $38,633.15.

The Standard Fee for construction management service shall be payable upon completion and acceptance of the work by the City, except at Gordian's election Job Orders requiring more than 60 days to complete may be invoiced monthly on a percentage of completion basis.

.

Procurement

In order to procure these services, the City may execute the acknowledgment section of this letter, and simply issue a Purchase Order incorporating this letter and any additional terms required by the City.

Gordian appreciates the opportunity to present our construction management services to the City of Alpharetta. Please contact Justin Olson j.olson@gordian.com if you have any questions about this proposal or if you would like to discuss it in more detail.

Sincerely,

Justin M. Olson
